Independent auditors' report on review of condensed interim financial information

To the Shareholders of Orient UNB Takaful P.J.S.C.

Introduction

We have reviewed the accompanying 30 June 2018 condensed interim financial information of Orient UNB Takaful P.J.S.C. (the "Company"), which comprises:

- the condensed interim statement of financial position as at 30 June 2018;
- the condensed interim statement of profit or loss and other comprehensive income for the three-month and six-month periods ended 30 June 2018;
- the condensed interim statement of changes in equity for the six-month period ended 30 June 2018;
- the condensed interim statement of cash flows for the six-month period ended 30 June 2018; and
- notes to the condensed interim financial information.

Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2018 condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

Other Matter

The condensed interim financial information for the six-month period ended 30 June 2017 and the financial statements for the period from 8 November 2016 to 31 December 2017 were reviewed and audited respectively by another auditor who expressed an unmodified review conclusion on the condensed interim financial information for the six-month period ended 30 June 2017 on 10 August 2017 and an unmodified audit opinion on the financial statements for the period from 8 November 2016 to 31 December 2017 on 14 February 2018.

1 Legal status and activities

Orient UNB Takaful P.J.S.C. (the "Company") is a public joint stock company registered under UAE Federal Law No. (2) of 2015 relating to the incorporation of commercial companies in the UAE, and UAE Federal Law No. (6) of 2007 (as amended) relating to the establishment of insurance companies. The registered address of the Company is P.O. Box 183368, Dubai, United Arab Emirates.

The Company was incorporated on 8 November 2016, while the formalities of issuance and allotment of shares to the public were finalised on 28 December 2016. The shares of the Company are listed on the Dubai Financial Market. The Company obtained a commercial license on 23 January 2017 and a license from the Insurance Authority of the UAE on 16 July 2017.

The principal activity of the Company is issuance of short term takaful contracts in connection with accidents and liabilities insurance, fire insurance, transportation risk insurance, other type of insurance and health insurance. The Company also invests its funds in deposits.

2 Basis of preparation

a) Statement of compliance

These condensed interim financial information have been prepared in accordance with IAS 34 "Interim Financial Reporting". They do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements as at and for the period ended 31 December 2017, which have been prepared in accordance with International Financial Reporting Standards (IFRS).

b) Basis of measurement

These condensed interim financial information have been prepared on the historical cost basis.

c) Functional and presentation currency

These condensed interim financial information are presented in UAE Dirham (AED), which is the functional currency. Except as otherwise indicated, financial information are presented in AED.

d) Use of estimates and judgements

The preparation of these condensed interim financial information in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimates are revised and in the future periods effected.

In preparing these condensed interim financial information, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited financial statements as at and for the period ended 31 December 2017.

3 Summary of significant accounting policies

The accounting policies applied by the Company in preparation of these condensed interim financial information are consistent with those applied by the Company in its annual audited financial statements as at and for the period ended 31 December 2017 except for the adoption of new IFRS which became effective as of 1 January 2018.

The Company has adopted all new and revised IFRS and interpretations applicable for accounting period beginning on or after 1 January 2018 except IFRS 9 Financial Instruments, for which the Company has applied the temporary exemption available under IFRS 4 Insurance Contracts. Accordingly, the Company will apply this standard for annual period beginning 1 January 2021.

3 Summary of significant accounting policies (continued)

The adoption of the new and amended standards and interpretations have been reflected in these condensed interim financial information as appropriate in terms of disclosures but do not have an impact on the financial position or performance of the Company during the period.

4 Financial risk management

Aspects of the Company's financial risk management objectives and policies are consistent with those disclosed in the annual audited financial statements for the period ended 31 December 2017.

5 Interim measurement

The nature of the Company's business is such that income and expense are incurred in a manner, which is not materially impacted by any form of seasonality. These condensed interim financial information were prepared based upon an accrual concept, which requires income and expense to be recorded as earned or incurred and not as received or paid throughout the period. However, the results may not represent a proportionate share of the annual profits due to variability in contributions and investment income and uncertainty of claims occurrences.

6 Classes and categories of financials assets and financial liabilities

The table below sets out the classification of each class of financial assets and liabilities along with their fair values. For financial assets and liabilities carried at amortised cost, management believes that the amortised cost of those instruments approximates to their fair values.

7 Fair value of financial instruments

Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

7 Fair value of financial instruments (continued)

Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

As at 30 June 2018 and 31 December 2017, all financial assets and liabilities are stated at amortised cost and are classified as Level 3 within the fair value hierarchy. The fair values of the financial assets and liabilities at amortised cost are not materially different from their carrying value at the reporting date.

23 Comparative figures

During the current period, it has been identified that the total takaful operations assets did not match with the total takaful operations liabilities in the statement of financial position as at 31 December 2017. The difference is due to a reclassification adjustment in the receivable from policyholders and payable to shareholders relating to the period from 8 November 2016 to 31 December 2017, which was accounted for subsequent to issuance of the financial statements.

The effect of the reclassification on the condensed interim financial information is summarised below.

As at 31 December 2017

	As previously reported AED	Adjustment AED	Restated AED
Receivable from policyholders - takaful operations	14,469,226	(14,153,225)	316,001
Payable to shareholders	14,469,226	(14,153,225)	316,001

The above adjustments will not have any impact on the statement of financial position of the Company at the beginning of prior period.
