Independent Auditors' Report on Review of Condensed Interim Financial Information

To the Shareholders of Orient UNB Takaful P.J.S.C.

Introduction

We have reviewed the accompanying 31 March 2020 condensed interim financial information of Orient UNB Takaful P.J.S.C. (the "Company"), which comprises:

- the condensed interim statement of financial position as at 31 March 2020;
- the condensed interim statement of profit or loss and other comprehensive income for the three-month period ended 31 March 2020;
- the condensed interim statement of changes in equity for the three-month period ended 31 March 2020;
- the condensed interim statement of cash flows for the three-month period ended 31 March 2020; and
- notes to the condensed interim financial information.

Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

1 Legal status and activities

Orient UNB Takaful P.J.S.C. (the "Company") is a public joint stock company registered under UAE Federal Law No. (2) of 2015 relating to the incorporation of commercial companies in the UAE, and UAE Federal Law No. (6) of 2007 (as amended) relating to the establishment of insurance companies. The registered address of the Company is P.O. Box 183368, Dubai, United Arab Emirates.

The Company was incorporated on 8 November 2016, while the formalities of issuance and allotment of shares to the public were finalised on 28 December 2016. The shares of the Company are listed on the Dubai Financial Market. The Company obtained a commercial license on 23 January 2017 and a license from the Insurance Authority of the UAE on 16 July 2017.

The principal activity of the Company is issuance of short term takaful contracts in connection with accidents and liabilities insurance, fire insurance, transportation risk insurance, other type of insurance and health insurance. The Company also invests its funds in wakala deposits.

2 Basis of preparation

a) Statement of compliance

These condensed interim financial information have been prepared in accordance with IAS 34 "Interim Financial Reporting", and comply with applicable requirements of the Federal Law No. (6) of 2007 concerning the Establishment of the Insurance Authority & Organization of the Insurance Operations, the Federal Law No. (2) of 2015 concerning the Commercial Companies, Insurance Authority Board Decision No. (25) of 2014 Pertinent to Financial Regulations for Insurance Companies and Insurance Authority's Board of Directors Decision No. (23) of 2019 concerning Instructions Organizing Reinsurance Operations. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements as at and for the year ended 31 December 2019, which have been prepared in accordance with International Financial Reporting Standards (IFRS).

b) Basis of measurement

These condensed interim financial information have been prepared on the historical cost basis.

c) Functional and presentation currency

These condensed interim financial information are presented in UAE Dirhams (AED), which is the Company's functional currency. Except as otherwise indicated, financial information is presented in AED.

d) Use of estimates and judgements

In preparing the condensed interim financial information, management has made judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimates are revised and in any future periods effected.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements for the year ended 31 December 2019 except the following estimates and judgements which are applicable from 1 January 2020.

2 Basis of preparation (continued)

d) Use of estimates and judgements (continued)

(i) Impact of COVID-19

The spread of COVID-19 rapidly increased in March 2020 as the number of cases spiked, and governments around the world are deploying a multitude of measures to combat the virus and protect their economies. The economic repercussions from the global outbreak of COVID-19 have significantly and adversely affected businesses worldwide.

Insurance risk

In its underwriting segment, the Company is primarily exposed to medical and business interruption policies. Although the Company's medical business has policy exclusions for pandemics, the Health Authorities in Dubai and Abu Dhabi have instructed all insurers to accept medical claims related to COVID-19. The Company anticipates that the impact of medical claims would be immaterial due to low rate of hospitalisation and deferral of elective medical procedures required.

With regards to Business Interruption (BI) policies, the Company has in place pandemic and infectious disease policy exclusions as well. The Company has evaluated all business interruption policies in force for which the Company may have to incur claim payouts. As a result of initial examination of the policies, the Company has determined that these will not have a material impact in relation to the net claims paid due to lower retention levels of the Company. Furthermore, the Company has been able to retain major customers during the three-month period ended 31 March 2020 and has generally witnessed renewals and new business across major lines of businesses.

Credit risk

The Company's retakaful is placed with retakaful companies approved by the management, which are generally international reputed companies with high credit ratings. As of 31 March 2020, no retakaful companies has expressly disassociated with the Company nor has any retakaful companies communicated its non-willingness to accept COVID-19 related claims.

Business continuity plan

The Company has remained fully operational throughout the period and has put in place effective business continuity and remote working plans enabled by the right technologies and systems to ensure uninterrupted services to customers and the operations. The outbreak has not caused any significant delays in policies issuance and claims settlements. The Company will continue to monitor the reverberations of COVID-19, if any, on its customers and operations and will take further action as needed.

The steps taken by the Company to estimate the impact of COVID-19 and the judgments applied by management in assessing the values of assets and liabilities as at 31 March 2020 includes both quantitative and qualitative criteria such as risk profiling and actuarial analysis. Such analysis has enabled the Company to timely and accurately identify its exposure although these are subject to significant judgment due to the rapidly changing dynamics of COVID-19.

3 Significant accounting policies

The accounting policies applied in the condensed interim financial information are the same as those applied in the Company's financial statements as at and for the year ended 31 December 2019.

3.1 *Standards issued but not yet effective*

A number of new standards and amendments to standards are effective for annual periods beginning after 1 January 2020 however these do not have a material impact on the condensed interim financial information.

4 Interim measurement

The nature of the Company's business is such that income and expense are incurred in a manner, which is not materially impacted by any form of seasonality. These condensed interim financial information were prepared based upon an accrual concept, which requires income and expense to be recorded as earned or incurred and not as received or paid throughout the period. However, the results may not represent a proportionate share of the annual profits due to variability in contributions and investment income and uncertainty of claims occurrences.

6 Fair value of financial instruments

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

6 Fair value of financial instruments (continued)

Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

As at 31 March 2020 and 31 December 2019, all financial assets and liabilities are stated at amortised cost and are classified as Level 3 within the fair value hierarchy. The fair values of the financial assets and liabilities at amortised cost are not materially different from their carrying value at the reporting date.
