REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

The Board of Directors
Emirates Islamic Bank PJSC
Dubai
United Arab Emirates

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of **Emirates Islamic Bank PJSC, Dubai, United Arab Emirates** (the "Bank") **and its Subsidiaries** (together referred to as the "Group") as at 30 June 2022 and the related condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six months period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects in accordance with IAS 34.

8 SUKUK PAYABLE

a) The Group issued Sukuk amounting to AED 3.7 billion during 2020 and 2021 to raise US Dollar denominated medium term finance via a Shariah compliant sukuk financing arrangement. As at 30 June 2022, the total outstanding sukuk payable is AED 3.7 billion.

Following are the details of all the sukuk financing arrangement in issue.

Issue Date	Amount (USD)	Listing	Profit rate (%)	Payment basis	Maturity
September 2020	500,000,000	Irish Stock Exchange & Nasdaq	1.827	Semi annual	September 2025
October 2021	500,000,000	Irish Stock Exchange & Nasdaq	2.082	Semi annual	November 2026

The Bank transferred certain identified Ijara assets totaling to AED 2.2 billion (the "co-owned assets") to its subsidiary, EIB Sukuk company limited – (the "Issuer"), a special purpose vehicle formed for the issuance of these sukuk. The Bank has further entered into a Murabaha with the Sukukholders for an amount of AED 1.5 billion. This medium term finance is carried at amortised cost.

In substance, the co-owned assets remain in control of the Group; accordingly, these assets continue to be recognised by the Group. In case of any default, the Group has provided an undertaking to make good all losses to the sukuk holders. The assets are in the control of the Group and shall continue to be serviced by the Group.

The Issuer will pay a semi-annual distribution amount from returns received in respect of the co-owned assets. Such proceeds are expected to be sufficient to cover the semi-annual distribution amount payable to the sukuk holders on the semi-annual distribution dates. Upon maturity of the sukuk, the Group has undertaken to repurchase the assets at the exercise price.

18 ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Fair value of assets and liabilities

The table below analyses assets and liabilities measured at fair value on a recurring basis. The different levels in the fair value hierarchy have been defined as follows:

- Level 1: quoted prices (unadjusted) in principal markets for identified assets or liabilities.
- Level 2: valuation using inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: valuation using inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair value of financial instruments classified as level 3 are, in certain circumstances, measured using valuation techniques that incorporate assumptions that are not evidenced by the prices from observable current market transactions in the same instrument and are not based on observable market data. The Group employs valuation techniques, depending on the instrument type and available market data. For example, in the absence of active market, an investment's fair value is estimated on the basis of an analysis of the investee's financial position and results, risk profile and other factors. Favourable and unfavourable changes in the value of financial instruments are determined on the basis of changes in the value of the instruments as a result of varying the levels of the unobservable parameters, quantification of which is judgmental.

During the period ended 30 June 2022 no financial assets measured at FVOCI were transferred from Level 1 to Level 2 or from Level 2 to Level 1 (2021: AED Nil).

For comparative information please refer to the Group's consolidated financial statements for the year ended 31 December 2021.
