REVIEW REPORT ON THE INTERIM CONDENSED FINANCIAL STATEMENTS TO THE DIRECTORS OF DAR AL TAKAFUL PJSC

Introduction

We have reviewed the accompanying interim condensed financial statements of Dar Al Takaful PJSC (the "Company") as at 30 September 2012, comprising of the interim condensed statement of financial position as at 30 September 2012 and the related interim statement of income, statement of comprehensive income for the three-months and nine-months periods then ended, statement of changes in equity and cash flows for the nine months period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Financial Reporting Standards IAS 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

1 ACTIVITIES

Dar Al Takaful PJSC (the "Company") is incorporated as a public joint stock company in accordance with the Federal Law No. 8 of 1984 (as amended) relating to commercial companies in the UAE. The Company carries out general takaful (Insurance) retakaful (reinsurance) and investments in accordance with the teachings of Islamic Shari'a and within the provisions of UAE Federal Law no. 6 of 2007 relating to takaful companies and takaful agents and the Memorandum and Articles of Association of the Company. The address of the Company is PO Box 235353, Dubai, United Arab Emirates.

By a resolution of its Extraordinary General Meeting held on 8 April 2011, the shareholders of the Company resolved to change the English name of the Company from Takaful House PJSC to Dar Al Takaful PJSC.

The Company mainly issues short term takaful contracts in connection with non-life takaful such as motor, marine, fire, engineering, medical and general accident risks (collectively known as general takaful). The Company also invests its funds in investment securities.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

The interim condensed financial statements of the Company are prepared in accordance with International Accounting Standard 34, Interim Financial Reporting.

The interim condensed financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standard and should be read in conjunction with the Company's financial statements as of 31 December 2011. In addition, results for the 9 months ended 30 September 2012 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2012.

Interim reporting
The accounting policies used in the preparation of the interim condensed financial statements are consistent with those used in the preparation of the financial statements for the year ended 31 December 2011.

2.2 ACCOUNTING POLICIES

The accounting policies adopted by the Company relating to investments and cash and cash equivalents, which are consistent with the policies adopted during the previous year, are reproduced below:

Fair value of financial instruments
The fair value of financial instruments that are actively traded in organised financial markets is determined by reference to quoted market bid prices for assets and offer prices for liabilities, at the close of business on the reporting date. If quoted market prices are not available, reference can also be made to broker or dealer price quotations.

The fair value of Wakala deposits earning a profit rate which is determined on monthly basis is its carrying value. The carrying value is the cost of the deposit and earned profit. The fair value of fixed/capped profit rate Wakala deposits is estimated using discounted cash flow techniques. Expected cash flows are discounted at current profit rates used in the market for similar instruments at the reporting date.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

2.2 ACCOUNTING POLICIES (continued)

Financial Assets

Initial recognition and subsequent measurement

Financial assets within the scope of IAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial assets at initial recognition.

Financial assets are recognised initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

The classification depends on the purpose for which the investments were acquired or originated. Financial assets are classified as at fair value through profit or loss where the Company documented investment strategy is to manage financial investments on a fair value basis, because the related liabilities are also managed on this basis. The available-for-sale and held-to-maturity categories are used when the relevant liability (including shareholders' funds) is passively managed and/or carried at amortised cost.

The Company's financial assets include cash and Wakala deposits, trade and other receivables, loan and other receivables, quoted and unquoted financial instruments, and derivative financial instruments.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held-for-trading and those designated at fair value through profit or loss at inception. Investments typically bought with the intention to sell in the near future are classified as held-for-trading. For investments designated as at fair value through profit or loss, the following criteria must be met:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on a different basis; or
- The assets and liabilities are part of a group of financial assets, financial liabilities or both which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.

These investments are initially recorded at fair value. Subsequent to initial recognition, these investments are remeasured at fair value. Fair value adjustments and realised gain and loss are recognised in the statement of income.

*Available-for-*sale *financial assets*

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified as held to maturity or loans and advances. These investments are initially recorded at fair value. After initial measurement, available-for-sale financial assets are measured at fair value. Fair value gains and losses are reported as a separate component in the statement of comprehensive income until the investment is derecognised or the investment is determined to be impaired. On derecognition or impairment, the cumulative fair value gains and losses previously reported in the statement of comprehensive income are transferred to the statement of income.

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date the Company commits to purchase or sell the asset. Regular way purchases or sales of financial assets require delivery of the assets within the time frame generally established by regulation or convention in the market place.

Impairment and uncollectibility of financial assets

An assessment is made at each reporting date to determine whether there is objective evidence that a financial asset or group of financial assets may be impaired. If such evidence exists, any impairment losses are recognised in the statement of income. Impairment is determined as follows:

a) for assets carried at fair value, impairment is the difference between cost and the fair value;
b) for assets carried at cost, impairment is the difference between cost and the present value of future cash flows discounted at the current market rate of return for a similar financial asset.
c) for assets carried at amortised cost, impairment is the difference between carrying amount and the present value of future cash flows discounted at the original effective profit rate.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

2.2 ACCOUNTING POLICIES (continued)

Derecognition of financial instruments
The derecognition of a financial instrument takes place when the Company no longer controls the contractual rights that comprise the financial instrument, which is normally the case when the instrument is sold, or all the cash flows attributable to the instrument are passed through to an independent third party.

Cash and cash equivalents
Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

3 SEGMENTAL INFORMATION

Primary segment information
For management purposes the Company is organised into two business segments, general takaful management and investment. The general takaful segment comprises the takaful business undertaken by the Company on behalf of the participants. Investments comprise investment and cash management for the Company's own account. No operating segments have been aggregated to form the above reportable operating segments.

Segment performance is evaluated based on profit or loss which in certain respects is measured differently from profit or loss in the financial statements.

Except for Wakala fees, Mudarib's share and Qard Hassan, no other inter-segment transactions occurred during the period. If any other transaction were to occur, transfer prices between operating segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment income, expenses and results will include those transfers between business segments which will then be eliminated on consolidation as shown below.

These segments are the basis on which the Company reports its primary segment information. Segmental information is presented below:
