REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF ARAMEX PJSC

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Aramex PJSC and its subsidiaries ("the Group") as at 30 June 2018, comprising the interim consolidated statement of financial position as at 30 June 2018 and the related interim consolidated statements of income and comprehensive income for the three-month and six-month periods then ended and the related interim consolidated statements of changes in equity and cash flows for the six-month period then ended and explanatory information. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standard IAS 34 Interim Financial Reporting "IAS 34". Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for the financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

At 30 June 2018 (Unaudited)

1 ACTIVITIES

Aramex PJSC (the "Parent Company") was established as a Public Joint Stock Company on 15 February 2005 and is registered in the Emirate of Dubai, United Arab Emirates under UAE Federal Law No 2 of 2015. The condensed consolidated financial statements of the Company as at 30 June 2018 comprise the Parent Company and its subsidiaries (collectively referred to as the "Group" and individually as "Group entities").

The Parent Company was listed on the Dubai Financial Market on 9 July 2005.

The Principal activities of the Group are to invest in the freight, express, logistics and supply chain management businesses through acquiring and owning controlling interests in companies in the Middle East and other parts of the world.

The Parent Company's registered office is, Business Center Towers, 2302A, Media City (TECOM), Sheikh Zayed Road, Dubai, United Arab Emirates

The interim condensed consolidated financial statements were authorized for issue by the Board of Directors on 1 August 2018.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES

Basis of preparation

The interim condensed consolidated financial statements for the six months ended 30 June 2018 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim condensed consolidated financial statements do not include all information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2017. In addition, results for the six months ended 30 June 2018 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2018.

Changes in accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2017, except for the adoption of new standards effective as of 1 January 2018:

IFRS 9 Financial Instruments

IFRS 9 Financial Instruments replaces IAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group had implemented IFRS 9 in 1 January 2018. The standard has been applied retrospectively and, in line with IFRS 9, comparative amounts have not been restated, and there was no impact of the adoption of IFRS 9 on the retained earnings. The standard eliminates the use of the IAS 39 incurred loss impairment model approach, uses the revised hedge accounting framework, and the revised guidance on the classification and measurement requirements.

Impairment

The adoption of IFRS 9 has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing IAS 39's incurred loss approach with a forward-looking expected credit loss (ECL) approach.

IFRS 9 requires the Group to record an allowance for ECLs for all debt instruments measured at amortization cost. For all debt instruments, the Group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

These amendments do not have any impact on the Group's condensed consolidated financial statements.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

Changes in accounting policies (continued)

IFRS 15 Revenue from Contracts with Customers

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The Group adopted IFRS 15 using the modified retrospective approach. The effect of adopting IFRS 15 was not material on the retained earnings and impacted its accounting policy for revenue recognition as detailed below:

Sale of goods

The Group has concluded that revenue from sale of shipment should be recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the shipment. Therefore, the adoption of IFRS 15 did not have an impact on the timing of revenue recognition

Rendering of services

The Group concluded that the services are satisfied over time given that the customer simultaneously receives and consumes the benefits provided by the Group. Consequently, under IFRS 15 the Group would continue to recognise revenue for these service contracts/service components of bundled contracts over time rather than at a point of time.

Advances received from customers

Generally, the Group receives short-term advances from its customers. Upon the adoption of IFRS 15, for short-term advances, the Group used the practical expedient. As such, the Group will not adjust the promised amount of the consideration for the effects of a financing component in contracts, where the Group expects, at contract inception, that the period between the time the customer pays for the good or service and when the Group transfers that promised good or service to the customer will be one year or less. If the period between the time the customer pays for the good or service and when the Group transfers that promised good or service to the customer is more than one year, the Group shall adjust the promised amount of consideration for the effects of the time value of money.

IFRIC Interpretation 22 Foreign Currency Transactions and Advance Considerations

The Interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration.

This Interpretation does not have any impact on the Group's condensed consolidated financial statements.

Amendments to IAS 40 Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

These amendments do not have any impact on the Group's condensed consolidated financial statements.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

Changes in accounting policies (continued)

Amendments to IFRS 2 Classification and Measurement of Share-based Payment Transactions

The IASB issued amendments to IFRS 2 Share-based Payment that address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled. On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met. The Group's accounting policy for cash-settled share based payments is consistent with the approach clarified in the amendments. In addition, the Group has no share-based payment transaction with net settlement features for withholding tax obligations and had not made any modifications to the terms and conditions of its share-based payment transaction.

These amendments do not have any impact on the Group's condensed consolidated financial statements.

Amendments to IAS 28 Investments in Associates and Joint Ventures - Clarification that measuring investees at fair value through profit or loss is an investment-by-investment choice

The amendments clarify that an entity that is a venture capital organisation, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. If an entity, that is not itself an investment entity, has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which: (a) the investment entity associate or joint venture is initially recognised; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent.

These amendments do not have any impact on the Group's condensed consolidated financial statements.

3 ACQUISITION OF NON-CONTROLLING INTEREST

Acquisition of Additional Interest in Aramex Tanzania Ltd. -Tanzania

In March 2018, the Group acquired an additional 10% interest of the voting shares of Aramex Tanzania Ltd., increasing its ownership interest to 93%. No cash consideration was paid, instead, the amount due from the shareholder of AED 1,017 thousand was waived against the additional shares acquired. The carrying value of the net assets of Aramex Tanzania Ltd. at the acquisition date was at a negative balance of AED 4,882 thousand, and the carrying value of the additional interest acquired was at a negative balance of AED 488 thousand. The difference of AED 1,505 thousand between the consideration given and the carrying value of the additional interest acquired has been recognized within equity as a reserve arising from acquisition of non-controlling interests.

4 DIVIDENDS

The General Assembly approved in its meeting held on 8 April 2018 a cash dividend for 2017 of 16.3% of the Company's share capital.

The General Assembly approved in its meeting held on 21 March 2017 a cash dividend for 2016 of 16% of the Company's share capital.

5 PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2018, the Group acquired property and equipment with a cost of AED 69 million (six months ended 30 June 2017: AED 58 million).

6 EMPLOYEES' BENEFIT LIABILITY

In February 2014, a total 37,000,000 phantom shares were granted to senior executives under a long term incentive plan. The exercise price of the options of AED 3 was equal to the market price of Aramex shares on the date of grant. The fair value at the grant date was estimated using the binomial pricing model, taking into account the terms and conditions upon which the options were granted. The contracted life of each option granted is six years. The awards will be settled in cash.

In 2015, the plan was modified but the number of phantom shares subject to the plan remained the same. The new plan has non-market vesting conditions and variable exercise prices depending on the Group's performance. According to the modified plan, the value of exercise price will be based on achieved certain performance targets for the Group over the remaining three year period of the plan contractual life.

The Group expects that the earnings target will be achieved for the remaining life of the plan and hence each option will have an exercise price of zero.

Movements on provision for employees' end of service benefits were as follows:

	<i>30 June 2018 AED'000</i>	<i>31 December 2017 AED'000</i>
At 1 January	29,875	74,988

11 SEGMENT INFORMATION

For management purposes, the Group is organized into five operating segments:

- International express: includes delivery of small packages across the globe to both, retail and wholesale customers.
- Freight forwarding: includes forwarding of loose or consolidated freight through air, land and ocean transport, warehousing, customer clearance and break bulk services.
- Domestic express: includes express delivery of small parcels and pick up and deliver shipments within the country.
- Logistics: includes warehousing and its management distribution, supply chain management, inventory management as well as other value added services.
- Other operations: includes catalogue shipping services, document storage, airline ticketing and travel, visa services and publication and distribution.

Management monitors the operating results of the operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss.

Transfer prices between operating segments are on an arm's - length basis in a manner similar to transactions with third parties.

14 LOANS AND BORROWINGS

During 2018, the Group entered into a term loan agreement with Al Ahli Bank for an amount of AED 49,012 thousand. The term loan is repayable in eight consecutive quarterly instalments; the first instalment is due on 7 December 2018.

15 SEASONALITY OF OPERATIONS

The Group's business is seasonal in nature. Historically, the Group experienced a decrease in demand for its services in the post-winter holiday and summer vacation seasons. The Group traditionally experiences its highest volumes towards the latter half of the year. The seasonality of the Group's revenue may cause a variation in its quarterly operating results. However, local Middle East and Islamic holidays vary from year to year and, as a result, the Group's seasonality may shift over time.
