REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

The Board of Directors
Emirates Islamic Bank PJSC
Dubai
United Arab Emirates

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of **Emirates Islamic Bank PJSC, Dubai, United Arab Emirates** (the "Bank") **and its Subsidiaries** (together referred to as the "Group") as at 30 June 2021 and the related condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six months period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 - *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects in accordance with IAS 34.

1 CORPORATE INFORMATION

Emirates Islamic Bank PJSC (formerly Middle East Bank) (the "Bank") was incorporated by a decree of His Highness the Ruler of Dubai as a conventional Bank with a limited liability in the Emirate of Dubai on 3 October 1975. The Bank was reregistered as a Public Joint Stock Company in July 1995 and is regulated by the Central Bank of United Arab Emirates.

At an extraordinary general meeting held on 10 March 2004, a resolution was passed to transform the Bank's activities to be in full compliance with the Sharia rules and principles. The entire process was completed on 9 October 2004 (the "Transformation Date") when the Bank obtained the UAE Central Bank and other UAE authorities' approvals.

The Bank is a subsidiary of Emirates NBD Bank PJSC, Dubai (the "Group Holding Company"). The ultimate parent company of the Group Holding Company is Investment Corporation of Dubai (the "Ultimate Parent Company"), a company in which the Government of Dubai is the major shareholder.

The Bank is listed in the Dubai Financial Market (TICKER: "EIB"). The Bank's website is http://www.emiratesislamic.ae. In addition to its head office in Dubai, the Bank operates through 41 branches in the UAE. The group condensed consolidated interim financial statements comprise financial statements of the Bank and its following subsidiaries (together referred to as "the Group").

	Date of incorporation & country	Principal activity	Ownership % 30 June 2021	Ownership % 31 December 2020

EIB Sukuk Company Limited	6 June 2007, Cayman Islands	Special Purpose Entity	100%	100%
EI Funding Limited	15 May 2014, Cayman Islands	Special Purpose Entity	100%	100%

The Bank provides full commercial and banking services and offers a variety of products through financing and investing instruments in accordance with Shari'a rules and principles.

The Bank's registered office address is P.O. Box 6564, Dubai, United Arab Emirates.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting".

The accounting policies, including those pertaining to financial assets, cash and cash equivalents, Islamic financing and investing assets and investment properties, applied by the Group in the preparation of the condensed consolidated interim financial statements are consistent with those applied by the Group in the annual consolidated financial statements for the year ended 31 December 2020.

These condensed consolidated interim financial statements do not include all the information and disclosures required for full annual consolidated financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's financial statements as at and for the year ended 31 December 2020. In addition, results for the six months period ended 30 June 2021 are not necessarily indicative of the results that may be expected for the full financial year ending 31 December 2021.

In preparing these condensed consolidated interim financial statements, significant judgments made by the management in applying the Group's accounting policies and the key sources of estimation were the same as those that were applied to the consolidated financial statements as at and for the year ended 31 December 2020.

8 SUKUK PAYABLE

a) The Group issued sukuk amounting to AED 3.7 billion in 2016, and a further AED 1.8 billion in 2020 to raise US Dollar denominated medium term finance via a Sharia'a compliant sukuk financing arrangement. Sukuk amounting to AED 3.7 billion matured and repaid in the month of May 2021. As at 30 June 2021, the total outstanding sukuk payable is AED 1.8 billion.

Following are the details of all the sukuk financing arrangement in issue.

Issue Date	Amount (USD)	Listing	Profit rate (%)	Payment basis	Maturity
September 2020	500,000,000	Irish Stock Exchange & Nasdaq	1.827	Semi annual	September 2025

The Bank transferred certain identified Ijara assets totalling to AED 1.1 billion (the "co-owned assets") to its subsidiary, EIB Sukuk company limited – (the "Issuer"), a special purpose vehicle formed for the issuance of these sukuk. For Sukuk issued in September 2020, the Bank has further entered into a Murabaha with the Sukukholders for amount (AED 0.7 billion). This medium term finance is carried at amortised cost.

In substance, the co-owned assets remain in control of the Group; accordingly, these assets continue to be recognised by the Group. In case of any default, the Group has provided an undertaking to make good all losses to the sukuk holders. The assets are in the control of the Group and shall continue to be serviced by the Group.

The Issuer will pay a semi-annual distribution amount from returns received in respect of the co-owned assets. Such proceeds are expected to be sufficient to cover the semi-annual distribution amount payable to the sukuk holders on the semi-annual distribution dates. Upon maturity of the sukuk, the Group has undertaken to repurchase the assets at the exercise price.

b) On 15 May 2015, EI Funding Limited (the "SPE") was incorporated under Companies Law of Cayman Islands as a Special Purpose Entity. The principal activities of the company are to purchase portfolio of assets through issuance of notes. The securitization will result in a certificate pool that will be listed on the NASDAQ clearing system (off market) for private-purpose, over-the-counter dealing. The underlying Sharia structure has been approved by the Bank's Shari'a Supervision Board.

The Bank has transferred part of its investment portfolio to EI Funding Limited (incorporated under Cayman Islands laws). However, the Group retains control over the transferred assets and hence the Group continues to recognize these assets as financing and the investment assets.

18 ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Fair value of assets and liabilities

The table below analyses assets and liabilities measured at fair value on a recurring basis. The different levels in the fair value hierarchy have been defined as follows:

- Level 1: quoted prices (unadjusted) in principal markets for identified assets or liabilities.
- Level 2: valuation using inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: valuation using inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair value of financial instruments classified as level 3 are, in certain circumstances, measured using valuation techniques that incorporate assumptions that are not evidenced by the prices from observable current market transactions in the same instrument and are not based on observable market data. The Group employs valuation techniques, depending on the instrument type and available market data. For example, in the absence of active market, an investment's fair value is estimated on the basis of an analysis of the investee's financial position and results, risk profile and other factors. Favourable and unfavourable changes in the value of financial instruments are determined on the basis of changes in the value of the instruments as a result of varying the levels of the unobservable parameters, quantification of which is judgmental.

During the period ended 30 June 2021 no financial assets measured at FVOCI were transferred from Level 1 to Level 2 or from Level 2 to Level 1 (2020: AED Nil).

For comparative information please refer to the Group's consolidated financial statements for the year ended 31 December 2020.

Covid-19 and Expected Credit Loss (ECL)

Novel coronavirus (Covid-19) continues to disrupt businesses and economic activity in 2021. In response, governments and central banks extended economic support and relief measures (including payment deferrals) launched last year to lessen the impact on individuals and corporates.

19 RISK MANAGEMENT (CONTINUED)

Covid-19 and Expected Credit Loss (ECL) (continued)

In determination of Q2 2021 ECL, the Group has considered potential impact caused by Covid-19 pandemic (based upon available information) and taken into account economic support and relief measures of governments and central banks. The Group has also considered the notices issued by the Central Bank of UAE with regards to the 'Targeted Economic Support Scheme (TESS)' and 'Treatment of IFRS9 Expected Credit Loss in the context of Covid-19 crisis' as well as the guidance issued by the International Accounting Standards Board (IASB).

The Group has a dedicated IFRS 9 governance process established to review and approve IFRS 9 Stage migrations, management overlays to ECL estimates, and macro-economic scenarios and weightings.

Significant Increase in Credit Risk (SICR)

Under IFRS 9, loans are required to be moved from Stage 1 to Stage 2 if and only if they have been the subject of SICR since origination. SICR occurs when there has been a significant increase in risk of default.

The Group continues to assess borrowers for other indicators of unlikeliness to pay, taking into consideration the underlying cause of any financial difficulty and whether it is likely to be temporary as a result of Covid-19 or long term.

The Group continues to support its impacted customers through a program of payment relief that was initiated in 2020 by deferring interest/principal due. These payment reliefs are considered as short-term liquidity support to address borrower cash flow issues. The Group believes that availing payment reliefs does not automatically trigger SICR where the impact on customer's business is expected to be short term. For all other customers, the Group continues to consider severity and extent of potential Covid-19 impact on economic sector and future outlook, cash flow and financial strength, agility and change in risk profile along with the past track record in determining SICR.

As per the disclosure requirements of the Central Bank of UAE in the context of Covid-19, for the UAE operations, the Group has divided its customers benefitting from payment deferrals into two groups (Group 1 and Group 2). Customers not expected to face substantial changes in their creditworthiness, beyond liquidity issues caused by the Covid-19 crisis, have been retained in the same Stage and categorized in Group 1.

Customers expected to be significantly impacted by Covid-19 in the long term and that are expected to face substantial deterioration in their creditworthiness have been migrated to Stage 2 and categorized in Group 2. In exceptional circumstances, Stage 3 migration may have also been triggered where a customer's business, income streams and interest servicing capacity were expected to be permanently impaired. Such customers have also been categorized in Group 2.

The accounting impact of the extension of credit facilities due to Covid-19 has been assessed and has been treated as per the requirements of IFRS 9 for modification of terms of arrangement.

Forward Looking Information

The Group has assessed the macro-economic scenarios and associated weights and analyzed their impact on Q2 2021 ECL estimates. Accordingly, updated MEVs were used with the associated weights remaining unchanged from those used at year end 2020. The Group has also applied portfolio-level ECL adjustments to retail customers availing deferrals based upon employment status and level of salary inflows. The Group continues to assess individually significant exposures for any adverse movements due to Covid-19.

As with any economic forecasts, the projections and likelihoods of the occurrence are subject to inherent uncertainty and therefore the actual outcomes may be significantly different to those projected.

19 RISK MANAGEMENT (CONTINUED)

Analysis of customers benefitting from payments deferrals

During 2020, the Group drew AED 1,650 million of Zero Cost Funding under the CBUAE TESS program and repaid AED 304 million till date (including AED 103 million repaid during Q2 2021). After repayment the balance as at 30 June 2021 amounted to AED 1,346 million (31 December 2020: AED 1,558 million).

As per the requirements of the Central Bank of UAE, the Group has divided its customers benefitting from payment deferrals into two groups as follows:

Group 1: includes those customers that are not expected to face substantial changes in their creditworthiness, beyond liquidity issues and are temporarily and mildly impacted by the Covid-19 crisis.

For these clients, the payment deferrals are believed to be effective and thus the economic value of the facilities is not expected to be materially affected. These customers will remain in their current IFRS 9 stage, at least for the duration of the crisis, or their distress, whichever is shorter.

All Stage 1 customers availing deferrals are classified as Group 1. Some customers in Stage 2 who availed deferrals without any material deterioration in credit grade and overall credit worthiness since the time of availing the deferral are also classified in Group 1 at reporting date.

Group 2: includes those customers that are expected to face substantial changes in their creditworthiness, in addition to liquidity issues that will be addressed by payment deferrals.

For these customers, there is sufficient deterioration in credit risk to trigger IFRS 9 stage migration. The Group continues to monitor the creditworthiness of these customer, particularly indications of potential inability to pay any of their obligations as and when they become due.

Stage 2 customers who experienced credit deterioration since deferral period are classified as Group 2. Customers that have availed deferrals either in stage 1 or stage 2 but subsequently migrated to stage 3 are also classified as Group 2 at reporting date.

The impact of Covid-19 crisis continues to filter through into the real economy. In view of this, the Group has taken a proactive approach and on an ongoing basis for all customers, the Group continues to consider the severity and extent of potential Covid-19 impact on economic sectors and outlook, cash flow, financial strength, agility and change in risk profile along with the past track record and ongoing adaptation. Accordingly, all staging and grouping decisions are subject to regular review to ensure these reflect an accurate view of the Group's assessment of the customers' creditworthiness, staging and grouping as of the reporting date.

The table below contains analysis of the deferral amount and repayments made during the period of UAE customers benefiting from deferrals:

21 NEW STANDARDS AND AMENDMENTS APPLICABLE FROM 1 JANUARY 2021

IBOR Transition (Interest / Profit Rate Benchmark Reforms)

Effective from 1 January 2021, the Group implemented Phase 2 of the Interest Rate Benchmark Reform —Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16. The areas impacted by the amendments include application of practical expedient for accounting for modifications of financial assets and financial liabilities when transactions are updated for the new IBOR rates (will not result in derecognition), relief on changes to hedge designations and hedge documentation (a change to hedge designations and hedge documentation required by IBOR reform would not result in discontinuation of hedge accounting) and providing disclosures that enable users to understand nature and extent of risks arising from interest rate benchmark reform to which the Group is exposed and how it manages those risks. The amendments are applied retrospectively with no restatement required for prior periods.

During 2020, the Group implemented Phase 1 of the amendments which provided relief on hedge accounting requirements for those hedges existing before the IBOR replacement. The Group's exposure to hedging instruments (Interest Rate Swaps and Cross-Currency Swaps) and hedged items is not considered material.

Management is running a project on the Group's transition activities and continues to engage with various stakeholders to support an orderly transition and to mitigate the risks resulting from the transition. The project is significant in terms of scale and complexity and will impact products, internal systems and processes.
