REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF EMIRATES INVESTMENT BANK P.J.S.C.

Introduction

We have reviewed the accompanying interim condensed statement of financial position of Emirates Investment Bank P.J.S.C. (the "Bank") as at 31 March 2013 and the related interim condensed statements of income, comprehensive income, cash flows and changes in equity for the three months period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

The bonus shares were issued subsequent to the date of statement of financial position on 1 April 2013.

The attached notes 1 to 9 form part of these interim condensed financial statements.

1 INCORPORATION AND ACTIVITIES

Emirates Investment Bank P.J.S.C. (the "Bank") was incorporated on 17 February 1976 in Dubai, United Arab Emirates by a decree of HH The Ruler of Dubai. In 1999, the Bank was registered under the UAE Commercial Companies Law No. (8) of 1984 (as amended) as a Public Joint Stock Company. The Bank is engaged in the business of private banking, investment banking and investment portfolio management. The address of the Bank's registered office is P. O. Box 5503, Dubai, United Arab Emirates.

The Bank is a subsidiary of Al Futtaim Private Company LLC which holds 50.26% of the shares in the Bank.

2 ACCOUNTING POLICIES

Basis of preparation
The interim condensed financial statements of the Bank are prepared in accordance with International Accounting Standard 34, Interim Financial Reporting.

The interim condensed financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards, and should be read in conjunction with the Bank's annual financial statements as at 31 December 2012. In addition, results for the three months ended 31 March 2013 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2013.

New standards, interpretations and amendments
The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Bank's annual financial statements for the year ended 31 December 2012, except for the adoption of new standards and interpretations effective as of 1 January 2013.

The Bank applies, for the first time, certain standards and amendments. As required by IAS 34, the nature and the effect of these changes are disclosed below. In addition, the application of IFRS 12 Disclosure of Interest in Other Entities would result in additional disclosures in the annual financial statements.

Several other new standards and amendments apply for the first time in 2013. However, they do not impact the annual financial statements of the Bank or the interim condensed financial statements of the Bank.

The nature and the impact of each new standard/amendment is described below:

IAS 1 Presentation of Items of Other Comprehensive Income – Amendments to IAS 1
The amendments to IAS 1 introduce a grouping of items presented in other comprehensive income (OCI). Items that could be reclassified (or recycled) to profit or loss at a future point in time (e.g., net gain on hedge of net investment, exchange differences on translation of foreign operations, net movement on cash flow hedges and net loss or gain on available-for-sale financial assets) now have to be presented separately from items that will never be reclassified (e.g., actuarial gains and losses on defined benefit plans and revaluation of land and buildings). The amendment affected presentation only and had no impact on the Bank's financial position or performance.

IAS 1 Clarification of the requirement for comparative information (Amendment)
The amendment to IAS 1 clarifies the difference between voluntary additional comparative information and the minimum required comparative information. An entity must include comparative information in the related notes to the financial statements when it voluntarily provides comparative information beyond the minimum required comparative period. The additional voluntarily comparative information does not need to be presented in a complete set of financial statements.

An opening statement of financial position (known as the 'third balance sheet') must be presented when an entity applies an accounting policy retrospectively, makes retrospective restatements, or reclassifies items in its financial statements, provided any of those changes has a material effect on the statement of financial position at the beginning of the preceding period. The amendment clarifies that a third balance sheet does not have to be accompanied by comparative information in the related notes. Under IAS 34, the minimum items required for interim condensed financial statements do not include a third balance sheet.

2 ACCOUNTING POLICIES (continued)

New standards, interpretations and amendments (continued)

IAS 32 Tax effects of distributions to holders of equity instruments (Amendment)
The amendment to IAS 32 Financial Instruments: Presentation clarifies that income taxes arising from distributions to equity holders are accounted for in accordance with IAS 12 Income Taxes. The amendment removes existing income tax requirements from IAS 32 and requires entities to apply the requirements in IAS 12 to any income tax arising from distributions to equity holders. The amendment did not have an impact on the interim condensed financial statements for the Bank, as there is no tax consequences attached to cash or non-cash distribution.

IAS 34 Interim financial reporting and segment information for total assets and liabilities (Amendment)
The amendment clarifies the requirements in IAS 34 relating to segment information for total assets and liabilities for each reportable segment to enhance consistency with the requirements in IFRS 8 Operating Segments. Total assets and liabilities for a reportable segment need to be disclosed only when the amounts are regularly provided to the chief operating decision maker and there has been a material change in the total amount disclosed in the entity's previous annual financial statements for that reportable segment. The Bank provides this disclosure as total segment assets were reported to the chief executive officer. As a result of this amendment, the Bank now also includes disclosure of total segment liabilities as these are reported to the chief executive officer. See Note 7.

IAS 19 Employee Benefits (Revised 2011) (IAS 19R)
IAS 19R includes a number of amendments to the accounting for defined benefit plans, including actuarial gains and losses that are now recognised in other comprehensive income (OCI) and permanently excluded from profit and loss; expected returns on plan assets that are no longer recognised in profit or loss, instead, there is a requirement to recognise interest on the net defined benefit liability (asset) in profit or loss, calculated using the discount rate used to measure the defined benefit obligation, and; unvested past service costs are now recognised in profit or loss at the earlier of when the amendment occurs or when the related restructuring or termination costs are recognised. Other amendments include new disclosures, such as, quantitative sensitivity disclosures.

In case of the Bank, the transition to IAS 19R did not have impact on the employees' end of service benefits obligations as the net impact of discount rates and future increases in benefits is not likely to be material.

IFRS 7 Financial Instruments: Disclosures Offsetting Financial Assets and Financial Liabilities Amendments to IFRS 7
The amendment requires an entity to disclose information about rights to set-off financial instruments and related arrangements (e.g., collateral agreements). The disclosures would provide users with information that is useful in evaluating the effect of netting arrangements on an entity's financial position. The new disclosures are required for all recognised financial instruments that are set off in accordance with IAS 32. The disclosures also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether the financial instruments are set off in accordance with IAS 32. As the Bank is not setting off financial instruments in accordance with IAS 32 and does not have relevant offsetting arrangements, the amendment does not have an impact on the Bank.

IFRS 10 Consolidated Financial Statements and IAS 27 Separate Financial Statements
IFRS 10 establishes a single control model that applies to all entities including special purpose entities. IFRS 10 replaces the parts of previously existing IAS 27 Consolidated and Separate Financial Statements that dealt with consolidated financial statements and SIC-12 Consolidation – Special Purpose Entities. IFRS 10 changes the definition of control such that an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. To meet the definition of control in IFRS 10, all three criteria must be met, including: (a) an investor has power over an investee; (b) the investor has exposure, or rights, to variable returns from its involvement with the investee; and (c) the investor has the ability to use its power over the investee to affect the amount of the investor's returns. The application of this new standard did not impact the financial position of the Bank.

IFRS 11 Joint Arrangements and IAS 28 Investment in Associates and Joint Ventures
IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities - Non-monetary Contributions by Venturers. IFRS 11 removes the option to account for jointly controlled entities (JCEs) using proportionate consolidation. Instead, JCEs that meet the definition of a joint venture under IFRS 11 must be accounted for using the equity method.

The application of this new standard did not impact the financial position of the Bank.

2 ACCOUNTING POLICIES (continued)

New standards, interpretations and amendments (continued)

IFRS 12 Disclosure of Interests in Other Entities
IFRS 12 sets out the requirements for disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. None of these disclosure requirements are applicable for interim condensed financial statements, unless significant events and transactions in the interim period requires that they are provided. Accordingly, the Bank has not made such disclosures.

IFRS 13 Fair Value Measurement
IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The application of IFRS 13 has not materially impacted the fair value measurements carried out by the Bank.

IFRS 13 also requires specific disclosures on fair values, some of which replace existing disclosure requirements in other standards, including IFRS 7 Financial Instruments: Disclosures. Some of these disclosures are specifically required for financial instruments, thereby affecting the interim condensed financial statements for the period. The Bank provides these disclosures in Note 5.

In addition to the above-mentioned amendments and new standards, IFRS 1 First-time Adoption of International Financial Reporting Standards was amended with effect for reporting periods starting on or after 1 January 2013. The Bank is not a first-time adopter of IFRS, therefore, this amendment is not relevant to the Bank. The Bank has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The Bank has not early adopted the new accounting standards or interpretations that have been issued but are not yet effective.

3 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit of AED 15,432 thousand for the three months period ended 31 March 2013 (31 March 2012: AED 15,312 thousand) by the weighted average number of shares outstanding during the period of 600,000 of AED 100 each (31 March 2012: 600,000 of shares of AED 100 each).

The weighted average number of shares includes the impact of scrip dividend whereby the shares were issued subsequent to the date of statement of financial position.

The figures for basic and diluted earnings per share are the same as the Bank has not issued any instruments which would have an impact on earnings per share when exercised.

7 SEGMENTAL INFORMATION

For operating purposes, the Bank is organised into two major business segments: (a) Proprietary investments which is principally involved in managing the Bank's own investment portfolio and provides treasury services; and (b) Investment and Private Banking Services, which principally manages client's investment portfolio, provides credit facilities, accepts deposit from corporate and individual customers and provides advisory services on corporate finance and capital market transactions. These segments are the basis on which the Bank reports its primary segment information. Transactions between segments are conducted at rates determined by management taking into consideration the cost of funds and an equitable allocation of expenses.

Management monitors the operating results of the operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss.
