Report on the audited consolidated financial statements

Qualified opinion

We have audited the consolidated financial statements of Al Madina for Finance and Investment Company - K.S.C (Public) - (the Parent Company) and its subsidiaries (together referred to as "the Group") – which comprise the consolidated statement of financial position as of December 31, 2018 and the related consolidated statements of profit or loss, consolidated statements of profit or loss and other comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the financial year then ended and a summary of significant accounting policies and other explanatory information.

In our opinion, except for the possible effects of any adjustments the matter described in the Basis for Qualified Opinion section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of 31 December 2018, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Qualified opinion

The Group's investments were accounted for in one of associate companies by using the equity method based on the condensed consolidated interim financial information of the associate for the nine months ended September 30, 2018 , amounting to KD 5,371,736 in the consolidated statement of financial position as of December 31, 2018 (2017: 6,190,660 Kuwaiti Dinar). The Group's share in the net loss of the associate amounting to KD 958,508 (2017: KD 1,281,848) was included in the Group's revenues for the year then ended. As the audited financial statements for the year ended December 31, 2018 have not yet been issued, so we were not able to determine whether it was necessary to make adjustments to these amounts.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in" the Auditor's Responsibilities" for the Audit of the Consolidated Financial Statements section of our report. We are independent of the group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the group's consolidated financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Other matters

The consolidated financial statements of the parent company for the financial year ended December 31, 2017 were audited by another auditor who has concluded a qualified opinion on the consolidated financial statements in the audit report issued on March 21, 2018.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, significant in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion therefore we do not provide a separate opinion on these matters. How each matter is addressed in the course of our audit is provided below.

We have identified the following key audit matters;

Impairment of investments in associates:

The Group's assessment of whether there is an impairment of investments in associates is a judgmental process. This requires assessment of net asset value, estimates concerning the future cash flows, growth rates based upon management's view of future business prospects and the associated discount rates etc. As of December 31, 2018 investments in associates are carried at KD 22,136,390 which represents 63% (December 31, 2017: KD 22,786,388 which represents 57%) of the total assets. The disclosures related to investments in associates are included in notes (10) to the consolidated financial statements.

We used internal valuation specialists to review valuation methodologies used in the assessment of the recoverable value and to challenge the key assumptions including the estimated future cash flows, growth rates and the discount rates applied to the investment in associates by comparing these against industry benchmarks, our understanding of the future prospects of the business and the accuracy of historical forecasts. We performed a sensitivity analysis to assess the risk of impairment to changes in those assumptions.

Other Information included in Board of Directors Report

The other information comprises all information included in the annual report other than the consolidated financial statements and our auditor's report thereon. Management is responsible for the other information. We expect to receive the Company's annual report after the date of the auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs as adopted for use in the State of Kuwait, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing "the Group's" ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate "the Group" or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the process of preparing the consolidated financial reports.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

Furthermore, in our opinion, proper books of account have been kept by "the Parent Company", physical counting was carried out in accordance with the recognized practices and the consolidated financial statement together with the contents of the report of the Parent Company's Board of Directors are in accordance therewith. Also, we have obtained the information and explanations that we deemed necessary for the purpose of our audit, the consolidated financial statements incorporate all information that is required by the Companies' Law No. 1 of year 2016, and the its executive regulation, as amended, law No. 7 of year 2010 in respect of the establishment of Capital Market Authority and the organization of the securities activity, as amended, and its executive regulation, Law No. 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organization of banking business, and its related regulations and the Parent Company's Articles of incorporation and Memorandum of Association as amended. According to the information that was available to us during the current financial year ended December 31, 2018 no violations of the companies' Law No. 1 of year 2016, and its executive regulation, as amended, and law No. 7 of year 2010 in respect of the establishment of Capital Market Authority and the organization of the securities activity and its executive regulation, Law No. 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organization of banking business, and its related executives regulations or the Parent Company's Articles of incorporation and Memorandum of Association, as amended, that might have had a material effect on the Parent Company's business or its consolidated financial position. except for what has been disclosed in (note -14) to these consolidated financial statements which states that the Group has obtained Wakala payable from Investment Funds, which violates of the instructions issued by Central Bank of Kuwait.

Al Madina for Finance and Investment Company K.S.C (Public)

And its subsidiaries
Kuwait

Notes to the consolidated financial statements for the financial year ended December 31, 2018
(All amounts are in Kuwaiti Dinar unless stated otherwise)

1. Incorporation and activity

Al Madina for Finance and Investment Company (the Parent Company) is a Public Kuwaiti Shareholding Company incorporated in the State of Kuwait on 1980 and is registered as an investment company with the Central Bank of Kuwait on April 27, 2005. The shares of the Parent Company were listed on the Kuwait Boursa on April 24, 2006 and on the Dubai Financial Market on September 10, 2007.

The Parent Company's head office is domiciled at Al-Soar Street - AI-Mirqab - Kuwait.

The principle activities of the Parent Company are represented in all investing activities, finance and management of funds, trading and leasing of properties to customers and trading in lands and properties.

The consolidated financial statements include the financial statements of the parent company and its subsidiaries (together referred to as "the Group") (Note - 5).

The activities of the Parent Company are carried out in accordance with Islamic Sharia principles.

The Consolidated financial statements for the year ended December 31, 2018 were approved for issuance by the Board of Directors on February 14, 2019.

The Shareholders' General Assembly has the authority to amend these consolidated financial statements after their issuance.

2. Application of new and revised International Financial Reporting Standards (IFRSs)

2/1) Newly effective standard and amendments and improvements to standards

The Group adopted IFRS 15 and IFRS 9 with effect from January 1, 2018. The nature and effect of the changes as a result of adoption of these new accounting standards are described below. Several other amendments and interpretations apply for the first time in 2018, but do not have an impact on the consolidated financial statements of the Group.

The Group has not early adopted any standards, interpretations or amendments that have been issued but are not yet effective.

- **IFRS 15 Revenue from Contracts with Customers**
  IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with its customers. IFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer.

IFRS 15 requires entities to exercise judgment, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Group has adopted IFRS 15 using the cumulative effect method (without practical expedients), with the effect of initially applying this standard recognized at the date of initial application (i.e. January 1, 2018). Accordingly, the information presented for 2017 has not been restated – i.e. it is presented, as previously reported, under IAS 18, IAS 11 and related interpretations. Additionally, the disclosure requirements in IFRS 15 have not generally been applied to comparative information.

There is no impact of adopting IFRS 15 on consolidated statement of profit or loss and other comprehensive income or consolidated statement of financial position.

- **IFRS 9 "Financial instruments"**
  IFRS 9 Financial Instruments replaces IAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

  (There is impact of transition to IFRS 9 on the opening balance of reserves and retained earnings) as mentioned.

A) Classification and measurement of financial assets and financial liabilities

IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, FVOCI and FVTPL. The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. IFRS 9 eliminates the previous IAS 39 categories of held to maturity, loans and receivables and available for sale. Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities.

The following table and the accompanying notes below explain the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 for each class of the Group's financial assets and financial liabilities as at 1 January 2018.

(i) Classification and measurement of financial assets and financial liabilities

The following table reconciles the carrying amounts of financial assets under IAS 39 to the carrying amounts under IFRS 9 on transition to IFRS 9 on January 1, 2018.

In Kuwaiti Dinar	IAS 39 carrying amounts December 31, 2017	Reclassification	IFRS 9 carrying amounts January 1, 2018
Financial assets			
Investments at fair value through profit or loss	1,567,907	1,775,954	3,343,861
Available for sale investments	1,775,954	(1,775,954)	-
Amortised cost			
Accounts receivable and other debit balances	12,027,325	-	11,902,666
Cash and cash equivalents	553,012	-	553,012
Total financial assets	15,924,198	-	15,799,539

In Kuwaiti Dinar	Original classification under IAS 39	New classification under IFRS 9	Original carrying amount under IAS 39	New carrying amount under IFRS 9
Financial liabilities				
Accounts payable and other credit balances	Other financial liabilities	Other financial liabilities	2,744,028	2,744,028
Wakala payables	Other financial liabilities	Other financial liabilities	2,522,653	2,522,653
Total financial liabilities			5,266,681	5,266,681

B) Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The new impairment model applies to financial assets measured at amortized cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognized earlier than under IAS 39.

rImpact of the new impairment model
For trade and other receivables in the scope of the IFRS 9 impairment model, impairment losses are generally expected to increase and become more volatile.

The impact of the adoption of IFRS 9 on ECL is recognizing an amount of KD 13,428 for the financial year, also, an additional amount amounting to KD 124,659 included in the consolidated statement of changes in equity as described in (Note –8) to the consolidated financial statement.

C) **Transition**
Changes in accounting policies resulting from the adoption of IFRS 9 have been applied using the cumulative effect method. The Group has taken an exemption not to restate comparative information of prior periods.

Differences in the carrying amounts of the financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognized in retained earnings as of January 1, 2018. Accordingly, the information presented for 2017 does not reflect the requirements of IFRS 9 but those of IAS 39.

The assessment has been made on the basis of the facts and circumstances that existed at the date of initial application.
The impact of the adoption of IFRS 9, with respect to the reclassification and measurement of investments is reclassification of the group's investment according to the requirements of IFRS 9 as described in Note (7 and 12) to the consolidated financial statement.

- **IFRIC Interpretation 22 Foreign Currency Transactions and Advance Considerations**
The Interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or nonmonetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the date of the transactions for each payment or receipt of advance consideration. This Interpretation does not have any impact on the Group's consolidated financial statements.

2/2) New and amended standards not yet effective, but available for early adoption
The below new and amended International Financial Reporting Standards ("IFRS" or "standards") that are available for early adoption for financial years ending 31 December 2018 are not effective until a later period, They have not been applied in preparing these consolidated financial statements.

A. Adoption expected to impact the Group financial statements:

- **IFRS 16 Leases**

  IFRS 16 was issued in January 2016 and it replaces IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under IAS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset.

  Lessor accounting under IFRS 16 is substantially unchanged from today's accounting under IAS 17. Lessors will continue to classify all leases using the same classification principle as in IAS 17 and distinguish between two types of leases: operating and finance leases.

  IFRS 16, which is effective for annual periods beginning on or after January 1, 2019, requires lessees and lessors to make more extensive disclosures than under IAS 17. The Group is in the process of assessing the impact of IFRS 16 to its consolidated financial statements.

B. Adoption not expected to impact the Group financial statements:

Effective date	Description
January 1, 2019	• IFRIC Interpretation 23 Uncertainty over Income Tax Treatment • Amendments to IFRS 9: Prepayment Features with Negative Compensation • Amendments to IAS 19: Plan Amendment, Curtailment or Settlement • Amendments to IAS 28: Long-term interests in associates and joint ventures • Annual Improvements 2015-2017 Cycle (issued in December 2017) – Amendments to IFRS 3 Business Combinations – Amendments to IFRS 11 Joint Arrangements – Amendments to IAS 12 Income Taxes – Amendments to IAS 23 Borrowing Costs
January 1, 2021	• IFRS 17 Insurance Contracts • Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
Effective date to be determined	

3. Significant accounting policies

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below:

3/1) Basis of the consolidated financial statements preparation

- The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Boards (IASB) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) and State of Kuwait Companies' Law requirements and subsequent amendments.
- The accounting policies used in the preparation of these consolidated financial statements are consistent with those used in the preparation of the consolidated financial statements of "the Group" for the financial year ended December 31, 2017 except for the adoption of IFRS 9: Financial Instruments and IFRS 15: Revenue from Contracts with Customers from January 1, 2018. The changes in the accounting policies arising from the adoption of these standards are explained below.
- These consolidated financial statements are prepared under the historical cost basis of measurement as modified by the revaluation at fair value of financial assets held as "Investments at fair value through profit or loss". These financial statements have been presented in Kuwaiti Dinars.

- The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and disclosure of contingent assets and contingent liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. It also requires management to exercise its judgment in the process of applying the accounting policies. The areas involving a high degree of judgment or complexity or areas where assumptions and estimates are significant to these consolidated financial statements are disclosed in note (4).

3/2) Basis of consolidation

The consolidated financial statements include the financial statements of Al Madina for Finance and Investment Company K.S.C (Public) ("the Parent Company") and its subsidiaries (together referred to as "the Group") disclosed under note (5).

Subsidiaries are those enterprises controlled by the Parent Company. Control exists when the Parent Company has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The control is maintained by the Parent Company when:

- Exercise power over the investee;
- Exposure to variable returns or obtains rights from involvement with the investee; and
- Ability to use its power to affect the investee returns.

When the Parent Company does not has majority voting rights in the investee, the Parent Company takes into consideration facts and other factors in assessing the control, which include:

- Contractual arrangement between the Parent Company and other vote holders of the investee;
- Rights arising from other contractual arrangements;
- The Parent Company's voting rights;
- Potential voting rights.

The financial statements of subsidiaries acquired or disposed are included in the consolidated financial statements from the date the control effectively commences until the date that control effectively end.

The financial statements of the subsidiaries are consolidated on a line–by–line basis by adding together alike items of assets, liabilities, revenues and expenses. All inter–company balances and transactions, including unrealized profits or losses arising from inter–company transactions, are fully eliminated. Consolidated financial statements are prepared using uniform accounting policies for similar transactions and other events which accrue in similar conditions.

The financial statements of the subsidiaries are prepared for the same date or within three months of the reporting period of the Parent Company, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies that may exist between the Subsidiaries' financial year date and the Parent Company's financial year date.

Non–controlling interests in the net assets of consolidated subsidiaries are identified separately from the Group's equity therein. Non–controlling interests consist of the interest at the date of the original business combination and the non–controlling interest share of changes in equity since the date of the combination. Profits and losses attributed to the owners of the Parent Company and to the non–controlling interests in the ratio of their respective shareholdings even if that resulted in the non–controlling interests having a deficit balance.

When ownership of subsidiaries changes without loss of control, the transaction is accounted for within equity. However, when control is lost as a result of change in ownership, then:

- Derecognize the assets and liabilities of the subsidiaries reported in statement of financial position (including goodwill);
- Recognize any remaining investment of the subsidiaries at fair value at date of loss of control;
- Derecognize non–controlling interests;
- Recognize the profit or loss resulting from the loss of control in the consolidated statement of profit or loss.

3/3) Recognition and de-recognition of financial assets and liabilities

A financial asset or a financial liability is recognized when the Group become a party to the contractual provisions of the financial instrument. A financial asset is de-recognized either when the contractual rights to cash flows from the financial asset expire, the Group has transferred substantially all the risks and rewards of ownership or when it has neither transferred nor retained substantially all the risks and rewards, but no longer has control over the asset or a proportion of the asset. A financial liability is de-recognized when the obligation specified in the contract is discharged, cancelled or expired.

3/4) Financial instruments

Recognition, initial measurement and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by directly attributable transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below.

A financial asset (or, where applicable a part of financial asset or part of Group of similar financial assets) is derecognised when:

- rights to receive cash flows from the assets have expired;
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement and either
  (a) the Group has transferred substantially all the risks and rewards of the asset.
  (b) the Group has neither transferred nor retained substantially all risks and rewards of the asset but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, a new asset is recognised to the extent of the Group's continuing involvement in the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in consolidated statement of profit or loss.

Classification of financial assets
For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- financial assets at amortised cost
- financial assets at fair value through Other Comprehensive Income (FVTOCI)
- financial assets at fair value through profit or loss (FVTPL)

The classification is determined by both:

- the entity's business model for managing the financial asset
- the contractual cash flow characteristics of the financial asset.

The Group may make the following irrevocable election/designation at initial recognition of a financial asset:

- the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met and
- the Group may irrevocably designate a debt investment that meets the amortised cost or FVTOCI criteria.
- as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

Subsequent measurement of financial assets

- **Financial assets at amortised cost**

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised cost using the effective interest rate method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial.

The Group accounts for financial assets at FVTOCI if the assets meet the following conditions:

- they are held under a business model whose objective it is "hold to collect" the associated cash flows and sell; and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Any gains or losses recognised in other comprehensive income (OCI) will be recycled to the consolidated statement of profit or loss upon derecognition of the asset (except for equity investments at FVTOCI as detailed below).

Equity investments at FVTOCI
On initial recognition, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

A financial asset is held for trading if:
- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs.

Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the fair value reserve. The cumulative gain or loss is transferred to retained earnings within the consolidated statement of changes in equity.

Dividends on these investments in equity instruments are recognised in the consolidated statement of profit or loss.

- **Financial assets at FVTPL**
Financial assets that do not meet the criteria for measurement at amortised cost or FVOCI are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply (see below). The category also contains investments in equity shares.

Assets in this category are measured at fair value with gains or losses recognised in consolidated statement of profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The Group's financial assets at FVTPL comprise of the following:

- Investment in bonds
- Investment in equity shares

Impairment of financial assets
All financial assets except for those at FVTPL and Equity investments at FVTOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a Group of financial assets is impaired.

3/5) Business combinations
Acquisitions of businesses combination are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except deferred tax assets or liabilities, liabilities or equity instruments related to share based payment arrangements and assets that are classified as held for sale in which cases they are accounted for in accordance with the related IFRS.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquire and the fair value of the acquirer's previously held interest in the acquired (if any), the excess is recognised immediately in consolidated statement of profit or loss as a bargain purchase gain.

Non-controlling interests may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-Transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another IFRS.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in the consolidated statement of profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have been previously recognised in consolidated statements of profit or loss and other comprehensive income are reclassified to consolidated profit or loss where such treatment would be appropriate if that interest were disposed off.

3/6) Cash and cash equivalents

Cash on hand and time deposits with banks whose original maturities do not exceed three months, net of bank overdrafts are classified as cash and cash equivalents in the consolidated statement of cash flows.

3/7) Trade receivables

Trade receivables are stated at their nominal value, less the allowance for any doubtful debts .The Company always measures the loss allowance for impairment for trade receivables at an amount equal to lifetime ECL.

3/8) Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes), are measured initially at their cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value.

Investment properties are revalued annually and are included in the consolidated statement of financial position at their fair values. These are determined by external professional valuers with sufficient experience with respect to both the location and the nature of the investment properties and supported by market evidence.

Subsequent costs are capitalized to carrying amount of assets only when it is probable that economic benefits associated with such costs will flow to the Group and the cost of the item can be measured reliably. All maintenance and other repair works are expensed as incurred. When replacing part of the investment properties, the carrying amount of the replaced part is derecognized.

Any profit or loss resulting from either a change in the fair value or the sale of investment properties is immediately recognized in the consolidated statement of profit or loss in the period in which they arise.

Investment properties are derecognized when either they have been disposed of or when the investment properties are permanently withdrawn from use and no further economic benefit is expected from disposal. Gains or losses arising on the retirement or disposal of an investment property are recognized in the consolidated statement of profit or loss.

3/9) Investment in associates

Associates are those entities over which the Group is able to exert significant influence but which are neither subsidiaries nor interests in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The Group's investment in associates is accounted for under the equity method. On the statement of financial position date at cost plus post-acquisition changes in the Group's share of the net assets of the associates, less any impairment in value and the consolidated statement of profit or loss reflects the Group's share of the results of operations of the associates.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognized at the date of acquisition is recognized as goodwill. The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of that investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognized immediately in the consolidated statement of profit or loss.

Distributions received from associates reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the Group's share in the associate arising from changes resulting from consolidated statement of change in equity of the associate .recognized directly in the associate's or equity of the Group, as applicable.

When the Group's share of losses in an associate equals or exceeds its interest in the associates, including any other unsecured receivables, the group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealized gains on transactions with associates are eliminated to the extent of the Group's share in the associates. Unrealized losses are also eliminated unless the transactions provide evidence of impairment in the asset transferred. An assessment for impairment of investments in associates is performed when there is an indication that the asset has been impaired, or that impairment losses recognized in prior years no longer exist.

The associate's financial statements are prepared either to the Group's reporting date or to a date not earlier than three months of the Group's reporting date. Amounts reported in the financial statements of associates have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group. Where practicable, adjustments are made for the effect of significant transactions or other events that occurred between the date of the associates and the group's consolidated financial statements date.

Upon loss of significant influence over the associate, the group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the remaining investment and proceeds from disposal is recognised in the consolidated statement of profit or loss.

3/10) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation. The recoverable value of Property, Plant and equipment are reviewed at the consolidated financial position date. If the recoverable value for Property, Plant and equipment decreased from the book value in which case the book value is written down to the recoverable value. If the useful lives are different from its estimated lives then the useful lives are adjusted from the beginning of the year in which the change occurred in without going into retroactive periods.

Gains or losses resulted from disposals of Property, Plant and equipment are determined by the difference between the sale price and its net book value.

Property, plant and equipment are depreciated on a straight-line basis to reduce their value to their residual value for 5 years.

Properties in the course of construction for production or administrative purposes, are carried at cost, less any recognised impairment loss. Cost includes professional fees. Depreciation of these properties, on the same basis as other property and equipment, commences when the properties are ready for their intended use.

3/11) Impairment of non-financial assets

At each consolidated financial position date, the Group reviews the carrying amounts of its non-financial assets to determine whether there is objective evidence that those assets have suffered from impairment in value. If any such evidence exists, the recoverable amount of the assets is estimated. The impairment losses are recognized in the consolidated statement of profit or loss when the carrying amount of assets exceeds its recoverable value.

Reversal of impairment losses in value that were recognized in prior years are recognized as revenue in the consolidated statement of profit or loss when there is an indication that the impairment losses, recognized for the asset no longer exist or has decreased.

3/12) Trade payables

Trade payables are stated at their nominal value.

3/13) Wakala payables

Wakala payables arise when the Group receives funds from other parties under an authorization from these parties for the Group to reinvest them in specific forms or in specific Islamic financial instruments in return for the Group's commitment to pay to the holders of wakala payables a yield set at date of wakala. The Group recognizes the yield paid to holders of wakala payables as finance costs in the Consolidated statement of profit or loss when the wakala accrues or when the holders of wakala payables liquidate these wakala payables before their due date.

The received wakala contracts do not include any conditions that give their holders any rights secured against the other assets of the Group or any other entities in the Group.

Wakala payables are initially recognized at cost and they are later measured at amortized cost.

3/14) Provision for end of service indemnity

Provision for staff end of service indemnity is computed as per the Labor Law in the private sector and on the assumption of ending the services of all staff at the consolidated financial position date. This obligation is not funded. The management expects that based on this method of calculation a reasonable estimate is made of the obligation of the Group towards employees indemnity for past and current periods.

3/15) Equity and reserves

Share capital represents the nominal value of shares that have been issued and paid up.

The issuance of share premium includes any premium received from the capital issuance, and any other expenses related to this issuance of shares deducted from the share premium.

Statutory and voluntary reserves comprise appropriations of current and prior period profits in accordance with the requirements of the companies' law and the parent's articles of association.
Change in fair value reserve – which comprise of profits and losses related to financial assets through other comprehensive income.

Retained earnings include all current and prior period profits and losses. All transactions with owners of the parent company are recorded separately within equity.

3/16) Revenue recognition

- Revenue is recognized either at a certain time or over time when the Group meets performance obligations by transferring goods or services to its customers.the total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices. The transaction price for a contract excludes any amounts collected on behalf of third parties. Revenue is recognized either at a certain time or over time when the Group meets performance obligations by transferring goods or services to its customers .The Group recognizes contract obligation for amounts received in respect of unsatisfactory performance obligations and provides these, if any, as other liabilities in the consolidated statement of financial position. Similarly, if the Group fulfills a performance obligation before it receives the consideration, the Group recognizes either the origin of the contract or receivable, if any, in its consolidated statement of financial position, depending on whether there is anything other than the time required before the amounts are due.
- The Group earns revenue from renting of its investment properties. Rental income is recognised on a straight-line basis over the period of the individual rental contracts. When the customer initially enters into a rental contract, the Group usually receives an advance or a deposit or both which is recognised as a liability. The advance is recognized as revenue with the passage of time while deposit is refunded to the customer in accordance with the rental contract on termination.
- Revenue from services is recognized when services are provided or of the terms in agreements of each customer.
- Gain on sale of investments in securities is measured by the difference between the net sales proceeds and the book value of the investment sold.
- Dividends income from investments is recognized when the Group's right to receive payment is established.
- Other categories of income are recognized when earned, at the time the related services are rendered and/ or on the basis of the terms of the contractual agreement of each activity.

3/17) Provisions

Provision is recognized when the Company has a present obligation (legal or constructive) as a result of a past event it is probable that an outflow of the resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each financial position date and adjusted to reflect the current best estimate.

3/18) Finance charges

Finance costs for Murabaha payable is recognized based on accrual basis and is recognized in the consolidated statement of profit or loss in the period at which it is incurred.

3/19) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated financial position only when there is a legally enforceable right to set off the recognized amounts and the management intends to settle on a net basis so as to realize the assets and liabilities simultaneously.

3/20) Foreign currencies

The functional currency of any Company from the Group's subsidiaries is the currency of the primary economic environment in which it operates and in the case of the Parent Company it is the Kuwaiti Dinar and in the case of subsidiaries it is their respective national currencies or the applicable foreign currency. Foreign currency transactions are recorded at the rates of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the consolidated statement of financial position date are translated to Kuwaiti Dinars at the rates of exchange prevailing on that date. Resultant gains and losses are taken to the consolidated statement of profit or loss.

Translation differences on non-monetary items, such as equities classified as investments available for sale financial assets are included in the investment fair valuation reserve in equity.

The profit or loss and cash flow consolidated statements of foreign operations are translated into the Parent Company's reporting currency at average exchange rates for the year and their statement of financial position are translated at exchange rates ruling at the year-end.

Exchange differences arising from the translation of the net investment in foreign operations (including goodwill, long-term receivables or loans and fair value adjustments arising on business combinations) are taken to the consolidated statement of profit or loss and other comprehensive income. When a foreign operation is sold, any resultant exchange differences are recognized in the consolidated statement of profit or loss as part of the gain or loss on sale.

3/21) National Labor Support Tax (NLST)

NLST is calculated in accordance with La w No. 19 of 2000 and the Minister of Finance Resolutions No.24 of 2006 at 2.5% of taxable profit of the Group after deducting directors' fees for the year. As per law, income from associates and subsidiaries, cash dividends from listed companies which are subjected to NLST have to be deducted from the profit for the year.

3/22) Kuwait Foundation for the Advancement of Science

The contribution to KFAS is calculated at 1% of taxable profit of the Group in accordance with the modified calculation based on the Foundation's Board of Directors' resolution, which states that income from associates and subsidiaries, Board of Directors' remuneration, transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

3/23) Zakat

Contribution to Zakat is calculated at 1% of the profit of the group in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007. Based on the regulations issued with respect to national labors support tax and zakat, no losses are carried forward to future periods or charging them to previous years.

3/24) Contingent liabilities and assets

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote, contingent asset is not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

3/25) Segment reporting

Operating segments are identified on the basis of internal reports that are regularly reviewed by the decision makers in order to allocate resources to the segments and to assess their performance. Such operating segments are classified as either business segments or geographical segments.

A business segment is a distinguishable component of the Group that is engaged in providing products or services, which is subject to risks and returns that are different from those of other segments.

A geographic segment is a distinguishable component of the Group that is engaged in providing products or services within a particular economic environment which is subject to risks and returns different from those of segments operating in other economic environments.

4. Significant accounting assumptions and judgments

The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that may affect amounts reported in these consolidated financial statements, as actual results could differ from these estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. Judgments and estimates that are significant to the consolidated financial statements are shown below:

Judgments

Contingent liabilities / liabilities

Contingent liabilities are potential liabilities that arise from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Provisions for liabilities are recorded when a loss is considered probable and can be reasonably estimated. The determination of whether or not a provision should be recorded for any potential liabilities is based on management's judgment.

Classification of real estate property
Management decides on acquisition of a real estate property whether it should be classified as trading, property held for development or investment property.
The group classifies property as trading property if it is acquired principally for sale in the ordinary course of business.
The group classifies property as property under development if it is acquired with the intention of development.
The group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use.

Key sources of estimation uncertainty
Impairment of tangible assets and useful lives
The Group's management tests annually whether tangible assets have suffered impairment in accordance with accounting policies stated in note 3. The recoverable amount of an asset is determined based on value-in-use method. This method uses estimated cash flow projections over the estimated useful life of the asset discounted using market rates.

The Group's management determines the useful lives and related depreciation and charge. The depreciation and charge for the year will change significantly if actual life is different from the estimated useful life of the asset.

Impairment of investments in associates
After application of the equity method, the Group determines whether it is necessary to recognise any impairment loss on the Group's investment in its associated companies, at each reporting date based on existence of any objective evidence that the investment in the associate is impaired. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in "share of gain in associate" in the consolidated statement of profit or loss.

	7,012,094	13,582,702
Less: provision for doubtful debts	**(1,693,464)**	(1,555,377)
	5,318,630	12,027,325

As on December 31, the receivables and other debit balances ageing were as follows:

2018

During 30 days	30-60 days	60-90 days	90-120 days	120 days <	Total
1,577,720	**2,173,750**	**2,243,871**	**666,148**	**350,605**	**7,012,094**

2017

During 30 days	30-60 days	60-90 days	90-120 days	120 days <	Total
3,167,306	4,089,031	4,016,386	1,493,859	816,120	13,582,702

For risk profiling purpose, the Group has segregated its receivables and other debit balances portfolio into two subgroups namely, 'receivables from corporates and 'receivables from individuals' based on the historical credit loss and recovery patterns from the customers.

The following table shows the movement in lifetime ECL that has been recognised for receivables and other debit balances in accordance with the simplified approach set out in IFRS 9.

	2018		
	Receivables from corporates	**Receivables from individuals**	**Total**
Balance at beginning of the year	**878,759**	**676,618**	**1,555,377**
IFRS 9 transition impact	**74,595**	**50,064**	**124,659**
ECL charge for the year	**63,489**	**-**	**63,489**
Recovery of bad debts	**-**	**(50,061)**	**(50,061)**
Balance at the end of the year	**1,016,843**	**676,621**	**1,693,464**

	2017		
	Receivables from corporates	Receivables from individuals	Total
Balance at beginning of the year	859,569	576,291	1,435,860
Charge for the year	19,190	209,225	228,415
Recovery of bad debts	-	(108,898)	(108,898)
Balance at the end of the year	878,759	676,618	1,555,377

The maximum exposure to credit risk at the consolidated statement of financial position date is disclosed in note 32 to these consolidated financial statements. The other classes within receivables and other receivables are neither past due nor impaired.

9. Investments properties

The movements in investment properties during the year are as follows:

	2018	2017
Opening balance	**1,155,000**	1,231,000
Change in fair value	**(323,896)**	(76,000)
Closing balance	**831,104**	1,155,000

investment properties have been evaluated by two independent valuers one of them is a local bank, These valuers are registered at the related governmental bodies, and they have appropriate and recent experience in the valuation of properties in the relevant locations and the group's Management has adopted the lower valuation in the consolidated financial statements.

Investment properties are registered in the name of related parties and there is a written waiver is in favor of the group.

10. Investments in associates

The Investment in as sociates is represented as follows:

	Ownership percentage %		Amount (KD)	
	2018	2017	**2018**	2017

Top management's benefits	**50,957**	43,615

The transactions with the related parties are subject to the approval of the Shareholders General Assembly.

The Group manages portfolios on behalf of related parties, the net assets of those portfolios amounted to KD 6,028,663 as of December 31, 2018 (KD 13,411,873 as of December 31, 2017) which are off consolidated financial position items.

28. Shareholders' General Assembly

The Shareholders' General Assembly was held on May 13, 2018 and approved the consolidated financial statements for the year ended December 31, 2017, and also approved the Board of Directors' recommendation on non-distribution of dividends for the financial year ended December 31, 2017 as well as non-distribution of remuneration to the Board of Directors for the financial year ended December 31, 2017.

29. Proposed dividends and Board of Directors' remunerations

On February 14, 2018 Board of Directors proposed not to distribute dividends for the financial year ended December 31, 2018, and not to distribute remuneration to the Board of Directors for the financial year ended December 31, 2018.

This proposal is subject to the approval of the parent's company shareholders' general assembly.

30. Contingent liabilities and contingent assets

Contingent liabilities

There are legal disputes between the Group and certain portfolio clients in respect of liquidation of those parties' accounts amounting to KD 5.6 million approximately as of December 31, 2018 (KD 5.6 million approximately as of December 31, 2017. There is a legal decision issued from the Court of Cassation to enforce the Group to pay the due amount. The Group has signed a settlement agreement to settle these obligations against payment of KD 3.5 Million. As of December 31, 2018, the Group has paid an amount of KD 3.4 Million from the settlement amount and made necessary provisions for unpaid amounts. The balance amount payable is KD 60,000 as disclosed in (Note 13) to the At a later date of their consolidated financial position KD 40,000 was already paid.

- There is a lawsuit for settlement of accounts from one of the investment properties creditors. The Creditor filed a case against the parent company but it was rejected in the Court of first instance and creditor had appealed against the ruling. The proceedings were suspended as Parent Company is subject to financial stability law.

- The Group has provided a joint security against Murabahas payable granted to a related party of KD 2,116,073 as of December 31, 2018 (KD 2,116,073 as of December 31, 2017). There are disputes with respect to those Murabahas. There was a Court judgment from a foreign Court in favor of the lender who filed a lawsuit to execute the above mentioned Judgment in the Kuwait Court. During the year 2016, the Court's judgment was issued to revoke the case. During the previous year, the lender filed a new case regarding the merit of the dispute. During the previous year the judgment was issued to refer the case to the expert department. The case is currently being deliberated before the expert department.

Contingent assets

The Parent Company has filed a case against certain foreign parties to recover loss resulted from the purchase of some properties in Abu Dhabi, United Arab Emirates. The Court of Appeal of Abu Dhabi issued a judicial decision in favor of the Group to receive an amount of UAE Dirham 76 million approximately (KD 6 million approximately) as of December 31, 2018 (KD 6 million approximately December 31, 2017) in addition to receiving delay interests of 5% per year. The litigant has filed an appeal against this judicial decision and the Court of Cassation upheld the judgment of the Court of Appeal's which obligates the litigant to pay the amount. The execution of this judgment is in progress.

31. Segment distribution

The disclosure of operating segments information is based on the internal financial reporting structure of the Department, which is regularly reviewed by the chief operating decision maker, the Group carries out the majority of its activities through two major segments:

Available for sale investments	**-**	1,775,954
	34,262,713	38,710,586

Financial liabilities	**2018**	2017
Payables and other credit balances	**2,382,358**	2,744,028
Wakala payables	**2,522,653**	2,522,653
	4,905,011	5,266,681

Fair value of the financial instruments

The fair value of the financial instruments is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The Group has used the assumptions and accepted methods in the assessment of fair values of financial instruments. The fair values of the Group's financial assets and financial liabilities are determined as follows:

- The fair values of financial assets and financial liabilities with standard terms and conditions and traded on an active market are determined with reference to quoted market prices.
- The fair values of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flows using prices from observable current market transactions and dealer quotes for similar instrument.

The fair value of the financial instruments carried at amortized cost is not significantly different from their carrying value.

The following table presents financial assets and financial liabilities measured at fair value in the consolidated statement of financial position in accordance with the fair value hierarchy. This hierarchy group's financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and financial liabilities.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant inputs to the fair value measurement.

December 31, 2018:	**Level 1**	**Level 2**	**Total**
Investments at fair value through profit or loss			
Financial investments in local shares – quoted	**2,001,850**	**-**	**2,001,850**
Financial investments in local funds - unquoted	**-**	**338,418**	**338,418**
Investments at fair value through statement of other comprehensive income			
Financial investments in local shares – quoted	**4,010,900**	**-**	**4,010,900**
Total	**6,012,750**	**338,418**	**6,351,168**

December 31, 2017:	**Level 1**	**Level 2**	**Total**
Investments at fair value through profit or loss			
Financial investments in Local quoted shares	1,218,902	-	1,218,902
Financial investments in Local funds units- unquoted	-	348,477	348,477
Available for sale investments			
Local quoted shares	1,775,954	-	1,775,954
Total	2,994,856	348,477	3,343,333

B- Financial risks management

The Group uses financial instruments, which exposes it to variety of financial risks such as credit risks, market risks, liquidity risks and interest rate risks.
The Group continuously reviews its risk exposures and takes the necessary procedures to limit these risks to acceptable levels.

The Group's Board of Directors sets out written guidelines for the overall risk management framework, as well as written policies covering certain areas such as foreign exchange risk, interest rate risk and credit risk as well as investment of financial surpluses.

The significant risks that the Company is exposed to are discussed below:

- **Credit risks**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation causing the other party to incur a financial loss. Financial assets, which potentially subject the Group to credit risk, consist principally of cash &cash equivalents, term deposits, receivables and other debit balances. Credit risk associated with receivables and other debit balances is limited due to dispersion across large number of customers, for more details see note (8), the cash and cash equivalent deposited at reputable credit financial institutions, the receivables are presented net of Provision for doubtful debts.

The Company considers its maximum exposure to credit risk to be as follows:

	2018	2017
Cash and cash equivalent	**455,997**	553,012
Receivables and other debit balances	**5,318,630**	12,027,325
	5,774,627	12,580,337

For further information, refer back to notes (6) and (8). Financial assets whose maturity date has expired and its value have not impaired are disclosed in note 8. The maturity date of the other financial assets has not expired.

- **Liquidity risks**

Liquidity risk is the Group's inability to meet its cash obligations. Liquidity risk management involves maintaining sufficient cash and providing sources of finance by providing adequate facilities, maintaining high liquidity assets and monitoring liquidity on a regular basis through future cash flows.

The maturity of liabilities stated below based on the period from the consolidated financial position date to the contractual maturity date. In case the liabilities do not have a contractual maturity date, the maturity is based on management's estimate of liquidating assets to settle liabilities:

The following are the maturity dates of liabilities:

December 31, 2018

	Within 1 year	More than 1 year	Total
Payables and other credit balances	**2,382,358**	-	**2,382,358**
Wakala payable	**2,522,653**	-	**2,522,653**
End of service benefits	-	**168,266**	**168,266**
	4,905,011	**168,266**	**5,037,277**

	December 31, 2017		
	Within 1 year	More than 1 year	Total
Payables and other credit balances	2,744,028	-	2,744,028
Wakala payable	2,522,653	-	2,522,653
End of service benefits	-	228,517	228,517
	5,266,681	228,517	5,495,198

- **Market risks**

Market risks comprise of foreign currency risks, interest rate risks and equity price risks. These risks arise from changes in market prices, interest rates and foreign currencies prices.

Foreign currencies risks
Foreign currencies risks arise from transactions in foreign currencies. The Group manages these risks by setting limits on transactions in other foreign currencies and counterparty and limiting its transaction business in major currencies with reputable counterparties.

The following table shows the effect on the equity (resulted from change in fair value of monetary assets and liabilities) because of change of currencies prices and consistency of other variables:

	Effect on consolidated statements of profit or loss		**Effect on consolidated statements of change in Equity statement**	
	2018	2017	**2018**	2017
Changes in foreign currencies prices ± 5	**39,369**	31,178	-	36,636

Interest rate risk
Interest rate risk arises from long-term loans as loans at variable interest rates may expose the Group to cash flow risk due to interest rates. The Group does not currently have long-term loans.

The Group has no significant assets with interest rates. Accordingly, the Company's income and its cash and operating flows are not affected by changes in market interest rates.

Equity price risk
Equity price risk is the risk that the fair value of equities will fluctuate due to changes in the level of equity indices or the value of independent equity prices. Equity price risk arises from changes in the fair value of investments in stocks.

The effect on the fair value reserve as a result of a change in the fair value of investments at fair value through other comprehensive income and the effect on the consolidated statement of profit or loss as a result of changes in the fair value of investments at fair value through profit or loss as at 31 December 2018 because of expected changes in shares indices and consistency of other variables, is as follows::

	Effect on consolidated statements of profit or loss		**Effect on consolidated statements of change in Equity statement**	
Market indicators ±10	**2018**	2017	**2018**	2017
Kuwait securities	**200,185**	121,890	**401,090**	177,595

33. Capital risk management

a- The Group's objectives in managing capital:

The Group's objectives in managing capital are:

- To safeguard the Group's ability to continue as a going concern to be able to provide returns for shareholders and benefits for other beneficiaries, and,
- To maintain an optimal returns to shareholders through pricing its products and services commensurately with risk level.

b- Debt to equity ratio
The Group monitors capital on the basis of debt to equity ratio. This ratio is calculated as net debt divided by total adjusted capital. Net debt calculated as total loans and bank facilities, as shown in the consolidated statement of financial position less cash and cash equivalents. Total adjusted capital comprises all components of equity (share capital, share premium, treasury shares, reserves, cumulative changes in fair value, retained earnings and non-controlling interests) plus net debt.

The debt to equity ratio is as follows:

	2018	2017
Debts	**2,522,653**	2,522,653
Less: cash and cash equivalents	**(385,892)**	(482,887)
Net debt	**2,136,761**	2,039,766
Total equity	**30,033,769**	34,411,577
Total adjusted capital	**32,170,530**	36,451,343
Debt to equity ratio	**%6.64**	%5.60

Notes to the consolidated financial statements for the financial year ended December 31, 2018
(All amounts are in Kuwaiti Dinar unless stated otherwise)

34. Consignment assets

The Group manages portfolios on behalf of other parties, the net assets of those portfolios amounted to KD 6,241,120 as of December 31, 2018 (KD 14,661,877 as of December 31, 2017), the balances for those portfolios are not present in the consolidated financial position.

35. Comparative figures

Certain comparative figures for the prior year have been re-classified to conform to current year presentations.
