UNAUDITED INTERIM CONDENSED FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 31 MARCH 2019

REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF UNITED FOODS COMPANY (PSC)

Introduction

We have reviewed the accompanying interim condensed statement of financial statement of United Foods Company (PSC) (the "Company") which comprised the interim condensed statement of financial position as at 31 March 2019 and the related interim condensed statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Financial Reporting Standard IAS 34, *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

United Foods Company (PSC)

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENT

At 31 March 2019 (Unaudited)

1 ACTIVITIES

United Foods Company (PSC) (the "Company") is a Public Shareholding Company, incorporated on 1 November 1976 by a Decree issued by His Highness, The Ruler of Dubai. On 27 June 1994, the Company amended its status to a public shareholding company to comply with the provisions of the UAE Federal Law No. (2) of 2015.

The Company's shares are listed on the Dubai Financial Market (DFM) since July 2006.

The Company is primarily engaged in the manufacturing, processing and marketing of hydrogenated vegetable ghee, cooking oil, margarine, butter products and fat including trading of food products. The registered address of the Company is P.O. Box 5836, Dubai, UAE.

2 BASIS OF PREPARATION AND CHANGES TO THE COMPANY'S ACCOUNTING POLICIES

Basis of preparation

The interim condensed financial statements for the three months period ended 31 March 2019 have been prepared in accordance with IAS 34 "*Interim Financial Reporting*".

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at 31 December 2018.

In addition, results for the three months period ended 31 March 2019 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2019.

New standards, interpretations and amendments thereof, adopted by the Company

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company financial statements for the year ended 31 December 2018, except for the adoption of new standards effective as of 1 January 2019. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The Company applies, for the first time, IFRS 16 *Leases*. As required by IAS 34, the nature and effect of these changes are disclosed below. Several other amendments and interpretations apply for the first time in 2019, but do not have an impact on the interim condensed financial statements of the Company.

IFRS 16 Leases

IFRS 16 was issued in January 2016 and it replaces IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases-Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under IAS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less).

The Company has adopted IFRS 16 using the modified retrospective transition approach as of 1 January 2019 and therefore the comparative information has not been restated and continues to be reported under IAS 17 and IFRIC 4. All right-of-use assets were measured at the amount of the lease liability on adoption (adjusted for prepaid or accrued lease expenses). Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

The Company also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short-term leases'), and lease contracts for which the underlying asset is of low value ('low-value assets').

2 BASIS OF PREPARATION AND CHANGES TO THE COMPANY'S ACCOUNTING POLICIES (continued)

New standards, interpretations and amendments thereof, adopted by the Company (continued)

IFRS 16 Leases (continued)

On adoption of IFRS 16 using the modified retrospective transition approach as of 1 January 2019, as explained above, the Company recognised the following assets and liabilities:

	<i>AED</i> <i>(Unaudited)</i>
Right to use assets (Note 5)	14,919,028
Leased liabilities recognised (Note 10)	(14,801,393)
Adjustment of prepayments	(117,635)
	(14,919,028)

There was no impact on the statement of equity of the Company as all right-of-use assets were measured at the amount of the lease liability on adoption (adjusted for prepaid or accrued lease expenses).

Following is the impact on the interim condensed statement of profit and loss for the three month period ended 31 March 2019:

	<i>AED</i> <i>(Unaudited)</i>
Depreciation expense on right to use assets (under IFRS 16)	(342,327)
Finance costs (under IFRS 16)	(186,140)
Rental – operating lease (under IAS 17)	448,135
Net impact on profit for the period	(80,332)

Set out below are the new accounting policies of the Group upon adoption of IFRS 16:

Right to use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees, if any. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

United Foods Company (PSC)

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENT

At 31 March 2019 (Unaudited)

2 BASIS OF PREPARATION AND CHANGES TO THE COMPANY'S ACCOUNTING POLICIES (continued)

New standards, interpretations and amendments thereof, adopted by the Company (continued)

IFRS 16 Leases (continued)

Lease liabilities (continued)

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the respective lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of certain stores (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office vehicles that are considered of low value (i.e., below AED 18,000). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Significant judgement in determining the lease term of contracts with renewal options

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has the option, under some of its leases to lease the assets for additional terms of three or more years. The Company applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

The Company included the renewal period as part of the lease term for leases of land and building due to the significance of these assets to its operations. These leases have a short non-cancellable period (i.e., one to three years) and there will be a significant negative effect on production if a replacement is not readily available. The renewal options for leases of motor vehicles were not included as part of the lease term because the Company has a policy of leasing motor vehicles for not more than five years and hence not exercising any renewal options.

3 PROFIT FOR THE PERIOD

Profit for the period is stated after charging:

	<i>Three months ended</i>	
	31 March 2019 AED (Unaudited)	31 March 2018 AED (Unaudited)
Employee expenses	9,079,633	9,731,158

Financial assets consist of cash on hand and bank balances, accounts receivables, due from a related party and available-for-sale investments. Financial liabilities consist of trust receipts, trade and other payables and due to a related party.

The fair values of financial instruments are not materially different from their carrying values.

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.
