Independent auditors' report

To the shareholders of
National Industries Group Holding – KPSC
Kuwait

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of National Industries Group Holding – Kuwaiti Public Shareholding Company (the “Parent Company”) and Subsidiaries, (collectively the “Group”), which comprise the consolidated statement of financial position as at 31 December 2016, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2016, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ *Code of Ethics for Professional Accountants* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below as the key audit matters.

Valuation of investments held at fair value

The Group invests in various assets classes, of which 47% of the total assets represent investments carried at fair value and classified either as investments at fair value through profit or loss or as available for sale investments. These investments are fair valued on a basis considered most appropriate by the management, depending on the nature of the investment, and the valuation is performed by the Group using a fair value hierarchy as detailed in note 35.3. 40% of these investments are carried at fair value based on Level 1 valuations, and the balance 60% of these investments are carried at fair value either based on Level 2 or Level 3 valuations. Fair value measurement can be a subjective area and more so for the investments classified under level 2 and level 3 since these are valued using inputs other than quoted prices in an active market. Given the inherent subjectivity in valuation of investments classified under level 2 and level 3, we determined this to be a key audit matter. Refer to Note 5.13.2, 5.13.6, 6.1, 6.2, 19, 23 and 35.3 for more information on fair valuation of available for sale investments and investments at fair value through statement of profit or loss.

Independent auditors' report to the shareholders of National Industries Group Holding – KPSC (continued)

Key Audit Matters (continued)

Valuation of investments held at fair value (continued)

Our audit procedures included, among others, documenting and assessing the processes in place to fair value the investment portfolio. Agreeing the carrying value of the investments to the Group's internal or external valuations prepared using valuation techniques, assessing and challenging the appropriateness of estimates, assumptions and valuation methodology and obtaining supporting documentation and explanations to corroborate the valuations.

Impairment of investments in associates

The Group's investments in associates represent 28% of the total assets and are accounted for under the equity method of accounting and considered for impairment in case of indication of impairment. The investment in associates is significant to our audit due to the Group's share of results in the associates and the carrying value of these associates. In addition significant management judgment and number of assumptions are required in the assessment of impairment, including the determination of the recoverable value of the investment based on its value-in-use, in case there is a significant or prolonged decline in value based on published price quotes.

Further, the projected future cash flows and discount rates used by the Group in determining the investment's value in use are also subject to estimation uncertainty and sensitivity. Accordingly, we considered this as a key audit matter. Refer note 5.4, 6.1, 6.2, and 17 for more information on investment in associates.

Our audit procedures included, among others, evaluating management's consideration of the impairment indicators of investment in associates. In evaluating such consideration, we assessed whether any significant or prolonged decline in value exists, whether there are any significant adverse changes in the technological, market, economic or legal environment in which the associate operates, or structural changes in the field of industry in which the investee company operates, or changes in the political or legal environment effecting the investees business, and also whether there are any changes in the investees financial condition. We also reviewed management's assessment of the recoverable value of the investment including the reasonability of the cashflow projections and discount rates used in the value in use calculation for associates, where there was a significant or prolonged decline in value.

Valuations of investment properties

The Group's investment properties represent 5% of the total assets and comprise of land and rental buildings located in Kuwait, other Middle East countries and United Kingdom. The Groups policy is that property valuations are performed at year end by external valuers, as detailed in note 35.4. These valuations are based on number of assumptions, including estimated rental revenues, capitalization yields, historical transactions, market knowledge, occupancy rates and cost of construction. Given the fact that the fair value of the investment properties represents a significant judgment area and the valuations are highly dependent on estimates we determined this to be a key audit matter. Refer to Note 5.11, 6.1, 6.2, 18 and 35.4 for more information on the valuation of the Investment Properties.

Our audit procedures included, among others, assessing the appropriateness of management's process for reviewing and assessing the work of the external valuers and their valuations including management's consideration of competence and independence of the external valuers. We reviewed the valuation reports from the external valuers and agreed them to the carrying value of the properties. We assessed the appropriateness of the valuation methodologies used in assessing the fair value of the investment properties including discussions with the management on the estimates, assumptions and valuation methodology used in assessing the fair value of investment properties. We furthermore assessed that the property related data (i.e rental income and occupancy) used as input for the external valuations is consistent with information obtained during our audit.

Independent auditors' report to the shareholders of National Industries Group Holding – KPSC (continued)

Key Audit Matters (continued)

Other information included in the Group's 2016 annual report

Management is responsible for the other information. Other information consists of the information included in the Annual Report of the Group for the year ended 31 December 2016 other than the consolidated financial statements and our auditors' report thereon. We obtained the report of the Parent Company's Board of Directors, prior to the date of our auditors' report and we expect to obtain the remaining sections of the Group's Annual Report for the year ended 31 December 2016 after the date of our auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we have obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Independent auditors' report to the shareholders of National Industries Group Holding – KPSC (continued)

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion, proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No. 1 of 2016 and its Executive Regulations, as amended, and by the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law, the Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the year ended 31 December 2016 that might have had a material effect on the business or financial position of the Parent Company.

Additions to investment properties		(8,973)	(4,494)
Investment in associates		(2,182)	(3,922)
Dividend received from associate companies		9,286	10,676
Proceeds from capital reduction/disposal of associates		3,108	4,836
Acquisition of new subsidiary net of cash & bank balances	7.3	(777)	-
Increase in wakala investments maturing after three months		(164)	(402)
Decrease in blocked deposits		-	2,512
Purchase of available for sale investments		(17,785)	(11,279)
Proceeds from sale of available for sale investments		24,392	64,220
Dividend income received from available for sale investments		6,259	14,387
Interest/profit on bank balances, short-term deposits, wakala and murabaha investments		533	336
Net cash from investing activities		17,138	68,371
FINANCING ACTIVITIES			
Finance lease payments		(269)	(257)
Issue of bonds		25,000	-
Net decrease in long-term borrowings		(49,210)	(42,899)
Net (decrease)/increase in short-term borrowings		(1,899)	38,227
Dividend paid to the owners of the parent		(13,834)	(15,026)
Finance costs paid		(28,200)	(28,076)
Change in non-controlling interests		(178)	(1,048)
Net cash used in financing activities		(68,590)	(49,079)
Net (decrease)/increase in cash and cash equivalents		(18,208)	4,063
Translation difference		(187)	183
Cash and cash equivalents at beginning of the year		(18,395)	4,246
		39,804	35,558
Cash and cash equivalents at end of the year	31	21,409	39,804

The notes set out on pages 12 to 83 form an integral part of these consolidated financial statements.

Notes to the consolidated financial statements

1 Incorporation and activities

National Industries Group Holding – KPSC (“the Parent Company”) was incorporated in 1961 as a Kuwaiti shareholding company in accordance with the Commercial Companies Law in the State of Kuwait and in April 2003, its status was transformed to a “Holding Company”. The Parent Company along with its subsidiaries are jointly referred to as “the Group”. The Parent Company’s shares are traded on the Kuwait Stock Exchange and Dubai Financial Market.

The main objectives of the Parent Company are as follows:

- Owning stocks and shares in Kuwaiti or non-Kuwaiti shareholding companies and shares in Kuwaiti or non-Kuwaiti limited liability companies and participating in the establishment of, lending to and managing of these companies and acting as a guarantor for these companies.
- Lending money to companies in which it owns 20% or more of the capital of the borrowing company, along with acting as guarantor on behalf of these companies.
- Owning industrial equities such as patents, industrial trademarks, royalties, or any other related rights, and franchising them to other companies or using them within or outside the State of Kuwait.
- Owning real estate and moveable property to conduct its operations within the limits as stipulated by law.
- Employing excess funds available with the group by investing them in investment and real estate portfolios managed by specialised companies.

The address of the parent company’s registered office is PO Box 417, Safat 13005, State of Kuwait.

The new Companies Law No. 1 of 2016 was issued on 24 January 2016 and published in the Official Gazette on 1 February 2016 which cancelled Law No. 25 of 2012 and its amendments thereto, as stipulated in article (5) thereto. The new Law will be effective retrospectively from 26 November 2012. The Executive Regulations of Law No. 1 of 2016 were issued on 12 July 2016.

The board of directors of the Parent Company approved these consolidated financial statements for issuance on 30 March 2017. The general assembly of the Parent Company’s shareholders has the power to amend these consolidated financial statements after issuance.

2 Basis of preparation

The consolidated financial statements are prepared under the historical cost convention modified to include the revaluation of freehold and leasehold properties, the measurement at fair value of investments at fair value through profit or loss, available for sale financial assets and investment properties.

The consolidated financial statements are presented in Kuwaiti Dinars (KD) and all values are rounded to the nearest thousand (KD ‘000), except when otherwise indicated.

3 Statement of compliance

These consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (“IFRS”) promulgated by the International Accounting Standards Board (“IASB”), and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) of the IASB.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies

4.1 New and amended standards adopted by the Group

A number of new and revised standards are effective for annual periods beginning on or after 1 January 2016 which have been adopted by the Group but did not have any significant impact on the consolidated financial position or the results for the year. Information on these new standards is presented below:

<i>Standard or Interpretation</i>	<i>Effective for annual periods beginning</i>
IFRS 11 Accounting for Acquisitions of Interests in Joint Operations - Amendments	1 January 2016
IAS 1 Disclosure Initiative - Amendments	1 January 2016
IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation - Amendments	1 January 2016
IAS 27 Equity Method in Separate Financial Statements - Amendments	1 January 2016
IFRS 10, IFRS 12 and IAS 28 Investment Entities: Applying the Consolidation Exception - Amendments	1 January 2016
Annual Improvements to IFRSs 2012–2014 Cycle	1 January 2016

IFRS 11 Accounting for Acquisitions of Interests in Joint Operations - Amendments

Amendments to IFRS 11 Joint Arrangements require an acquirer of an interest in a joint operation in which the activity constitutes a business (as defined in IFRS 3 Business Combinations) to apply all of the business combinations accounting principles in IFRS 3 and other IFRSs, except for those principles that conflict with the guidance in IFRS 11. It also requires disclosure of the information required by IFRS 3 and other IFRSs for business combinations.

The amendments apply both to the initial acquisition of an interest in joint operation, and the acquisition of an additional interest in a joint operation (in the latter case, previously held interests are not remeasured). The amendments apply prospectively to acquisitions of interests in joint operations.

IAS 1 Disclosure Initiative – Amendments

The Amendments to IAS 1 make the following changes:

- **Materiality:** The amendments clarify that (1) information should not be obscured by aggregating or by providing immaterial information, (2) materiality considerations apply to the all parts of the financial statements, and (3) even when a standard requires a specific disclosure, materiality considerations do apply.
- **Statement of financial position and statement of profit or loss and other comprehensive income:** The amendments (1) introduce a clarification that the list of line items to be presented in these statements can be disaggregated and aggregated as relevant and additional guidance on subtotals in these statements and (2) clarify that an entity's share of OCI of equity-accounted associates and joint ventures should be presented in aggregate as single line items based on whether or not it will subsequently be reclassified to profit or loss.
- **Notes:** The amendments add additional examples of possible ways of ordering the notes to clarify that understandability and comparability should be considered when determining the order of the notes and to demonstrate that the notes need not be presented in the order so far listed in paragraph 114 of IAS 1. The IASB also removed guidance and examples with regard to the identification of significant accounting policies that were perceived as being potentially unhelpful.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.1 New and amended standards adopted by the Group (continued)

IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation - Amendments

Amendments to IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets address the following matters:

- a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment
- an amortisation method that is based on the revenue generated by an activity that includes the use of an intangible asset is generally inappropriate except for limited circumstances
- expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which, in turn, might reflect a reduction of the future economic benefits embodied in the asset.

IAS 27 Equity Method in Separate Financial Statements - Amendments

The Amendments to IAS 27 Separate Financial Statements permit investments in subsidiaries, joint ventures and associates to be optionally accounted for using the equity method in separate financial statements.

IFRS 10, IFRS 12 and IAS 28 Investment Entities: Applying the Consolidation Exception - Amendments

The Amendments are aimed at clarifying the following aspects:

- *Exemption from preparing consolidated financial statements.* The amendments confirm that the exemption from preparing consolidated financial statements for an intermediate parent entity is available to a parent entity that is a subsidiary of an investment entity, even if the investment entity measures all of its subsidiaries at fair value.
- *A subsidiary providing services that relate to the parent's investment activities.* A subsidiary that provides services related to the parent's investment activities should not be consolidated if the subsidiary itself is an investment entity.
- *Application of the equity method by a non-investment entity investor to an investment entity investee.* When applying the equity method to an associate or a joint venture, a non-investment entity investor in an investment entity may retain the fair value measurement applied by the associate or joint venture to its interests in subsidiaries.
- *Disclosures required.* An investment entity measuring all of its subsidiaries at fair value provides the disclosures relating to investment entities required by IFRS 12.

Annual Improvements to IFRSs 2012–2014 Cycle

- Amendments to IFRS 5* - Adds specific guidance in IFRS 5 for cases in which an entity reclassifies an asset from held for sale to held for distribution or vice versa and cases in which held-for-distribution accounting is discontinued
- Amendments to IFRS 7* - Additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset, and clarification on offsetting disclosures in condensed interim financial statements
- Amendments to IAS 19* - Clarify that the high quality corporate bonds used in estimating the discount rate for post-employment benefits should be denominated in the same currency as the benefits to be paid
- Amendments to IAS 34* - Clarify the meaning of 'elsewhere in the interim report' and require a cross-reference

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective

At the date of authorisation of these consolidated financial statements, certain new standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Group.

Management anticipates that all of the relevant pronouncements will be adopted in the Group's accounting policies for the first period beginning after the effective date of the pronouncements. Information on new standards, amendments and interpretations that are expected to be relevant to the Group's consolidated financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Group's consolidated financial statements.

<i>Standard or Interpretation</i>	<i>Effective for annual periods beginning</i>
IAS 7 Statement of Cash Flows- Amendments	1 January 2017
IAS 12 Income Taxes - Amendments	1 January 2017
IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments	No stated date
IFRS 2 Share-based Payment- Amendments	1 January 2018
IFRS 9 Financial Instruments: Classification and Measurement	1 January 2018
IFRS 15 Revenue from Contracts with Customers	1 January 2018
IFRS 16 Leases	1 January 2019
IAS 40 Investment Property - Amendments	1 January 2018
Annual Improvements to IFRSs 2014-2016 Cycle	1 January 2017 and 2018
IFRIC 22 Foreign Currency Transactions and Advance Consideration	1 January 2018

IAS 7 Statement of Cash Flows- Amendments

The Amendments are designed to improve the quality of information provided to users of financial statements about changes in an entity's debt and related cash flows (and noncash changes)

The Amendments are designed to improve the quality of information provided to users of financial statements about changes in an entity's debt and related cash flows (and noncash changes)

The Amendments:

- require an entity to provide disclosures that enable users to evaluate changes in liabilities arising from financing activities. An entity applies its judgement when determining the exact form and content of the disclosures needed to satisfy this requirement
- suggest a number of specific disclosures that may be necessary in order to satisfy the above requirement, including:
 - changes in liabilities arising from financing activities caused by changes in financing cash flows, foreign exchange rates or fair values, or obtaining or losing control of subsidiaries or other businesses
 - a reconciliation of the opening and closing balances of liabilities arising from financing activities in the statement of financial position including those changes identified immediately above.

The amendments are not expected to have any material impact on the Group's consolidated financial statements.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IAS 12 Income Taxes - Recognition of Deferred Tax Assets for Unrealised Losses - Amendments

The Amendments to IAS 12 make the following changes:

- Unrealised losses on debt instruments measured at fair value and measured at cost for tax purposes give rise to a deductible temporary difference regardless of whether the debt instrument's holder expects to recover the carrying amount of the debt instrument by sale or by use.
- The carrying amount of an asset does not limit the estimation of probable future taxable profits.
- Estimates for future taxable profits exclude tax deductions resulting from the reversal of deductible temporary differences.
- An entity assesses a deferred tax asset in combination with other deferred tax assets. Where tax law restricts the utilisation of tax losses, an entity would assess a deferred tax asset in combination with other deferred tax assets of the same type

The Group's management has yet to assess the impact of this on these Group consolidated financial statements.

IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments

The Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) clarify the treatment of the sale or contribution of assets from an investor to its associate or joint venture, as follows:

- require full recognition in the investor's financial statements of gains and losses arising on the sale or contribution of assets that constitute a business (as defined in IFRS 3 Business Combinations)
- require the partial recognition of gains and losses where the assets do not constitute a business, i.e. a gain or loss is recognised only to the extent of the unrelated investors' interests in that associate or joint venture.

These requirements apply regardless of the legal form of the transaction, e.g. whether the sale or contribution of assets occurs by an investor transferring shares in a subsidiary that holds the assets (resulting in loss of control of the subsidiary), or by the direct sale of the assets themselves.

IASB has postponed the effective date indefinitely until other projects are completed. However, early implementation is allowed.

These amendments are not expected to have any material impact on the Group's consolidated financial statements.

IFRS 2 Share-Based Payment- Classification and Measurement

The amendments relate to clarification on the following:

- IFRS does not specifically address the impact of vesting and non-vesting conditions on the measurement of the fair value of the liability incurred in a cash-settled share-based payment transaction. The Amendments address this lack of guidance by clarifying that accounting for these conditions should be accounted for consistently with equity-settled share-based payments in IFRS 2
- The amendment adds guidance to IFRS 2 to the effect that a scheme with compulsory net-settlement feature would be classified as equity-settled in its entirety (assuming it would be so classified without the net settlement feature); and
- The amendment addresses the accounting for a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

These amendments are not expected to have any material impact on the Group's consolidated financial statements.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IFRS 9 Financial Instruments

The IASB published IFRS 9 'Financial Instruments' (2014), representing the completion of its project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. The new standard introduces extensive changes to IAS 39's guidance on the classification and measurement of financial assets and introduces a new 'expected credit loss' model for the impairment of financial assets. IFRS 9 also provides new guidance on the application of hedge accounting.

Management has started to assess the impact of IFRS 9 but is not yet in a position to provide quantified information. At this stage the main areas of expected impact are as follows:

- the classification and measurement of the financial assets will need to be reviewed based on the new criteria that considers the assets' contractual cash flows and the business model in which they are managed.
- an expected credit loss-based impairment will need to be recognised on the trade receivables and investments in debt-type assets currently classified as available for sale and held-to-maturity, unless classified as at fair value through profit or loss in accordance with the new criteria.
- it will no longer be possible to measure equity investments at cost less impairment and all such investments will instead be measured at fair value. Changes in fair value will be presented in profit or loss unless an irrevocable designation is made to present them in other comprehensive income.
- if the fair value option continues to be elected for certain financial liabilities, fair value movements will be presented in other comprehensive income to the extent those changes relate to own credit risk.

Although earlier application of this standard is permitted, the Technical Committee of the Ministry of Commerce and Industry of Kuwait decided on 30 December 2009, to postpone this early application till further notice.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 replaced IAS 18 "Revenues", IAS 11 "Construction Contract" and several revenue – related Interpretations and provides a new control-based revenue recognition model using five-step approach to all contracts with customers.

The five steps in the model are as follows:

- Identify the contract with the customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contracts
- Recognise revenue when (or as) the entity satisfies a performance obligation.

The standard includes important guidance, such as

- Contracts involving the delivery of two or more goods or services – when to account separately for the individual performance obligations in a multiple element arrangement, how to allocate the transaction price, and when to combine contracts
- Timing – whether revenue is required to be recognized over time or at a single point in time

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IFRS 15 Revenue from Contracts with Customers (continued)

- Variable pricing and credit risk – addressing how to treat arrangements with variable or contingent (e.g. performance-based) pricing, and introducing an overall constraint on revenue
- Time value – when to adjust a contract price for a financing component
- Specific issues, including –
 - non-cash consideration and asset exchanges
 - contract costs
 - rights of return and other customer options
 - supplier repurchase options
 - warranties
 - principal versus agent
 - licencing
 - breakage
 - non-refundable upfront fees, and
 - consignment and bill-and-hold arrangements.

The Group's management has yet to assess the impact of IFRS 15 on these Group consolidated financial statements.

IFRS 16 Leases

IFRS 16 will replace IAS 17 and three related Interpretations. Leases will be recorded on the statement of financial position in the form of a right-of-use asset and a lease liability.

Management is yet to fully assess the impact of the Standard and therefore is unable to provide quantified information. However, in order to determine the impact, management is in the process of:

- performing a full review of all agreements to assess whether any additional contracts will now become a lease under IFRS 16's new definition
- deciding which transitional provision to adopt; either full retrospective application or partial retrospective application (which means comparatives do not need to be restated). The partial application method also provides optional relief from reassessing whether contracts in place are, or contain, a lease, as well as other reliefs. Deciding which of these practical expedients to adopt is important as they are one-off choices
- assessing their current disclosures for finance and operating leases as these are likely to form the basis of the amounts to be capitalised and become right-of-use assets
- determining which optional accounting simplifications apply to their lease portfolio and if they are going to use these exemptions
- assessing the additional disclosures that will be required.

The Group's management has yet to assess the impact of IFRS 16 on these Group consolidated financial statements.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IFRS 40 Investment Property - Amendments

The Amendments to IAS 40 clarifies that transfers to, or from, investment property are required when, and only when, there is a change in use of property supported by evidence. The amendments also re-characterise the list of circumstances appearing in paragraph 57(a)–(d) as a non-exhaustive list of examples of evidence that a change in use has occurred. The Board has also clarified that a change in management's intent, by itself, does not provide sufficient evidence that a change in use has occurred. Evidence of a change in use must be observable.

These amendments are not expected to have any material impact on the Group's consolidated financial statements.

Annual Improvements to IFRSs 2014-2016 Cycle

(i) *Amendments to IFRS 12* - Clarifies the scope of IFRS 12 by specifying that its disclosure requirements (except for those in IFRS 12. B17) apply to an entity's interests irrespective of whether they are classified (or included in a disposal group that is classified) as held for sale or as discontinued operations in accordance with IFRS 5. Amendment is effective for annual periods beginning on or after 1 January 2017.

(ii) *Amendments to IAS 28* - Clarifies that a qualifying entity is able to choose between applying the equity method or measuring an investment in an associate or joint venture at fair value through profit or loss, separately for each associate or joint venture at initial recognition of the associate or joint venture. Amendment is effective for annual periods beginning on or after 1 January 2018.

These amendments are not expected to have any material impact on the Group's consolidated financial statements.

IFRIC 22 Foreign Currency Transactions and Advance Consideration

The Interpretations looks at what exchange rate to use for translation when payments are made or received in advance of the related asset, expense or income. A diversity was observed in practice in circumstances in which an entity recognises a non-monetary liability arising from advance consideration. The diversity resulted from the fact that some entities were recognising revenue using the spot exchange rate at the date of the receipt of the advance consideration while others were using the spot exchange rate at the date that revenue was recognized. IFRIC 22 addresses this issue by clarifying that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration.

These amendments are not expected to have any material impact on the Group's consolidated financial statements.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies

The significant accounting policies and measurements bases adopted in the preparation of the consolidated financial statements are summarised below:

5.1 Basis of consolidation

The Group financial statements consolidate those of the Parent Company and all of its subsidiaries. Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group and they are deconsolidated from the date that control ceases. The financial statements of the subsidiaries are prepared for reporting dates which are typically not more than three months from that of the Parent Company, using consistent accounting policies. Adjustments are made for the effect of any significant transactions or events that occur between that date and the reporting date of the Parent Company's financial statements. The details of the significant subsidiaries are set out in Note 7 to the consolidated financial statements.

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from a Group perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognised from the date the Group gains control, or until the date the Group ceases to control the subsidiary, as applicable.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's profit or loss and net assets that is not held by the Group. The Group attributes total comprehensive income or loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests. Losses within a subsidiary are attributed to the non-controlling interests even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interests
- Derecognizes the cumulative translation differences, recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Group has directly disposed of the related assets or liabilities.

5.2 Business combinations

The Group applies the acquisition method in accounting for business combinations. The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred, liabilities incurred and the equity interests issued by the Group, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition costs are expensed as incurred. For each business combination, the acquirer measures the non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.2 Business combinations (continued)

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

The Group recognises identifiable assets acquired and liabilities assumed in a business combination regardless of whether they have been previously recognised in the acquiree's financial statements prior to the acquisition. Assets acquired and liabilities assumed are generally measured at their acquisition-date fair values. When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be asset or liability will be recognised in accordance with IAS 39 either in profit or loss or as change to other comprehensive income. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within other comprehensive income.

Goodwill is stated after separate recognition of identifiable intangible assets. It is calculated as the excess of the sum of a) fair value of consideration transferred, b) the recognised amount of any non controlling interest in the acquiree and c) acquisition-date fair value of any existing equity interest in the acquiree, over the acquisition-date fair values of identifiable net assets. If the fair values of identifiable net assets exceed the sum calculated above, the excess amount (i.e. gain on a bargain purchase) is recognised in profit or loss immediately.

5.3 Goodwill and intangible assets

5.3.1 Goodwill

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. See note 0 for information on how goodwill is initially determined. Goodwill is carried at cost less accumulated impairment losses. Refer to note 5.13 for a description of impairment testing procedures.

5.3.2 Intangible assets

Identifiable non-monetary assets acquired in a business combination and from which future benefits are expected to flow are treated as intangible assets. Intangible assets comprise of Indefeasible Rights of Use (IRU).

Intangible assets which have a finite life are amortized over their useful lives. For acquired network businesses whose operations are governed by fixed term licenses, the amortisation period is determined primarily by reference to the unexpired license period and the conditions for license renewal.

IRU are the rights to use a portion of the capacity of a terrestrial or submarine transmission cable granted for a fixed period. IRUs are recognised at cost as an asset when the Group has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibres or dedicated wave length bandwidth and the duration of the right is for the major part of the underlying asset's economic life. They are amortised on a straight line basis over the shorter of the expected period of use and the life of the contract which ranges between 10 to 15 years.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.4 Investment in associates

Associates are those entities over which the Group is able to exert significant influence but which are neither subsidiaries nor joint ventures. Investments in associates are initially recognised at cost and subsequently accounted for using the equity method. Any goodwill or fair value adjustment attributable to the Group's share in the associate is not recognised separately and is included in the amount recognised as investment in associates.

Under the equity method, the carrying amount of the investment in associates is increased or decreased to recognise the Group's share of the profit or loss and other comprehensive income of the associate, adjusted where necessary to ensure consistency with the accounting policies of the Group.

Unrealised gains and losses on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in those entities. Where unrealised losses are eliminated, the underlying asset is also tested for impairment.

The share of results of an associate is shown on the face of the consolidated statements of profit or loss. This is the profit attributable to equity holders of the associate and therefore is profit after tax and non-controlling interests in the subsidiaries of the associate.

The difference in reporting dates of the associates and the Group is not more than three months. Adjustments are made for the effects of significant transactions or events that occur between that date and the date of the Group's consolidated financial statements. The associate's accounting policies conform to those used by the Group for like transactions and events in similar circumstances.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group's investment in its associate. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount under a separate heading in the consolidated statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any differences between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal are recognised in the consolidated statement of profit or loss.

5.5 Segment reporting

The Group has four operating segments: Investment, building materials, specialist engineering and hotel and IT services segments. In identifying these operating segments, management generally follows the Group's service lines representing its main products and services. Each of these operating segments is managed separately as each requires different approaches and other resources.

For management purposes, the Group uses the same measurement policies as those used in its financial statements. In addition, assets or liabilities which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.6 Revenue

Revenue arises from the sale of goods, rendering of services, investing activities and real estate activities. It is measured by reference to the fair value of consideration received or receivable, excluding sales taxes, rebates and trade discounts.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when payment is made. The following specific recognition criteria should also be met before revenue is recognised;

5.6.1 Sale of goods

Sale of goods is recognised when the Group has transferred to the buyer the significant risks and rewards of ownership, generally when the customer has taken undisputed delivery of the goods.

Revenue from the sale of goods with no significant service obligation is recognised on delivery.

When goods are sold together with customer loyalty incentives, the consideration receivable is allocated between the sale of goods and sale of incentives based on their fair values. Revenue from sale of incentives is recognised when they are redeemed by customers in exchange for products supplied by the Group.

5.6.2 Rendering of services

The Group generates revenues from after-sales service and maintenance, consulting and construction contracts. Consideration received for these services is initially deferred, included in other liabilities and is recognised as revenue in the period when the service is performed.

In recognising after-sales service and maintenance revenues, the Group considers the nature of the services and the customer's use of the related products, based on historical experience.

The Group also earns rental income from operating leases of its investment properties. Rental income is recognised on a straight-line basis over the term of the lease.

The Group earns fees and commission income from diverse range of asset management, investment banking, custody and brokerage services provided to its customers. Fee income can be divided into the following two categories:

- *Fee income earned from services that are provided over a certain period of time*

Fees earned for the provision of services over a period of time are accrued over that period. These fees include commission income and asset management, custody and other management fees.

- *Fee income from providing transaction services*

Fees arising for rendering specific advisory services, brokerage services, equity and debt placement transactions for a third party or arising from negotiating or participating in the negotiation of a transaction for a third party are recognised on completion of the underlying transaction.

5.6.3 Interest and similar income

Interest income and expenses are reported on an accrual basis using the effective interest method.

Murabaha income is recognised on a time proportion basis so as to yield a constant periodic rate of return based on the balance outstanding.

5.6.4 Dividend income

Dividend income, other than those from investments in associates, are recognised at the time the right to receive payment is established.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.6 Revenue (continued)

5.6.5 Revenue from sale of investment properties

Revenue from sale of investment properties is recognised on completion of sale contract and after transferring the risk and rewards associated with the real estate to the purchaser and the amount of revenue can be reliably measured.

5.7 Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or at the date of their origin.

5.8 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

5.9 Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost or valuation less accumulated depreciation and impairment losses. Depreciation is calculated to write off the cost or valuation, less the estimated residual value of property, plant and equipment, on a straight-line basis over their estimated useful lives as follows:

Freehold buildings	Lower of 50 years or remaining useful life
Long leasehold property	Lower of 50 years or remaining lease term
Short leasehold property	Lease term
Property on leasehold land	4 to 20 years
Plant and machinery	1 to 20 years
Motor vehicles	2 to 10 years
Furniture and equipment	3 to 10 years

Any increase arising on revaluation is credited directly to other comprehensive income as “revaluation reserve” except to the extent where the increase reverses a revaluation decrease related to the same asset for which a decrease in valuation has previously been recognised as an expense, it is credited to the consolidated statement of income. Any decrease in the net carrying amount arising on revaluation is charged directly to the consolidated statement of income, or charged to the revaluation reserve to the extent that the decrease is related to an increase for the same asset which was previously recorded as a credit to the revaluation surplus.

Depreciation on the re-valued properties is charged to the consolidated statement of income over their remaining estimated useful lives and an amount equivalent to the excess depreciation charge relating to the increase in carrying amount is transferred each year from the revaluation reserve to retained earnings.

No depreciation is provided on freehold land. Properties in the course of construction for production or administrative purposes are carried at cost, less any recognised impairment loss. Depreciation of these assets, which is on the same basis as other property assets, commences when the assets are ready for their intended use.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.10. Leased assets

5.10.1. Finance lease

The economic ownership of a leased asset is transferred to the lessee if the lessee bears substantially all the risks and rewards of ownership of the leased asset. Where the Group is a lessee in this type of arrangement, the related asset is recognised at the inception of the lease at the fair value of the leased asset or, if lower, the present value of the lease payments plus incidental payments, if any. A corresponding amount is recognised as a finance lease liability. Leases of land and buildings are classified separately and are split into a land and a building element, in accordance with the relative fair values of the leasehold interests at the date the asset is recognised initially.

See note 5.9 for the depreciation methods and useful lives for assets held under finance lease. The corresponding finance lease liability is reduced by lease payments net of finance charges. The interest element of lease payments represents a constant proportion of the outstanding capital balance and is charged to profit or loss, as finance costs over the period of the lease.

5.10.2. Operating lease

All other leases are treated as operating leases. Where the Group is a lessee, payments on operating lease agreements are recognised as an expense on a straight-line basis over the lease term except where the lease terms are onerous in which case the provision is made for the net present value of the probable liability. Associated costs, such as maintenance and insurance, are expensed as incurred.

5.11. Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation, and are accounted for using the fair value model.

Investment properties are initially measured at cost, including transaction costs. Subsequently, investment properties are re-measured at fair value on an individual basis based on valuations by independent real estate valuers and are included in the consolidated statement of financial position. Changes in fair value are taken to the consolidated statement of profit or loss.

Investment properties are de-recognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the consolidated statement of income in the year of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

5.12. Impairment testing of goodwill and non financial assets

For impairment assessment purposes, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which management monitors goodwill.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.12 Impairment testing of goodwill and non financial assets (continued)

Cash-generating units to which goodwill has been allocated (determined by the Group's management as equivalent to its operating segments) are tested for impairment at least annually. All other individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is the higher of fair value less costs to sell and value-in-use. To determine the value-in-use, management estimates expected future cash flows from the asset or each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of future reorganisations and asset enhancements.

Discount factors are determined individually for each asset or cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risks factors.

Impairment losses for cash-generating units reduce first the carrying amount of any goodwill allocated to that cash-generating unit. Any remaining impairment loss is charged pro rata to the other assets in the cash-generating unit. With the exception of goodwill, all assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment charge is reversed if the cash-generating unit's recoverable amount exceeds its carrying amount.

5.13. Financial instruments

5.13.1. Recognition, initial measurement and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below.

All 'regular way' purchases and sales of financial assets are recognised on the trade date i.e. the date that the entity commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

A financial asset (or, where applicable a part of financial asset or part of group of similar financial assets) is primarily derecognised when:

- rights to receive cash flows from the assets have expired;
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either
 - (a) the Group has transferred substantially all the risks and rewards of the asset or
 - (b) the Group has neither transferred nor retained substantially all risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.13. Financial instruments (continued)

5.13.1. Recognition, initial measurement and derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in consolidated statement of profit or loss.

5.13.2. Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- loans and receivables
- financial assets at fair value through profit or loss (FVTPL)
- held-to-maturity (HTM) investments
- available-for-sale (AFS) financial assets.

All financial assets except for those at FVTPL are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

All material income and expenses relating to financial assets that are recognised in profit or loss are presented within income from investments, interest & other income or under a separate heading in the consolidated statement of profit or loss.

• *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest rate method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets.

Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default. Receivables that are not considered to be individually impaired are reviewed for impairment in groups, which are determined by reference to the industry and region of a counterparty and other shared credit risk characteristics. The impairment loss estimate is then based on recent historical counterparty default rates for each identified group.

The Group categorises loans and receivables into following categories:

• *Murabaha investments/ receivables*

Murabaha is an Islamic transaction involving the purchase and immediate sale of an asset at cost plus an agreed profit. The amount due is settled on a deferred payment basis. When the credit risk of the transaction is attributable to a financial institution, the amount due under Murabaha contracts is classified as a Murabaha investment. Whereas, when the credit risk of transaction is attributable to counterparties other than banks and financial institutions, the amount due is classified as Murabaha receivable.

Murabaha receivables which arise from the Group's financing of long-term transactions on an Islamic basis are classified as Murabaha receivables originated by the Group and are carried at the principal amount less provision for credit risks to meet any decline in value. Third party expenses such as legal fees, incurred in granting a Murabaha are treated as part of the cost of the transaction.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.13. Financial instruments (continued)

5.13.2. Classification and subsequent measurement of financial assets (continued)

All Murabaha receivables are recognized when the legal right to control the use of the underlying asset is transferred to the customer.

- *Wakala investments*

Wakala is an agreement whereby the Group provides a sum of money to a financial institution under an agency arrangement, who invests it according to specific conditions in return for a fee. The agent is obliged to return the amount in case of default, negligence or violation of any terms and conditions of the Wakala.

- *Loans and advances*

Loans and advances are financial assets originated by the Group by providing money directly to the borrower that have fixed or determinable payments and are not quoted in an active market.

- *Bank balances cash and Short term deposits*

Cash on hand and demand deposits are classified under bank balances and cash and short term deposits represent deposits placed with financial institutions with a maturity of less than one year.

- *Receivables and other financial assets*

Trade receivables are stated at original invoice amount less allowance for any uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

Loans and receivables which are not categorised under any of the above are classified as "Other receivables/Other financial assets"

- *Financial assets at FVTPL*

Classification of investments as financial assets at FVTPL depends on how management monitors the performance of these investments. Investments at FVTPL are either "held for trading" or "designated" as such on initial recognition.

The Group classifies investments as trading if they are acquired principally for the purpose of selling or are a part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit taking. When they are not classified as held for trading but have readily available reliable fair values and the changes in fair values are reported as part of statement of profit or loss in the management accounts, they are as designated at FVTPL upon initial recognition.

All derivative financial instruments fall into the category of FVTPL, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply. Assets and liabilities in this category are measured at fair value with gains or losses recognised in consolidated statement of profit or loss.

Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists. Assets in this category are classified as current assets if expected to be settled within 12 months; otherwise, they are classified as non-current.

- *HTM investments*

HTM investments are non-derivative financial assets with fixed or determinable payments and fixed maturity other than loans and receivables. Investments are classified as HTM if the Group has the intention and ability to hold them until maturity.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.13. Financial instruments (continued)

5.13.2. Classification and subsequent measurement of financial assets (continued)

- **HTM investments (continued)**

HTM investments are measured subsequently at amortised cost using the effective interest method. If there is objective evidence that the investment is impaired, determined by reference to external credit ratings, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognised in profit or loss. The Group currently has not classified any assets in to this category.

- **AFS financial assets**

AFS financial assets are non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets.

Financial assets whose fair value cannot be reliably measured are carried at cost less impairment losses, if any. Impairment charges are recognised in profit or loss. All other AFS financial assets are measured at fair value. Gains and losses are recognised in other comprehensive income and reported within the fair value reserve within equity, except for impairment losses, and foreign exchange differences on monetary assets, which are recognised in profit or loss. When the asset is disposed of or is determined to be impaired, the cumulative gain or loss recognised in other comprehensive income is reclassified from the equity reserve to profit or loss and presented as a reclassification adjustment within other comprehensive income.

The Group assesses at each reporting date whether there is objective evidence that a financial asset available for sale or a group of financial assets available for sale is impaired. In the case of equity investments classified as financial assets available for sale, objective evidence would include a significant or prolonged decline in the fair value of the equity investment below its cost. 'Significant' is evaluated against the original cost of the investment and 'prolonged' against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss is removed from other comprehensive income and recognised in the consolidated statement of profit or loss.

Reversals of impairment losses are recognised in other comprehensive income, except for financial assets that are debt securities which are recognised in profit or loss only if the reversal can be objectively related to an event occurring after the impairment loss was recognised.

AFS financial assets are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

5.13.3. Classification and subsequent measurement of financial liabilities

The Group's financial liabilities include trust certificates issued, borrowings, leasing creditors, due to banks, trade payables and other liabilities and derivative financial instruments.

The subsequent measurement of financial liabilities depends on their classification as follows:

- **Financial liabilities other than at fair value through profit or loss (FVTPL)**

These are stated at amortised cost using effective interest rate method. The Group categorises financial liabilities other than at FVTPL into the following categories:

- **Borrowings**

All borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in the consolidated statement of income when the liabilities are derecognised as well as through the effective interest rate method (EIR) amortisation process.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.13. Financial instruments (continued)

5.13.3. Classification and subsequent measurement of financial liabilities (continued)

- *Financial liabilities other than at fair value through profit or loss (FVTPL) (continued)*

- *Bonds*

Bonds are stated on the consolidated statement of financial position at their principal amount, net of directly related costs of issuing the bonds to the extent that such costs have not been amortised. These costs are amortised through the consolidated statement of profit or loss over the life of the bonds using the effective interest rate method.

Finance cost is charged as an expense as it accrues, with unpaid amounts included in accounts payable and other liabilities.

- *Wakala payables*

Wakala payables represent short-term borrowings under Islamic principles, whereby the Group receives funds for the purpose of financing its investment activities and are stated at amortised cost.

- *Murabaha finance payables*

Murabaha finance payables represent amounts payable on a deferred settlement basis for assets purchased under murabaha arrangements. Murabaha finance payables are stated at the gross amount of the payable, net of deferred finance cost. Deferred finance cost is expensed on a time apportionment basis taking into account the borrowing rate attributable and the balance outstanding.

- *Ijara financing*

Ijara finance payable ending with ownership is an Islamic financing arrangement through which a financial institution provides finance to purchase an asset by way of renting the asset ending with transferring its ownership. This ijara finance payable is stated at the gross amount of the payable, net of deferred finance cost. Deferred finance costs are expensed on a time apportionment basis taking into account the borrowing rate attributable and the balance outstanding.

- *Leasing and hire purchase payables*

Assets acquired under finance leases and hire purchase arrangements are capitalised and the related liabilities, excluding finance charges are included in liabilities. Finance charges in respect of such liabilities are charged to the consolidated statement of profit or loss as incurred.

- *Accounts payables and other financial liabilities*

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not, and classified as trade payables. Financial liabilities other than at FVTPL which are not categorised under any of the above are classified as "Other financial liabilities"

All derivative financial instruments that are not designated and effective as hedging instruments are accounted for at FVTPL.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss, are included within finance costs or other income.

- *Financial liabilities at fair value through profit or loss (FVTPL)*

Financial liabilities at FVTPL are either held for trading or designated as such on initial recognition.

Financial liabilities held for trading or designated at FVTPL, are carried subsequently at fair value with gains or losses recognised in profit or loss. All derivative financial instruments that are not designated and effective as hedging instruments are accounted for at FVTPL.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.13. Financial instruments (continued)

5.13.3. Classification and subsequent measurement of financial liabilities (continued)

- **Derivative financial instruments**

Where the Group uses derivative financial instruments, such as interest rate to mitigate its risks associated with interest rate fluctuations, such derivative financial instruments are initially recognised at cost, being the fair value on the date on which a derivative contract is entered into, and are subsequently re-measured at fair value. The fair value of a derivative is the equivalent of the unrealised gain or loss from marking to market the derivative using valuation quotes provided by financial institutions, based on prevailing market information. Derivatives, if any, are carried as assets when the fair value is positive and as liabilities when the fair value is negative. The Group does not adopt hedge accounting, and any realised and unrealised (from changes in fair value) gain or losses are recognised directly in the consolidated statement of profit or loss.

5.13.4. Amortised cost of financial instruments

This is computed using the effective interest method less any allowance for impairment. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

5.13.5. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

5.13.6. Fair value of financial instruments

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; a discounted cash flow analysis or other valuation models.

An analysis of fair values of financial instruments and further details as to how they are measured are provided in Note 35.

5.14. Inventories

Inventories are stated at the lower of cost and net realisable value. Cost includes all expenses directly attributable to the manufacturing process as well as suitable portions of related production overheads, based on normal operating capacity. Costs of ordinarily interchangeable items are assigned using the weighted average cost formula.

Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.15. Equity, reserves and dividend payments

Share capital represents the nominal value of shares that have been issued and paid up.

Share premium includes any premiums received on issue of share capital. Any transaction costs associated with the issuing of shares are deducted from share premium.

Statutory and voluntary reserves comprise appropriations of current and prior period profits in accordance with the requirements of the companies' law and the Parent Company's articles of association.

Other components of equity include the following:

- foreign currency translation reserve – comprises foreign currency translation differences arising from the translation of financial statements of the Group's foreign entities into KD and the Group's share of foreign currency translation reserves shown in the associates statement of financial position.
- Fair value reserve – comprises gains and losses relating to available for sale financial assets

Retained earnings include all current and prior period retained profits. All transactions with owners of the Parent Company are recorded separately within equity.

Dividend distributions payable to equity shareholders are included in other liabilities when the dividends have been approved in a general meeting.

5.16. Treasury shares

Treasury shares consist of the Parent Company's own issued shares that have been reacquired by the Group and not yet reissued or cancelled. The treasury shares are accounted for using the cost method. Under this method, the weighted average cost of the shares reacquired is charged to a contra account in equity.

When the treasury shares are reissued, gains are credited to a separate account in equity, (the "gain on sale of treasury shares reserve"), which is not distributable. Any realised losses are charged to the same account to the extent of the credit balance on that account. Any excess losses are charged to retained earnings then to the voluntary reserve and statutory reserve. No cash dividends are paid on these shares. The issue of stock dividend shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

5.17 Provisions, contingent assets and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

Contingent assets are not recognised in the consolidated financial statements, but are disclosed when an inflow of economic benefits is probable.

Contingent liabilities are not recognised in the consolidated statement of financial position, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.18 Foreign currency translation

5.18.1 Functional and presentation currency

The consolidated financial statements are presented in currency Kuwait Dinar (KD), which is also the functional currency of the parent company. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

5.18.2 Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the respective Group entity, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the remeasurement of monetary items denominated in foreign currency at year-end exchange rates are recognised in profit or loss. Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined. Translation difference on non-monetary asset classified as, “fair value through profit or loss” is reported as part of the fair value gain or loss in the consolidated statement of income and “available for sale” are reported as part of the cumulative change in fair value reserve within other comprehensive income.

5.18.3 Foreign operations

In the Group’s financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than the KD are translated into KD upon consolidation.

On consolidation, assets and liabilities have been translated into KD at the closing rate at the reporting date. Goodwill and fair value adjustments arising on the acquisition of a foreign entity have been treated as assets and liabilities of the foreign entity and translated into KD at the closing rate. Income and expenses have been translated into KD at the average rate over the reporting period. Exchange differences are charged/credited to other comprehensive income and recognised in the foreign currency translation reserve in equity. On disposal/liquidation of a foreign operation, the related cumulative translation differences recognised in equity are reclassified to profit or loss and are recognised as part of the gain or loss on disposal/liquidation.

5.19. End of service indemnity

The parent and its local subsidiaries provides end of service benefits to its employees. The entitlement to these benefits is based upon the employees’ final salary and length of service, subject to the completion of a minimum service period in accordance with relevant labour law and the employees’ contracts. The expected costs of these benefits are accrued over the period of employment. This liability, which is unfunded, represents the amount payable to each employee as a result of termination on the reporting date.

With respect to its Kuwaiti national employees, the Group makes contributions to the Public Institution for Social Security calculated as a percentage of the employees’ salaries. The Group’s obligations are limited to these contributions, which are expensed when due.

5.20. Pensions (Related to the foreign subsidiaries)

Contributions are paid to both defined benefit and defined contribution pension schemes in accordance with the recommendations of independent actuaries and advisors.

Contributions to defined contribution schemes are charged to the consolidated statement of profit or loss on an accrual basis.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.20. Pensions (Related to the foreign subsidiaries) (continued)

In respect of defined benefit schemes a defined benefit liability (or asset) is recognised in the consolidated statement of financial position and it is calculated as the present value of the defined benefit obligation using the projected unit credit method plus any unrecognised actuarial gains or losses less any past service cost not recognised less the market value of the plan assets.

Pension expense is charged to the consolidated statement of profit or loss and is calculated as the aggregate of current service cost (using the projected unit credit method), a net interest cost on the discounted defined benefit obligation net of the expected return on plan assets, recognised actuarial gains and losses, recognised past service costs and the effect of curtailments or settlements.

Actuarial gains or losses are recognised in full in other comprehensive income.

5.21. Share-based Payment

Certain employees of the Group receive remuneration in the form of share-based payment transactions, whereby the employees render services in exchange for shares ("equity settled transactions").

Equity-settled transactions

The cost of equity-settled transactions with employees is measured under the intrinsic value method. Under this method, the cost is determined by comparing the period end market value of the company's shares with the issue price. The cost of equity settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the shares vest.

5.22. Taxation

5.22.1. National Labour Support Tax (NLST)

NLST is calculated in accordance with Law No. 19 of 2000 and the Minister of Finance Resolutions No. 24 of 2006 at 2.5% of taxable profit of the Group. As per law, allowable deductions include, share of profits of listed associates and cash dividends from listed companies which are subjected to NLST.

5.22.2. Kuwait Foundation for the Advancement of Sciences (KFAS)

The contribution to KFAS is calculated at 1% of taxable profit of the Group in accordance with the modified calculation based on the Foundation's Board of Directors' resolution, which states that income from Kuwaiti shareholding associates and subsidiaries and transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

5.22.3. Zakat

Contribution to Zakat is calculated at 1% of the profit of the Group in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

For the year ended 31 December 2015 and 2016, the Parent Company has no liability towards NLST, KFAS and Zakat due to tax losses incurred.

5.22.4. Withholding taxes

The Group is exempt from income taxation and withholding taxes in Kuwait. However, in some jurisdictions, investment income and capital gains are subject to withholding tax deducted at the source of the income. Withholding tax is a generic term used for the amount of withholding tax deducted of the source of the income and is not significant for the Group. The Group presents the withholding tax separately from the gross investment income in the consolidated statement of profit or loss. For the purpose of the consolidated statement of cash flows, cash inflows from investments are presented net of withholding taxes, when applicable.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.22. Taxation (continued)

5.22.5. Taxation on overseas subsidiaries

Taxation on overseas subsidiaries is calculated on the basis of the tax rates applicable and prescribed according to the prevailing laws, regulations and instructions of the countries where these subsidiaries operate.

Deferred taxation is provided in respect of all temporary differences. Deferred tax assets are recognised in respect of unutilised tax losses when it is probable that the loss will be used against future profits.

5.23. Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and bank balances, short-term deposits, murabaha and wakala investments and short term highly liquid investments maturing within three months from the date of inception less due to banks and blocked bank balances.

5.24. Fiduciary assets

Assets held in trust or in a fiduciary capacity are not treated as assets of the Group and accordingly are not included in these consolidated financial statements.

6 Significant management judgements and estimation uncertainty

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. However uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

6.1. Significant management judgments

In the process of applying the Group's accounting policies, management has made the following significant judgments, which have the most significant effect on the amounts recognised in the consolidated financial statements:

6.1.1. Classification of financial instruments

Judgements are made in the classification of financial instruments based on management's intention at acquisition. Such judgement determines whether it is subsequently measured at cost, amortised cost or at fair value and if the changes in fair value of instruments are reported in the statement of profit or loss or profit or loss and other comprehensive income.

The Group classifies financial assets as held for trading if they are acquired primarily for the purpose of short term profit making.

Classification of financial assets as fair value through profit or loss depends on how management monitors the performance of these financial assets. When they are not classified as held for trading but have readily available fair values and the changes in fair values are reported as part of profit or loss in the management accounts, they are classified as fair value through profit or loss.

Notes to the consolidated financial statements (continued)

6 Significant management judgements and estimation uncertainty (continued)

6.1. Significant management judgments (continued)

6.1.1. Classification of financial instruments (continued)

Classification of assets as loans and receivables depends on the nature of the asset. If the Group is unable to trade these financial assets due to inactive market and the intention is to receive fixed or determinable payments the financial asset is classified as loans and receivables.

All other financial assets are classified as available for sale.

6.1.2. Classification of real estate

Management decides on acquisition of a real estate whether it should be classified as trading or investment property. Such judgement at acquisition determines whether these properties are subsequently measured at cost or net realisable value whichever is lower or fair value and if the changes in fair value of these properties are reported in the statement of profit or loss.

The Group classifies property as trading property if it is acquired principally for sale in the ordinary course of business.

The Group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use.

6.1.3. Control assessment

When determining control, management considers whether the Group has the practical ability to direct the relevant activities of an investee on its own to generate returns for itself. The assessment of relevant activities and ability to use its power to affect variable return requires considerable judgement.

6.1.4. Equity method accounting for entities in which the Group holds less than 20% of the voting rights

Management has assessed the level of influence that the Group has over its material associate, Mabane Company - KPSC and determined that it has significant influence even though the share holding in this associate is below 20%, because of the factors mentioned in note 17.3. Consequently, this investment has been classified as an associate and has been accounted for using the equity method.

6.2. Estimates uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

6.2.1. Impairment of goodwill and other intangible assets

The Group determines whether goodwill and intangible assets are impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

During the 2016 the Group recognised an impairment loss of KD Nil thousand (2015: KD2,010 thousand) against certain intangible assets.

Notes to the consolidated financial statements (continued)

6 Significant management judgements and estimation uncertainty (Continued)

6.2. Estimates uncertainty (continued)

6.2.2. *Impairment of associates*

After application of the equity method, the Group determines whether it is necessary to recognise any impairment loss on the Group's investment in its associated companies, at each reporting date based on existence of any objective evidence that the investment in the associate is impaired. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the consolidated statement of profit or loss.

During the 2016 the Group recognised an impairment loss of KD Nil thousand (2015: KD617 thousand) against investments in associates.

6.2.3. *Impairment of available for sale investments*

The Group treats available for sale investments as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires considerable judgment.

During the 2016 the Group recognised an impairment loss of KD18,696 thousand (2015:KD9,851 thousand) against available for sale investments.

6.2.4. *Impairment of loans and receivables*

The Group's management reviews periodically items classified as loans and receivables (including wakala investments note 22) to assess whether a provision for impairment should be recorded in the consolidated statement of profit or loss. In particular, considerable judgement by management is required in the estimation of amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgement and uncertainty.

During the 2016 the Group has recognised impairment losses of KD1,056 thousand (2015: KD323 thousand) against loans and receivables.

6.2.5. *Impairment of inventories*

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on historical selling prices.

Management estimates the net realisable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realisation of these inventories may be affected by future technology or other market-driven changes that may reduce future selling prices.

At the financial position date, gross inventories were KD33,751 thousand (2015: KD35,414 thousand), with provision for old and obsolete inventories of KD1,317 thousand (2015: KD1,360 thousand). Any difference between the amounts actually realised in future periods and the amount expected will be recognised in the consolidated statement of profit or loss.

Notes to the consolidated financial statements (continued)

6 Significant management judgements and estimation uncertainty (Continued)

6.2. Estimates uncertainty (continued)

6.2.6. Useful lives of depreciable/amortisable assets

Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and other obsolescence that may change the utility of certain software, intangible assets and property, plant and equipment.

6.2.7. Fair value of financial instruments

Management apply valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using observable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

6.2.8. Revaluation of investment properties

The Group carries its investment properties at fair value, with changes in fair value being recognised in the consolidated statement of profit or loss. The Group engaged independent valuation specialists to determine fair values and the valuers have used valuation techniques to arrive at these fair values. These estimated fair values of investment properties may vary from the actual prices that would be achieved in a arm's length transaction at the reporting date.

6.2.9. Defined benefits obligation

Management's estimate of the defined benefit obligation is based on number of critical underlying assumption such as standard rates of inflation, mortality, discount rate and anticipation of future pension increases. Variation in these assumptions may significantly impact the defined benefit obligations and amount and the annual defined benefits expenses (as analysed in note 32).

6.2.10. Provision for foreign taxation

The Group has made provision for potential tax liabilities which may arise on foreign income. These provisions have been assessed based on information available to management as of the reporting date. The actual liability which may or may not arise if and when the relevant tax authorities make an official assessment may substantially differ from the actual provision made (refer note 12 a).

Notes to the consolidated financial statements (continued)

7 Subsidiary companies

7.1 Details of the Group's material consolidated subsidiaries at the end of the reporting period are as follows:

	Country of registration and place of business	Nature of business	Proportion of ownership interest	
			31 Dec. 2016	31 Dec. 2015
			%	%
Al Durra National Real Estate – KSC (Closed)	Kuwait	Real Estate	97*	97*
National Combined Industries Holding Company for Energy – KSC (Closed)	Kuwait	Investments	96*	96*
Pearl National Holding – KSC (Closed)	Kuwait	Investments	99*	99*
Economic Holding Company – KSC (Closed)	Kuwait	Investments	97*	97*
NIG (Guernsey) Limited	Guernsey	Specialist Engineering	100	100
BI Group Plc	United Kingdom	Specialist Engineering	100	100
Proclad Group Limited	UAE	Specialist Engineering	100	100
NI Group (Bahrain) EC	Bahrain	Investments	100	100
Eagle Proprietary Investments Limited	UAE	Investments	100	100
Pearl Offshore Enterprises Limited	BVI	Investments Holdings	100	100
Denham Investment Limited	Cayman Islands	Investments	85	85
Ikarus Petroleum Industries Company – KPSC	Kuwait	Petroleum	72	72
National Industries Company - KPSC	Kuwait	Industrial	51	51
Noor Financial Investment Company – KPSC	Kuwait	Investments	51	51

* The Group's holding of these subsidiaries are 100% and the remaining stake is held by nominees on its behalf.

7.2 Subsidiaries with material non-controlling interests

The Group includes three subsidiaries with material non-controlling interests (NCI):

Name	Proportion of ownership interests and voting rights held by the NCI		Profit allocated to NCI		Accumulated NCI	
	31 Dec. 2016	31 Dec. 2015	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000

7.3 Acquisition of subsidiaries

During the year, one of the Group's foreign subsidiaries acquired 66.67% equity stake in Wilhelm Schulenburg Nachf. GmbH & Co KG and Fiedler & Co., the acquisition was made through UCB German GmbH, a subsidiary of Proclad Group Limited and the acquisition was accounted as follows:

	KD '000
Total consideration*	3,400
Value of non-controlling interests	421
	3,821
Less : Recognized amounts of identifiable assets acquired and liabilities assumed	
Cash and Bank balances	424
Trade and other receivable	246
Inventories	872
Property, plant & equipment	93
Trade and other payable	(334)
Total identifiable net assets (fair value)	1,301
Goodwill	2,520

*The above total consideration was settled in cash amounting to KD1,201 thousand and further deferred consideration KD2,199 thousand payable in 2 equal instalments on June 2017 and 2018. The fair value of deferred consideration is included within current and non-current liabilities (refer note 29).

7.4 Pearl Offshore Enterprises Limited is a special purpose vehicle (SPV) which was incorporated during the year 2011 and total assets with a carrying value of KD117,966 thousand (2015: KD119,358 thousand) and total liabilities of KD74,418 thousand (2015: KD69,371 thousand) of the Parent Company are held by the SPV.

8 Income from investments

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Dividend income:		
- From investments at fair value through profit or loss	609	685
- From available for sale investments	6,259	14,387
Profit on sale of available for sale investments	3,689	21,714
Realised gain on investments at fair value through profit or loss	166	466
Unrealised gain on investments at fair value through profit or loss	3,046	295
	13,769	37,547

Notes to the consolidated financial statements (continued)

9 Interest and other income

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Interest/profit on bank balances, short term deposits, murabaha and wakala investments	501	633
Income from financing of future trade by customers	265	281
Service income	23	225
Management and placement fees	279	1,810
Gain on disposal of property, plant and equipment	1,001	-
Net gain relating to liquidated/disposed foreign subsidiaries	-	1,802
Others	1,132	939
	3,201	5,690

10 Net gain or (loss) on financial assets

Net gain or (loss) on financial assets, analysed by category, is as follows:

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Loans and receivables		
- bank balances and short term deposits	262	390
- murabaha and wakala investments	239	243
- accounts receivable and other assets (income from future trade)	265	281
- impairment in value of receivable and other assets	(1,056)	(323)
At fair value through profit or loss		
- held for trading	1,189	(911)
- designated as such on initial recognition	2,632	2,357
Available for sale investments		
- recognised in other comprehensive income (including non-controlling interests share)	19,430	(75,497)
- recycled from other comprehensive income to consolidated statement of profit or loss		
• On impairment	(18,696)	(9,851)
• On disposal	2,704	12,561
- recognised directly in consolidated statement of profit or loss	7,244	23,540
	14,213	(47,210)
Net (loss) /gain recognised in the consolidated statement of profit or loss	(5,217)	28,287
Net gain/(loss) recognised in the other comprehensive income	19,430	(75,497)
	14,213	(47,210)

11 Finance costs

Finance costs relate mainly to due to banks, short and long term borrowings, and lease creditors. All these financial liabilities are stated at amortised cost.

Notes to the consolidated financial statements (continued)

12 Taxation and other statutory contributions

(a) Foreign taxation

*Taxation of subsidiaries**

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Current tax expense		
Current year charge	(256)	(677)
Deferred tax income/(expense)		
Current year income/(charge)	548	(124)
	292	(801)

(b) KFAS, NLST and Zakat of local subsidiaries **

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Contributions to Kuwait Foundation for Advancement of Science (KFAS)	(17)	(84)
Provision for National Labour Support Tax (NLST)	(58)	(222)
Provision for Zakat	(20)	(88)
	(95)	(394)

* Foreign taxation includes an amount of KD292 thousand (2015: KD512 thousand) charged by one of the foreign subsidiaries which is calculated based on the tax law adopted in United Kingdom.

** The contributions and provisions are on profit of local subsidiaries, whereas no contribution and provision for the Parent Company was recognised in the current year (2015: Nil) as the net taxable results attributable to the Parent Company was a loss.

13 (Loss)/profit for the year

(Loss)/profit for the year is stated after charging:

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Staff costs	26,154	30,678
Depreciation and amortisation	7,473	6,528
Provision for slow moving inventories	427	-

The number of staff employed by the Parent Company at 31 December 2016 was 64 (2015: 67).

Notes to the consolidated financial statements (continued)

14 Basic and diluted (losses)/earnings per share attributable to the owners of the Parent

(Losses)/earnings per share are calculated by dividing the (loss)/profit for the year attributable to the owners of the Parent Company by the weighted average number of shares outstanding during the year as follows:

	Year ended 31 Dec. 2016	Year ended 31 Dec. 2015
(Loss)/profit for the year attributable to the owners of the Parent Company (KD '000)	(24,192)	25,427
Weighted average number of shares outstanding during the year (excluding treasury shares) – shares	1,325,056,996	1,325,056,996
Basic and diluted (losses) / earnings per share	(18.3) Fils	19.2 Fils

15 Goodwill and intangible assets

15.1 Goodwill

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Balance at 1 January	9,255	9,245
Additions (refer note 7.3)	2,520	-
Foreign exchange adjustment	(1,067)	10
	10,708	9,255

Goodwill represents the excess of cost of acquisition over the Group's interest in the fair value of the identifiable assets and liabilities of the acquired subsidiaries. Goodwill of KD2,029 thousand (2015: KD2,029 thousand) and KD8,679 thousand (2015: KD7,226 thousand) has been allocated to the IT service business and specialist engineering unit of the Group, respectively as these are the cash generating unit (CGU) which is expected to benefit from the synergies of the business combination. It is also the lowest level at which goodwill is monitored for impairment purposes.

Impairment testing

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the recoverable amount of the CGUs to which these items are allocated. The recoverable amount is determined based on higher of value-in-use calculations or fair value less cost to sell.

Management used the following approach to determine values to be assigned to the following key assumptions in the value in use calculations:

Key assumption	Basis used to determine value to be assigned to key assumption
Growth rates	Anticipated average growth rate of 0% to 3% (2015: 0% to 5%) per annum. Value assigned reflects past experience and changes in economic environment. Cash flows beyond the five-year period have been extrapolated using a growth rate of 0% to 3% (2015: 0% to 3%). This growth rate does not exceed the long term average growth rate of the market in which the CGU operates.
Discount rates	Discount rates of 3.5% to 17.2% (2015: 3.5% to 16.9%). Discount rates used are pre-tax and reflect specific risks relating to the relevant CGU.

Notes to the consolidated financial statements (continued)

15 Goodwill and intangible assets (continued)

Impairment testing (continued)

The Group has performed a sensitivity analysis by varying these input factors by a reasonably possible margin and assessing whether the change in input factors result in any of the goodwill allocated to appropriate cash generating units being impaired. Based on the above analysis, there are no indications that goodwill included in any of the cash generating units is impaired.

15.2 Intangible assets – Indefeasible right of use (IRU)

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Cost		
At the beginning of the year	3,631	8,326
Reduction in the cost due to re-negotiation of the terms	-	(2,685)
Impairment in value during the year	-	(2,010)
Balance at the end of the year	3,631	3,631
Accumulated amortization		
At the beginning of the year	(63)	(41)
Charge for the year	(251)	(22)
At the end of the year	(314)	(63)
Net book value at the end of the year	3,317	3,568
Total goodwill and intangible assets	14,025	12,823

This represents an intangible asset in the form of an indefeasible right of use (IRU) to a telecommunication asset carried at KD3,317 thousand (31 December 2015: KD3,568 thousand) arising from a subsidiary acquired during 2014. During the previous year, the subsidiary re-negotiated the financial and other terms of its use and accordingly, as per the new contractual terms its carrying value and that of the related liability was reduced by KD2,685 thousand and KD2,605 thousand respectively. Consequently, based on the information available, the Group's management has recognised an impairment of KD2,010 thousand during the previous year which includes net cancellation charges of KD456 thousand related to the previous contract.

Notes to the consolidated financial statements (continued)

Properties on lease hold land are on lands which have been leased from the government of Kuwait through renewable lease contracts.

Property under construction mainly represents the cost incurred, on the expansion of one of the subsidiaries existing factories and the construction of a manufacturing lines by a subsidiary. During the prior years, portions of the manufacturing lines which were completed and ready for intended use were capitalised in the appropriate categories. The costs relating to the remaining manufacturing lines and facilities will be transferred to the appropriate asset categories when the assets are ready for their intended use.

17 Investment in associates

Details of the Group's material associates at the end of the reporting period are as follows:

	Country of registration and principal place of business	Nature of business	Percentage ownership	
			31 Dec. 2016	31 Dec. 2015
Meezan Bank Ltd – (Quoted)	Pakistan	Islamic banking	49	49
Privatization Holding Company – KPSC (Quoted)	Kuwait	Financial services	36	33
Kuwait Cement Company – KPSC (Quoted)	Kuwait	Industrial	26	26
Airport International Group - P.S.C (Unquoted)	Jordan	Airport operations	24	24
Mabane Company - KPSC - (Quoted) (17.3)	Kuwait	Real estate	18	18
			31 Dec. 2016	31 Dec. 2015
			KD '000	KD '000
Movement during the year is as follows:				
Balance at 1 January			337,187	330,968
Additions during the year			2,182	3,922
Capital reduction			(3,108)	-
Share of results			21,177	26,913
Share of other comprehensive income			1,143	(9,119)
Dividend received			(9,286)	(10,676)
Disposal of associates			-	(4,419)
Impairment in value			-	(617)
Foreign currency translation adjustment			1,082	296
Other adjustments			163	(81)
Balance at the end of the year			350,540	337,187

- 17.1 All of the above named associates are accounted for using the equity method in these consolidated financial statements.
- 17.2 A major portion of an associate with a carrying value of KD143,673 thousand (2015: KD123,959 thousand) is kept in a custody portfolio account with specialised institution (note 27c).
- 17.3 Although the Group owns 18% of the investee, the Group exercises significant influence over the associate by way of board representation.
- 17.4 Investment in associates includes foreign quoted associates with a carrying value of KD57,445 thousand (2015: KD50,075 thousand) having quoted market value of KD98,085 thousand at 31 December 2016 (2015: KD65,290 thousand) based on published quotes. Further investment in associates also includes local quoted associates with a carrying value of KD252,943 thousand (2015: KD247,821 thousand) having quoted market value of KD219,650 thousand at 31 December 2016 (2015: KD226,682 thousand.) based on published quotes. In accordance with IAS 36 "impairment of assets" the Group's recoverable amount of these associates (which represent the higher of fair value less costs to sell, and value in use) was in excess of their carrying values and accordingly no impairment was recognized against these investments during the year ended 31 December 2016.

Notes to the consolidated financial statements (continued)

17 Investment in associates (continued)

Notes to the consolidated financial statements (continued)

19 Available for sale investments (continued)

- a) The quoted shares classified as current at 31 December includes an amount of KD43,562 thousand (2015: KD47,328 thousand) which is the remaining investments from those shares which were transferred from investments at fair value through profit or loss as of 1 July 2008 (refer note 23 a).

The unquoted shares and certain quoted shares classified as current represents an amount of KD89,556 thousand which are determined based on management's estimate of liquidation of those investments.

- b) Managed funds include investments in private equity funds with a carrying value of KD30,657 thousand (2015: KD26,647 thousand). Information for these investments is limited to periodic financial reports provided by the investment managers. These investments are carried at net asset values reported by the investment managers. Due to the nature of these investments, the net asset values reported by the investment managers represent the best estimate of fair values available for these investments.
- c) At the end of the year, the Group recognised an impairment loss of KD10,140 thousand (2015: KD4,016 thousand) for certain local and foreign quoted shares, as the market value of these shares at reporting dates declined significantly below their costs. Further the Group also recognised an impairment loss of KD8,556 thousand (2015: KD5,835 thousand) against certain unquoted shares, local and foreign funds based on estimates made by management as per information available to them and the net assets values reported by the investment managers.
- d) Unquoted investments and managed funds of KD22,037 thousand (2015: KD20,895 thousand) are carried at cost less impairment in value if any, since their fair value cannot be reliably determined. The Group's management is not aware of any circumstance that would indicate impairment/further impairment in value of these investments.
- e) Investments with a fair value of KD166,700 thousand (2015: KD181,450 thousand) are secured against short term borrowings (refer note 30) and long term borrowings (refer note 27).
- f) During the year, the Group signed a conditional agreement with a foreign party to sell 10.45% share holding in K-Electric Company, one of the Pakistani listed companies involved in distribution of electricity. The above shares are held through certain subsidiaries of the Group and have been recorded under available for sale investments. However, the completion of the sale contemplated in the conditional agreement is subject to the receipt of applicable regulatory approvals and satisfaction of other conditions precedent specified therein and therefore profit or loss expected from the above sale has not yet been determined.

Provision for obsolete and slow moving inventories	(1,317)	(1,360)
	32,434	34,054

Notes to the consolidated financial statements (continued)

21 Accounts receivable and other assets

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Financial assets		
Net trade receivables	26,347	28,689
Net amount due on disposal of foreign investment properties (b)	-	972
Amounts due on sale of investments	9,711	32,056
Due from associates	2,029	2,441
Due from other related parties	2,938	1,905
Due from key management personnel	70	231
Due from Kuwait Clearing Company (future trade)	2,909	4,846
Due from investment brokerage companies	1,759	1,698
Interest and other accrued income	1,745	1,519
Other financial assets	8,950	9,339
	56,458	83,696
Less: amount due after one year	(1,410)	(1,550)
	55,048	82,146
Non-financial assets		
Other assets	5,111	5,118
	5,111	5,118
	60,159	87,264

- a) Trade receivables are non-interest bearing and generally on 30 to 90 days terms.

As at 31 December the aging analysis of trade receivables is as follows:

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Neither past due nor impaired	20,947	24,135
Past due but not impaired		
- less than 3 months	1,083	992
- 3 – 6 months	4,317	3,562
Total trade receivables	26,347	28,689

Trade receivables that are less than six months past due, are not considered impaired since they relate to customers for whom there is no recent history of default.

- b) The consideration due on sale of the Group's investment property in the Kingdom of Saudi Arabia amounting to KD12,405 thousand (sold during 2011) was due in instalments. In settlement of the consideration due as of 31 December 2015, one of the subsidiaries of the Group received an investment property located in London valued at GBP 2Mn (equivalent to KD881 thousand) during the year ended 31 December 2016. The difference between the consideration received in the form of property and the due balance as at 31 December 2015 amounting to KD92 thousand has been treated as impairment in value of receivable and has been recognised during the year ended 31 December 2016.
- c) During the year, the Group recognised an impairment loss of KD1,056 thousand (2015: KD323 thousand) against trade and other receivables.

			-	-
Placed with local Islamic banks	1.37%	1.13%	1,164	1,000
			1,164	1,000

No profit was recognised on impaired wakala investments during the current year (2015: Nil).

Wakala investments of KD14,324 thousand (2015: KD14,324 thousand) placed with a local Islamic investment company matured in the last quarter of 2008. The investee company defaulted on settlement of these balances on the maturity date. However revised maturity dates were stipulated by the court. The investee company again defaulted the payment of 2nd, 3rd and 4th instalments due in June 2014, 2015 and 2016 respectively. The Group has initiated various legal cases against the investing company to recover these amounts. Full provision is made for receivable in accordance with the Central Bank of Kuwait provision rules.

During the previous years, one of the local subsidiary's of the Group assumed the financial and legal obligations on wakala investments of KD9,968 thousand (in violation of the Commercial Companies Law of 1960) that the subsidiary had placed with the above investment company as part of total wakala investments of KD14,324 thousand in a fiduciary capacity under a wakala agreement with certain related parties, despite having no such obligation under the wakala agreement. The Group initiated legal proceedings against the above parties to recover the amount including profits thereon. During the year 2014, the Court of Appeal had ordered the related parties to pay KD8,285 thousand with 7% of profit thereon to the Group which was overturned by the Court of Cassation in favour of the related party during the year 2015. The Group also initiated legal proceeding relating to the remaining amount of KD1,683 thousand against the related parties. Subsequent to the reporting date, the court of first instance has ordered the related parties to pay KD1,683 thousand to the Group and the related party has appealed against the court decision.

23 Investments at fair value through profit or loss

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Held for trading :		
Quoted shares

International managed portfolios and funds	46,484	52,071
	53,084	59,780
	76,782	84,033

Notes to the consolidated financial statements (continued)

23 Investments at fair value through profit or loss (continued)

- a) In 2008, as a result of significant developments in the global financial markets, the Group had reclassified investments with a fair value of KD380,755 thousand as at 1 July 2008 from “investment at fair value through profit or loss” category to “available for sale” category. The fair value of remaining reclassified investments as of 31 December 2016 is KD43,562 thousand (2015: KD47,328 thousand) and it is included in current portion of quoted shares of available for sale investments (refer note 19).
- b). Quoted shares, held by local subsidiaries, with a fair value of KD3,093 thousand (2015: KD3,586 thousand) are secured against short term borrowings (refer note 30) and long term borrowings (refer note 27).

24 Share capital and share premium

- a) As of 31 December 2016, authorized issued and fully paid share capital in cash of the Parent Company comprised of 1,359,853,075 shares of 100 Fils each (31 December 2015: 1,359,853,075 shares).
- b) Share premium is not available for distribution.

25 Treasury shares

	31 Dec. 2016	31 Dec. 2015
Number of shares	34,796,079	34,796,079
Percentage of issued shares	2.56%	2.56%
Market value (KD '000)	4,245	4,245
Cost (KD'000)	30,375	30,375

Reserves of the Parent Company equivalent to the cost of the treasury shares have been earmarked as non-distributable.

As at 31 December 2016, an associate company of the Group held 135,692,090 (2015: 131,599,475) shares equivalent to 10% (2015: 9.7%) of the Parent Company's shares issued.

Statutory reserve

In accordance with the Companies Law and the Parent Company's articles of association, 10% of the profit for the year before KFAS, NLST, Zakat and directors remuneration but after Non-controlling interest is to be transferred to statutory reserve. The Parent Company may resolve to discontinue such annual transfer when the reserve totals 50% of the paid up share capital. Distribution of the statutory reserve is limited to the amount required to enable the payment of a dividend of 5% of paid-up share capital to be made in years when retained earnings are not sufficient for the distribution of a dividend of that amount. No transfer is required in a year in which the Group has incurred a loss or where accumulated losses exist.

Notes to the consolidated financial statements (continued)

26 Cumulative changes in fair value, other components of equity and Non-controlling interests (continued)

General reserve

In accordance with the Parent Company's articles of association, a certain percentage of the profit for the year before KFAS, NLST, Zakat and directors remuneration but after Non-controlling interest is to be transferred to the general reserve at the discretion of the Board of Directors which is to be approved at the General Assembly. No transfer is required in a year in which the Group has incurred a loss or where accumulated losses exist.

c) Non-controlling interests

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Balance at 1 January	128,909	146,729

Total other comprehensive income for the year	8,019	(20,255)
Total comprehensive income for the year	8,316	(16,772)
Balance at 31 December	137,047	128,909

* During the year, one of the local subsidiaries of the Group increased its share capital from KD15,000 thousand to KD20,000 thousand (50,000,000 shares with a par value of 100 fils per each share) (2015: from KD11,000 thousand to KD15,000 thousand). The Group subscribed partially for this increase through another subsidiary of the Group and consequently the Group's shareholding in this subsidiary diluted from 82.85% to 77.94% (2015: from 100% to 82.85%). The proportionate carrying value of net assets on the date of dilution amounting to KD2,049 thousand (2015: KD3,195 thousand) has been transferred to non-controlling interests in the consolidated statement of changes in equity. Consequently the difference between cash proceeds received and non-controlling interests share of net assets on the date of dilution amounting to KD209 thousand (2015: KD358 thousand) has been recognized as a dilution loss in the consolidated statement of changes in equity as of 31 December 2016.

** During the year, the Group acquired controlling interests of certain foreign subsidiaries and as a result of these acquisitions non-controlling interests increased by KD735 thousand (refer note 7.3).

Notes to the consolidated financial statements (continued)

27 Long-term borrowings and bonds

Currency	Effective Interest rate	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000

Bonds (note 27 d)		25,000	-
Total long-term borrowings & bonds		354,019	437,845

- a During the years 2011 and 2012, one of the local subsidiaries of the Group restructured its financing arrangements with some local banks and accordingly loans amounting to KD154,710 thousand (out of which KD58,016 thousand has been paid till reporting date) were converted into secured long term facilities. As per loan restructuring agreements, these loans are required to be 100% secured. As of 31 December 2016, these are partly secured (refer notes 18, 19 and 23) and the identification and securitization of the required balance is still in process.

The third instalment of the loan of KD38,677 thousand fell due in the years 2014 and 2015 and the lenders agreed for payment of 50% of that amount within four months from the original due date. KD15,024 thousand was paid in the year 2015 and the balance KD4,314 thousand has been settled in the year 2016.

The process of rescheduling the loans amounting to KD96,694 thousand as of the reporting date comprising of the remaining 50% (KD19,339 thousand of the third instalment and KD77,355 thousand for the final instalment) is ongoing. However based on the previous agreements, the final instalment of one loan (along with the 50% of the third instalment) totalling to KD6,876 thousand fell due during December 2016. The final instalments of the other loans (along with the 50% of the third instalment) totalling KD39,059 thousand and KD50,759 thousand are falling due in the year 2017 and during the year 2018 respectively.

Notes to the consolidated financial statements (continued)

27 Long-term borrowings and bonds (continued)

The local subsidiary had submitted a debt rescheduling plan to all its lenders and had, also requested from all of the lenders to extend the standstill as the restructuring is still in process and to continue negotiations to reach an acceptable debt rescheduling solution. Subsequent to the reporting date, the lenders have confirmed that they will continue to negotiate the terms and conditions of the restructuring to bring it to a successful closure. Accordingly, the local subsidiary's management expects to finalize the debt rescheduling within the next few months.

Debt rescheduling may involve upfront settlement of part of the debts, providing collateral to financiers over the Group assets, renegotiation of pricing and repayments period of credit facilities and other terms and restrictions usually associated with such debt rescheduling process.

- b The Euro loans are secured against property, plant and equipment with a book value of KD803 thousand (2015: KD804 thousand). Also, other Islamic financing arrangement amounting to KD7,977 thousand (2015: KD8,869 thousand) are secured against property, plant and equipment with a book value of KD6,715 thousand (2015: KD11,130 thousand).
- c During August 2015, the Parent Company settled an Islamic syndicated loan amounting to KD101,563 thousand at maturity, from the proceeds obtained through two new facilities entered into, one of which is a Murabaha facility comprising of local and regional banks for an amount of KD80,153 thousand due in 3 years and the other is a conventional loan facility with a new foreign bank for an amount of KD20,000 thousand due in one year. [Under the terms of the new facilities agreements, shares of one of the listed associates having a carrying value of KD143,673 thousand are kept in a custody portfolio account with specialised institutions (refer note 17.2).]

Bonds

- d During the year, the Parent Company issued a floating rate bonds of KD25,000 thousand at face value maturing on 20 December 2021. The bonds benefit from certain uncollateralized available for sale investments and investment in subsidiary through one of the local subsidiaries of the Group to ensure repayment.

28 Provisions

	31 Dec. 2016 KD'000	31 Dec. 2015 KD '000

Other creditors	1,753	4,157
Accruals	186	207
	1,939	4,364
	44,285	49,621

a) This represents provision for cost of gas usage by one of the local subsidiaries of the Group for previous years amounting to KD2,700 thousand. During 2015, above subsidiary received a letter from a government owned entity which supplies gas to one of the factories of the subsidiary demanding payment for usage of gas for 2004 till 2011. The subsidiary rejected this claim on several grounds and the supplier filed a legal case against the subsidiary claiming its right to recover the amount. The court in its first hearing transferred the case to the Expert's department. Subsequent to the reporting date, the court issued a ruling ordering the subsidiary to pay an amount of USD9,300 thousand to the plaintiff. The subsidiary is considering legal options of the appealing this decision.

Notes to the consolidated financial statements (continued)

30 Short-term borrowings

Currency	Effective Interest rate	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Conventional loans			
Kuwaiti Dinars	4% - 4.75%	80,546	89,108
US Dollars	1.33% - 5.88%	74,255	70,770
		154,801	159,878
Long term borrowings due within one year		123,535	83,348
		278,336	243,226
Islamic financing arrangements			
Murabaha/wakala/Ijara payables	4.5%	17,074	13,896
Long term Islamic financing arrangements due within one year (refer note 27 c)		25,497	6,068
		42,571	19,964
Total		320,907	263,190

- Islamic financing arrangements include Ijara payables of KD17,461 thousand (2015: KD17,825 thousand) which is secured against investment properties of local subsidiaries (refer note 18).
- As of 31 December 2016, one of the local subsidiaries had utilised KD Nil (net) (2015: KD1,050 thousand) from the KD5,570 thousand loan facility from a local bank which is secured against local quoted investments with a fair value of KD7,394 thousand (2015 : KD7,676 thousand).
- US Dollar loan equivalent to KD74,255 thousand (2015: KD69,230 thousand) and Kuwait Dinar borrowings of KD86,063 thousand (2015: KD44,854 thousand) are secured by certain available for sale investments (refer note 19).

31 Cash and cash equivalents

	Effective interest/profit rate %	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Short term deposits and investments	0.41% - 1.35%	9,224	16,661
Bank balance and cash	0.62% - 1.35%	33,696	43,383
Due to banks (a)	5.5% - 6.0%	(21,186)	(19,915)
		21,734	40,129
Less: Blocked balances		(325)	(325)
Cash and cash equivalents for the purpose of consolidated statement of cash flows		21,409	39,804

a) Due to banks includes bank overdraft facilities of KD1,198 thousand (2015: KD2,016 thousand) utilised by one of the subsidiaries of the Group and are secured against short term deposits of KD994 thousand (2015: KD971 thousand) as at 31 December 2016.

32 Defined benefit pensions schemes

The Group has defined benefit pension schemes for the employees of certain subsidiaries in the United Kingdom. The Schemes provide benefits based on final salary and length of service on retirement. The Schemes are subject to the Statutory Funding Objective under the United Kingdom Pensions Act 2004. A valuation of the schemes is carried out at least once every three years to determine whether the Statutory Funding Objective is met. As part of the process the Group must agree with the Trustees of the Schemes the contributions to be paid to address any shortfall against the Statutory Funding Objective.

Notes to the consolidated financial statements (continued)

32 Defined benefit pensions schemes (continued)

The Schemes are managed by a professional trustee appointed by the Group. The Trustee has responsibility for obtaining valuation of the fund, administering benefit payments and investing the Schemes' assets. The Trustee delegates some of these functions to their professional advisers where appropriate.

The Schemes expose the Group to a number of risks:

- Investment risk: The Scheme holds investments in asset classes, such as equities, which have volatile market values and while these assets are expected to provide the real returns over the long-term the short term volatility can cause additional funding to be required if deficit emerges.
- Interest rate risk: The Schemes' liabilities are assessed using market yields on high quality corporate bonds to discount the liabilities. As the Schemes hold assets such as equities the value of the assets and liabilities may not move in the same way.
- Inflation risk: A significant proportion of the benefits under the Schemes are linked to inflation. Although the Schemes' assets are expected to provide a good hedge against inflation over the long term, movements over the short-term could lead to deficits emerging.
- Mortality risk: In the event that members live longer than assumed a deficit will emerge in the Schemes.
- For certain sections of the Schemes, members are assumed to commute 20% of their pension for cash at retirement. If on average less pension is taken this would lead to a deficit emerging.
- The Trustee holds insurance policies for some members of the Schemes. There is a very small risk that the insurers may default on their policies which would cause additional funding to be required.

Effect of the Schemes on the Group's future cash flows

The Group is required to agree Schedules of Contributions with the Trustee of the Schemes following the valuation which must be carried out at least once every three years. In the event the valuation reveals a larger deficit than expected the Group may be required to increase contributions above those set out in the existing Schedules of Contributions. Conversely if the position is better than expected contributions may be reduced.

The Group expects to contribute KD817 thousand to its defined benefit plan in 2017 which has been agreed with the pension trustee in line with actuarial advice and aims to eliminate the deficit within an acceptable period of time.

The following disclosures cover all the schemes on an aggregated basis. The schemes are closed to new members and do not accrue further benefits. Actuarial calculations have been made in order to determine pension liabilities and pension expenses in connection with the Group's defined benefit pension schemes.

The following assumptions have been used in calculating the liabilities and expenses incurred:

	31 Dec. 2016	31 Dec. 2015
Discount rate at 31 December	3.20%	3.45%
Inflation assumption (RPI)	3.45%	3.20%
Revaluation in deferment (CPI)	2.45%	2.20%
Expected return on plan assets	3.20%	3.45%
Future salary increases	N/A	N/A
Future pension increases	3.45%	3.20%
Mortality after retirement	2016: SAPS (S2NA) (2015: SAPS (S1NA)) tables with medium cohort year of birth projections and minimum of 1.25% (2015: 1.25%) per annum improvement.	

Notes to the consolidated financial statements (continued)

32 Defined benefit pensions schemes (continued)

Effect of the Schemes on the Group's future cash flows (continued)

Under the mortality tables adopted, the expected age at death for a member at age 65 is as follows:

	31 Dec. 2016	31 Dec. 2015
Male currently aged 45	89.5	89.1
Female currently aged 45	91.8	91.7
Male currently aged 65	87.7	87.3
Female currently aged 65	89.9	89.7

The average of the weighted average duration of the liabilities of each of the schemes is 16 years (2015: 16 years).

Consolidated statement of profit or loss

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Interest cost	(721)	(836)
Expected return on assets	615	700
Accrued income/(expenses)	(57)	12
Settlement cost	(39)	-
Net annual charge included in general and administrative expenses	(202)	(124)

A reconciliation of the movement in the liability for defined benefit pension scheme is as follows:

Consolidated statement of financial position

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Brought forward liability	3,784	4,359
Consolidated statement of profit or loss (net)	202	124
Contributions	(645)	(837)
Actuarial (gain)/losses	(21)	167
Foreign Exchange adjustments	(577)	(29)
Carried forward liability	2,743	3,784

Notes to the consolidated financial statements (continued)

32 Defined benefit pensions schemes (continued)

Reconciliation of consolidated statement of financial position liability

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Present value of obligations	20,551	23,396
Fair value of plan assets	(17,816)	(19,745)
Net plan deficit	2,735	3,651
Unrecognised actuarial losses	8	133
Net liability recognised in the consolidated statement of financial position	2,743	3,784

Changes in the present value of the defined benefit obligation

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Opening defined benefit obligation	23,396	24,330
Interest cost	721	836
Actuarial losses/(gains)	1,361	(112)
Accrued (income)/ expenses	57	(12)
Benefits and expenses paid	(1,083)	(1,567)
Foreign exchange adjustment	(3,901)	(79)
Closing defined benefit obligation	20,551	23,396

Changes in the fair value of the plan assets

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Opening fair value of plan assets	19,745	20,082
Expected return on assets	615	700

Plus 1 year	757
Minus 1 year	(753)

Note the above sensitivities are approximate and only show the likely effect of an assumption being adjusted whilst all other assumptions remain the same.

33 Segmental analysis

The Group activities are concentrated in four main segments: investment, building material, specialist engineering and hotel and IT operations. The segments' results are reported to the higher management in the Group. In addition, the segments results, assets and liabilities are reported based on the geographic locations which the Group operates in.

Notes to the consolidated financial statements (continued)

33 Segmental analysis (Continued)

The following is the segments information, which conforms with the internal reporting presented to management:

[illegible]

Notes to the consolidated financial statements (continued)

33 Segmental analysis (Continued)

Property, plant and equipment of the Group are primarily utilised by the building materials segment, hotel & IT services segment and the specialist engineering segment. The additions and depreciation relating to property, plant and equipment along with impairment in values by each segment, in which the assets are used, are as follows:

	Investment KD '000	Building materials KD '000	Specialist engineering KD '000	Hotel & IT services KD '000	Total KD '000
At 31 December 2016					
Additions to property, plant and equipment	61	4,538	4,413	125	9,137
Depreciation	230	3,662	2,924	406	7,222
Impairment in value of available for sale investments	18,696	-	-	-	18,696
At 31 December 2015					
Additions to property, plant and equipment	75	2,146	6,179	194	8,594
Depreciation	281	3,243	2,903	79	6,506
Impairment in value of available for sale investments	9,851	-	-	-	9,851

Geographical segments

The geographical analysis is as follows;

	Assets		Sales	
	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Kuwait	599,904	638,173	53,400	61,812
Outside Kuwait	653,714	661,169	56,859	78,065
	1,253,618	1,299,342	110,259	139,877

34 Related party transactions

Related parties represent associates, directors and key management personnel of the Group, and other related parties such as major shareholders and companies in which directors and key management personnel of the Group are principal owners or over which they are able to exercise significant influence or joint control. Pricing policies and terms of these transactions are approved by the Group's management.

Details of significant related party transactions and balances are as follows:

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Transactions and balances included in the consolidated statement of financial position		
Due from related parties (included in accounts receivable and other assets)		
- Due from associate companies	2,029	2,441
- Due from other related parties	2,938	1,905
- Due from key managements personal	70	231
Due to related parties (included accounts payable and other liabilities)		
- Due to associates	20	238
- Due to other related parties	522	514
Transactions included in the consolidated statement of profit or loss		
Realised gain on sale of available for sale investments – to associate	-	26
Management and placement fees earned from related parties	1	4
Finance cost – charged by an associate	-	466

Notes to the consolidated financial statements (continued)

34 Related party transactions (continued)

	Year ended 31 Dec. 2016 KD '000	Year ended 31 Dec. 2015 KD '000
Transactions with related parties		
Development and construction costs	4,679	1,725
Purchase of raw materials – from associates	3,260	3,932
Compensation of key management personnel of the Group		
Short term employee benefits and directors' remuneration	3,924	3,454
End of service benefits	288	421
	4,212	3,875

35 Summary of assets and liabilities by category and fair value measurement

35.1 Categories of financial assets and liabilities

The carrying amounts of the Group's financial assets and liabilities as stated in the consolidated statement of financial position may also be categorized as follows:

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Financial assets:		
Loans and receivables (at amortised cost):		
• Accounts receivable and other financial assets (refer note 21)	56,458	83,696
• Murabaha, wakala and sukuk investments	1,164	1,000
• Short term deposits and investments	9,224	16,661
• Bank balance and cash	33,696	43,383
	100,542	144,740
Assets at fair value through profit or loss:		
• Investments at fair value through profit or loss (refer note 23)		
- Held for trading	23,698	24,253
- Designated on initial recognition	53,084	59,780
	76,782	84,033
Available for sale investments (refer note 19)		
- At fair value	517,016	520,342
- At cost / cost less impairment	22,037	20,895
	539,053	541,237
Total financial assets	716,377	770,010
Financial liabilities:		
At amortised cost		
• Long term borrowings & bonds	354,019	437,845
• Leasing creditors	145	424
• Accounts payable and other financial liabilities (refer note 29)	43,398	45,257
• Short term borrowings	320,907	263,190
• Due to banks	21,186	19,915
	739,655	766,631

Notes to the consolidated financial statements (continued)

35 Summary of assets and liabilities by category (continued)

35.2 Fair value measurement

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments at fair value through profit or loss and available for sale investments (excluding certain available for sale investments which are carried at cost/cost less impairment for reasons specified in Note 19 to the consolidated financial statements) are carried at fair value and measurement details are disclosed in note 35.3 to the consolidated financial statements. In the opinion of the Group's management, the carrying amounts of all other financial assets and liabilities which are at amortised costs is considered a reasonable approximation of their fair values.

The Group also measures non-financial asset such as investment properties at fair value at each annual reporting date (refer 35.4).

35.3 Fair value hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets and liabilities measured at fair value on a recurring basis in the statement of consolidated financial position are grouped into the fair value hierarchy as follows;

At 31 December 2016

	Note	Level 1 KD'000	Level 2 KD'000	Level 3 KD'000	Total Balance KD'000
Assets at fair value					
Available for sale investments					
-Managed funds					
Private equity funds	c	-	-	30,657	30,657
Other managed funds	c	-	3,278	74,665	77,943

Total assets		252,025	65,763	286,587	604,375

Measurement at fair value

The Group's finance team performs valuations of financial items for financial reporting purposes, including Level 3 fair values, in consultation with third party valuation specialists for complex valuations, where required. Valuation techniques are selected based on the characteristics of each instrument, with the overall objective of maximizing the use of market-based information.

The methods and valuation techniques used for the purpose of measuring fair values, are unchanged compared to the previous reporting year, except for certain foreign unquoted shares that have been fair valued based on certain valuation techniques as the Group's management believes that such valuations are more representative of the fair values of such investments based on the information available to the management. Accordingly these investments with a carrying value of KD30,127 thousand and KD9,555 thousand have been transferred from level 1 & 2 to level 3 respectively. Further an amount of KD10,464 thousand have been transferred from level 3 to 2 as of 31 December 2016.

a) Quoted shares & debt instruments (level 1, 2 & 3)

Quoted shares represent all listed equity securities which are publicly traded in stock exchanges. Where quoted prices in an active market are available, the fair value of such investments have been determined by reference to their quoted bid prices at the reporting date (Level 1) and if the market for an investment is not active, the Group has established fair value by using valuation techniques (level 2 or 3)

b) Local funds (level 2)

The underlying investments of these funds mainly comprise of local quoted shares and money market instruments and the fair value of the investment has been determined based on net asset values reported by the fund manager as of the reporting date.

c) Foreign funds (level 2)

The underlying investments in these private equity funds mainly represent foreign quoted and unquoted securities. Information for these investments is limited to periodic financial reports provided by the investment managers. These investments are carried at net asset values reported by the investment managers. Due to the nature of these investments, the net asset values reported by the investment managers represent the best estimate of fair values available for these investments.

Notes to the consolidated financial statements (continued)

35 Summary of assets and liabilities by category (continued)

35.3 Fair value hierarchy (continued)

Other managed portfolios (level 3)

The underlying investments of other managed portfolios represent foreign quoted and unquoted securities managed by specialized portfolio managers. They are valued based on periodic reports received from the portfolio managers.

d) Unquoted equity participations (level 2 & 3)

The consolidated financial statements include holdings in unlisted securities which are measured at fair value. Fair value is estimated using discounted cash flow model or other valuation techniques which include some assumptions that are not supportable by observable market prices or rates.

e) International managed portfolios and funds (level 1, 2 & 3)

The underlying investments of international managed portfolios and funds represent quoted and unquoted securities. They are valued based on fund managers' report.

Level 3 Fair value measurements

The Group measurement of financial assets and liabilities classified in level 3 uses valuation techniques inputs that are not based on observable market data. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

	31 Dec. 2016 KD'000	31 Dec. 2015 KD'000
Opening balance	286,587	274,244
Net change in fair value recognised in other comprehensive income	(2,880)	7,393
Impairment recognised in profit or loss	(13,214)	(2,164)
Net change in fair value recognised in profit or loss	752	1,156
Net disposals during the year	(3,328)	(8,431)
Reclassification	29,218	14,389
Closing balance	297,135	286,587

The following table provides information about the sensitivity of the fair values measurement to changes in the most significant unobservable inputs:

31 December 2016

Financial asset	Valuation technique	Significant unobservable input	Range	Sensitivity of the fair value measurement to the input
Unquoted Equity participations & certain quoted shares	DCF Method	Long term growth rate for cash flows for subsequent years	2% - 4%	Higher the growth rate, higher the value
		WACC	9.6% - 13.0%	Higher the WACC, lower the value
		Discount for lack of marketability	10% - 25%	Higher the discount rate, lower the value
Private equity and direct equity funds	NAV reported by investment manager	Fair market value of the underlying assets	N/A	Higher the FMV of the assets, higher the value
Other managed portfolios	NAV reported by investment manager	Fair market value of the underlying assets	N/A	Higher the FMV of the assets, higher the value

Notes to the consolidated financial statements (continued)

35 Summary of assets and liabilities by category (continued)

35.3 Fair value hierarchy (continued)

31 December 2015

Financial asset	Valuation technique	Significant unobservable input	Range	Sensitivity of the fair value measurement to the input
Unquoted Equity participations & certain quoted shares	DCF Method	Long term growth rate for cash flows for subsequent years	3% - 5.8%	Higher the growth rate, higher the value
		WACC	12.5% - 15.4%	Higher the WACC, lower the value
		Discount for lack of marketability	10% - 25%	Higher the discount rate, lower the value
Private equity and direct equity funds	NAV reported by investment manager	Fair market value of the underlying assets	N/A	Higher the FMV of the assets, higher the value
Other managed portfolios	NAV reported by investment manager	Fair market value of the underlying assets	N/A	Higher the FMV of the assets, higher the value

The impact on profit or loss and other comprehensive income would be immaterial if the relevant risk variable used to fair value the level 3 investments were changed by 5%.

Discount for lack of marketability represents the amounts that the Group has determined that market participants would take into account these premiums and discounts when pricing the investments.

In case of AFS assets, the impairment charge in the profit or loss would depend on whether the decline is significant or prolonged. An increase in the fair value would only impact equity (through OCI) and, would not have an effect on profit or loss.

35.4 Fair value measurement of non-financial assets

The following table shows the Levels within the hierarchy of non-financial assets measured at fair value on a recurring basis at 31 December 2015 and 2016.

	Level 1 KD'000	Level 2 KD'000	Level 3 KD'000	Total KD'000
31 December 2016				
Investment property				
- Lands and buildings in Kuwait	-	-	29,234	29,234
- Lands and buildings in Saudi Arabia	-	-	4,854	4,854
- Lands and buildings in UAE	-	-	298	298
- Lands in Jordan	-	-	494	494
- Lands in UAE	-	-	170	170
- Properties under development	-	-	25,581	25,581
- Lands in Kuwait	-	-	2,850	2,850
- Building in London	-	-	813	813
	-	-	64,294	64,294
31 December 2015				
Investment property				
- Lands and buildings in Kuwait	-	-	39,827	39,827
- Lands and buildings in Saudi Arabia	-	-	5,305	5,305
- Lands and buildings in UAE	-	-	316	316
- Land in Jordan	-	-	431	431
- Properties under development	-	-	20,353	20,353
- Lands in Kuwait	-	-	3,250	3,250
	-	-	69,482	69,482

Notes to the consolidated financial statements (continued)

35 Summary of assets and liabilities by category (continued)

35.4 Fair value measurement of non-financial assets (continued)

The above buildings represent rental properties on freehold land categorized as “Investment Lands” (i.e land which can be used to construct multiple residential unit buildings, apartments, villas, Duplex and Studios), in Kuwait, Jordan, UAE, London and Saudi Arabia. The freehold land above also represents land categorized as investment lands. The fair value of the investment property has been determined based on valuations obtained from two independent valuers, who are specialised in valuing these types of investment properties. The significant inputs and assumptions are developed in close consultation with management. One of these valuers is a local bank (for local investment properties) who has valued the investment properties using primarily two methods, one of which is the Yield Method and other being a combination of the market comparison approach for the land and cost minus depreciation approach for the buildings. The other valuer who is a local reputable valuer has also valued the investment properties primarily by using a combination of the methods noted above. When the market comparison approach is used adjustments have been incorporated for factors specific to the land in question, including plot size, location and current use. For the valuation purpose, the Company has selected the lower value of the two valuations (2015: lower of two valuations). Further information regarding the level 3 fair value measurements is set out in the table below:

31 December 2016

Description	Valuation technique	Significant unobservable inputs	Range of unobservable inputs	Relationship of unobservable inputs to fair value
Land and buildings in Kuwait and Saudi Arabia (rental properties)	Yield method and Market comparison approach for land & cost less depreciation for buildings	Estimated market price for land (per sqm)	KD930 to KD8,576	The higher the price per square meter, the higher the fair value
		Construction cost (per sqm)	KD58 to KD419	The higher the construction cost per square meter, the higher the fair value
		Average monthly rent (per sqm)	KD2.53 to KD154	The higher the rent per square meter, the higher the fair value
		Yield rate	5.02% to 12.89%	The higher the yield rate, the higher the value
		Vacancy rate	10%	The higher the vacancy rate the lower the fair value
Freehold land Kuwait, UAE and Jordan	Market comparison approach	Estimated market price for land (per sqm)	KD54 to KD8,200	The higher the price per square meter, the higher the fair value
Building in London	Yield method	Average monthly rent (per sqm)	KD8.73	The higher the rent per square meter, the higher the fair value
		Yield rate	5.19%	The higher the yield rate, the lower the value
		Vacancy rate	10%	The higher the vacancy rate the lower the fair value

Notes to the consolidated financial statements (continued)

35 Summary of assets and liabilities by category (continued)

35.4 Fair value measurement of non-financial assets (continued)

31 December 2015

Description	Valuation technique	Significant unobservable inputs	Range of unobservable inputs	Relationship of unobservable inputs to fair value
Land and buildings in Kuwait and Saudi Arabia (rental properties)	Yield method and Market comparison approach for land & cost less depreciation for buildings	Estimated market price for land (per sqm)	KD1,202–KD8,857	The higher the price per square meter, the higher the fair value
		Construction cost (per sqm)	KD59-KD264	The higher the construction cost per square meter, the higher the fair value
		Average monthly rent (per sqm)	KD2.46 – KD9	The higher the rent per square meter, the higher the fair value
		Yield rate	3.75% to 7.85%	The higher the yield rate, the higher the value
		Vacancy rate	10%	The higher the vacancy rate the lower the fair value
Freehold land Kuwait and Jordan	Market comparison approach	Estimated market price for land (per sqm)	KD1,574 to KD8,350	The higher the price per square meter, the higher the fair value

Level 3 Fair value measurements

The Group measurement of investment properties classified in level 3 uses valuation techniques inputs that are not based on observable market data. The movement in the investment properties is disclosed in note 18.

36 Risk management objectives and policies

The Group's financial liabilities comprise due to banks, short term and long term borrowings and bond, leasing creditors and accounts payable and other liabilities. The main purpose of these financial liabilities is to raise finance for Group operations. The Group has various financial assets such as accounts receivable and other assets, bank balance and cash, murabaha, wakala and sukuk investments, short term deposits and investments and investment securities which arise directly from operations.

The Group's activities expose it to variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

The board of directors sets out policies for reducing each of the risks discussed below.

The Group also enters into derivative transactions, primarily interest rate swaps. The purpose is to manage the interest rate risks arising from the Group's sources of finance. The Group's policy is not to trade in derivative financial instruments.

The most significant financial risks to which the Group is exposed to are described below.

36.1 Market risk

a) Foreign currency risk

Foreign currency risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

Notes to the consolidated financial statements (continued)

36 Risk management objectives and policies (continued)

36.1 Market risk (continued)

a) Foreign currency risk (continued)

The Group mainly operates in the Middle East, USA and United Kingdom and is exposed to foreign currency risk arising, primarily from US Dollar, Saudi Riyal and GBP. The consolidated statement of financial position can be significantly affected by the movement in these currencies. To mitigate the Group's exposure to foreign currency risk, non-Kuwaiti Dinar cash flows are monitored.

Generally, the Group's risk management procedures distinguish short-term foreign currency cash flows (due within twelve months) from longer-term cash flows. Foreign currency risk is managed on the basis of limits determined by the parent company's board of directors and a continuous assessment of the consolidated open positions.

The Group's significant net exposure to foreign currency denominated monetary assets less monetary liabilities at the reporting date, translated into Kuwaiti Dinars at the closing rates are as follows:

	31 Dec. 2016 Equivalent KD '000	31 Dec. 2015 Equivalent KD '000
US Dollars	(102,496)	(103,734)
Saudi Riyals	14,964	15,240
GBP	3,740	7,079

The Parent Company's management estimates that a reasonable possible change in the above exchange rate would be 5%.

If the Kuwaiti Dinar had strengthened against the foreign currencies assuming the above sensitivity (5%), then this would have the following impact on the (loss)/profit for the year. There is no impact on the Group's other comprehensive income.

	Impact on (loss)/profit 31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
US Dollars	5,125	5,187
Saudi Riyals	(748)	(762)
GBP	(187)	(354)
	4,190	4,071

If the Kuwaiti Dinar had weakened against the foreign currencies assuming the above sensitivity (5%), then there would be an equal and opposite impact on the (loss)/profit for the year, and the balances shown above would be negative for US Dollars and positive for Saudi Riyals and GBP (2015: negative for US Dollars and positive for GBP and Saudi Riyals).

Exposures to foreign exchange rates vary during the year depending on the volume and nature of the transactions. Nonetheless, the analysis above is considered to be representative of the Group's exposure to the foreign currency risk.

Notes to the consolidated financial statements (continued)

36 Risk management objectives and policies (continued)

36.1 Market risk (continued)

b) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future profitability or the fair values of financial instruments. The Group is exposed to interest rate risk on its short term deposits (refer note 31), short and long term borrowings (refer note 30 and 27) and due to banks which are both at fixed and floating interest rates. The risk is managed by the Group by managing an appropriate mix between fixed and floating rate, short term deposits and borrowings.

Positions are monitored regular to ensure positions are maintained within established limits.

The following table illustrates the sensitivity of the (loss)/profit for the year to reasonable possible change of interest rate of +25 (0.25%) and -75 (0.75%) basis points with effect from the beginning of the year. The calculation is based on the Group's financial instruments held at each reporting date. All other variables are held constant. There is no impact on Group's other comprehensive income.

	Increase in interest rates		Decrease in interest rates	
	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Effect on (loss)/profit for the year	(1,630)	(1,650)	4,890	4,949

c) Equity price risk

This is a risk that the value of financial instruments will fluctuate as a result of changes in market prices, whether these changes are caused by factors specific to individual instrument or its issuer or factors affecting all instruments, traded in the market. The Group is exposed to equity price risk with respect to its listed equity investments which are primarily located in Kuwait, Jordan, Bahrain, Abu Dhabi, Saudi Arabia and USA. Equity investments are classified either as "investments at fair value through profit or loss" or "available for sale investments".

To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits determined by the Group.

The equity price risk sensitivity is determined on the exposure to equity price risks at the reporting date. If equity prices had been 10% higher/lower, the effect on the loss for the year and other comprehensive income for the year ended 31 December would have been as follows:

A positive number below indicates a increase profit and other comprehensive income where the equity prices increase by 10%. All other variables are held constant.

	(Loss)/profit for the year		Other comprehensive income	
	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Investments at fair value through profit or loss	3,030	3,196	-	-
Available for sale investments*	366	450	23,646	23,619
	3,396	3,646	23,646	23,619

Notes to the consolidated financial statements (continued)

36 Risk management objectives and policies (continued)

36.1 Market risk (continued)

c) Equity price risk (continued)

* Had equity prices been higher by 10% the impairment loss which was recognised in the consolidated statement of profit or loss would be reduced and consequently the profit for the year 2016 and 2015 would be higher.

For a 10% decrease in the equity prices there would be an equal and opposite impact on the losses for the years and other comprehensive income and the amounts shown above would be negative.

36.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group credit policy and exposure to credit risk is monitored on an ongoing basis. The Group seeks to avoid undue concentrations of risks with individuals or groups of customers in specific locations or business through diversification of its activities.

The Group's exposure to credit risk is limited to the carrying amounts of financial assets recognised at the reporting date, as summarized below:

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Available for sale investments	539,053	541,237
Accounts receivable and other assets (refer note 21)	56,458	83,696
Murabaha, wakala and sukuk investments	1,164	1,000
Investments at fair value through profit or loss	76,782	84,033
Short term deposits and investments	9,224	16,661
Bank balances	33,696	43,383
	716,377	770,010

The Group continuously monitors defaults of customers and other counterparties, identified either individually or by Group, and incorporate this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Group's policy is to deal only with creditworthy counterparties. None of the above financial assets are past due nor impaired except for certain wakala investments referred to in note 22, certain available for sale investments, account receivable and other asset and investment at fair value through profit or loss referred to in note 19, 21 and 23 respectively. The Group's management considers that all the above financial assets that are neither past due nor impaired for each of the reporting dates under review are of good credit quality.

In respect of receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty. The credit risk for bank balances and short term deposits is considered negligible, since the counterparties are reputable financial institution with high credit quality. Information on other significant concentrations of credit risk is set out in note 36.3.

36.4 Liquidity risk

Liquidity risk is the risk that the Group will be unable to meet its liabilities when they fall due. To limit this risk, management has arranged diversified funding sources, manages assets with liquidity in mind, and monitors liquidity on a regular basis.

The contractual maturities of financial liabilities based on undiscounted cash flows are as follows:

	Up to 1 month KD '000	1-3 months KD '000	3-12 months KD '000	1-5 Years KD '000	Total KD '000
31 December 2016					
Financial liabilities (undiscounted)					
Long-term borrowings and bonds	-	2,025	6,024	381,002	389,051
Leasing creditors	17	35	155	145	352
Accounts payable and other liabilities	16,262	6,691	19,393	1,052	43,398
Short-term borrowings	681	161,974	166,534	-	329,189
Due to banks	21,186	-	-	-	21,186
	38,146	170,725	192,106	382,199	783,176

36.4 Liquidity risk (continued)

	Up to 1 month KD '000	1-3 months KD '000	3-12 months KD '000	1-5 Years KD '000	Total KD '000
31 December 2015					
Financial liabilities (undiscounted)					
Long-term borrowings	-	2,602	7,584	473,122	483,308
Leasing creditors	22	44	199	424	689
Accounts payable and other liabilities	13,329	9,563	22,365	-	45,257
Short-term borrowings	83,609	72,339	114,055	-	270,003
Due to banks	19,915	-	-	-	19,915
	116,875	84,548	144,203	473,546	819,172

The Group's short term borrowings principally represent revolving facilities with local and foreign banks and financial institutions. During the year 2016, the Group's management has successfully renewed all short term facilities which were classified as falling due within one month and one to three months.

37 Capital risk management

The Group's capital management objectives are to ensure that the Group maintains a strong credit rating and healthy ratios in order to support its business and maximise shareholder value.

The Group manages the capital structure and makes adjustments in the light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, buy back shares, issue new shares or sell assets to reduce debt.

The capital structure for the Group consists of the following:

	31 Dec. 2016 KD '000	31 Dec. 2015 KD '000
Long term borrowings and bonds (refer note 27)	354,019	437,845
Short term borrowings (refer note 30)	320,907	263,190
Due to banks	21,186	19,915
	696,112	720,950
Less :		
Murabaha, wakala and sukuk investments	(1,164)	(1,000)
Short - term deposits & investments	(9,224)	(16,661)
Bank balances and cash	(33,696)	(43,383)
Net debt	652,028	659,906
Total equity	497,379	512,911

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio.

This ratio is calculated as net debt divided by the total equity as follows:

	31 Dec. 2016 %	31 Dec. 2015 %
Net debt to equity ratio	131	129

Notes to the consolidated financial statements (continued)

38 Contingent liabilities
