Review report on condensed consolidated interim financial information to the board of directors of Oman Insurance Company P.S.C.

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Oman Insurance Company P.S.C. (the "Company") and its subsidiaries (together referred to as the "Group") as at 30 June 2020 and the related condensed consolidated interim income statement and condensed consolidated interim statement of comprehensive income for the three-month and six-month periods then ended, and condensed consolidated interim statements of changes in equity and cash flows for the six-month period then ended, and other explanatory notes. Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 – 'Interim Financial Reporting' ("IAS 34"). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

PricewaterhouseCoopers 22 July 2020

Douglas O'Mahony

Registered Auditor Number 834 Dubai, United Arab Emirates

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020

1. General information

Oman Insurance Company P.S.C., (the "Company") is a public shareholding company, which was established by an Amiri Decree issued by His Highness, The Ruler of Dubai. The Company is registered under the UAE Federal Law No. (2) of 2015, as amended, relating to commercial companies. The Company is subject to the regulations of the U.A.E. Federal Law No. 6 of 2007 on Establishment of Insurance Authority and Organization of its Operations and is registered in the Insurance Companies Register of Insurance Authority of the U.A.E. under registration number 9. The Company is a subsidiary of Mashreq Bank (PSC) which is incorporated in the Emirate of Dubai. The Company's registered head office is at P.O. Box 5209, Dubai, United Arab Emirates. The Group comprises Oman Insurance Company P.S.C. and its subsidiaries (refer note 3.3). The Company's ordinary shares are listed on the Dubai Financial Market, United Arab Emirates.

The licensed activities of the Company are issuing short term and long-term insurance contracts and trading in securities. The insurance contracts are issued in connection with property, engineering, energy, motor, aviation and marine risks (collectively known as general insurance) and individual life (participating and non-participating), group life, personal accident, medical and investment linked products. The Company also operates in Sultanate of Oman, State of Qatar, Kingdom of Bahrain and Republic of Turkey.

2. Application of new and revised International Financial Reporting Standards ("IFRS")

2.1 New and revised IFRSs and interpretations applied on the condensed consolidated interim financial information

The following new and revised IFRSs, which became effective for annual periods beginning on or after 1 January 2020, have been adopted in this condensed consolidated interim financial information. The application of these revised IFRSs, except where stated, has not had any material impact on the amounts reported for the current and prior periods.

Amendments to IAS 1 and IAS 8 on the definition of material (Effective date 1 January 2020) - These amendments to IAS 1, 'Presentation of financial statements', and IAS 8, 'Accounting policies, changes in accounting estimates and errors', and consequential amendments to other IFRSs:

- use a consistent definition of materiality throughout IFRSs and the Conceptual Framework for Financial Reporting;
- > clarify the explanation of the definition of material; and
- incorporate some of the guidance in IAS 1 about immaterial information.

Amendments to IFRS 3, 'Business combinations' - Definition of a business (Effective date 1 January 2020) - This amendment revises the definition of a business. According to feedback received by the IASB, application of the current guidance is commonly thought to be too complex, and it results in too many transactions qualifying as business combinations.

Amendments to the conceptual framework (Effective date 1 January 2020) - The IASB has revised its Conceptual Framework. The revised Framework will be used in future standard-setting decisions, but no changes will be made to current IFRS. The key changes include:

- Increasing the prominence of stewardship in the objective of financial reporting, which is to provide information that is useful in making resource allocation decisions.
- Reinstating prudence, defined as the exercise of caution when making judgements under conditions of uncertainty, as a component of neutrality.
- Defining a reporting entity, which might be a legal entity or a portion of a legal entity.
- Revising the definition of an asset as a present economic resource controlled by the entity as a result of past events.
- Revising the definition of a liability as a present obligation of the entity to transfer an economic resource a result of past events.
- Removing the probability threshold for recognition and adding guidance on derecognition.
- Adding guidance on the information provided by different measurement bases and explaining factors to consider when selecting a measurement basis.
- Stating that profit or loss is the primary performance indicator and that, in principle, income and expenses in other comprehensive income should be recycled where the relevance or faithful representation of the financial statements would be enhanced.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

- 2 Application of new and revised International Financial reporting Standards ("IFRS") (continued)
- 2.1 New and revised IFRSs and interpretations applied on the condensed consolidated interim financial information (continued)

However, entities that rely on the Framework in determining their accounting policies for transactions, events or conditions that are not otherwise dealt with under the accounting standards will need to apply the revised Framework from 1 January 2020. These entities will need to consider whether their accounting policies are still appropriate under the revised Framework.

Amendment to IFRS 16, 'Leases' - Covid-19 related rent concessions (Effective date 1 June 2020)- As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. Such concessions might take a variety of forms, including payment holidays and deferral of lease payments. On 28 May 2020, the IASB published an amendment to IFRS 16 that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.

2.2 New and revised IFRS in issue but not yet effective and not early adopted

New and revised IFRS

Effective for annual periods beginning on or

ofter

Amendments to IAS 1, 'Presentation of financial statements' - Classification of liabilities as

1 January 2022

These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.

Amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16

1 January 2022

Amendments to IFRS 3, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.

Amendments to IAS 16, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.

Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 1, 'First-time Adoption of IFRS', IFRS 9, 'Financial instruments', IAS 41, 'Agriculture' and the Illustrative Examples accompanying IFRS 16, 'Leases'.

IFRS 17, 'Insurance contracts'

1 January 2023

On 18 May 2017, the IASB finished its long-standing project to develop an accounting standard on insurance contracts and published IFRS 17, 'Insurance Contracts'. IFRS 17 replaces IFRS 4, which currently permits a wide variety of practices. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.

The standard applies to annual periods beginning on or after 1 January 2023, with earlier application permitted if IFRS 15, 'Revenue from contracts with customers' and IFRS 9, 'Financial instruments' are also applied.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

- 2 Application of new and revised International Financial reporting Standards ("IFRS") (continued)
- 2.2 New and revised IFRS in issue but not yet effective and not early adopted (continued)

New and revised IFRS

Effective for annual periods beginning on or after

IFRS 17, 'Insurance contracts' (continued)

IFRS 17 requires a current measurement model, where estimates are remeasured in each reporting period. The measurement is based on the building blocks of discounted, probability-weighted cash flows, a risk adjustment and a contractual service margin ("CSM") representing the unearned profit of the contract. A simplified premium allocation approach is permitted for the liability for the remaining coverage if it provides a measurement that is not materially different from the general model or if the coverage period is one year or less. However, claims incurred will need to be measured based on the building blocks of discounted, risk-adjusted, probability weighted cash flows.

Amendments to IFRS 17, 'Insurance Contracts'

1 January 2023

The IASB issued the amendments to IFRS 17, 'Insurance contracts', on 25 June 2020, together with an amendment to IFRS 4, so that eligible insurers can still apply IFRS 9 alongside IFRS 17. This concluded the IASB's targeted amendments to IFRS 17 which aimed to ease implementation of the standard by reducing implementation costs and making it easier for entities to explain, to investors and others, the results from applying IFRS 17.

IFRS 17 should be applied to annual reporting periods beginning on or after 1 January 2023, with earlier application permitted, and the amendments should be applied at the same time.

Management expects that the adoption of IFRS 17 will have an impact on the amounts reported and disclosures made in this condensed consolidated interim financial information in respect of its insurance contracts issued and reinsurance contracts held. However, it is not practicable to provide a reasonable estimate of the effects of the application of this standard until the Group performs a detailed review. Management has completed the gap analysis in relation to this standard and is currently in the process of performing a detailed assessment of the impact of the above new standard on the Group's condensed consolidated interim financial information.

The Group is currently assessing the impact of these standards, interpretations and amendments on the future financial statements and intends to adopt these, if applicable, when they become effective.

There are no other relevant applicable new standards and amendments to published standards or IFRIC interpretations that have been issued but are not effective for the first time for the Group's financial year beginning on 1 January 2020 that would be expected to have a material impact on this condensed consolidated interim financial information.

3 Summary of significant accounting policies

3.1 Basis of preparation

This condensed consolidated interim financial information for the six month period ended 30 June 2020 has been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") issued by the International Accounting Standard Board ("IASB") and also complies with the applicable requirements of the laws in the U.A.E.

The condensed consolidated interim financial information is presented in Arab Emirates Dirham ("AED") and all values are rounded to nearest thousand ("AED'000") except when otherwise indicated.

This condensed consolidated interim financial information has been prepared on the historical cost basis, except for the revaluation of certain financial investments and investment properties.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

3 Summary of significant accounting policies (continued)

3.1 Basis of preparation (continued)

The Group's condensed consolidated interim financial information is not presented using a current / non-current classification. However, the following balances would generally be classified as current: cash and cash equivalents, prepayments and other receivables, insurance and reinsurance receivables, insurance and reinsurance payables and other payables. The following balances would generally be classified as non-current: property and equipment, intangible assets, investment properties, goodwill, deferred tax assets and statutory deposits. The following balances are of mixed nature (including both current and non-current portions): financial investments, deferred acquisition costs, deferred commission income, reinsurance contract assets, insurance contract liabilities, deposits with banks with original maturities of more than three months, employees' end of service benefits and reinsurance deposits retained.

This condensed consolidated interim financial information does not include all the information required for full annual consolidated financial statements and should be read in conjunction with the Group's audited annual consolidated financial statements as at and for the year ended 31 December 2019. In addition, results for the six month period ended 30 June 2020 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2020.

3.2 Significant accounting policies

The accounting policies, presentation and methods in this condensed consolidated interim financial information are consistent with those used in the annual audited consolidated financial statements for the year ended 31 December 2019.

As required by the Securities and Commodities Authority ("SCA") notification dated 12 October 2008, accounting policies relating to investment properties, property and equipment and financial assets have been disclosed in this condensed consolidated interim financial information (notes 3.4 to 3.6).

3.3 Basis of consolidation

The condensed consolidated interim financial information of Oman Insurance Company P.S.C. and its subsidiaries (the "Group") incorporate the financial information of the Company and the entities controlled by the Company (its subsidiaries).

Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current
 ability to direct the relevant activities at the time that decisions need to be made, including voting patterns
 at previous shareholders' meetings.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

3 Summary of significant accounting policies (continued)

3.3 Basis of consolidation (continued)

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the period are included in the condensed consolidated interim income statement and condensed consolidated interim statement of comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Name of subsidiary	Place of incorporation and operation	Proportion of legal ownership interest	Proportion of voting power held	Principal activity
Equator Insurance Agency L.L.C.*	Dubai - U.A.E.	99.97%	100%	Insurance agency.
Dubai Starr Sigorta A.Ş**	Istanbul – Turkey	51%	51%	Issuing short-term and long-term insurance contracts.
ITACO Bahrain Co W.L.L***	Manama – Kingdom of Bahrain	60%	60%	Brokerage and call center services.
Synergize Services FZ L.L.C****	Dubai - UAE.	100%	100%	Management information technology and transaction processing.

^{*} The Company holds the remaining equity in Equator Insurance Agency L.L.C, beneficially through nominee arrangements.

3.4 Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation including properties under construction for such purposes. Investment properties are measured initially at cost, including transaction costs. Cost includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the cost of day to day servicing of an investment property.

^{**}Dubai Starr Sigorta A.S was founded in 2012 and major lines of business include the underwriting of accident and health insurance.

^{***}ITACO Bahrain Co W.L.L was acquired by the Company on 16 September 2015.

^{****} Synergize Services FZ L.L.C was incorporated on 24 January 2014 in Dubai Outsource Zone, UAE and is engaged in the business of providing management information technology and transaction processing services.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

3 Summary of significant accounting policies (continued)

3.4 Investment properties (continued)

Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair values of investment properties are included in the profit or loss in the period in which they arise.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the condensed consolidated interim income statement in the period of retirement or disposal.

Transfer is made to or from investment property only when there is a change in use evidenced by the end of owner-occupation or commencement of an operating lease to another party. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of the change in use. Fair value is determined by open market values based on valuations performed by independent surveyors and consultants or broker's quotes.

The valuation techniques and inputs used in determining the fair value of investment property is consistent with those applied by the Group in its annual consolidated financial statements as at and for the year ended 31 December 2019.

3.5 Property and equipment

Furniture and equipment

Motor vehicles

Capital work in progress is carried at cost, less any recognised impairment loss. These assets are classified to the appropriate categories of property and equipment when completed and ready for their intended use. Depreciation of these assets, on the same basis as other property and equipment, commences when the assets are ready for their intended use.

Other property and equipment are stated at cost less accumulated depreciation and any identified accumulated impairment losses.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the condensed consolidated interim income statement during the financial period in which they are incurred.

Depreciation is recognised so as to write off the cost of assets, other than capital work in progress, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the condensed consolidated interim income statement.

The useful lives considered in the calculation of depreciation for the assets are as follows:

Years 3-5 5

13

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

3 Summary of significant accounting policies (continued)

3.6 Financial assets

- (a) Investments and other financial assets
- (i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI or through profit or loss); and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVTOCI). The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on the trade date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is calculated using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in 'Net investment income' together with foreign exchange gains and losses. Impairment losses are included within 'Net investment income' in the condensed consolidated interim income statement.
- FVTOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses, which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in 'Net investment income'. Interest income from these financial assets is calculated using the effective interest rate method. Foreign exchange gains and losses are presented in 'Net investment income'.
- FVTPL: Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognised in the condensed consolidated interim income statement and is presented net within 'Net investment income' in the period in which it arises.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

3 Summary of significant accounting policies (continued)

3.6 Financial assets (continued)

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss within 'Net investment income' when the Group's right to receive payments is established. Changes in the fair value of financial assets at FVTPL are recognised in 'change in fair value of financial investments at FVTPL' included within 'Net investment income'. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

(iv) Impairment

The Group assesses on a forward-looking basis the expected credit loss associated with its debt instruments carried at amortised cost and FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Group's financial assets are subject to the expected credit loss model.

For insurance and other receivables, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables. The expected loss rates are based on the historical credit losses experienced.

Insurance and other receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, among others, the probability of insolvency or significant financial difficulties of the debtor. Impaired debts are derecognised when they are assessed as uncollectible.

Debt investment and other instruments are considered to be low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term. The impairment charge for debt investments at FVTOCI is recognised in profit or loss and reduces the fair value loss otherwise recognised in OCI.

(b) Insurance and other receivables

Insurance and other receivables are recognised initially at fair value and subsequently are measured at amortised cost using the effective interest method, less impairment provision. The Group holds the insurance and other receivables with the objective to collect the contractual cash flows.

(c) Cash and cash equivalents

For the purposes of the condensed consolidated interim statement of cash flows, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value.

The below table summarises the staging for financial assets using general approach:

	At 30 June 2020 (Unaudited)			At 31 December 2019 (Audited)		
	Stage 1	Stage 3	Total	Stage 1	Stage 3	Total
	AED'000	AED'000	AED'000	AED'000	AED'000	AED'000

Allowance for impairment	(2,077)	(2,205)	(4,282)	(1,825)	(2,205)	(4,030)
Cash and bank balances and						
deposits	892,371	•	892,371	568,868	-	568,868
Allowance for impairment	(1,133)	-	(1,133)	(678)	-	(678)

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

4 Critical accounting judgements and key sources of estimation of uncertainty

The preparation of condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2019.

5 Risk management

The Group's insurance and financial risk management objectives and policies are consistent with those disclosed in the audited annual consolidated financial statements as at and for the year ended 31 December 2019. There have been no changes in any risk management policies since the year end. The Group is in compliance with the applicable solvency and capital requirements issued by the UAE Insurance Authority.

Impact of COVID-19

The Group has enabled remote connectivity for 95% of its employees as part of its business continuity management initiative to ensure that there is no interruption to client servicing and operations. This has resulted in the Group delivering service level commitments to its customers across multiple lines of business.

The Group has mainly noticed an increase in Business Interruption (BI) and Health Care claims due to COVID-19. The Group is monitoring the loss experience and appropriately enhancing its technical reserves as at 30 June 2020. The impact on life insurance is expected to be minimal at this point.

Since 2019, the Group has developed a robust risk appetite framework and capital thresholds based on the pandemic risk and other risks stress scenarios. Having considered the impact of COVID-19, the Group reassessed its control environment around fraud and information security to ensure adequate controls are in place and conducts more regular reviews on its reinsurers in relation to the counterparty credit ratings, financial metrics, credit outlook and changes to their structures, if any. Also, the Group has updated its reinsurer security list in order to address the impacts of COVID-19. The current security list has more than 95% of "A" rated reinsurance securities.

In parallel, the Group continues to have a robust collection and credit control process. Further enhancement and development to strengthen the processes and credit controls have resulted in an efficient receivable management and reduced the credit cycle. Hence, despite the uncertain economic conditions, the Group continued to have a robust collection throughout the period. Also, the measures taken above have contributed to minimize the impact on the impairment provision recognized during the period. However, the Group continuously monitors the impact on receivables using a robust ECL (Expected Credit Loss) model to calculate the allowance for impairment.

Similarly, the Group's investment portfolio measured at amortised cost has been assessed using a robust ECL model with updated inputs as of the reporting date and based on the results, the Group had taken adequate provisions for impairment losses. These are non-material as at 30 June 2020. The Group also assessed the unquoted equity portfolio against latest available inputs, as well as performed market research specific to the underlying investee companies. Investment properties' valuation is performed on an annual basis by internationally qualified valuation firms who apply RICS Valuation Global Standards in compliance with the UAE Financial Regulations for Insurance Companies. In addition, management performs market research on properties throughout the year to assess any significant market developments. The Group believes the fair values reported for both unquoted investments and investment properties reflect the current market conditions and the Group shall also carry out an independent external valuation at yearend

The liquidity position of the Group remains strong. Furthermore, the Group has carried out stress testing to assess the resilience of their solvency compliance, which also remains strong after considering the impact of the shocks. As the situation continues to develop, the Group will continue to monitor the situation closely.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

6 Financial investments

The Group's financial investments at the end of reporting period are detailed below.

	30 June 2020 (Unaudited) AED '000	31 December 2019 (Audited) AED '000
At fair value through profit or loss	329,620	377,639
At fair value through other comprehensive income	381,965	474,376
Measured at amortised cost	1,655,811	1,632,241
Less: Allowance for impairment as per IFRS 9	(4,282)	(4,030)
	2,363,114	2,480,226

At 30 June 2020, financial assets measured at fair value through other comprehensive income include investment amounting to AED 4 million with the Abraaj Group (31 December 2019: AED 6.7 million).

The movements in financial investments were as follows:

	Fair value through profit or loss AED '000	Fair value through OCI AED '000	Amortised cost AED '000	Total AED '000
At 31 December 2018 (Audited)	357,407	468,169	1,280,731	2,106,307
Purchases	103,947	221,285	499,679	824,911
Disposals	(140,374)	(275,490)	(32,797)	(448,661)
Maturities	-	-	(117,328)	(117,328)
Amortisation	-	-	(5,327)	(5,327)
Movement in accrued interest	-	-	4,927	4,927
Changes in fair value	56,659	60,412	-	117,071
Allowance for impairment			(1,674)	(1,674)
At 31 December 2019 (Audited)	377,639	474,376	1,628,211	2,480,226
Purchases	51,135	68,648	168,976	288,759
Disposals	(105,442)	(90,880)	(104,365)	(300,687)
Maturities	•	-	(39,071)	(39,071)
Amortisation	•	-	(2,511)	(2,511)
Movement in accrued interest	•	-	541	541
Changes in fair value	6,288	(70,179)	-	(63,891)
Allowance for impairment			(252)	(252)
At 30 June 2020 (Unaudited)	329,620	381,965	1,651,529	2,363,114

During the period, the Group has reviewed its portfolio of financial assets measured at amortized cost and made certain disposals within the guidelines of the standard, which has no impact on the business model.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

7 Insurance contract liabilities and reinsurance contract assets

20 Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Fair value of financial instruments carried at amortised cost

Management considers that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the condensed consolidated interim financial information approximate their fair values except for financial investments measured at amortised cost of which fair value is determined based on the quoted market prices and disclosed in note 20.2.2 of this condensed consolidated interim financial information.

20.2 Fair value of financial items carried at fair value

20.2.1 Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair values of assets and liabilities are determined using similar valuation techniques and assumptions as used in the audited annual consolidated financial statements for the year ended 31 December 2019.

Notes to the condensed consolidated interim financial information for the six month period ended 30 June 2020 (continued)

20 Fair value measurements (continued)

20.2 Fair value of financial items carried at fair value (continued)

Fair value of the Group's financial assets that are measured at fair value on recurring basis 20.2.2

Some of the Group's financial assets are measured at fair value at the end of the reporting period. The following table gives information about how the fair values of these financial assets are determined:

Financial assets	Fair value as at	ue as at				
	30 June 2020	31 December 2019			Significant	
	(Unaudited)	(Audited)	Fair value Valuat	Fair value Valuation techniques and key hierarchy inpute	unobservable	Relationship of unobservable
Financial assets measured at FVTPL Quoted fund		30,549	30,549 Level 2	Quoted prices in secondary market. None	None	Not applicable

22 Other information

- The Group established operations in Qatar on 6 January 2008 through an agency agreement entered into with a local sponsor valid for an indefinite period. On 25 February 2019, the Qatar Central Bank ("QCB") did not accept the Company's application to open a foreign branch. Accordingly, the Group management has taken decision to no longer issues new policies in the State of Qatar. The Group will continue to service the existing policies as per the applicable conditions of the underlying contracts.
- On 26 January 2020, a stock purchase agreement was signed between Starr Insurance & Reinsurance Limited and the Group to acquire 49% of the issued and outstanding share capital of the Group's subsidiary, Dubai Starr Sigorta A.S. for a purchase consideration of Turkish Lira 39.2 million which is equivalent to AED 21 million, for which substantial progress has been made in obtaining necessary regulatory approvals and certain final closing formalities are in progress. The financial effect of this transaction will be assessed on the date of acquisition and thus will be reflected in the condensed consolidated interim financial information once the transaction is completed.

23 Approval of the condensed consolidated interim financial information

The condensed consolidated interim financial information was approved and authorised for issue by the Board of Directors on 22 July 2020.
