Review report on condensed consolidated interim financial information to the Directors of Mashreqbank PSC

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Mashreqbank PSC (the "Bank") and its subsidiaries (together referred to as the "Group") as at 31 March 2022 and the related condensed consolidated statements of profit or loss, other comprehensive income, changes in equity and cash flows for the three-month period then ended and explanatory notes. The Directors are responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity." A review of the condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

Osool – A Finance Company (PJSC)*	United Arab Emirates	98.00	Finance

As at 31 March 2022, the Bank had the following associates and joint venture:

Associate

Emirates Digital Wallet LLC	United Arab Emirates	23.22	Digital wallet service
Depa PLC	United Arab Emirates	24.18	Interior Contracting

Joint venture

Noon Digital Pay LLC	United Arab Emirates	51.00	Digital wallet service
----------------------	----------------------	-------	------------------------

**Under liquidation.*

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

2 Application of new and revised International Financial Reporting Standards (“IFRS”)

2.1 New and revised IFRS adopted in the condensed consolidated interim financial information

The following new and revised IFRS, which became effective for annual periods beginning on or after 1 January 2022, have been adopted in this interim financial information. The application of these revised IFRSs, except where stated, have not had any material impact on the amounts reported for the current and prior periods.

- **Narrow-scope amendments to IFRS 3, IAS 16, IAS 17 and some annual improvements on IFRS 9 and IFRS 16-**

Amendments to IFRS 3, ‘Business combinations’ update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.

Amendments to IAS 16, ‘Property, plant and equipment’ prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.

Amendments to IAS 37, ‘Provisions, contingent liabilities and contingent assets’ specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 9, ‘Financial instruments’, and the Illustrative Examples accompanying IFRS 16, ‘Leases’.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

2 Application of new and revised International Financial Reporting Standards (“IFRS”) (continued)

2.2 New and revised IFRS in issue but not yet effective and not early adopted

New and revised IFRS	Effective for annual periods beginning on or after 1 January 2023
-----------------------------	--

- **IFRS 17, ‘Insurance contracts’** - On 18 May 2017, the IASB finished its long-standing project to develop an accounting standard on insurance contracts and published IFRS 17, ‘Insurance Contracts’. IFRS 17 replaces IFRS 4, which currently permits a wide variety of practices. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.

The standard applies to annual periods beginning on or after 1 January 2023, with earlier application permitted if IFRS 15, ‘Revenue from contracts with customers’ and IFRS 9, ‘Financial instruments’ are also applied.

IFRS 17 requires a current measurement model, where estimates are remeasured in each reporting period. The measurement is based on the building blocks of discounted, probability-weighted cash flows, a risk adjustment and a contractual service margin (“CSM”) representing the unearned profit of the contract. A simplified premium allocation approach is permitted for the liability for the remaining coverage if it provides a measurement that is not materially different from the general model or if the coverage period is one year or less. However, claims incurred will need to be measured based on the building blocks of discounted, risk-adjusted, probability weighted cash flows.

Management expects that the adoption of IFRS 17 will have an impact on the amounts reported and disclosures made in these consolidated financial statements in respect of its insurance contracts issued and reinsurance contracts held. However, it is not practicable to provide a reasonable estimate of the effects of the application of this standard until the Group performs a detailed review. Management has completed the gap analysis in relation to this standard and is currently in the process of performing a detailed assessment of the impact of the above new standard on the Group's consolidated financial statements. Due to the short term nature of the majority of the contracts issued by the Group, the Premium Allocation Approach (PAA) model will be applied and the general model / variable fee approach model will be applied to the insurance contracts that do not meet the PAA eligibility criteria.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

2 Application of new and revised International Financial Reporting Standards (“IFRS”) (continued)

2.2 New and revised IFRS in issue but not yet effective and not early adopted (continued)

	Effective for annual periods beginning on or after
New and revised IFRS	1 January 2023
• Amendments to IFRS 17, ‘Insurance Contracts’- The IASB issued the amendments to IFRS 17, ‘Insurance contracts’, on 25 June 2020, together with an amendment to IFRS 4, so that eligible insurers can still apply IFRS 9 alongside IFRS 17. This concluded the IASB’s targeted amendments to IFRS 17 which aimed to ease implementation of the standard by reducing implementation costs and making it easier for entities to explain, to investors and others, the results from applying IFRS 17.	1 January 2023
• Amendments to IAS 1, Presentation of financial statements’ on classification of liabilities - These narrow-scope amendments to IAS 1, ‘Presentation of financial statements’, clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the ‘settlement’ of a liability.	Deferred until accounting periods starting not earlier than 1 January 2024
• Amendment to IAS 12 – deferred tax related to assets and liabilities arising from a single transaction- These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.	1 January 2023

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

2 Application of new and revised International Financial Reporting Standards (“IFRS”) (continued)

2.2 New and revised IFRS in issue but not yet effective and not early adopted (continued)

	Effective for annual periods beginning on or after
New and revised IFRS	
• Amendments to IAS 1, ‘Presentation of financial statements’, IFRS Practice statement 2 and IAS 8, ‘Accounting policies, changes in accounting estimates and errors’	1 January 2023

The IASB amended IAS 1, ‘Presentation of Financial Statements’, to require companies to disclose their material accounting policy information rather than their significant accounting policies.

The amendment also clarifies that accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements. Further, the amendment to IAS 1 clarifies that immaterial accounting policy information need not be disclosed. However, if it is disclosed, it should not obscure material accounting policy information.

To support this amendment, the Board also amended IFRS Practice Statement 2, ‘Making Materiality Judgements’, to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

The amendment to IAS 8, ‘Accounting Policies, Changes in Accounting Estimates and Errors’, clarifies how companies should distinguish changes in accounting policies from changes in accounting estimates. The distinction is important, because changes in accounting estimates are applied prospectively to future transactions and other future events, but changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as the current period.

The Group is currently assessing the impact of these standards, interpretations and amendments on the future financial statements and intends to adopt these, if applicable, when they become effective.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies

3.1 Basis of preparation

This condensed consolidated interim financial information of the Group is prepared under the historical cost basis except for certain financial instruments, including derivatives, investment properties and reserves for unit linked policies which are measured at fair value.

This condensed consolidated interim financial information is prepared in accordance with International Accounting Standard 34: *Interim Financial Reporting* ("IAS 34"), issued by the International Accounting Standard Board ('IASB') and also comply with the applicable requirements of the laws in the U.A.E.

The accounting policies used in the preparation of this condensed consolidated interim financial information is consistent with those used in the audited annual consolidated financial statements for the year ended 31 December 2021.

This condensed consolidated interim financial information does not include all the information and disclosures required in full consolidated financial statements and should be read in conjunction with the Group's consolidated financial statements for the year ended 31 December 2021. In addition, results for the period from 1 January 2022 to 31 March 2022 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2022.

As required by the Securities and Commodities Authority of the U.A.E. ("SCA") Notification No. 2624/2008 dated 12 October 2008, accounting policies relating to financial assets, cash and cash equivalents, Islamic financing and investing assets and investment properties have been disclosed in the condensed consolidated financial information.

On 20 September 2021, the UAE Federal Decree Law No. 32 of 2021 ("Companies Law") was issued and came into effect on 2 January 2022 which repealed the UAE Federal Law No. 2 of 2015. The Group has 12 months from 2 January 2022 to comply with the provisions of the UAE Federal Decree Law No 32 of 2021. The Bank is in the process of reviewing the new provisions and will apply the requirements thereof no later than one year from the date on which the amendments came into effect.

3.2 Basis of consolidation

This condensed consolidated interim financial information incorporates the financial information of the Bank and entities controlled by the Bank. Control is achieved where the Bank has the power over the investee, exposure, or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the investor's returns.

The condensed consolidated interim financial information comprises the financial information of the Bank and of the subsidiaries as disclosed in Note 1. The financial information of the subsidiaries are prepared for the same reporting period as that of the Bank, using consistent accounting policies.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.3 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

For financial assets or financial liabilities not at fair value through profit or loss, at initial recognition, the Group measures a financial asset or financial liability at its fair value plus or minus transactions costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fee and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss. Immediately after initial recognition, an expected credit loss allowance ('ECL') is recognized for financial assets measured at amortised cost and investment in debt instruments measured as FVTOCI, which results in an accounting loss being recognized in profit or loss when an asset is newly originated.

Classification of financial assets

For the purposes of classifying financial assets, an instrument is an 'equity instrument' if it is a non-derivative and meets the definition of 'equity' for the issuer except for certain non-derivative puttable instruments presented as equity by the issuer. All other non-derivative financial assets are 'debt instruments'. Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective, such as loans and government and corporate bonds.

Debt instruments, including loans and advances and Islamic financing and investments products, are measured at amortised cost if both of the following conditions are met:

- (i) the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- (ii) the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest/profit on the principal amount outstanding.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.3 Financial assets (continued)

Classification of financial assets (continued)

All other financial assets are subsequently measured at fair value.

Based on these factors, the Group classifies its debt instruments into one of the following three measurement categories:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and Interest ('SPPI'), and that are not designated at fair value through profit or loss ('FVTPL'), are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognized.
- **Fair value through other comprehensive income ('FVTOCI'):** Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVTPL, are measured at FVTOCI. Movement in carrying amount are taken through Other Comprehensive Income ('OCI'), except for the recognition of impairment gains and losses, interest revenue and foreign exchange gains and losses on the instruments' amortised cost which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in 'Net investment income'.
- **Fair value through profit or loss ('FVTPL'):** Assets that do not meet the criteria for amortised cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented in the statement of profit or loss within 'Net investment income' in the period in which it arises, unless it arises from debt instruments that were designated at fair value or which are not held for trading, in which case they were presented separately in 'Net investment income'.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.3 Financial assets (continued)

Classification of financial assets (continued)

Business model: the business model reflects how the Group manages the assets in order to generate cash flows. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Group in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed, and how managers are compensated.

SPPI: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Group considers whether contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and an interest rate that is consistent with basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

The Group reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets. Examples of equity instruments include basic ordinary shares.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.3 Financial assets (continued)

Classification of financial assets (continued)

The Group subsequently measures all equity investments at fair value through profit or loss, except where the Group's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income. The Group's policy is to designate equity investments as FVTOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognized in OCI and are not subsequently reclassified to profit or loss, including on disposal. On disposal of these equity investments, any related balance within the FVOCI reserve is reclassified to retained earnings. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as investment income when the Group's right to receive payments is established

Amortised cost and effective interest method

The amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset (i.e. its amortised cost before any impairment allowance) or to the amortised cost of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees paid or received that are integral to the effective interest rate, such as origination fees.

When the Group revises the estimates of future cash flows, the carrying amount of the respective financial asset or financial liability is adjusted to reflect the new estimate discounted using original effective interest rate. Any changes are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of financial assets, except for financial assets that have subsequently become credit-impaired (or stage 3), for which interest income is calculated by applying the effective interest rate to their amortised cost (i.e. net of the expected credit loss provision).

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.3 Financial assets (continued)

(i) Impairment

The Group assesses on a forward-looking basis the expected credit losses ('ECL') associated with its debt instrument assets carried at amortised cost and FVTOCI and with the exposure arising from loan commitments and financial guarantee contracts. The Group recognizes a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

(ii) Modification of loans

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Group assesses whether or not the new terms are substantially different to the original terms. The Group does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms introduced, such as a profit share/equity-based return that substantially affects the risk profile of the loan.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Group derecognizes the original financial asset and recognizes a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognized in profit or loss as a gain or loss on derecognition.

If the terms are not substantially different, the renegotiation or modification does not result in the derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognizes a modification gain or loss in profit or loss.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.3 Financial assets (continued)

(ii) Modification of loans (continued)

The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate.

(iii) Derecognition other than on a modification

Financial assets, or a portion thereof, are derecognized when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the Group transfers substantially all the risks and rewards of ownerships, or (ii) the Group neither transfers nor retains substantially all the risks and rewards of ownership and the Group has not retained control. The Group enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Group:

- Has no obligation to make payments unless it collects equivalent amounts from the assets;
- Is prohibited from selling or pledging the assets; and
- Has an obligation to remit any cash it collects from the assets without material delay.

Collateral (shares and bonds) furnished by the Group under standard repurchase agreements and securities lending and borrowing transactions are not derecognised because the group retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and criteria for derecognition are therefore not met. This also applies to certain securitisation transactions in which the Group retains a subordinated residual interest.

3.4 Financial liabilities

Classification and subsequent measurement

Financial liabilities (including deposits and balances due to banks, repurchase agreements with banks, medium term loans and customer deposits) are initially recognised at fair value and subsequently measured at amortised cost, except for:

- Financial liabilities at fair value through profit or loss: this classification is applied to derivatives, financial liabilities held for trading and other financial liabilities designated as such on initial recognition. Gains or losses on financial liabilities designated at fair value through profit or loss are presented partially in other comprehensive income (the change in fair value due to credit risk) and partially profit or loss (the remaining amount of change in the fair value of the liability). This is unless such a presentation would create, or enlarge, an accounting mismatch, in which case the gains and losses attributable to changes in the credit risk of the liability are also presented in profit or loss;

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.4 Financial liabilities (continued)

Classification and subsequent measurement (continued)

- Financial liabilities arising from the transfer of financial assets which did not qualify for derecognition whereby for financial liability is recognised for the consideration received for the transfer. In subsequent periods, the Group recognises any expense incurred on the financial liability; and
- Financial guarantee contracts and loan commitments.

Derecognition

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

When replacing an existing debt with a new debt from a new lender, the existing debt would be de-recognized in the financial statements, with the difference between the carrying amount and the fair value of the consideration paid recognized in profit or loss. However, when modifying or exchanging a debt while keeping the original lender, the International Financial Reporting Standards (IFRS) have specific guidance on whether the transaction results in a de-recognition or is accounted for differently. This analysis is driven by the question whether the modification is “substantial” or whether the original debt has been replaced by another debt with “substantially” different terms.

3.5 Financial guarantee contracts and loan commitments

Financial guarantees are contracts that require the Group to make specified payments to reimburse the holders for a loss they incur because a specified debtor fails to make payment when due, in accordance with the terms of a debt instrument. Loan commitments are irrevocable commitments to provide credit under pre-specified terms and conditions.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The premium received on initial recognition less income recognized in accordance with the principles of IFRS 15.

Loan commitments provided by the Group are measured as the amount of the loss allowance.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.6 Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. The foreign exchange component forms part of its fair value gain or loss. Therefore,

- for financial assets that are classified as at FVTPL, the foreign exchange component is recognised in the condensed consolidated interim statement of profit or loss;
- for financial assets that are monetary items and designated as at FVTOCI, any foreign exchange component is recognized in consolidated statement of profit or loss;
- for financial assets that are non-monetary items and designated as at FVTOCI, any foreign exchange component is recognised in the consolidated statement of comprehensive income; and
- for foreign currency denominated debt instruments measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the financial assets and are recognised in the consolidated statement of profit or loss.

3.7 Islamic financing and investment products

In addition to conventional banking products, the Group offers its customers certain non-interest based banking products, which are approved by its Shari'ah Supervisory Board.

Any conventional terminologies that are used only for reasons of legal requirement, explanation and/or clarity will be considered as replaced with its Shari'ah compliant equivalent and will not impact the Islamic products or documentation in terms of their Shari'ah compliance. All Islamic banking products are accounted for in conformity with the accounting policies described below:

(i) Accounting policy

Islamic financing and investing products are measured at amortised cost, using the effective profit method, less any amounts written off, allowance for doubtful accounts and unearned income.

The effective profit rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial asset or liability, or, where appropriate, a shorter period.

Allowance for impairment is made against Islamic financing and investing products is measured in accordance with note 3.3(i). Islamic financing and investing products are written off only when all possible courses of action to achieve recovery have proved unsuccessful.

(ii) Revenue recognition policy

Income from Islamic financing and investing assets are recognised in the condensed consolidated statement of profit or loss using the effective profit method.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.7 Islamic financing and investment products (continued)

(ii) Revenue recognition policy (continued)

The calculation of the effective profit rate includes all fees paid or received, transaction costs, and discounts or premiums that are an integral part of the effective profit rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset.

(iii) Islamic customers' deposits and distributions to depositors

Islamic customers' deposits are initially measured at fair value which is normally consideration received net of directly attributable transaction costs incurred, and subsequently measured at their amortised cost using the effective profit method.

Distributions to depositors (Islamic products) are calculated according to the Group's standard procedures and are approved by the Group's Sharia'a Supervisory Board.

3.8 Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation including property under construction for such purposes. Investment properties are measured initially at cost, including transaction costs. Cost includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the cost of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are measured at fair value, which reflects market conditions at the reporting date. Gains and losses arising from changes in the fair value of investment properties are included in the condensed consolidated statement of profit or loss in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the condensed consolidated profit or loss in the period in which the property is derecognised.

Transfer is made to or from investment property only when there is a change in use evidenced by the end of owner-occupation or commencement of an operating lease to another party. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of the change in use. Fair value is determined by open market values based on valuations performed by independent surveyors and consultants or broker's quotes.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

3 Summary of significant accounting policies (continued)

3.9 Leasing

The group leases various branches, offices and premises for ATMs. Rental contracts are typically made for fixed periods of 12 months to 5 years, but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability; and
- any lease payments made at or before the commencement date less any lease incentives received

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

3.10 Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements for the year ended 31 December 2021, except for those matters described in note 4.2.

3.11 Cash and cash equivalents

For the purposes of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and other balances with the Central Bank of the UAE (excluding statutory reserve) and money market placements which are maturing within three months from the value date of the deposit or placement. Cash and cash equivalents are carried at amortised cost in the consolidated statement of financial position.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

4 Risk management

4.1 Credit risk

Credit risk is the risk of suffering a financial loss as a result of any of the Group's customers failing or unwilling to fulfil their contractual obligations to the Group. Credit risk arises mainly from loan and advances, loan commitments arising from such lending activities, trade finance and treasury activities but can also arise from financial guarantees, letter of credit, endorsements and acceptances. The Group is also exposed to credit risk arising from investments in debt instruments, derivatives as well as settlement balances with market counterparties.

The Chief Credit Officer ("CCO") of the Group is responsible for overseeing all aspects of credit risk management supported by a team of experienced and trained credit managers. The CCO and credit managers have delegated authority within the risk management framework to approve credit transactions and manage credit risk on an ongoing basis.

Credit risk is the single largest risk from the Group's business of extending loans and advances (including loan commitments, letters of credit and letters of guarantee) and carrying out investment in securities and debts; management therefore carefully manages its exposure to credit risk. Credit risk management and controls are centralized under the CCO function with regular governance and monitoring exercised by the Board Risk Committee ("BRC"), Board Credit Committee ("BCC") and Enterprise Risk Committee ("ERC").

Specifically, the BCC reviews and approves credit proposals that are beyond lending authorities delegated to management by the Board of Directors. In addition, BRC and BCC monitor key elements of the Bank's credit risk profile relative to the Bank's risk appetite. The Board Committees are supported by ERC through detailed review and monitoring of credit portfolio, including exposure concentrations.

An Early Alert Committee ("EAC") is also in place to review and proactively identify potential problematic exposures within Corporate and Investment Banking ("CIBG") and International Banking ("IBG") business groups and determine appropriate strategies. The EAC, along with the IFRS 9 Forum (a forum in place to oversee all aspects of the Group's IFRS 9 framework), plays an important role in ensuring that credit fundamentals are linked to determination of Significant Increase in Credit Risk (SICR) and staging for IFRS 9 purposes.

4 Risk management (continued)

4.2 Risk management in the current economic scenario

Economic fallout from COVID-19 crisis has now mostly been contained through the advent of global vaccination drives along with targeted economic measures. With infection and death rates now coming under control, lockdown and other restrictions have eased, which has in turn led to a return of normalcy and a pick-up in economic activity. While the Group continues to closely monitor the situation and work closely with clients to work through any residual elements of COVID-19 related stresses, it is management's view that economic risks associated with the pandemic have moderated to a great extent at present.

In addition, the Group is currently focused on managing direct and indirect impacts resulting from the Russia and Ukraine conflict and the resultant geopolitical fall-out.

Impact of current Macroeconomic environment on measurement of ECL

The Group has robust governance in place to ensure appropriateness of the IFRS 9 framework and resultant Expected Credit Loss ("ECL") estimates at all times. Specifically, all aspects of the IFRS 9 framework are overseen by the ERC and a dedicated IFRS 9 Forum ("the forum"). The forum is chaired by the Head of Enterprise Risk Management with participation from business, Finance, credit & risk management departments. The Group, through the forum, reviews the appropriateness of inputs and methodology for IFRS 9 ECL on an ongoing basis.

In addition, the Group continues to review the appropriateness of ECL provisions in light of changes in macroeconomic environment, risk profile as well as any actual and expected increase in credit risk.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

4 Risk management (continued)

4.2 Risk management in the current economic scenario (continued)

With respect to monitoring of COVID-19 impacts, the Group continues to:

- (i) Classify clients benefitting from payment deferrals into two groups; (a) Group 1: clients those are temporarily and mildly impacted; and (b) Group 2: clients that are significantly impacted and potential stage migrations; and
- (ii) Revise to IFRS 9 model inputs pertaining to macroeconomic forecasts in case the situation demands;

Grouping of clients have been carried out based on an assessment of Significant Increase in Credit Risk ("SICR") for clients benefitting from payment deferrals. The Group has applied knowledge of its clients and judgement in assessing SICR and whether the impact of COVID-19 is temporary or longer term. Specifically, clients that are expected to face liquidity constraints without substantial changes in their creditworthiness have been classified in Group 1. For these clients, the Group holds the view that, despite being subject to payment deferrals, there is insufficient deterioration in credit quality to trigger a stage migration. On the other hand, clients that are expected to face substantial changes in their creditworthiness beyond liquidity issues have been classified as Group 2. Ultimately grouping of borrowers assists in determining whether a stage migration is warranted. As at 31 March 2022, the proportion of clients benefitting from deferrals along with their exposures and ECL is as follows:

		Group 1		Group 2	
Sector	Total gross carrying amount	Gross carrying amount	ECL	Gross carrying amount	ECL
AED (in million)					
Manufacturing	15,287	25	-	-	-
Construction	8,340	907	39	37	-
Trade	15,390	407	3	4	-
Transport and communication	3,681	251	10	-	-
Services	12,186	746	8	-	-
Financial institutions	3,065	-	-	-	-
Personal*	13,775	1,213	24	492	44
Residential mortgage*	8,502	943	-	449	4
Government and related enterprises	14,256	75	-	-	-
	94,482	4,567	84	982	48

*The above categories of "Personal" and "Residential Mortgage" mainly comprises of Retail portfolio of the Bank.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

4 Risk management (continued)

4.2 Risk management in the current economic scenario (continued)

Impact of current Macroeconomic environment on measurement of ECL

The Bank has deferred payments for customers in line with the economic relief programs announced in the countries, where the Bank operates. Due to the payment deferrals, the contractual cashflows from these credit exposures (totaling to AED 141 million) have been modified and in accordance with IFRS 9 requirements the Group has recognized a modification loss of AED 1 million, which is included as part of the ECL disclosed in note 4.1.

With respect to the Russia and Ukraine conflict, a significant majority of the Group's exposure to Russia and Ukraine is to Financial Institution in these countries. In light of the current economic situation and ongoing sanctions, the Group has proactively chosen to set aside a credit Judgmental Overlay ("JO") of AED 19 million within the Group's ECL. The Group has utilized stressed / punitive credit ratings and haircuts on securities, where relevant, within the ECL framework to quantify the Credit JO, thereby ensuring a pragmatic view and sufficient coverage from a provision standpoint. The Group is monitoring the day-to-day situation of the crisis and is actively managing down any direct exposure.

Reasonableness of ECL estimates

The Group performs historical analysis to determine key economic variables that impact credit risk across different portfolios. Macroeconomic forecasts¹ for these economic variables are used to estimate risk parameters (PD and LGD) on a forward-looking basis for all borrowers and instruments that are in scope of IFRS 9 ECL framework. In accordance with IFRS 9 requirements, the Group estimates these risk parameters under optimistic, base and pessimistic scenarios with representative weights used to measure ECL. The models have been refreshed with latest macro-economic data for the period ended 31 March 2022.

From a sensitivity analysis point of view, if the pessimistic scenario was changed by +10% / -10%, ECL would change by +/- AED 19 million.

The Group had previously maintained a Credit Judgmental Overlay ("JO") of AED 175 million to reflect potential increase in credit risk emanating from impact of COVID 19 in the credit environment. The Group is of the view that risks associated with the pandemic have now mostly crystalized and are reflected in the business performance. Accordingly, the JO has been discontinued as of 30 September 2021. Even though the JO has been discontinued, the Group continues to closely monitor the impact of COVID-19 crisis on credit portfolios and overall levels of credit risk. Most corporate borrowers within vulnerable sectors have been internally re-rated in 2021 using their most up to date financial position. Accordingly, any deterioration in credit quality since the onset of the pandemic is now reflected in the ECL estimation.

¹ The Bank utilizes 'Abu Dhabi Stock Index', 'Annual change in UAE Current Account to GDP Ratio', 'UAE Budget expenditure as a% of GDP', 'Oil Price', 'World Industrial Production Growth' and 'World GDP growth' as leading macroeconomic variables, amongst others, within the Bank's IFRS 9 models. Values for these have changed by + 22%, +120%, -5%, 107%, 8% and -48.8% respectively under the adverse scenario for year 1 relative to previous quarter projections. Normalized scenario probability used by the Bank is based on 60% base, 20% optimistic and 20% pessimistic scenario probability.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

4 Risk management (continued)

4.2 Risk management in the current economic scenario (continued)

Liquidity management

The effects of the COVID-19 crisis on the economy continue to be felt by the UAE banks. The gradual recovery in the oil prices along with renewed access to the international capital markets by GCC sovereigns and financial institutions however, have eased the concerns regarding GCC Governments' finances and banking sector's liquidity. In this environment, the Group has taken measures to manage its liquidity carefully. The Bank's ALCO meets regularly with primary focus on monitoring cash flows and forecasts, across all jurisdictions in which the Bank operates. The Bank has strengthened its liquidity buffer significantly through raising deposits. The CBUAE has adopted a proactive approach in order to ensure flow of credit to the economy, especially to sectors severely impacted by the COVID-19 crisis. The CBUAE announced a comprehensive Targeted Economic Support Scheme ("TESS") effective from 15 March 2020, allowing UAE Banks to access zero cost funding and pass on the benefit to their clients through Principal and Interest deferrals.

CBUAE also reduced Reserve Requirement against CASA balances, providing an immediate boost to UAE Banks' liquidity. CBUAE also reduced Reserve Requirement against CASA balances, providing an immediate boost to UAE Banks' liquidity. Given the increase in economic activity and stability of the financial system, CBUAE is starting a gradual and well calibrated withdrawal of some of the TESS facilities, which is scheduled to be concluded by mid of 2022.

The combination of above measures by the CBUAE along with prudent liquidity management by the Bank, has helped to ensure that the Bank is able to meet its clients' banking services requirements effectively and without disruption. Recently, while the Russia Ukraine crisis negatively impacted US and European markets, it has not had a discernable impact on liquidity in the UAE due to the accompanying rise in oil prices and the increase in Government and Related Enterprises ("GRE") cash balances.

LIBOR transition

The Group is actively preparing for the transition to Alternative Reference Rates (ARR) under the supervision of a cross-functional working committee, which includes representatives from Risk, Finance, Technology, Legal, Marketing and relevant business units. In line with the disclosures in the financial statements for the year ended 31 December 2021, the Group's transition program has commenced and will be running until the final publication date of LIBOR on 30 June 2023.

Mashreqbank PSC Group

4 Risk management (continued)

4.2 Risk management in the current economic scenario (continued)

Insurance subsidiary of the Group

The Bank's insurance subsidiary ("subsidiary") assessed the impact of Covid-19 on business continuity, claims and reserving, control environment, credit risk, fair value of investment properties, impairment of financial investments measured at amortised cost, liquidity and solvency.

The subsidiary mainly noticed a decrease in health care and life insurance claims, and developments in existing Business Interruption claims due to COVID-19. The subsidiary is monitoring the loss experience and has appropriately calculated its technical reserves as at 31 March 2022.

Since 2019, the subsidiary has developed a robust risk appetite framework and capital thresholds based on the pandemic risk and other risk stress scenarios. The subsidiary conducts more regular reviews on its reinsurers in relation to the counterparty credit ratings, financial metrics, credit outlook and changes to their structures, if any. The current security list has more than 90% of "A" and above rated reinsurance securities.

The liquidity position of the subsidiary remains strong. Further enhancements and developments to strengthen the processes and credit controls have resulted in an efficient receivable management. The subsidiary continued to have robust collections and the measures taken have contributed to controlled and healthy receivable book as at 31 March 2022.

The subsidiary continues to assess the impact of Covid-19 on the Group's operations and takes necessary actions as needed.

On 10 February 2022, Oman Insurance's Syndicate 2880 received Lloyd's approval to commence underwriting. Syndicate 2880 was launched under the Syndicate-in-a-box initiative (SIAB) and will operate on the Lloyd's platform under the Dubai International Financial Centre (DIFC). As part of SIAB arrangement, Oman Insurance has also incorporated "OIC Corporate Member Limited", a private limited company in England and Wales, United Kingdom as a fully owned subsidiary of Oman Insurance Company P.S.C. ("OIC").

As part of SIAB arrangement, OIC on behalf of 'OIC Corporate Member Limited' has pledged certain bonds having nominal value of USD 27,730 thousand to be held at Lloyd's deposit with the beneficial ownership remains with OIC. Net book value of these bonds is AED 111,528 thousand as at 31 March 2022.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

4 Risk management (continued)

4.2 Risk management in the current economic scenario (continued)

Insurance subsidiary of the Group (continued)

Additionally, on 23 February 2022, OIC and ASSICURAZIONI GENERALI S.p.A acting through its branch office in the UAE ("Generali UAE") signed an agreement to transfer the life insurance portfolio of Generali UAE to OIC. This portfolio transfer is expected to be completed in Q3 2022 subject to the necessary required regulatory approvals.

Also on 4 March 2022, a share sale and purchase agreement was signed between Oman insurance company P.S.C. (OIC) and VHV Reasürans A.Ş. - Istanbul, Turkey (a company of VHV Group - Hannover, Germany) for OIC to fully sell 100% shareholding in the Group's subsidiary Dubai Sigorta A.Ş., Turkey, subject to the required regulatory approvals. The financial effect of this transaction will be reflected in the condensed consolidated interim financial information once the regulatory approvals are obtained and necessary transaction is completed.

4.3 Compliance risk

Contingent liabilities

In 2015, the Bank became aware that certain historical US dollar payment processing activities involving Sudan may have potentially breached US sanction laws in effect at the time. The Bank proactively cooperated with the UAE and the US regulators and appointed external legal advisors to assist in the review of these transactions, which occurred prior to March 2009, including compliance with US sanction laws as well as its own compliance processes. In 2018, the Bank formally submitted the findings of the review to the regulators in both the UAE and the US.

Certain US agencies and regulators concluded their reviews without levying any penalties. During the year ended 31 December 2021 the Bank reached a settlement with the Office of Foreign Assets Control (OFAC), the New York State Department of Financial Services (DFS) and the Federal Reserve Board of Governors (FRB). As part of the settlement the Bank agreed to pay \$100 million to the DFS which was fully provided for in the consolidated financial statements for the year ended 31 December 2021.

Dialogue with a US agency on the same matter is ongoing and, based on legal advice, it is premature at this stage to determine if the Bank is likely to be subject to any further penalty or the quantum of the penalty. The Group, on a continuous basis, identifies and assesses such risks and recognizes provisions, in consultation with its legal counsel, in accordance with the accounting policy for provisions as disclosed in the annual consolidated financial statements for the year ended 31 December 2021.

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

5 Critical accounting judgements and key sources of estimation of uncertainty

The preparation of condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2021.

Written off during the period / year	-	(231)
Balance at the end of the period / year	623,827	626,963

- (e) The allowance for impairment includes a specific provision of AED 577 million for stage 3 Islamic financing and investment exposure of the Group as at 31 March 2022 (31 December 2021: AED 564 million).

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

9 Investment properties

	31 March 2022 (un-audited) AED '000	31 December 2021 (audited) AED '000
At fair value		
Balance at beginning of the period / year	462,829	449,715
Change in fair value during the period	<u>-</u>	<u>13,114</u>
Balance at the end of the period / year	<u>462,829</u>	<u>462,829</u>

All of the Group's investment properties are freehold properties and located in the U.A.E.

The fair value of investment properties as at 31 December 2021 has been arrived at on the basis of valuations carried out by third party valuers and also are in accordance with the Royal Institute of Chartered Surveyor (RICS) Valuation Standards. The valuers performing the valuation have necessary qualifications, skills, understanding and knowledge to undertake the valuation competently and possess recent market experience in the valuation of properties in the United Arab Emirates. The valuers are not related to the Group. The fair value of the Group's investment properties is based on unobservable market inputs, i.e. Level 3. Management has assessed the fair value of investment properties and the carrying value approximately the fair value as at 31 March 2022.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

10 Property and equipment

During the period, the Group purchased AED 29 million (period ended 31 March 2021: AED 29 million) of various types of property and equipment and disposed of property and equipment with a net book value of AED 9 million (period ended 31 March 2021: AED 4 million).

11 Deposits and balances due to banks

The analysis of deposits and balances due to banks is as follows:

	31 March 2022 (un-audited) AED '000	31 December 2021 (audited) AED '000
Time	14,828,867	13,947,840

14 Medium-term notes

	31 March 2022 (un-audited) AED '000	31 December 2021 (audited) AED '000
Medium term notes	6,821,360	7,315,119

The maturities of the medium-term notes (MTNs) issued under the programme are as follows:

Year	31 March 2022 (un-audited) AED'000	31 December 2021 (audited) AED'000
2022	1,609,195	2,095,531
2023	387,052	389,753
2024	3,983,339	3,989,012
2025	811,891	799,917
2029	29,883	40,906
	6,821,360	7,315,119

The Group established a Euro Medium Term Note (EMTN) programme for USD 5 billion (AED 18.37 billion) under an agreement dated 15 March 2010.

During the three month period ended 31 March 2022, medium-term notes of AED 0.4 billion were redeemed.

15 Issued and paid up capital

At the general meeting held on 9 November 2021, the shareholders approved increase in the share capital of the Bank to AED 2,006,098,300 by issuing 23,079,007 bonus shares based on the existing face value of AED 10 per share, which is a non cash transaction.

As at 31 March 2022, 200,609,830 ordinary shares of AED 10 each (31 December 2021: 200,609,830 ordinary shares of AED 10 each) were fully issued and paid up.

At the Annual General Meeting of the shareholders held on 20 April 2022, the shareholders approved a cash dividend of 10% for the year ended 31 December 2021 (31 December 2020: cash dividend of nil) of the issued and paid up capital amounting to AED 201 million.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

16 Non-controlling interests

	31 March 2022 (un-audited) AED'000	31 December 2021 (audited) AED'000
At beginning of the period/year	796,062	757,680
Share of profit for the period/year	23,953	73,508
Share of other comprehensive income for the period/year	16,068	12,024
Dividend paid	-	(32,825)
Transaction with NCI	-	(14,325)
At end of the year	836,083	796,062

17 General and administrative expenses

General and administrative expenses include senior management remuneration and director fees of AED 13 million for the three month period ended 31 March 2022 (three month period ended 31 March 2021 : AED 10 million).

18 Earnings per share

The basic earnings per share is calculated by dividing the net profit attributable to owners of the Parent by the weighted average number of ordinary shares in issue during the period.

	For the three month period ended	
	31 March 2022 (un-audited)	31 March 2021 (un-audited)
Profit for the period (AED'000) (Attributed to owners of the Parent)	606,132	42,985
Weighted average number of shares in issue	200,609,830	200,609,830
Basic earnings per share (AED)	3.02	0.24

In accordance with IAS 33 "Earnings Per Share", the impact of bonus shares issued have been considered retrospectively while computing the weighted average number of ordinary shares during all periods presented.

There were no potentially dilutive shares as of 31 March 2022 and 31 March 2021.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

24 Segmental information

IFRS 8 – *Operating Segments* – requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess their performance.

Reportable segments

Operating segments are identified on the basis of internal reports about the components of the Group that are regularly reviewed by the Group's CEO (the Group's chief operating decision maker) in order to allocate resources to the segment and to assess its performance. Information reported to the Group's CEO for the purpose of resource allocation and assessment of performance is based on following strategic business units offering products and services to different markets.

The Group's reportable segments under IFRS 8 are therefore as follows:

1. Corporate and Investment Banking segment comprises of domestic corporate and commercial banking. It also includes global Financial Institution business. It offers complete suite of corporate banking products such as Trade finance, contracting finance, project finance, investment banking, cash management, correspondent banking, etc.
2. The Retail segment includes products and services offered to individuals or small businesses within U.A.E and Egypt. The product offerings to customers include, current accounts, savings accounts, fixed deposits, investment products, "Mashreq Millionaire" deposits, personal loans, mortgage loans, business loans, credit cards with unique loyalty programs, bank assurance, overdraft, priority banking, SME, private banking and wealth management services.
3. The Treasury & Capital Markets segment consists of customer flow business and proprietary business and funding centre management. Customer flow business includes transactions for foreign exchange, derivatives, margin FX, futures, hedging, investment products, domestic equities (brokerage) and asset management undertaken on behalf of customers. The proprietary business includes trading and investing activity undertaken on behalf of the Group.
4. The International Banking segment consists of Corporate business for the Group's overseas banking branches. Product range covers complete suite similar to domestic corporate.
5. All Islamic banking products offered to customers are included under the Islamic Banking segment. These products are Ijarah Home Finance, Mudarabah Deposit, Mudarabah savings account, Musharaka finance, Murabaha commodity finance, Ijarah Equipment Finance, Sukuk Underwriting, Musharaka LC, Murabaha LC, TR Murabaha, Kafala, Wakalah Deposit, Reverse Murabaha Deposit & Sukuk Advisory.

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

24 Segmental information (continued)

Reportable segments (continued)

6. The Insurance subsidiary, Oman Insurance Company (PSC) Group – comprises the Insurance segment. The product offerings to customers include life, health, motor, marine cargo and hull, aviation, fire and general accident, engineering, liability and personal lines insurance.
7. Other consists of Head office and certain investments and assets held centrally due to their strategic significance to the Group.

The accounting policies of the reportable segments are the same as the Group's accounting policies. Segment profit represents the profit earned by each segment without allocation of general and administrative expenses, allowances for impairment and tax expenses.

25 Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Valuation techniques and assumptions applied for the purposes of measuring fair value.

The fair values of financial assets and financial liabilities are determined using similar valuation techniques and assumptions as used for the year ended 31 December 2021.

Fair value of the Group's financial assets that are measured at fair value on recurring basis.

Some of the Group's financial assets are measured at fair value at the end of the reporting period. The following table gives information about how the fair values of these financial assets are determined:

Mashreqbank PSC Group

Notes to the condensed consolidated interim financial information for the period from 1 January 2022 to 31 March 2022 (continued)

26 Capital adequacy ratio

As per the Central bank regulation for Basel III, the capital requirement as at 31 March 2022 is 13% inclusive of capital conservation buffer of 2.5%. However, as per the standards for issued by CBUAE for TESS program due to the COVID-19 crisis, banks are allowed to tap into the capital conservation buffer up to a maximum of 60% without supervisory consequences, effective from 15 March 2020 until 30 June 2022.

The Bank is required to comply with the following minimum requirement:

- (i) CET1 must be at least 7% of risk weighted assets (RWA);
- (ii) Tier 1 capital must be at least 8.5% of risk weighted assets (RWA); and
- (iii) Total capital, calculated as sum of Tier 1 capital and Tier 2 capital must be at least 10.5% of risk weighted assets (RWA).
- (iv) In addition, banks are required to maintain a capital conservation buffer (CCB) of 2.5% of risk weighted assets (RWA) in the form of CET 1.

The capital adequacy ratio is computed based on circulars issued by the U.A.E. Central Bank as per Basel III.

	31 March 2022 (un-audited) AED'000	31 December 2021 (audited) AED'000
Capital base		
Tier 1 capital	19,918,250	19,785,886
Tier 2 capital	1,779,552	1,693,975
Total capital base (A)	<u>21,697,802</u>	<u>21,479,861</u>
Risk-weighted assets		
Credit risk	142,364,153	135,518,028
Market risk	3,130,974	3,206,199
Operational risk	9,444,816	9,444,817
Total risk-weighted assets (B)	<u>154,939,943</u>	<u>148,169,044</u>
Capital adequacy ratio (%) [(A)/(B) x 100]	<u>14.00%</u>	<u>14.50%</u>

27 Subsequent events

There have been no events subsequent to the statement of financial position date that would significantly affect the amounts reported in the condensed consolidated interim financial information as at and for the three-month period ended 31 March 2022.

28 Approval of condensed consolidated interim financial information

The condensed consolidated interim financial information on pages 2 to 64 were approved by the Board of Directors on 27 April 2022.
