Review report on condensed consolidated interim financial information to the Directors of Emirates Investment Bank P.J.S.C

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Emirates Investment Bank P.J.S.C. (the "Bank") and its subsidiary (together referred to as the "Group") as at 30 September 2022 and the related condensed consolidated interim statements of profit or loss and other comprehensive income for the three month and nine month periods then ended and the condensed consolidated interim statements of cash flows and changes in equity for the nine-month period then ended and explanatory notes. The Directors are responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity." A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

For the nine-month period ended 30 September 2022 (Unaudited)

1 GENERAL INFORMATION

Emirates Investment Bank P.J.S.C. (the "Bank") was incorporated on 17 February 1976 in Dubai, United Arab Emirates by a decree of HH The Ruler of Dubai. In 1999, the Bank was registered under the UAE Commercial Companies Law No. (8) Of 1984 (as amended) as a Public Joint Stock Company.

On 20 September 2021, the UAE Federal Decree Law No. 32 of 2021 ("Companies Law") was issued and came into effect on 2 January 2022 which repealed the UAE Federal Law No. 2 of 2015. The Bank has 12 months from 2 January 2022 to comply with the provisions of the UAE Federal Decree Law No 32 of 2021. The Bank is in the process of reviewing the new provisions and will apply the requirements thereof no later than one year from the date on which the amendments came into effect.

The Bank is engaged in the business of investment advisory and wealth management. The address of the Bank's registered office is P. O. Box 5503, Dubai, United Arab Emirates.

The condensed consolidated interim financial information for the nine-month period ended 30 September 2022 comprise the financial information of the Bank and its subsidiary (together referred to as the "Group").

The Bank is a subsidiary of Al Futtaim Private Company LLC which holds 52.85% (2021: 52.85%) of the shares in the Bank.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The condensed consolidated interim financial information of the Group is prepared in accordance with International Accounting Standard 34: *Interim Financial Reporting*, issued by the International Accounting Standards Board ('IASB') and comply with the applicable requirements of the laws in the U.A.E.

The condensed consolidated interim financial information does not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2021.

In addition, results for the nine-month period ended 30 September 2022 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2022.

The accounting policies applied by the Group in the preparation of the condensed consolidated interim financial information are consistent with those applied by the Group in the preparation of annual audited consolidated financial statements for the year ended 31 December 2021, unless otherwise stated.

2.2 Basis of consolidation

This condensed consolidated interim financial information incorporates the financial information of the Bank and its subsidiary as at 30 September 2022. Control is achieved where the Bank has the power over the investee, exposure, or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the investor's returns.

The condensed consolidated interim financial information comprises the financial information of the Bank and of its subsidiary. The financial information of the subsidiary is prepared for the same reporting period as that of the Bank, using consistent accounting policies.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (continued)

For the nine- month period ended 30 September 2022 (Unaudited)

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**2.2 Basis of consolidation (continued)**

The following subsidiary in which the Bank exercises control is consolidated in this interim condensed consolidated financial information:

<i>Name of subsidiary</i>	<i>Country</i>	<i>% Holding</i>		<i>Principal activities</i>
		<i>30 September 2022</i>	<i>31 December 2021</i>	
EIB Investment Co. LLC*	U.A.E	24%	24%	Investment in commercial, industrial and agricultural enterprises and their respective management.

*The Bank has the ability to exercise control over EIB Investment Co. LLC (the entity) as it has rights to variable returns and has the ability to affect the returns. As the Bank has control over the entity, it has been consolidated in this condensed consolidated interim financial information. The entity has a wholly owned subsidiary named EIB Investment Management Cayman Ltd. which is under liquidation.

2.3 Significant management judgments and estimates

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In preparing this condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty are consistent with those that applied to the consolidated financial statements for the year ended 31 December 2021, except for the judgements involved in estimation of ECL on the Russian exposures as described in note 15.

2.4 New and revised IFRS applied on the condensed consolidated interim financial information

The following new and revised IFRS, which became effective for annual periods beginning on or after 1 January 2022, have been adopted in this interim financial information. The application of these revised IFRSs, except where stated, have not had any material impact on the amounts reported for the current and prior periods.

- **Narrow-scope amendments to IFRS 3, IAS 16, IAS 17 and some annual improvements on IFRS 9 and IFRS 16**

Amendments to IFRS 3, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.

Amendments to IAS 16, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in the profit or loss.

Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 9, 'Financial instruments', and the Illustrative Examples accompanying IFRS 16, 'Leases'.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (continued)

For the nine- month period ended 30 September 2022 (Unaudited)

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**2.5 New and revised IFRS in issue but not yet effective and not early adopted**

The Group has not yet early applied the following new standards, amendments and interpretations that have been issued but are not yet effective:

New and revised IFRS

**Effective for
annual periods
beginning on or after**

Amendments to IAS 1, Presentation of financial statements' on classification of liabilities Deferred until
- These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that accounting periods
liabilities are classified as either current or non-current, depending on the rights that exist at the starting not earlier
end of the reporting period. Classification is unaffected by the expectations of the entity or than 1 January 2024
events after the reporting date (for example, the receipt of a waiver or a breach of covenant).
The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.

Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8- The amendments 1 January 2023
aim to improve accounting policy disclosures and to help users of the financial statements to
distinguish between changes in accounting estimates and changes in accounting policies.

Amendment to IAS 12 – Deferred tax related to assets and liabilities arising from a single 1 January 2023
transaction- These amendments require companies to recognise deferred tax on transactions
that, on initial recognition give rise to equal amounts of taxable and deduct able temporary
differences.

The Group is currently assessing the impact of these standards, interpretations and amendments on the future financial statements and intends to adopt these, if applicable, when they become effective.

Part of the proprietary investment portfolio of the Group having a carrying value of AED 52,002 thousand (31 December 2021: AED 438,001 thousand) is pledged as collateral with banks against credit facilities. Refer note 7.1 for the details of collateral pledged against credit facilities as at reporting date.

The Group purchased equity shares during the nine months period ended 30 September 2022 amounting to AED 794 thousand (30 September 2021: AED 70 thousand)

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Net unrealised gain recognised in other comprehensive income	8,634	1,472
At the end of the period/year	<u>31,101</u>	<u>22,467</u>

The Group has assessed the sensitivity of the fair value measurement of investments under level 3 due to changes in inputs used. Based on the assessment, no major changes in the fair value of investments under level 3 is noted as at 30 September 2022. Such an assessment is performed on a quarterly basis by reviewing the changes in unobservable inputs which might result in higher or lower fair value measurement.

10 BASIC AND DILUTED EARNINGS/(LOSS) PER SHARE

Basic loss per share of AED 50.43 (30 September 2021: Basic earning per share of AED 35.12) is calculated by dividing the loss attributable to the equity holders of the parent of AED 35,300 thousand for the nine month period ended 30 September 2022 (30 September 2021: profit of AED 24,587 thousand) by the weighted average number of shares outstanding during the period of 700,000 of AED 100 each (30 September 2021: 700,000 shares of AED 100 each).

The figure for basic and diluted earnings per share is the same as the Group has not issued any instruments which would have an impact on earnings per share.

11 SEGMENTAL ANALYSES

For operating purposes, the Group is organised into two major business segments: (a) Investments, which is principally involved in managing the Group's own investment portfolio and provides treasury services; and (b) Banking Services, which principally manages clients' investment portfolios, provides credit facilities, accepts deposits from corporate and individual customers. These segments are the basis on which the Group reports its primary segment information. Transactions between segments are conducted at rates determined by management taking into consideration the cost of funds and an equitable allocation of expenses and the Group operations are primarily within the UAE.

Management monitors the operating results of the operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss.

12 COMMITMENTS AND CONTINGENT LIABILITIES

Credit-related commitments include commitments to extend credit, letters of credit, guarantees and acceptances which are designed to meet the requirements of the Group's customers.

Letters of credit, guarantees and acceptances commit the Group to make payments on behalf of customers, contingent upon the failure of the customers to perform under the terms of the contract.

The Group has the following credit related contingent liabilities and commitments:

	<i>30 September 2022 AED'000 (Unaudited)</i>	<i>31 December 2021 AED'000 (Audited)</i>
Guarantees	6,826	17,695
Unutilised committed credit facilities*	45,962	26,878
	<u>52,788</u>	<u>44,573</u>

The Group has commitments of AED 20,429 thousand on account of investment in equity instruments (31 December 2021: AED 21,055 thousand).

* Unutilized committed credit facilities represent a contractual commitment to permit draw downs on a facility within a defined period subject to conditions precedent and termination clauses. As commitments may expire without being drawn down and since conditions precedent to draw down have to be fulfilled, the total contract amounts do not necessarily represent exact future cash requirements.

As at 31 December 2021, the Group was a defendant in two court cases, one in respect of a client's investment in a commercial paper and the other in respect of a client's property held on a nominee basis. During the nine month period ended 30 September 2022, in both cases the Group obtained court judgements closing the litigation in favour of the Group. Accordingly, no provision has been maintained by the Group as at 30 September 2022. The Group, on a continuous basis, identifies and assesses such risks and recognizes provisions, in accordance with the accounting policy for provisions as disclosed in the annual consolidated financial statements for the year ended 31 December 2021.

13 RELATED PARTY TRANSACTIONS

The Group enters into transactions in the ordinary course of business with related parties, defined as major shareholders, directors, key management personnel and their related companies. Transactions with such related parties are done on an arm's length basis, including interest rates and collateral, as those prevailing at the same time for comparable transactions with external customers and parties. Pricing policies and terms of related parties' transactions are approved by the Group's management.

The significant balances outstanding in respect of related parties included in the condensed consolidated interim financial information are as follows:

14 DERIVATIVE FINANCIAL INSTRUMENTS

In the ordinary course of business, the Group enters into transactions that involve derivative financial instruments. A derivative financial instrument is a financial contract between two parties where payments are dependent upon movements in price in one or more underlying financial instrument, reference rate or index. The purpose of derivative financial instruments in the Group's business is to mitigate the risks arising from default, currency and interest fluctuations and other market variables. The Group uses forward foreign exchange contracts and options to mitigate the currency risk on certain investments.

There were no derivative instruments held by the Group as of 30 September 2022 (31 December 2021: Nil).

Derivatives often involve at their inception only a mutual exchange of promises with little or no transfer of consideration. A relatively small movement in the value of the asset, rate or index underlying a derivative contract may have an impact on the profit or loss of the Group. The Group's exposure under derivative contracts is closely monitored as part of the overall management of the Group's market risk.

14 DERIVATIVE FINANCIAL INSTRUMENTS (continued)

Derivative product type

Forwards

Forwards are contractual agreements to either buy or sell a specified currency, commodity or financial instrument at a specific price and date in the future. Forwards are customised contracts transacted in over-the-counter markets.

Options

Options are contractual agreements that convey the right, but not the obligation, to either buy or sell a specific amount of a commodity or financial instrument at a fixed price, either at a fixed future date or at any time within a specified year.

Swaps

Swaps are commitments to exchange one set of cash flows for another. For interest rate swaps, counterparties generally exchange fixed and floating rate interest payments in a single currency without exchanging principal.

Derivative related credit risk

Credit risk in respect of derivative financial instruments arises from the potential for a counterparty to default on its contractual obligations and is limited to the positive fair value of instruments that are favorable to the Group. With gross-settled derivatives, the Group is also exposed to a settlement risk, being the risk that the Group honors its obligation, but the counterparty fails to deliver the counter value.

Changes in counterparty credit risk have no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognised at fair value.

15 RISK MANAGEMENT

Credit risk

Credit risk is the risk that a customer or counterparty will fail to meet a commitment, resulting in financial loss to the Group. Such risk arises from lending, trade finance, treasury and other activities undertaken by the Group. Credit risk is actively monitored in accordance with the credit policies which clearly define delegated lending authorities, policies and procedures. The management of credit risk also involves the monitoring of risk concentrations by industrial sector as well as by geographic location.

Impact of current economic and geopolitical situation on credit risk

The economic fallout of COVID-19 has been significant. Regulators and governments across the globe have introduced fiscal and economic stimulus measures to mitigate its impact.

The Central Bank of UAE ("CBUAE") also announced multiple economic support measures and incentives. In this regard, a Zero Cost Funding scheme was announced to support the banking and financial institutions, corporates and individuals in the UAE impacted by this crisis. Under this scheme the Targeted Economic Support Scheme ("TESS") program was introduced in which the customers were allowed deferrals in the repayment of their loan's instalments.

To assess the impact of the TESS program and other discretionary deferrals as allowed by the banks and financial institutions on their own, the CBUAE, the DFSA and FSRA issued a Joint Guidance on the treatment of IFRS 9 provisions.

However, on 7 January 2022, the CBUAE formally terminated the TESS program and has allowed a transitional period of 6 months (i.e., till 30 June 2022), to bring all such customers benefiting from the deferrals in line with business-as-usual SICR criteria as applied by the banks before the application of this Joint Guidance. During this transitional period, all the banks were required to make a realistic assessment of the credit worthiness of their clients that were benefitting from deferral programs.

As of 30 September 2022 and 31 December 2021, the Group does not have any customers benefitting from the deferrals.

15 RISK MANAGEMENT**Credit risk (continued)****Impact of current economic and geopolitical situation on credit risk (continued)**

On 24 February 2022, the military conflict between Russia and Ukraine started. As a result, a number of countries have and continue to impose new sanctions against Russian government entities, state-owned enterprises and certain specified entities and individuals linked to Russia anywhere in the world. The situation together with potential fluctuations in commodity prices, foreign exchange rates, restrictions to imports and exports, availability of local materials and services and access to local resources will directly impact entities that have significant operations or exposures in, or with Russia and Ukraine. The situation is fluid and may also have significant consequences for other entities that could be exposed to fluctuations in commodity prices and foreign exchange rates, as well as the possibility of a protracted economic downturn.

As of 30 September 2022, the Group's investment in Russian bonds (before provision for ECL) was as below:

	<i>30 September 2022</i>	<i>31 December 2021</i>
	<i>Amortised cost</i>	<i>Amortised cost</i>
	<i>AED'000</i>	<i>AED'000</i>
	<i>(Unaudited)</i>	<i>(Audited)</i>
Investments at amortised cost	30,027	30,088
Investments at fair value through other comprehensive income	5,485	5,498
	<u>35,512</u>	<u>35,586</u>

Detailed portfolio reviews are conducted on an ongoing basis and the Group is applying increased scrutiny when onboarding clients in sensitive industries and is ensuring compliance with sanctions requirements. The Group continues to monitor the current Russia-Ukraine geopolitical situation and its impact on the economy and will mitigate its exposures and risks as appropriate.

Impact on measurement of ECL

IFRS 9 framework requires the estimation of Expected Credit Loss (ECL) based on current and forecast economic conditions. In order to assess ECL under forecast economic conditions, the Group utilizes a range of economic scenarios of varying severity, and with appropriate weightings, to ensure that ECL estimates are representative of a range of possible economic outcomes.

The Group has reviewed the potential impact of economic and geopolitical unrest outbreak on the inputs and assumptions for IFRS 9 ECL measurement in light of available information. In light of the current economic situation and ongoing sanctions, the Group has utilized stressed / punitive credit ratings and haircuts on securities, where relevant, within the ECL framework, thereby ensuring a pragmatic view and sufficient coverage from a provision standpoint. The Group is monitoring the day-to-day situation of the crisis and is actively managing down any direct exposure.

In respect of the loans and advances portfolio, the Group is conducting frequent reviews of the Loan to Value ("LTV") ratios on the collateral held against loans given to customers. Accordingly, all staging and grouping decisions are subject to regular review to ensure these reflect an accurate view of the Group's assessment of the customers' creditworthiness, staging and grouping as of the reporting date. The Group has reassessed its portfolio of Stage 1, Stage 2 and Stage 3 customers as at 30 September 2022.

For its investment portfolio, the Group has evaluated whether the investment portfolio has suffered a significant deterioration in credit quality. Based on ratings from external rating agencies and assessment of any increase in probability of default, the Group has assessed whether there has been a significant increase in credit risk for investments and whether these investments are credit impaired and assessed the impact on ECL as at 30 September 2022.

15 RISK MANAGEMENT (continued)**Credit risk (continued)****Impact on measurement of ECL (continued)**

Based on the assessment performed, the Group has transferred its investments in Russian bonds to stage 3. To reflect the credit impairment on these investments, the Group has recognised an ECL on these stage 3 instruments as below:

15 RISK MANAGEMENT (continued)**Libor transition**

In line with the disclosures in the financial statements for the year ended 31 December 2021, the Group's transition program has commenced and will be running until the final publication date of LIBOR on 30 June 2023. The Group has established a project to manage the transition for any of its contracts that could be affected.

The following table shows the Group's exposure at the year-end to significant IBORs subject to reform that have yet to transition to risk free rates.

Financial instruments exposed to USD LIBOR

	<i>30 September 2022</i>		<i>31 December 2021</i>	
	<i>Assets AED'000 (Unaudited)</i>	<i>Liabilities AED'000 (Unaudited)</i>	<i>Assets AED'000 (Audited)</i>	<i>Liabilities AED'000 (Audited)</i>
Loans and advances	65,213	-	61,795	-
Due to banks	-	36,725	-	350,996

All the above exposures to IBOR are yet to transition to an alternative benchmark interest rate. All the exposures will expire before transition is required.

There are no loan commitments and financial guarantees as at 30 September 2022 and 31 December 2021 which are referenced to LIBOR.

Hedge accounting

As at 30 September 2022 and 31 December 2021 the Group did not hold any hedged instruments which reference USD LIBOR and have not yet transitioned to an alternative interest rate.

16 CAPITAL ADEQUACY

The Central Bank of UAE ('CBUAE') supervises the Group on a consolidated basis, and therefore receives information on the capital adequacy of, and sets capital requirements for, the Group as a whole. Effective from 2017, the capital is computed at a Group level using the Basel III framework of the Basel Committee on Banking Supervision ('Basel Committee'), after applying the amendments advised by the CBUAE, within national discretion.

The capital adequacy ratio as per Basel III framework is given below:

	<i>30 September 2022 AED'000 (Unaudited)</i>	<i>31 December 2021 AED'000 (Audited)</i>
