Review report of the Independent Auditor
To the Shareholders of Dubai Insurance Company PSC

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Dubai Insurance Company (PSC) (the "Company") and its subsidiary (collectively referred to as the "Group"), as of 31 March 2019 and the related consolidated interim income statement, consolidated interim statement of comprehensive income, consolidated interim statement of changes in equity and consolidated interim statement of cash flows for the three month period then ended. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Other matter

The financial statements for the year ended 31 December 2018 were audited by another auditor who expressed an unmodified opinion on those statements on 10 February 2019.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

Notes to the condensed consolidated interim financial statements For the period ended 31 March 2019

1 Legal status and activities

Dubai Insurance Company (PSC) (the "Company") is a public shareholding Company registered under the Federal Law No. 8 of 1984 (as amended) and the UAE Federal Law No. (6) of 2007 relating to commercial companies in the UAE. The Federal Law No.2 of 2015, concerning Commercial Companies has come into effect from 28 June 2015, replacing the existing Federal Law No.8 of 1984. The Company mainly issues short term insurance contracts in connection with motor, marine, fire, engineering, general accident and medical risks (collectively known as general insurance) and group life assurance. The Company also invests its funds in investment securities and properties. The registered address of the Company is P.O. Box 3027, Dubai, United Arab Emirates. The Company operates in United Arab Emirates. The shares of the Company are listed on the Dubai Financial Market.

During 2010, the Company established a new subsidiary for investment purposes. These consolidated financial statements incorporate the financial statements of the Company and its subsidiary (collectively referred to as the "Group").

2 Basis of preparation

The condensed consolidated interim financial statements are for the three months period ended 31 March 2019 and are presented in United Arab Emirate Dirham (AED), which is also the functional currency of the Group. These condensed interim financial statements have been prepared in accordance with IAS 34 'Interim Financial Reporting' and do not include all of the information required in annual financial statements in accordance with IFRS and should be read in conjunction with the financial statements of the Group for the year ended 31 December 2018. Further, results for interim periods are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2019.

Basis of consolidation

The Group comprises of the Company and the under-mentioned subsidiary company.

Subsidiary	Principal activity	Country of incorporation	Ownership
Vattaun Limited	Investment	British Virgin Island	100%

The condensed consolidated interim financial statements comprise the financial statements of the Group and its subsidiary as at 31 March 2019.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee
- rights arising from other contractual arrangements
- the Group's voting rights and potential voting rights

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

3 Significant accounting policies

These condensed consolidated interim financial statements have been prepared in accordance with the accounting policies adopted in the Company's most recent annual financial statements for the year ended 31 December 2018

Certain amendments to accounting standards and annual improvements, as disclosed in the Company's most recent annual financial statements for the year ended 31 December 2018, are applicable on the Company but do not have any material impact on these condensed consolidated interim financial statements.

Interim reporting

The accounting policies used in the preparation of the condensed consolidated interim financial statements are consistent with those used in the preparation of the financial statements for the year ended 31 December 2018 except for the changes in the accounting policies implemented by management from 1 January 2019.

Critical accounting estimates and judgments in applying accounting policies

The Company makes estimates and assumption that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may substantially be different.

Outstanding claims and technical provisions

The estimation of the ultimate liability (both technical and outstanding) arising from claims made under insurance contracts is the Company's most critical accounting estimate. These estimates are continually reviewed and updated, and adjustments resulting from this review are reflected in the income statement. The process relies upon the basic assumption that past experience, adjusted for the effect of current developments and likely trends (including actuarial calculations), is an appropriate basis for predicting future events.

Impairment losses on insurance receivables

The Group reviews its insurance receivables on a regular basis to assess whether a provision for impairment should be recorded in the consolidated statement of income. In particular, judgement by management is required in the estimation of the amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about the probability of default and probable losses in the event of default, the value of the underlying security, and realisation costs.

In addition to specific provisions against individually significant insurance receivables, the Group also makes a collective impairment provision against insurance receivables which, although not specifically identified as requiring a specific provision, have a greater risk of default than when originally granted. The amount of the provision is based on the historical loss pattern for insurance receivables within each grade and is adjusted to reflect current economic changes.

Classification of investment property

The Company makes judgement to determine whether a property qualifies as investment property and follows the guidance of IAS 40 'Investment Property' to consider whether any owner occupied property is not significant and is classified accordingly as investment property.

3 Significant accounting policies (continued)

Critical accounting estimates and judgments in applying accounting policies (continued)

Classification of investments

Management decides on acquisition of an investment whether it should be classified as of fair value through profit or loss, at fair value through OCI or at amortised cost.

Operating lease commitments

The Group has entered into commercial property leases on its investment property. The Group, as a lessor, has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and so accounts for them as operating leases.

Valuation of unquoted equity investments

Valuation of unquoted equity investments is normally based on one of the following:

- recent arm's length market transactions;
- current fair value of another instrument that is substantially the same;

the expected cash flows discounted at current rates applicable for items with similar terms and risk characteristics; or other valuation models.

Provision for legal cases

Considerable judgement by management is required in the estimation for legal cases arising from claims made under insurance contracts. Such estimates are necessarily based on significant assumptions about several factors involving varying, and possible significant, degrees of judgement and uncertainty and actual results may differ from management's estimates resulting in future changes in estimated liabilities.

4 Property and equipment

Included in property and equipment is land situated in the Emirate of Dubai, United Arab Emirates with a carrying value of AED 44,173 thousand (2018: AED 44,173 thousand). The Group's Board of Directors has resolved to construct the Group's head office on the land in the foreseeable future.

5 Investment property

Investment properties represent the Company's investments in freehold land and building situated in the Emirate of Dubai, United Arab Emirates. During the quarter, the Company acquired investment property at a cost of AED 15,786 thousand. Advance amounting to AED 14,154 thousand was paid against the purchase price of this asset as at 31 December 2018.

10 Reserves

Statutory reserve
In accordance with the UAE Commercial Companies Law and the Group's Article of Association, the Group has resolved not to increase the statutory reserve above an amount equal to 50% of its paid up share capital. Accordingly, no transfers have been made during the three months period ended 31 March 2019. The reserve is not available for distribution except in the circumstances stipulated by the law.

General reserve
Transfers to the general reserve are made on the recommendation of the Board of Directors. This reserve may be used for such purposes as deemed appropriate by the Board of Directors. During the period, based on the recommendation of the Board of Directors and approval of the shareholders at the Annual General Meeting held on 14 March 2019, AED 7,000 thousand (2018: nil) was transferred to the general reserve from retained earnings.

12 Basic and diluted earnings per share

Basic earnings per share are calculated by dividing the profit for the period, net of directors' fees, by the weighted average number of shares outstanding during the period as follows:

	(Unaudited) 31 March 2019 AED'000	(Unaudited) 31 March 2018 AED'000
Profit for the period (AED'000)	**24,410**	10,409
Weighted average number of shares outstanding during the period ('000)	**100,000**	100,000
Earnings per share (AED)	**0.24**	0.10

The Company does not have potentially diluted shares and accordingly, diluted earnings per share equals basic earnings per share.

13 Segmental information

Primary segment information

For management purposes, the Group is organised into business units based on its products and services and has three reportable operating segments as follows:

- The general insurance segment, comprises motor, marine, fire, engineering and general accident.
- The medical and life segment includes group life and medical insurance.
- Investment comprises investment and cash management for the Group's own account.
