Review report of the independent auditors to the shareholders of National Cement Company (Public Shareholding Co.), Dubai

We have reviewed the accompanying interim condensed statement of financial position of National Cement Company (Public Shareholding Co.) ("the Company") as of June 30, 2013, and the related interim condensed statements of comprehensive income, changes in equity and cash flows for the three months period then ended ("the interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, no matter has come to our attention that causes us to believe that the accompanying interim financial information as of June 30, 2013 is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

1. Status and activities

National Cement Company (Public Shareholding Co.), Dubai ("the Company"), is registered in accordance with the decree issued by His Highness Ruler of Dubai on April 10, 1968 establishing a cement company in the Emirate of Dubai and in accordance with the provisions of the UAE Federal Law No. 8 of 1984 (as amended). The registered address of the Company is P.O. Box 4041, Dubai, United Arab Emirates.

The principal activity of the Company is to manufacture and sell cement and cement related products. The Company also invests in investment securities and derivative products. The Company is listed on the Dubai Financial Market since 2005.

The interim condensed financial statements for the six months period ended June 30, 2013 were authorized for issue by the Board of Directors on August 7, 2013.

These interim condensed financial statements are presented in thousands of UAE Dirhams (AED'000) unless otherwise stated.

2. Basis of preparation

These interim condensed financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) for interim condensed financial statements (International Accounting Standard 34 Interim Financial Reporting). These interim condensed financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the financial statements of the Company for the year ended December 31, 2012.

3. Significant accounting policies

The accounting policies applied in the preparation of these interim condensed financial information are consistent with those applied in the annual financial statements of the Company for the year ended December 31, 2012.

These interim condensed financial statements are presented in United Arab Emirates Dirhams ("AED"), rounded to the nearest thousand and are prepared under the historical cost convention except in respect of investment in marketable securities and derivative financial instruments, which are stated at fair values.

4. Property, plant and equipment

During the six month period ended June 30, 2013 additions to the property, plant and equipment amounted to approximately AED 6.98 million and no assets were disposed during the period. Depreciation charge for the period amounts to AED 8 million.

5. Investment properties

Investment properties represent land and villas constructed on that land. No investment properties were bought or sold during the current period and no depreciation was charged as the assets are fully depreciated.

During the period there is no significant change in fair market value of investment properties, including land, on comparing the same with annual financial statements of the Company for the year ended December 31, 2012.

26. Segment reporting

The Company's activities comprise two main business segments, manufacturing and selling cement and cement related products and investment in marketable securities and derivative products. The details of segment revenue, segment result, segment assets and segment liabilities have been provided on page 19.

27. Financial instruments

Capital risk management

The capital is managed by the Company in a way that it is able to continue as a going concern while maximizing return to stakeholders.

The capital structure of the Company consists of borrowings, cash and cash equivalents and equity attributable to equity holders comprising of issued capital, reserves and retained earnings.

Market risk management

The Company is primarily exposed to the financial risks of changes in foreign currency exchange rates (currency risk), interest rates (interest rate risk) and market prices (other price risk).

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in foreign exchange rates.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices whether those changes are caused by factors specific to the individual financial instrument of the Company, or factors affecting all similar financial instruments traded in the market.

27. Financial instruments *(Continued)*

Foreign currency risk management

The Company undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuation arise. The Company is mainly exposed to US Dollars. The US Dollar has been pegged against the United Arab Emirates Dirham ("AED"), hence no exchange risk is considered to exist.

Interest rate risk management

The Company is exposed to interest rate risk on cash at bank (including time deposits), available for sale investments and interest rate swap contracts.

If the interest rates on available for sale investments have had been 50 base points higher or lower and all other variables were held constant, the Company's profits would have increased or decreased by AED 45,615 (June 30, 2012: AED 427,700)

Other price risk management

The Company is exposed to other price risks in market on its equity investments. Investments in equity instruments are generally held for long term and are not traded actively.

If equity prices in market had been 10% higher/lower:

- Available for sale investment valuation reserve would increase/decrease by AED 56.20 million.
- The profit would be unaffected as equity investments are classified as available for sale.

Credit risk management

Credit risk is the risk that one party of a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Company is exposed to credit risk from its financial assets which comprise principally of fixed deposits, bank balances, trade and other receivables, due from related parties and investments. The credit risk on trade receivables is subjected to credit evaluations and an allowance may be made for estimated irrecoverable amounts. The Company is not exposed to any significant concentration of credit risk because its exposure is spread over financial institutions.

Liquidity risk management

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Company has built appropriate liquidity risk management framework for the management of its short, medium and long term funding and liquidity requirements. The Company manages liquidity risk by maintaining adequate reserves and banking facilities by continuously monitoring forecast and actual cashflows.
