

# Tabreed Energy Services establishes strategic partnership with ADCP to Promote Energy Conservation

13 January 2021 – Abu Dhabi, United Arab Emirates: Tabreed Energy Services, a company that provides customers with an integrated set of consultancy, operations and maintenance services and is a wholly owned subsidiary of the National Central Cooling Company PJSC (Tabreed), the leading international district cooling developer based in the UAE, established today a strategic partnership with Abu Dhabi Commercial Properties (ADCP) to increase energy efficiency across a number of their buildings.

Under the terms of the partnership, Tabreed Energy Services will provide its expertise in energy efficiency and sustainable cooling operations to perform energy audits of selected buildings owned or managed by ADCP. Through the captured data, Tabreed will identify buildings with high potential to reduce its energy and water demand. Additionally, Tabreed will perform the same exercise for the buildings managed by ADCP to roll out energy efficiency improvements.

Commenting on the partnership, **Bader Al Lamki, Chief Executive Officer**, Tabreed said: “We are pleased to collaborate with ADCP to perform this energy audit to maximise energy efficiency across their assets. This is part of our mandate to support energy demand reduction in Abu Dhabi and we are always willing to partner with entities including property and facility management companies to help optimize their energy demand.”

For his part, **Mohamed Binbrek, General Manager**, Abu Dhabi Commercial Properties (ADCP): “We are pleased to collaborate with Tabreed Energy Services to ensure we provide the most advanced energy efficient services to our clients. Our collaboration will help us adopt innovative solutions that can deliver tangible reductions in energy consumption and overall usage while preserving the overall ecosystem.”

ADCP is a multi-functional real estate and property Management Company and a subsidiary of Abu Dhabi Commercial Bank (ADCB).

Established in January 2020, Tabreed Energy Services offers the full spectrum of integrated building energy services, including energy audits and consultancy, retrofitting and asset replacement, financing, operations and maintenance; offered through both performance-based contracts and traditional service models.
