REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF UNIKAI FOODS (P.J.S.C.)

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Unikai Foods (P.J.S.C.) (the “Company”) and its subsidiary (collectively referred to as the “Group”) which comprise the interim condensed consolidated statement of financial position as at 31 March 2021 and the related interim condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended, and explanatory notes. Management is responsible for the preparation and fair presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, *Interim Financial Reporting* (“IAS 34”). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

The fair values of financial instruments are not materially different from their carrying values.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

As at 31 March 2021, the Group held the following financial instruments and investment properties measured at fair value:

21 SEASONALITY

Due to seasonal nature of the business of the Group, the results of operations of certain quarters, which fall in off peak periods may be substantially different from other quarters, which fall in the peak seasons (i.e. during summer season). Therefore, revenue from operations may not be evenly distributed over the four quarters of the same year and thus the results of operations of each quarter may not be comparable to other quarters of the same year.
