**REPORT ON REVIEW OF INTERIM CONDENSED  
CONSOLIDATED FINANCIAL INFORMATION**

The Board of Directors  
Al Mazaya Holding Company K.S.C.P.  
State of Kuwait

**Introduction**

We have reviewed the accompanying interim condensed consolidated statement of financial position of Al Mazaya Holding Company K.S.C.P. (The Parent Company) and its subsidiaries (the Group) as of March 31, 2021 and the related interim condensed consolidated statements of profit or loss, profit or loss and other comprehensive income, changes in equity and cash flows for the three months period then ended. Management of the Parent Company is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

**Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim financial information performed by the Independent Auditor of the Entity." A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34.

**Report on other Legal and Regulatory Requirements**

Furthermore, based on our review the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016 and its Executive Regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended during the three months period ended March 31, 2021 that might have had a material effect on the Group's financial position or results of its operations.

Furthermore, during our review we have not become aware of any material violations of the provisions of Law 7 of 2010, as amended, relating to the Capital Markets Authority and its related regulations during the three months for the period ended March 31, 2021 that might have had a material effect on the Group's financial position or results of its operations.

The Annual General Meeting of the Shareholders held on February 20, 2020, has approved the consolidated financial statements of the Group for the year ended December 31, 2019, and not to distribute cash dividend or bonus share and not to pay Board of Directors remuneration for the year ended December 31, 2019.

Subsequent to the accompanying interim consolidated financial information, the extraordinary General meeting of the Shareholders held on April 25, 2021 has approved to cancel 58,719,140 shares of direct treasury shares amounted to KD 18,625,088 by reducing the Parent Company's share capital from KD 68,827,896 to KD 62,955,982 as an equivalent to the direct treasury shares' par value amounted to KD 5,871,914 in addition to reduce the statutory reserve by KD 12,753,174. Those transactions will be recorded upon the completion of commercial registry notarization and other related procedures with the relevant competent authorities in this regard.

10. Fair value measurement

The Group measures financial assets such as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, and non-financial assets such as investment properties at fair value at the end of the financial period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

The details of fair value measurement hierarchy are as follows:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

**11. Significant Impact of COVID-19**

The recent outbreak of the coronavirus ("COVID-19") across various geographies globally, which was declared a pandemic by the World Health Organization, has caused disruption to business and economic activities. The fiscal and monetary authorities around the world, including Kuwait, have announced various support measures across the globe to counter the possible adverse implications of COVID-19. The Group has taken several measures to manage its risk associated with the pandemic, including identification of the most vulnerable sectors primarily affected and placing added measures to ensure a high level of scrutiny. The uncertainties caused by COVID-19 required the Group to consider the impact of volatility in the forward-looking macro-economic factors in order to manage the credit risk and liquidity risk and to determine the impact of COVID-19 consequences on the fair value measurement of financial and non-financial instruments in order to reflect that impact in the consolidated financial statements since the pandemic outbreak and till the accompanied interim consolidated financial information date.

The Group has performed an assessment on its ability to continue as a going concern considering current economic conditions and all available information about future risks and uncertainties. The projections have been prepared to cover the Group's future performance, capital and liquidity requirements. The impact of COVID-19 may continue to evolve, but currently, the projections show that the Group has the required resources to continue in operations on a going concern, such position that remains significantly unaffected and unchanged since December 31, 2019. As a result, those interim consolidated financial information have been prepared on a going concern basis.

The Group had concluded that no material adjustments are required for liabilities and other assets as of the accompanied interim consolidated financial information. The management will need to carefully consider the measurement and recognition requirements for impairment losses on the Group's assets in the future, as the extent and duration of the economic impact of those events remains uncertain, since it depends on future developments that cannot be accurately predicted at this time, such as the rate of virus spread, the effectiveness of the containment measures taken and the trends and effectiveness of approved vaccinations by governmental authorities across the world. Given the ongoing uncertainty for the related economic impact, a reliable estimate of the impact cannot be currently made, but it may affect financial statements in future periods. The impact's magnitude and amount may vary according to the extent and period during which those events are expected to end along with their effects.
