## **Review report on condensed consolidated interim financial statements to the shareholders of Dubai Investments PJSC**

### **Introduction**

We have reviewed the accompanying condensed consolidated interim statement of financial position of Dubai Investments PJSC (the 'Company') and its subsidiaries (together the 'Group') as at 30 June 2018 and the related condensed consolidated interim statements of profit or loss and comprehensive income for the three-month and six-month period then ended, and condensed consolidated interim statements of changes in equity and cash flows for the six-month period then ended and notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34, 'Interim Financial Reporting' ('IAS 34'). Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

### **Scope of review**

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34.

## Notes to the condensed consolidated interim financial statements

for the six month period ended 30 June 2018 (continued)

### 1. Reporting entity

Dubai Investments PJSC (“the Company”) was incorporated in the United Arab Emirates by Ministerial Resolution No. 46 of 1995, on 16 July 1995. These condensed consolidated interim financial statements as at and for the six month period ended 30 June 2018 (“the current period”) comprise the financial statements of the Company and its subsidiaries (collectively referred to as “the Group”) and the Group’s interest in associates and joint arrangements.

The Group is primarily involved in development of real estate for sale and leasing, contracting activities, manufacturing and trading of products in various sectors, district cooling, investment banking, asset management, financial investments, healthcare and education.

The registered address of the Company is P.O. Box 28171, Dubai, UAE.

### 2. Statement of compliance

The condensed consolidated interim financial statements have been prepared in accordance with the International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*. The condensed consolidated interim financial statements does not include all of the information required for full annual consolidated financial statements, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 31 December 2017.

### 3. Significant accounting policies

The accounting policies applied in the preparation of these condensed consolidated interim financial statements are consistent with those applied by the Group in its recent annual audited consolidated financial statements as at and for the year ended 31 December 2017 except as mentioned below:

#### *Changes in accounting policies*

During the current period, the Group has adopted following new International Financial Reporting Standards (IFRS's):

#### **- IFRS 9 (2014) Financial Instruments**

The Group had early adopted IFRS 9 issued in November 2009 relating to the classification and measurement of financial assets.

Subsequently, requirements were added in IFRS 9 relating to classification and measurement of liabilities in 2010, hedge accounting in 2013 and impairment relating to expected credit losses on financial assets in 2014. In 2014 the completed version of IFRS 9 was issued. Some limited amendments have been made in the final standard relating to classification and measurement requirements for financial assets by introducing a fair value through other comprehensive income category for certain debt instruments.

The effective date of the new standard issued in 2014 is 1 January 2018. It replaces existing International Accounting Standard (IAS) 39 – Financial Instruments: Recognition and Measurement.

#### **- IFRS 15 - Revenue from Contracts with Customers**

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS 18 Revenue, IAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes.

The initial application of these standards has mainly impacted the following:

- impairment losses recognised on financial assets
- timing of revenue recognition from sale of properties

### 3. Significant accounting policies (continued)

#### *Changes in accounting policies (continued)*

#### **IFRS 9 Financial Instruments**

##### ***Impairment of financial assets***

IFRS 9 replaces the ‘incurred loss’ model with a forward looking ‘expected credit loss’ (ECL) model. This requires considerable judgement about how changes in economic factors affect ECLs, which will be determined on a probability weighted basis. The new impairment model applies to financial assets measured at amortised cost or FVOCI, except for investments in equity instruments.

Under IFRS 9, loss allowances is being measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

Lifetime ECL measurement applies if the credit risk of a financial asset at the reporting date has increased significantly since initial recognition and 12-month ECL measurement applies if it has not. An entity may determine that a financial asset’s credit risk has not increased significantly if the asset has low credit risk at the reporting date. However, lifetime ECL measurement always applies for trade receivables and contract assets without a significant financing component; the Group has chosen to apply this policy also for trade receivables and contract assets with a significant financing component.

The estimated ECL is calculated based on actual credit loss experience. The Group performs the calculation of ECL rates separately for different types of customers including related parties.

Actual credit losses are adjusted to reflect differences between economic conditions during the period over which the historical data is collected, prevalent conditions and the Group’s view of economic conditions over the expected lives of the receivables including related party balances.

The adoption of new accounting policy at 1 January 2018 resulted in additional impairment provision of AED 17.5 million on contract work in progress, AED 1.5 million on trade receivables and AED 2.2 million on retention receivables.

#### **Transition**

The Group has taken advantage of the exemption allowing it not to restate comparative information for prior periods with respect to measurement (including impairment) changes. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 has been recognised in opening retained earnings as at 1 January 2018.

As the Group early adopted IFRS 9 (2009) relating to classification of assets, no significant reclassifications have been made on adoption of IFRS 9 (2014).

#### **IFRS 15 - Revenue from Contracts with Customers**

##### ***Revenue recognition***

##### ***Sale of properties***

Revenue from sale of properties was recognised when the properties are handed over to the customers, which is taken to be the point in time of the physical hand-over, the related risks and rewards of ownership is transferred provided that revenue and costs can be measured reliably, the recovery of the consideration is probable and there is no continuing management involvement with the properties.

### 3. Significant accounting policies (continued)

#### *Changes in accounting policies (continued)*

#### **IFRS 15 - Revenue from Contracts with Customers (continued)**

#### *Revenue recognition (continued)*

#### *Sale of properties (continued)*

Under IFRS 15, revenue from the sale of properties is recognised as the properties are being constructed i.e. over time based on stage of completion at the reporting date.

The following table summarises the impacts of adopting IFRS 15 on the Group's condensed consolidated interim statement of financial position as at 30 June 2018 and its condensed consolidated interim statement of profit or loss for the six month then ended for each of the line item affected. There is no significant impact on the Group's condensed consolidated interim statement of cash flows for the six month period ended 30 June 2018.

Particulars	Amounts without adoption of IFRS 15 AED'000	Adjustments AED'000	As reported AED'000
Inventories (non-current)	2,143,785	(45,200)	2,098,585
Trade receivables (current)	1,004,222	50,284	1,054,506
Sale of properties	7,490	24,268	31,758
Direct operating costs	(801,997)	(22,077)	(824,074)

#### *Construction contracts*

Contract revenue currently includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably. When a claim or variation is recognised, the measure of contract progress or contract price is revised and the cumulative contract position is reassessed at each reporting date.

Under IFRS 15, claims and variations are included in the contract accounting when they are approved.

Based on its assessment, the Group did not identify any significant impact on its consolidated financial statements on application of revised policy.

#### *Transition*

The Group has adopted IFRS 15 using the cumulative effect method, with the effect of initially applying this standard recognised at the date of initial application (i.e. 1 January 2018). As a result, the cumulative impact of increase in net profit amounting to AED 2.8 million has been adjusted in the opening retained earnings and comparatives haven't been adjusted.

### 4. Use of estimates and judgments

The preparation of condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgments made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied in preparation of the consolidated financial statements of the Group as at and for the year ended 31 December 2017 except for new significant judgments and key sources of estimation uncertainty related to the application of IFRS 9 and IFRS 15, which have been described in note 3.

### 5. Financial instruments

#### Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2017.

#### Valuation of financial instruments

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: inputs that are quoted market price (unadjusted) in an active market for identical instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted market prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: inputs that are unobservable. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The table below analyses financial instruments, measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:

<i>30 June 2018</i>	Level 1 AED'000	Level 2 AED'000	Level 3 AED'000	Total AED'000

The Group does not have any investments in Abraaj Group or any of its projects or funds and there is no relationship between the Group and Abraaj.

### 12. Inventories

Inventories at 30 June 2018 include properties under development for sale in the ordinary course of business amounting to AED 2,773 million (31 December 2017: AED 2,538 million) and represent costs of land, expenditure incurred towards the development of properties for subsequent sale and capitalised borrowing costs. The Group intends to develop these properties for sale and has classified these properties as long term or short term based on completion/future development plans.

### 13. Trade receivables

During the previous year, Dubai Investments Park Development Company LLC ("the subsidiary") signed a settlement agreement with a customer to settle an outstanding receivable amounting to AED 230.7 million. The settlement was agreed by offsetting the receivables amount against the purchase price of two plots of land transferred to the subsidiary by the customer.

Upon signing of the settlement agreement, the previous legal proceedings initiated by the subsidiary and the customer were closed through the Dubai Courts (note 21).

### 17. Bank borrowings

The terms of the bank borrowings vary from three to ten years. These are secured by a combination of the Company's corporate guarantee, mortgages over certain investment properties, inventories, trade receivables, property, plant and equipment, assignment of receivables and insurance policies over assets of the Group and lien on bank deposits. The interest rate of majority of the bank borrowings range between 2.25% to 3.5% over EIBOR p.a.. Where there is a corporate guarantee, the Company's liability is generally restricted to its percentage of equity interest in the borrowing entity.

### 18. Sukuk notes

In February 2014, a subsidiary of the Company namely Dubai Investments Park Development Company LLC ("DIPDC") issued 5 year Sukuk certificates maturing in February 2019 for USD 300 million (equivalent to AED 1,101.6 million). The sukuk program is structured as a Wakala and is listed on NASDAQ Dubai and Irish Stock Exchanges. The terms of the arrangement include transfer of certain identified assets (the Wakala assets) of DIPDC to a Special Purpose Vehicle, DIP Sukuk Ltd. (the Issuer), formed for the issuance of sukuk certificates. In substance, the Wakala assets remain in control of DIPDC and shall continue to be serviced by DIPDC. In case of any shortfall in cash flows, DIPDC have provided an undertaking to make good on such shortfall to the sukuk certificate holders. The sukuk certificate holders have no recourse to the assets. These sukuk certificates bear a fixed profit rate of 4.291% p.a. payable semi-annually. The issuer will service the profit from returns generated from the Wakala assets. These notes have been classified under current liabilities since these are maturing within 12 months from 30<sup>th</sup> June 2018.

### 19. Proposed dividend and directors' fee

- (i) At the Annual General Meeting held on 18 April 2018, the shareholders approved 12% cash dividend proposed by the Board of Directors. The dividend amounting to AED 510 million was paid during the period.
- (ii) At the Annual General Meeting held on 18 April 2018, the shareholders approved the proposed Directors' fee amounting to AED 12.25 million for the year ended 31 December 2017, which was paid during the current period.

### 21. Contingent liabilities

As detailed in note 13, upon signing of the settlement agreement, the previous legal proceedings initiated by the subsidiary and the customer were closed through the Dubai Courts.

### 22. Acquisition of a subsidiary

With effect from 1 January 2018, the Group acquired additional 50% shares in its existing jointly controlled entity, Emirates District Cooling LLC ('EMICOOL') from the joint venture partner. Upon acquisition of the additional interest, EMICOOL has become a wholly owned subsidiary of the Group. Accordingly, the investment in the equity accounted investee has been derecognised and the entity has been consolidated on a line by line basis effective from the date of acquisition.

The following table summarises the recognised amounts of assets acquired and liabilities assumed at the date of acquisition:

<b>% interest acquired</b>	<b>50%</b>

### 22. Acquisition of a subsidiary (continued)

The Group engaged an independent valuer to perform the fair valuation of net assets acquired. A combination of valuation techniques depending upon the nature of the asset were used for measuring the fair values of significant assets acquired and liabilities assumed. These included: depreciated replacement costs, discounted cash flows, income capitalization and comparable market value, whichever was most relevant.

The values have been determined provisionally, if new information is obtained within one year of the date of acquisition about the facts and circumstances that existed at the date of acquisition which requires adjustments to the recognised amounts of identifiable assets and liabilities, the accounting for acquisition will be revised accordingly.

### 23. Disposal of a joint venture

During the current period, the Group disposed of its 50% share holding in its existing jointly controlled entity, Dubai International Driving Centre LLC. The disposal resulted in a gain of AED 21.1 million which is included under gain on sale of investments.

### 24. Segment reporting

The Group has broadly three reportable segments as discussed below, which are the Group's strategic business units. The strategic business units operate in different sectors and are managed separately because they require different strategies. The following summary describes the operation in each of the Group's reportable segments:

<i>Property</i>	development of real estate for sale and leasing
<i>Manufacturing, contracting and services</i>	manufacture and sale of materials used in construction projects, executing construction contracts, production of raw and architectural glass, cooling services, production, aluminum extruded products, laboratory furniture, healthcare and education
<i>Investments</i>	strategic minority investments in associates, investment banking, asset management and financial investments

Information regarding the operations of each segment is included hereafter. Performance is measured based on segment revenue and profit as management believes that profit is the most relevant factor in evaluating the results of certain segments relative to other entities that operate within these industries. There are a few transactions between the segments and such transaction are carried out on arm's length basis and are eliminated on consolidation.

During the current period, the Group has re-classified all revenue, expenses, assets and liabilities related to investment in associates from manufacturing, contracting and services segment to investments segment. Comparative figures have also been re-classified to conform to the presentation adopted in current condensed consolidated interim financial statements.
