Management of the Parent Company is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard No. (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of review
We conducted our review in accordance with the International Standard on Review Engagements 2410 "Review of Interim Financial Information performed by the Independent Auditor of the Entity". A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion
Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard No. (34) "Interim Financial Reporting".

Report on review of other legal and regulatory matters
Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of "the Parent Company". We further report that nothing has come to our attention indicating any contravention during the six month period ended on June 30, 2019 of the Companies' Law no. 1 of year 2016, and its executive regulation , as amended, or law no. 7 of 2010 in respect of the establishment of Capital Market Authority, the organization of the securities activity and its executive regulations or of the Parent company's memorandum and articles of association, as amended, that might have had a material effect on the business of the group or on its interim condensed consolidated statement of financial position.

Report on review of other legal and regulatory matters (continue)

And during the course of our review, nothing has come to our attention indicating any material violations during the six months period ended June 30, 2019 of the provisions of Law No. 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organization of banking business, and related regulations. Except as disclosed in note (11) on the interim condensed consolidated financial information regarding wakala payables obtained from investment funds, which is in violation of the instructions of central bank of Kuwait.

The fair value of the financial instruments is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The Group has used the assumptions and accepted methods in the assessment of fair values of financial instruments. The fair values of the Group's financial assets and financial liabilities are determined as follows:

- The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active market are determined with reference to quoted market prices.
- The fair values of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flows using prices from observable current market transactions and dealer quotes for similar instrument.
- The fair value of the financial instruments carried at amortized cost is not significantly different from their carrying value

The following table presents financial assets and financial liabilities measured at fair value in the interim condensed consolidated statement of financial position in accordance with the fair value hierarchy. This hierarchy group's financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and financial liabilities.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant inputs to the fair value measurement.
