Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Information

The Shareholders
Deyaar Development PJSC

Introduction

We have reviewed the accompanying 30 June 2014 condensed consolidated interim financial information of Deyaar Development PJSC ("the Company") and its subsidiaries (collectively referred to as "the Group") which comprises:

- the condensed consolidated statement of financial position as at 30 June 2014;
- the condensed consolidated statement of profit or loss for the three month and six month periods ended 30 June 2014;
- the condensed consolidated statement of profit or loss and other comprehensive income for the three month and six month periods ended 30 June 2014;
- the condensed consolidated statement of changes in equity for the six month period ended 30 June 2014;
- the condensed consolidated statement of cash flows for the six month period ended 30 June 2014; and
- notes to the condensed consolidated interim financial information.

Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2014 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

Other matters

The condensed consolidated interim financial information for the six month period ended 30 June 2013 and the consolidated financial statements for the year ended 31 December 2013 were reviewed and audited respectively by another auditor who expressed an unmodified review conclusion on the condensed consolidated interim financial information for the six month period ended 30 June 2013 on 1 August 2013 and an unmodified audit opinion on the consolidated financial statements for the year ended 31 December 2013 on 4 February 2014.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE SIX MONTHS ENDED 30 JUNE 2014

1 LEGAL STATUS AND ACTIVITIES

Deyaar Development PJSC (the "Company") was incorporated and registered as a Public Joint Stock Company in the Emirate of Dubai, UAE on 10 July 2007. The registered address of the Company is P. O. Box 30833, Dubai, United Arab Emirates.

The principal activities of the Company and its subsidiaries (together, "the Group") are property investment and development, brokering, facility and property management services.

This condensed consolidated interim financial information has been reviewed, not audited.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES

2.1 Basis of preparation

The condensed consolidated interim financial information for the six months ended 30 June 2014 has been prepared in accordance with IAS 34, 'Interim financial reporting'. The condensed consolidated interim financial information should be read in conjunction with the annual consolidated financial statements for the year ended 31 December 2013, which have been prepared in accordance with International Financial Reporting Standards.

2.2 Significant accounting policies

The accounting policies adopted in the preparation of the condensed consolidated interim financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2013.

3 ESTIMATES AND ASSUMPTIONS

The preparation of condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing the condensed consolidated interim financial information, the significant judgements made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2013.

Measurement of fair values

The Group has an established control framework with respect to the measurement of fair values. This includes a finance team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the CFO.

The finance team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the finance team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

Significant valuation issues are reported to the Group Audit Committee.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE SIX MONTHS ENDED 30 JUNE 2014 (continued)

3 ESTIMATES AND ASSUMPTIONS (continued)

Measurement of fair values (continued)

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. Also refer to notes 6 and 16.

4 FINANCIAL RISK MANAGEMENT

4.1 Financial risk factors

The Group's activities potentially expose it to a variety of financial risks: market risk (including currency risk, price risk, cash flow and fair value interest rate risk), credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual consolidated financial information, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2013.

There has been no change in the risk management policies since the year end.

4.2 Liquidity risk factors

The Group monitors its risk of a possible shortage of funds using cash flow forecasts. These forecasts consider the maturity of both its financial investments and financial assets (e.g. accounts receivable, other financial assets) and projected cash flows from operations.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank facilities. The Group manages liquidity risk by maintaining adequate reserves and banking facilities, by continuously monitoring forecasted and actual cash flows and matching the maturity profiles of financial assets and liabilities.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE SIX MONTHS ENDED 30 JUNE 2014 (continued)

5 SEGMENTAL INFORMATION

Operating segment:

The Board of Directors are the Group's chief operating decision maker. The Board considers the business of the Group as a whole for the purpose of decision making.

Management has determined the operating segments based on segments identified for the purpose of allocating resources and assessing performance. The Group is organised into three major operating segments: Property development, electrical and mechanical works, and properties and facilities management.

Management monitors the operating results of its operating segments for the purpose of making strategic decisions about performance assessment. Segment performance is evaluated based on operating profit or loss.

Geographic information

During the current period, the Company has disposed a plot of land in USA which was classified under investment property at a carrying value of AED 104,921,000 (refer note 6). The resultant gain of AED 16,981,786 was made from sale of this property. Total assets located outside the United Arab Emirates as at 30 June 2014 amount to AED 3,298,669 (31 December 2013: AED 108,221,000).

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE SIX MONTHS ENDED 30 JUNE 2014 (continued)

6 INVESTMENT PROPERTIES

	UAE Office and retail AED'000	UAE Land AED'000	USA Land AED'000	30 June 2014 Total AED'000	31 December 2013 Total AED'000
Fair value hierarchy	3	2	2

Fair value at the end of reporting period	68,564	92,036	-	160,600	265,521

Investment property is recognised at fair value and categorised within the level of the fair value hierarchy based on the lowest level input that is significant to fair value measurement in their entirety. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The Group's policy is to recognise transfers into and out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

At 30 June 2014, the Group did not have any non performing contractual obligations for future repairs and maintenance.

Net gain from fair value adjustments on investment properties for the six month ended 30 June 2013 was AED 36.5 million.

Direct operating expenses recognised in the condensed consolidated statement of profit or loss include AED 83,513 (2013: AED 71,707) and rental income recognised in condensed consolidated statement of profit or loss include AED 2,669,427 (2013: AED 2,332,155) related to investment properties.

Bank borrowings are secured on investment properties to the value of AED 158,500,000 (2013: AED 158,500,000)

Valuation processes

Lands included in the Group's investment properties were valued at 30 June 2014 by independent professionally qualified valuers who hold a recognised relevant professional qualification and have recent experience in the locations and segments of the investment properties valued. For all investment properties, their current use equates to the highest and best use. Valuation of UAE office and retail was valued at 30 June 2014 by the Groups' finance department. The Group's finance department includes a team that also reviews the valuations performed by the independent valuers for financial reporting purposes. This team reports directly to the chief financial officer (CFO). Discussions of valuation processes and results are held between the CFO, the valuation team and the independent valuers at least once every six months.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE SIX MONTHS ENDED 30 JUNE 2014 (continued)

6 INVESTMENT PROPERTIES (continued)

Valuation processes (continued)

At each financial year end, the finance department:

- verifies all major inputs to the independent valuation report;
- assesses property valuation movements when compared to the prior year valuation report; and
- holds discussions with the independent valuers.

Information about fair value measurements using significant unobservable inputs (Level 3) are as follows:

Country	Segment	Valuation	Estimate	Range of inputs	Sensitivity of management estimates	
					Impact lower AED'000	Impact higher AED'000
UAE	Office and retail	Income capitalisation	Estimated rental value	AED 65 to AED 150 per sqft per annum	(730)	730
			Discount rate	10.5%	10,331	(7,707)

Valuation techniques underlying management's estimation of fair value:

For offices and retail in the UAE, the valuation was determined using the income capitalisation method based on following significant unobservable inputs:

Estimated rental value (per sqft p.a.)	based on the actual location, type and quality of the properties and current market rents for similar properties;
Cash flow discount rate	reflecting current market assessments of the uncertainty in the amount and timing of cash flows;

For plots of land, the valuation was determined using the residual approach. Properties valued using the residual approach take into account Gross Development Value (GDV) of the proposed development assuming it is complete and discounting the GDV at an appropriate discount rate for the period of construction. The construction costs of the proposed development are assumed and deducted from the GDV to arrive at the residual value of the land.

Cash and cash equivalents include fixed deposits of AED 395,000,000 (31 December 2013: AED 135,000,000) deposited with a significant shareholder.

At 30 June 2014, the Group had bank borrowings from a significant shareholder of AED 320,581,000 (31 December 2013: AED 337,806,000).

In 2010, the Group entered into a sale and purchase agreement with a related party to sell properties with a carrying value of AED 1,337,846,000 and rights to purchase plots amounting to AED 899,589,000. The sale consideration as per the initial agreement was AED 3,647,483,730.

The salient terms of and conditions of the transaction were as follows:

- The sale consideration is receivable on or before 1 June 2016;
- The sale consideration can be settled in cash or kind or a combination of both, at the discretion of the purchaser. Where settlement is in kind, the fair value of the assets transferred will be determined by an independent valuation expert, to be selected by the seller and purchaser; and
- The commitment on the remaining purchase price of the land held for development remains with the Group.

Following the amendments to the original agreement, the sale consideration was reduced by approximately AED 730 million, as a result of the purchaser's commitment to settle this balance on demand, on or before 31 December 2014, in cash or in kind, or a combination of both. The receivable amount is reflected in the books of the Company after deducting the future committed payments of AED 420 million (refer note 14) relating to rights to purchase plots from the sale consideration as per the sale and purchase agreement.

The Group is in discussion with the related party to purchase certain plots at an estimated price of AED 361 million, as a partial settlement of the outstanding receivable. Management's expectation is that the balance receivable will be settled during 2014.

The Islamic finance obligations represent Ijarah, Murabaha and Mudarabah facilities obtained from Dubai Islamic Bank PJSC (a significant shareholder), and from other local Islamic banks and financial institutions. The facilities are used to finance properties under construction. The Islamic finance obligations carry an effective profit rate of 1 month EIBOR + 3%, with a minimum of 5%, to 6.25% per annum (2013: 1 month EIBOR + 3%, with a minimum of 5% to 6.25% per annum), and are repayable in equal monthly or quarterly instalments over a period of five to ten years from the reporting date. The Islamic finance obligations are secured by mortgages over properties classified under properties held for development and sale (Note 7), property and equipment and investment property (Note 6).

The Islamic finance obligations also include term loan facility amounting to AED 115,176,000 (2013: AED 124,519,000) with a local Islamic bank and carries an effective profit rate based on 3 months EIBOR + 3%, with a minimum of 5.5% (2013: 3 months EIBOR + 3%, with a minimum of 5.5%). During 2013, the Group signed a restructuring agreement with the bank (subject to certain conditions), whereby this loan was restructured into a loan repayable over a six-year period, with a revised profit rate of 3 months EIBOR + 3%, with a minimum of 5.5%.

The Islamic finance obligations also includes facility obtained from a financial institution amounting to AED 255,000,000 (2013: AED 255,000,000) which is currently under legal dispute and therefore the Group is not making any repayments of the facility. Currently, the Group is in the process of finalizing an amicable settlement with the counter party which is expected to be finalised by the third quarter of the current year.

The borrowings include an amount of AED 320,581,000 (2013: AED 337,806,000) obtained from a significant shareholder.

10 PROVISION FOR CLAIMS

The provision relates to legal claims made by a third party against the Company related to a facility to finance the purchase of a share in a real estate project. The provision is reflective of the initial assessment which has been determined on the basis of management's best estimate of the net liability that the Company may incur on these claims, subsequent to the judgement of the court of first instance. The Company is in the process of filing an appeal against the above judgement and has elected not to present the complete disclosures as required by IAS 37 "Provision and Contingent Liabilities and Contingent Assets" as management is of the view that since the matter is sub-judice, therefore this information may be prejudicial to their position in this matter.

16 FINANCIAL INSTRUMENTS BY CATEGORY (continued)

The following table presents the Group's financial assets that are measured at fair value, by valuation method:

	Level 1 AED'000	Level 3 AED'000	Total AED'000
As at 30 June 2014			
Available-for-sale financial assets	26,737	-	26,737
As at 31 December 2013			
Available-for-sale financial assets	-	25,381	25,381

The carrying value less impairment provision of trade receivables are assumed to approximate their fair values keeping in view the period over which these are expected to be realised. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments. Other receivables and payables approximate their fair values.
