REPORT ON REVIEW OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF DUBAI INSURANCE COMPANY (PSC)

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Dubai Insurance Company (PSC) as at 30 June 2013, comprising the interim consolidated statement of financial position as at 30 June 2013 and the related interim consolidated statements of income and comprehensive income for the three-month and six-month periods then ended and the related interim consolidated statements of changes in equity and cash flows for the six-month period then ended and explanatory information. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standard IAS 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

Dubai Insurance Company (PSC)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS As at 30 June 2013 (Unaudited)

1 CORPORATE INFORMATION

Dubai Insurance Company (PSC) (the "Company") is a public shareholding Company registered under the Federal Law No. 8 of 1984 (as amended) and the UAE Federal Law No. (6) of 2007 relating to commercial companies in the UAE. The Company mainly issues short term insurance contracts in connection with motor, marine, fire, engineering, general accident and medical risks (collectively known as general insurance) and group life and individual life risk (collectively referred to as life assurance). The Company also invests its funds in investment securities and properties. The registered address of the Company is P.O. Box 3027, Dubai, United Arab Emirates. The Company operates in United Arab Emirates and most of the insurance policies are issued in the United Arab Emirates. The shares of the Company are listed on the Dubai Financial Market.

During 2010, the Company established a new subsidiary for investment purposes. These consolidated financial statements incorporate the financial statements of the Company and its subsidiary (collectively referred to as the "Group").

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

The interim condensed consolidated financial statements of the Group are prepared in accordance with International Financial Reporting Standard IAS 34, Interim Financial Reporting ("IAS 34").

Interim reporting

The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the financial statements for the year ended 31 December 2012 except for the adoption of the new and amended IFRS and IFRIC interpretations which became effective as of 1 January 2013. The adoption of these standards and interpretations did not have an impact on the financial position or performance of the Group during the period.

These condensed consolidated financial statements do not include all disclosure and should be read in conjunction with the consolidated financial statements for the year ended 31 December 2012. In addition, results for the six months ended 30 June 2013 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2013.

2.2 BASIS OF CONSOLIDATION

The Group comprises of the Company and the under-mentioned subsidiary company.

<u>Subsidiary</u>	<u>Principal activity</u>	<u>Country of incorporation</u>	<u>Ownership</u>
Vattaun Limited	Investment	British Virgin Island	100%

Basis of consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Group and its subsidiary as at 30 June 2013.

Subsidiary companies are those companies in which the Company, directly or indirectly, has an interest of more than one half of the voting rights or otherwise has the power to exercise control over their operations. The subsidiary is fully consolidated from the date of formation, being the date on which the Group obtained control and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiary are prepared for the same reporting year as the parent company, using consistent accounting policies.

All intra-group balances, transactions, income and expenses and profit and losses resulting from intra-group transactions, are eliminated in full.

2.2 BASIS OF CONSOLIDATION (continued)

Basis of consolidation (continued)

Losses within a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interest
- Derecognises the cumulative translation differences, recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.

2.3 ACCOUNTING POLICIES

The accounting policies adopted by the Group relating to investments and cash and cash equivalents, which are consistent with the policies adopted during the previous year, are reproduced below:

Investment properties

The Group has elected to adopt the cost model for investment properties. Accordingly, investment properties are carried at cost less any accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated on a straight line basis over the estimated useful lives of the assets as follows:

Building	25 years
----------	----------

No depreciation is charged on freehold land.

Fair value of financial instruments

The fair value of financial instruments that are actively traded in organised financial markets is determined by reference to quoted market bid prices for assets and offer prices for liabilities, at the close of business on the reporting date. If quoted market prices are not available, reference can also be made to broker or dealer price quotations. The fair values of floating rate and overnight deposits with credit institutions are their carrying values. The carrying value is the cost of the deposit and accrued interest. The fair value of fixed interest bearing deposits is estimated using discounted cash flow techniques. Expected cash flows are discounted at current market rates for similar instruments at the reporting date.

Financial assets

At initial recognition, all financial assets are measured at fair value.

Equity investments

For subsequent measurements, all financial assets that are equity investments are measured at fair value either through Other Comprehensive Income (OCI) or through profit or loss. This is an irrevocable choice that the Group has made on early adoption of IFRS 9 or will make on subsequent acquisition of equity investments unless the equity investments are held for trading, in which case, they must be measured at fair value through profit or loss.

Gain or loss on disposal of equity investments at fair value through Other Comprehensive Income (OCI) are not recycled.

Dividend income for all equity investments at fair value through Other Comprehensive Income (OCI) are recorded through profit or loss.

2.3 ACCOUNTING POLICIES (continued)

Financial assets (continued)

Debt instruments

Debt instruments are also measured at fair value through profit or loss unless they are classified at amortised cost. They are classified at amortised cost only if:

- i. the asset is held within a business model whose objective is to hold the asset to collect the contractual cash flows; and
- ii. the contractual terms of the debt instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal outstanding.

Derecognition of financial instruments

A financial asset (or, when applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- The rights to receive cash flows from the asset have expired
- The Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement
- The Group has transferred its rights to receive cash flows from the asset and either:
 - has transferred substantially all the risks and rewards of the asset, or
 - has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its right to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment and uncollectibility of financial assets

An assessment is made at each reporting date to determine whether there is objective evidence that a specific financial asset may be impaired. If such evidence exists, any impairment loss is recognised in the consolidated statement of income. Impairment is determined as follows:

- (a) For assets carried at cost, impairment is the difference between carrying value and the present value of future cash flows discounted at the current market rate of return for a similar financial asset;
- (b) For assets carried at amortised cost, impairment is the difference between carrying amount and the present value of future cash flows discounted at the original effective interest rate.

Impairment of non-financial assets (excluding goodwill)

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using discount rates that reflect current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less in the statement of financial position.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
As at 30 June 2013 (Unaudited)

3 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the net profit for the period by the weighted average number of shares outstanding during the period as follows:

	<i>Three months ended 30 June</i>		<i>Six months ended 30 June</i>	
	<i>2013</i>	<i>2012</i>	<i>2013</i>	<i>2012</i>
Profit for the period (AED'000)	<u>5,371</u>	<u>8,504</u>	<u>25,923</u>	<u>21,426</u>
Weighted average number of shares outstanding during the period ('000)	<u>100,000</u>	<u>100,000</u>	<u>100,000</u>	<u>100,000</u>
Earnings per share (AED)	<u>0.054</u>	<u>0.085</u>	<u>0.259</u>	<u>0.214</u>

No figures for diluted earnings has been presented because the Group has not issued any instruments which would have an impact on earnings per share when exercised.

4 PROPERTY AND EQUIPMENT

Included in property and equipment is a land situated in the Emirate of Dubai, United Arab Emirates with a carrying value of AED 43,307 thousand. The Group's Board of Directors has resolved to construct the Group's head office on the land in the foreseeable future. The Group's management is in the process of formalising the transfer of legal title in respect of the land.

5 INVESTMENT PROPERTY

Investment property represent the Group's investments in freehold land and building situated in the Emirate of Dubai, United Arab Emirates.
