**Focus:** Although the fund may participate in markets throughout the Gulf Cooperative Countries ('GCC'), its investments will be primarily focused on publicly traded equities of UAE firms with large capitalization, which present a steady and recurrent track record of earnings growth and have a potential for capital appreciation.

**Management Style:** The key investment criteria are the company's financial strengths, competitiveness, profitability, growth prospects and quality of management. The allocation will be based on fundamental research and will incorporate a blend of top-down and a bottom-up analytical approach.

**Objective:** The fund aims to provide long-term capital appreciation through investing in equity securities publicly traded, primarily in the UAE, and, to a lesser extent, in other GCC markets.

**Suitability:** Units of the Fund are speculative and involve a high degree of risk. The Fund is therefore designed for sophisticated investors who are able to understand the risks involved in emerging markets' equity investments, particularly in the GCC equities.

### Fund Performance since Inception
