REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF TAKAFUL EMARAT - INSURANCE (PSC)

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Takaful Emarat - Insurance (PSC) (the "Company") and its subsidiary (collectively referred to as the "Group"), which comprise the interim consolidated statement of financial position as at 30 June 2018, and the related interim consolidated statements of comprehensive income for the three-month and six-month periods then ended and the related interim consolidated statement of changes in equity and cash flows for the six-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standard IAS 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

New standards, interpretations and amendments
The new and revised relevant IFRSs effective in the current period had no significant impact on the amounts reported and disclosures in these interim condensed consolidated financial statements. Annual Improvements 2012-2014 cycle which became effective from 1 January 2018 also did not have an impact on the financial position or performance of the Group during the period.

2 BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

2.2 BASIS OF CONSOLIDATION (continued)

Basis of consolidation (continued)
Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

15 SEGMENT INFORMATION

For management purposes, the Company is organised into two business segments; takaful and investment operations. The takaful operations comprise the takaful business undertaken by the Company on behalf of policyholders. Investment operations comprise investments and cash management for the Company's own account. No operating segments have been aggregated to form the above reportable operating segments.

Segment performance is evaluated based on profit or loss which in certain respects is measured differently from profit or loss in the financial statements.

Except for Wakalah fees, allocation charges and Qard Hassan, no other inter-segment transactions occurred during the period. Segment income, expenses and results include transactions between business segments which will then be eliminated on consolidation shown below.

16 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, differences can arise between book values and the fair value estimates. Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to materially curtail the scale of its operations or to undertake a transaction on adverse terms.

Fair value of financial instruments carried at amortised cost
Management considers that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the interim condensed consolidated financial statements approximate their fair values.

16 FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

Valuation techniques and assumptions applied for the purposes of measuring fair value
The fair values of assets and liabilities are determined using similar valuation techniques and assumptions as used in the audited annual financial statements for the year ended 31 December 2017.

Fair value measurements recognised in the statement of financial position
The following table provides an analysis of assets and liabilities that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
