Review report on condensed consolidated interim financial information to the Board of Directors of Emirates Investment Bank P.J.S.C

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Emirates Investment Bank P.J.S.C. (the "Bank") and its subsidiary (together referred to as the "Group") as at 31 March 2023 and the related condensed consolidated interim statements of profit or loss, other comprehensive income, cash flows and changes in equity for the three-month period then ended and explanatory notes. The Directors are responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity." A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

1 GENERAL INFORMATION

Emirates Investment Bank P.J.S.C. (the "Bank") was incorporated on 17 February 1976 in Dubai, United Arab Emirates by a decree of HH The Ruler of Dubai. In 1999, the Bank was registered under the UAE Commercial Companies Law No. (8) Of 1984 (as amended) as a Public Joint Stock Company. UAE Federal Law No. 32 of 2021 ("Company law") on Commercial Companies came into effect from 2 January 2022, replacing the existing Federal Law No. 2 of 2015 and the Bank has complied with the requirements of the law.

The Bank is engaged in the business of investment advisory and wealth management. The address of the Bank's registered office is P. O. Box 5503, Dubai, United Arab Emirates.

The condensed consolidated interim financial information for the three month period ended 31 March 2023 comprise the financial information of the Bank and its subsidiary (together referred to as the "Group").

The Bank is a subsidiary of Al Futtaim Private Company LLC which holds 52.85% (2021: 52.85%) of the shares in the Bank.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The condensed consolidated interim financial information of the Group is prepared in accordance with International Accounting Standard 34: *Interim Financial Reporting,* issued by the International Accounting Standards Board ('IASB') and comply with the applicable requirements of the laws in the U.A.E.

The condensed consolidated interim financial information does not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2022.

In addition, results for the three-month period ended 31 March 2023 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2023.

The accounting policies applied by the Group in the preparation of the condensed consolidated interim financial information are consistent with those applied by the Group in the preparation of annual audited consolidated financial statements for the year ended 31 December 2022, unless otherwise stated.

Implementation of UAE Corporation Tax Law and application of IAS 12 Income Taxes
On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (the "Law") to enact a Federal corporate tax regime in the UAE. Furthermore, on 16 January 2023, a Cabinet Decision was published specifying the threshold of AED 375,000 of taxable income above which taxable entities would be subject to a 9% corporate tax rate.

The Corporate Tax regime will become effective for the accounting periods beginning on or after 1 June 2023 hence for the Group it will be effective from 1 January 2024. Management acknowledges that a number of regulations with regards to the application of tax legislation are yet to be published and as such management will continue to monitor developments in order to assess the impact of corporate tax including any deferred tax on the Group.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Basis of consolidation

This condensed consolidated interim financial information incorporates the financial information of the Bank and its subsidiary as at 31 March 2023. Control is achieved where the Bank has the power over the investee, exposure, or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the investor's returns.

The condensed consolidated interim financial information comprises the financial information of the Bank and of its subsidiary. The financial information of the subsidiary is prepared for the same reporting period as that of the Bank, using consistent accounting policies.

The following subsidiary in which the Bank exercises control is consolidated in this interim condensed consolidated financial information:

Name of subsidiary	*Country*	*% Holding*		*Principal activities*
		31 March 2023	31 December 2022	
EIB Investment Co. LLC*	U.A.E	24%	24%	Investment in commercial, industrial and agricultural enterprises and their respective management.

* The Bank has the ability to exercise control over EIB Investment Co. LLC (the entity) as it has rights to variable returns and has the ability to affect the returns. As the Bank has control over the entity, it has been consolidated in this condensed consolidated interim financial information.

2.3 Significant management judgments and estimates

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In preparing this condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty are consistent with those that applied to the consolidated financial statements for the year ended 31 December 2022.

2.4 New and revised IFRS applied on the condensed consolidated interim financial information

The following new and revised IFRS, which became effective for annual periods beginning on or after 1 January 2023, have been adopted in this interim financial information. The application of these revised IFRSs, except where stated, have not had any material impact on the amounts reported for the current and prior periods.

Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8- The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.

Amendment to IAS 12 – Deferred tax related to assets and liabilities arising from a single transaction- These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deduct able temporary differences.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 New and revised IFRS in issue but not yet effective and not early adopted

The Group has not yet early applied the following new standards, amendments and interpretations that have been issued but are not yet effective:

New and revised IFRS	Effective for annual periods beginning on or after
Amendment to IFRS 16 – Leases on sale and leaseback- These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.	1 January 2024
Amendment to IAS 1 – Non current liabilities with covenants - These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.	1 January 2024

The Group is currently assessing the impact of these standards, interpretations and amendments on the future financial statements and intends to adopt these, if applicable, when they become effective.

The Group has not purchased equity shares during the three months period ended 31 March 2023 and 31 March 2022.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.
Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and
Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The fair value of debt investments carried at amortised cost as at 31 March 2023 amounts to AED 417,605 thousand (31 December 2022: AED 493,859 thousand) and these investments would be classified as level 1 within the fair value hierarchy. During the period ended 31 March 2023, the Group reviewed its portfolio in certain geographies owing to increased credit risk based on heightened geo-political uncertainties and sold certain investments measured at amortised cost amounting to AED 61,923 thousand (31 March 2022: Nil) and recognized a loss of AED 6,364 thousand (31 March 2022: Nil). These disposals were part of credit risk management activities that were aimed at minimising potential credit losses due to further credit deterioration.

* Key inputs used in the valuation techniques for these investments are comparable sales transaction with appropriate haircut, Discounted cash flows (DCF) which included significant unobservable inputs of - hair cut for comparable transactions and interest rate and in term of relationship of unobservable inputs to fair value, any changes in comparable sale transaction and interest rate change in DCF will directly impact the fair value.

As at 31 December 2022, the Group held the following investments measured as follows:

5 INVESTMENTS, NET (continued)

The following table shows a reconciliation of the opening and closing amounts of level 3 investments recorded at fair value:

	31 March 2023 AED'000 (Unaudited)	*31 December 2022 AED'000 (Audited)*
At the beginning of the period/year	**34,371**	22,467
Net unrealised gain recognised in other comprehensive income	**5,687**	11,904
At the end of the period/year	**40,058**	34,371

The Group has assessed the sensitivity of the fair value measurement of investments under level 3 due to changes in inputs used. Based on the assessment, no major changes in the fair value of investments under level 3 is noted as at 31 March 2023. Such an assessment is performed on a quarterly basis by reviewing the changes in unobservable inputs which might result in higher or lower fair value measurement.

7 SHARE CAPITAL AND RESERVES

The Central Bank of the UAE issued a regulation by Circular No. 23/2022 date 6 April 2022, mandating all investment banks and wholesale banks to convert their existing license to a Restricted Bank License (the "Regulation") with, among other requirements, the obligation to maintain a minimum issued and paid-up share capital of AED 1,000 million.

To comply with the Regulation, the Bank filed an application to the Central Bank on 23 June 2022 for a license as a Restricted Licensed Bank, supported by a business plan detailing the proposed scope of activities and the capital increase plan to take place in two stages as follows:

Stage 1: Distribute the Bank's distributable reserves (including retained earnings) amounting AED 280 million as bonus shares by issuing 2,800,000 new bonus shares at a nominal value of AED 100 per share to the existing shareholders of the Bank (the "Distribution").

Stage 2: Raise additional capital amounting to AED 650 million by way of a rights issue ("Rights Issue"), issuing 6,500,000 new shares at a nominal value of AED 100 per share. Upon completion of the Rights Issue, the Bank will have an issued share capital of AED 1,000 million divided into 10,000,000 shares with a nominal value of AED 100 per share.

7 SHARE CAPITAL AND RESERVES (continued)

At the General Assembly held on 27 December 2022, the shareholders of the Bank approved to distribute the Bank's distributable reserves (Special reserve amounting to AED 44,251 thousand and retained earnings amounting to AED 235,749 thousand) amounting AED 280 million as bonus shares by issuing 2,800,000 new bonus shares at a nominal value of AED 100 per share to the existing shareholders of the Bank, subject to regulatory approval. During the period ended 31 March 2023, the Bank has received the relevant regulatory approval. The issued share capital of the Bank is AED 350 million as at 31 March 2023 (31 December 2022: AED 70 million).

Further, at General Assembly held on 24 March 2023, the shareholders of the Bank approved by way of special resolution to increase the Bank's issued share capital up to an amount not exceeding AED 1,000 million by way of right issue in an amount of up to AED 650 million issuing 6,500,000 new shares at a nominal value of AED 100 per share. Consequently, on 31 March 2023 (changes in timetable of the Rights issue notified on 14 April 2023), the Bank has invited registered shareholders of the Company as at the close of business of the DFM on 28 April 2023 to subscribe for new shares.

10 BASIC AND DILUTED EARNINGS/(LOSS) PER SHARE

Basic earning per share of AED 9.73 (31 March 2022: Basic loss per share of AED 12.47) is calculated by dividing the profit attributable to the equity holders of the parent of AED 34,039 thousand for the three month period ended 31 March 2023 (31 March 2022: loss of AED 43,633 thousand) by the weighted average number of shares outstanding during the period of 3,500,000 of AED 100 each (31 March 2022: 3,500,000 of AED 100 each). In accordance with IAS 33 "Earnings Per Share", the impact of bonus shares issued have been considered retrospectively while computing the weighted average number of ordinary shares during all periods presented.

The figure for basic and diluted earnings per share is the same as the Group has not issued any instruments which would have an impact on earnings per share.

11 SEGMENTAL ANALYSIS

For operating purposes, the Group is organised into two major business segments: (a) Investments, which is principally involved in managing the Group's own investment portfolio and provides treasury services; and (b) Banking Services, which principally manages clients' investment portfolios, provides credit facilities, accepts deposits from corporate and individual customers. These segments are the basis on which the Group reports its primary segment information. Transactions between segments are conducted at rates determined by management taking into consideration the cost of funds and an equitable allocation of expenses and the Group operations are primarily within the UAE.

Management monitors the operating results of the operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss.

12 COMMITMENTS AND CONTINGENT LIABILITIES

Credit-related commitments and contingent liabilities
Credit-related commitments include commitments to extend credit, guarantees and acceptances which are designed to meet the requirements of the Group's customers.

Guarantees and acceptances commit the Group to make payments on behalf of customers, contingent upon the failure of the customers to perform under the terms of the contract.

The Group has the following credit related contingent liabilities and commitments:

	31 March 2023 AED'000 (Unaudited)	*31 December 2022 AED'000 (Audited)*
Guarantees	**6,776**	6,776
Unutilised committed credit facilities*	**43,719**	59,814
	50,495	66,590

The Group has commitments of AED 21,375 thousand on account of investment in equity instruments (31 December 2022: AED 21,645 thousand).

* Unutilized committed credit facilities represent a contractual commitment to permit draw downs on a facility within a defined period subject to conditions precedent and termination clauses. As commitments may expire without being drawn down and since conditions precedent to draw down have to be fulfilled, the total contract amounts do not necessarily represent exact future cash requirements.

The Group is a defendant in respect of a secured facility granted to a client. The Dubai court of cassation has issued a final judgment upholding the judgment of the court of appeal that was against the Group. The Group had earlier obtained a final judgment in its favour against the same client by the Federal Supreme Court in Abu Dhabi courts and this judgment is in execution stage. Accordingly, the Group (i) has filed an application with Dubai Courts to offset the execution amount of the Dubai judgment against the execution amount of the first judgment in Abu Dhabi; and (ii) has filed a petition with the Federal Supreme Court in Abu Dhabi (under the Federal Supreme Court Law No. 33 of 2022) to rule on which final judgment is the executable one, and to order a stay of execution of the two conflicting judgments until a decision is made on the request.

The Group has performed an assessment and has concluded that it has no legal obligation to the client in respect of this matter. Accordingly, no provision has been maintained by the Group as at 31 March 2023.

The Group, on a continuous basis, identifies and assesses such risks and recognizes provisions, in accordance with the accounting policy for provisions as disclosed in these annual consolidated financial statements.

13 RELATED PARTY TRANSACTIONS

The Group enters into transactions in the ordinary course of business with related parties, defined as major shareholders, directors, key management personnel and their related companies. Transactions with such related parties are done on an arm's length basis, including interest rates and collateral, as those prevailing at the same time for comparable transactions with external customers and parties. Pricing policies and terms of related parties' transactions are approved by the Group's management and the Board of Directors where appropriate.

13 RELATED PARTY TRANSACTIONS (continued)

14 DERIVATIVE FINANCIAL INSTRUMENTS

In the ordinary course of business, the Group enters into transactions that involve derivative financial instruments. A derivative financial instrument is a financial contract between two parties where payments are dependent upon movements in price in one or more underlying financial instrument, reference rate or index. The purpose of derivative financial instruments in the Group's business is to mitigate the risks arising from default, currency and interest fluctuations and other market variables. The Group uses forward foreign exchange contracts and options to mitigate the currency risk on certain investments.

There were no derivative instruments held by the Group as of 31 March 2023 (31 December 2022: Nil).

Derivatives often involve at their inception only a mutual exchange of promises with little or no transfer of consideration. A relatively small movement in the value of the asset, rate or index underlying a derivative contract may have an impact on the profit or loss of the Group. The Group's exposure under derivative contracts is closely monitored as part of the overall management of the Group's market risk.

14 DERIVATIVE FINANCIAL INSTRUMENTS (continued)

Derivative product type

Forwards

Forwards are contractual agreements to either buy or sell a specified currency, commodity or financial instrument at a specific price and date in the future. Forwards are customised contracts transacted in over-the-counter markets.

Options

Options are contractual agreements that convey the right, but not the obligation, to either buy or sell a specific amount of a commodity or financial instrument at a fixed price, either at a fixed future date or at any time within a specified year.

Swaps

Swaps are commitments to exchange one set of cash flows for another. For interest rate swaps, counterparties generally exchange fixed and floating rate interest payments in a single currency without exchanging principal.

Derivative related credit risk

Credit risk in respect of derivative financial instruments arises from the potential for a counterparty to default on its contractual obligations and is limited to the positive fair value of instruments that are favorable to the Group. With gross–settled derivatives, the Group is also exposed to a settlement risk, being the risk that the Group honors its obligation, but the counterparty fails to deliver the counter value.

Changes in counterparty credit risk have no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognised at fair value.

15 RISK MANAGEMENT

Credit risk

Credit risk is the risk that a customer or counterparty will fail to meet a commitment, resulting in financial loss to the Group. Such risk arises from lending, trade finance, treasury and other activities undertaken by the Group. Credit risk is actively monitored in accordance with the credit policies which clearly define delegated lending authorities, policies and procedures. The management of credit risk also involves the monitoring of risk concentrations by industrial sector as well as by geographic location.

Impact of current economic and geopolitical situation on credit risk

On 24 February 2022, the military conflict between Russia and Ukraine started. As a result, a number of countries have and continue to impose new sanctions against Russian government entities, state-owned enterprises and certain specified entities and individuals linked to Russia anywhere in the world. The situation together with potential fluctuations in commodity prices, foreign exchange rates, restrictions to imports and exports, availability of local materials and services and access to local resources will directly impact entities that have significant operations or exposures in, or with Russia and Ukraine. The situation is fluid and may also have significant consequences for other entities that could be exposed to fluctuations in commodity prices and foreign exchange rates, as well as the possibility of a protracted economic downturn.

As of 31 March 2023, the Group's investment in Russian bonds (before provision for ECL) was as below:

	31 March 2023 AED'000 (Unaudited)	*31 December 2022 AED'000 (Audited)*
Investments at amortised cost	**9,304**	30,027
Investments at fair value through other comprehensive income	**5,485**	5,485
	14,789	35,512

15 RISK MANAGEMENT (continued)

Credit risk (continued)

Impact of current economic and geopolitical situation on credit risk (continued)

Detailed portfolio reviews are conducted on an ongoing basis and the Group is applying increased scrutiny when onboarding clients in sensitive industries and is ensuring compliance with sanctions requirements. The Group continues to monitor the current Russia–Ukraine geopolitical situation and its impact on the economy and will mitigate its exposures and risks as appropriate.

Impact of current economic and geopolitical situation on measurement of ECL
IFRS 9 framework requires the estimation of Expected Credit Loss (ECL) based on current and forecast economic conditions. In order to assess ECL under forecast economic conditions, the Group utilizes a range of economic scenarios of varying severity, and with appropriate weightings, to ensure that ECL estimates are representative of a range of possible economic outcomes.

The Group has reviewed the potential impact of economic and geopolitical unrest outbreak on the inputs and assumptions for IFRS 9 ECL measurement in light of available information. In light of the current economic situation and ongoing sanctions, the Group has utilized stressed / punitive credit ratings and haircuts on securities, where relevant, within the ECL framework, thereby ensuring a pragmatic view and sufficient coverage from a provision standpoint. The Group is monitoring the day-to-day situation of the crisis and is actively managing down any direct exposure.

In respect of the loans and advances portfolio, the Group is conducting frequent reviews of the Loan to Value ("LTV") ratios on the collateral held against loans given to customers. Accordingly, all staging and grouping decisions are subject to regular review to ensure these reflect an accurate view of the Group's assessment of the customers' creditworthiness, staging and grouping as of the reporting date. The Group has reassessed its portfolio of Stage 1, Stage 2 and Stage 3 customers as at 31 March 2023.

For its investment portfolio, the Group has evaluated whether the investment portfolio has suffered a significant deterioration in credit quality. Based on ratings from external rating agencies and assessment of any increase in probability of default, the Group has assessed whether there has been a significant increase in credit risk for investments and whether these investments are credit impaired and assessed the impact on ECL as at 31 March 2023.

Based on the assessment performed, the Group had transferred its investments in Russian bonds to stage 3. To reflect the credit impairment on these investments, the Group has recognised an ECL on these stage 3 instruments as below:

	31 March 2023 AED'000 (Unaudited)	*31 December 2022 AED'000 (Audited)*
Investments at amortised cost	**9,304**	30,027
Investments at fair value through other comprehensive income	**5,485**	5,485
	14,789	35,512

During the period ended 31 March 2023, the Group has sold a Russian investment measured at amortised cost amounting to AED 20,723 thousand (2022: Nil) and recognized a loss of AED 4,835 thousand (2022: Nil). The the Group has reversed the corresponding ECL on this investment amounting to AED 20,723 thousand.

Libor transition

The Group's transition program commenced in the previous year and will be running until the final publication date of LIBOR on 30 June 2023. The Group has established a project to manage the transition for any of its contracts that could be affected.

The following table shows the Group's exposure at the year-end to significant IBORs subject to reform that have yet to transition to risk free rates.

Financial instruments exposed to USD LIBOR

	31 March 2023		*31 December 2022*	
	Assets AED'000 (Unaudited)	***Liabilities AED'000 (Unaudited)***	*Assets AED'000 (Audited)*	*Liabilities AED'000 (Audited)*
Loans and advances	**43,747**	-	67,341	-

All the above exposures to IBOR are yet to transition to an alternative benchmark interest rate. All the exposures will expire before transition is required.

There are no loan commitments and financial guarantees as at 31 March 2023 and 31 December 2022 which are referenced to LIBOR.

Hedge accounting

As at 31 March 2023 and 31 December 2022 the Group did not hold any hedged instruments which reference USD LIBOR and have not yet transitioned to an alternative interest rate.

16 CAPITAL ADEQUACY

The Central Bank of UAE ('CBUAE') supervises the Group on a consolidated basis, and therefore receives information on the capital adequacy of, and sets capital requirements for, the Group as a whole. Effective from 2017, the capital is computed at a Group level using the Basel III framework of the Basel Committee on Banking Supervision ('Basel Committee'), after applying the amendments advised by the CBUAE, within national discretion.
