INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF AGILITY PUBLIC WAREHOUSING COMPANY K.S.C.P.

Report on the Audit of Consolidated Financial Statements

Qualified Opinion

We have audited the consolidated financial statements of Agility Public Warehousing Company K.S.C.P (the "Parent Company") and its subsidiaries (collectively, the "Group"), which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of cash flows and consolidated statement of changes in equity for the year then ended, and notes to the consolidated financial statements, including material accounting policies.

In our opinion, except for the possible effects of the matter described in the *Basis for Qualified Opinion* section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

Basis for Qualified Opinion

- (i) As stated in Note 7 to the consolidated financial statements, the Group has investment properties amounting to KD 214,026 thousand as at 31 December 2025 (2024: KD 280,293 thousand) that are leased from the Public Authority for Industry, Kuwait ("PAI"), of which properties amounting to KD 192,637 thousand (2024: KD 258,355 thousand) relate to lease contracts that had expired as at the reporting date and are subject to ongoing legal disputes. As at 31 December 2025, the Group had not established enforceable lease rights over these properties, and reliable independent valuation evidence could not be obtained due to the legal uncertainty surrounding the Group's rights. Accordingly, we were unable to obtain sufficient appropriate audit evidence regarding the existence and valuation of these investment properties and were therefore unable to determine whether any adjustments to their carrying values were necessary.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF
AGILITY PUBLIC WAREHOUSING COMPANY K.S.C.P. (continued)**

Report on the Audit of Consolidated Financial Statements (continued)

Basis for Qualified Opinion (continued)

- (ii) As stated in Note 15 to the consolidated financial statements, the Group has recognised a legal claim receivable amounting to KD 64,488 thousand from the General Administration of Customs for Kuwait ("GAC") pursuant to a final judgment issued by the Court of Cassation. The Group did not provide sufficient appropriate audit evidence to support the recoverability of this receivable as at 31 December 2025. In addition, while the Group is legally entitled to interest of 7% per annum on the awarded compensation, the enforceable basis for determining the interest amount remains legally indeterminate as at the reporting date. Consequently, we were unable to obtain sufficient appropriate audit evidence to determine whether any adjustments to the carrying value of the legal claim receivable, including related interest, were necessary.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code), as applicable to audits of consolidated financial statements of public interest entities, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Emphasis of Matter

We draw attention to Note 26(a) to the consolidated financial statements, which describes the contingencies and claims relating to the litigations with the General Administration of Customs for Kuwait.

Our opinion is not modified in respect of the matter set out above.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF AGILITY PUBLIC WAREHOUSING COMPANY K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matters described in the *Basis for Qualified Opinion* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

a) Contingent liabilities and provisions from claims and proceedings

The Parent Company and certain of its group companies are involved as a party in legal proceedings with third parties as well as certain governmental entities. As the ultimate disposition of asserted claims and proceedings cannot be determined with certainty, an adverse outcome could have a material effect on the Group's consolidated financial position, results from operations and cash flows.

The determination of (contingent) liabilities from claims and proceedings is judgmental and the amounts involved are or can be material to the Group's consolidated financial statements as a whole. Details of Group's legal claims are presented in Note 7, Note 11 and Note 26 of the consolidated financial statements. Due to the significant judgment and estimation uncertainty with respect to the ongoing legal claims, we identified this as a key audit matter.

In response to this matter, our audit procedures included, amongst others, understanding of the Group's processes around the identification and evaluation of claims and proceedings at different levels in the organization, the recording and continuous re-assessment of the related (contingent) liabilities, provisions and disclosures in accordance with IFRS Accounting Standards. We also inquired with management in respect of ongoing claims, proceedings and read relevant correspondence and minutes of the meetings of the Board of Directors, obtained internal and external legal confirmation letters of the Group. We also assessed the appropriateness of disclosure regarding (contingent) liabilities from claims and proceedings, as shown in Note 7, Note 11 and Note 26 to the consolidated financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF
AGILITY PUBLIC WAREHOUSING COMPANY K.S.C.P. (continued)**

Report on the Audit of Consolidated Financial Statements (continued)

Key Audit Matters (continued)

b) Accounting for the Purchase price allocation (PPA) exercise relating to investment in an associate

Pursuant to the distribution of in-kind dividends and the partial settlement of a loan owed by the Parent Company to Agility Global PLC through the transfer of Parent Company's 5.9% equity ownership in Agility Global PLC during the year, the effective ownership of the Parent Company in Agility Global PLC reduced from 51% to 26.58%. Accordingly, since the Group exercises significant influence over Agility Global PLC, the investment in Agility Global PLC is classified as an investment in an associate.

The Group has recognised the above investment in associate based on the market value on the date of distribution of in-kind dividends amounting to KD 288,321 thousand. The Group performed a purchase price allocation (PPA) exercise using the assistance of internal and external experts, based on which gain on fair value adjustments on investments in an associate amounting to KD 183,767 thousand has been recorded in the consolidated statement of income for the year ended 31 December 2025.

We have determined this to be a key audit matter based on the quantitative materiality of the transaction and considering that significant management's judgments and estimates was involved in the determination of the fair values of the identifiable assets and liabilities as part of the PPA exercise.

We have assessed the design and implementation of controls over the process of accounting for the loss of control and subsequent measurement of the investment in associate. We have evaluated whether the external and internal experts that management involved to assist them with the purchase price allocation exercise have the necessary competency, capabilities and objectivity for audit purposes. We also have involved our internal specialists where necessary, to assess the estimates made, judgments applied, and valuation techniques used in the PPA exercise including appropriateness of the intangible assets recognized in its investment in Agility Global PLC.

We have also assessed the adequacy of the Group's disclosures regarding those assumptions, which are disclosed in Note 10 to the consolidated financial statements, against the requirements of IFRS Accounting Standards.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF AGILITY PUBLIC WAREHOUSING COMPANY K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Other information included in the Group's 2025 Annual Report

Management is responsible for the other information. Other information consists of the information included in the Group's 2025 Annual Report, other than the consolidated financial statements and our auditor's report thereon. We obtained the report of the Parent Company's Board of Directors, prior to the date of our auditor's report, and we expect to obtain the remaining sections of the Annual Report after the date of our auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact.

As described in the *Basis for Qualified Opinion* section above, we were unable to obtain sufficient appropriate audit evidence about the carrying values of investment properties as at 31 December 2025 and the adjustments arising from the favorable court order with respect to the GAC litigation. Accordingly, we are unable to conclude whether or not the other information is materially misstated with respect to this matter. We have nothing further to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as issued by the IASB, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF AGILITY PUBLIC WAREHOUSING COMPANY K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF AGILITY PUBLIC WAREHOUSING COMPANY K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- ▶ Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion, proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that, except for the possible effect of the matters described in the *Basis for Qualification* section above, we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No.1 of 2016, as amended, and its executive regulations, as amended, and by the Parent Company's Memorandum of Incorporation and Articles of Association, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No.1 of 2016, as amended and its executive regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association have occurred during the year ended 31 December 2025 that might have had a material effect on the business of the Parent Company or on its financial position.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF
AGILITY PUBLIC WAREHOUSING COMPANY K.S.C.P. (continued)**

Report on Other Legal and Regulatory Requirements (continued)

We further report that, during the course of our audit, we have not become aware of any violations of the provisions of Law No. 7 of 2010 concerning establishment of Capital Markets Authority "CMA" and organization of security activity and its executive regulations, as amended, during the year ended 31 December 2025 that might have had a material effect on the business of the Parent Company or on its financial position, except for the valuation of investment properties as disclosed in Note 7.

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

1 CORPORATE INFORMATION

Agility Public Warehousing Company K.S.C.P. (the “Parent Company”) is a public shareholding company incorporated in 1979 and listed on Bursa Kuwait and Dubai Stock Exchange. The Parent Company’s Head office is located at Sulaibia, beside Land Customs Clearing Area, P.O. Box 25418, Safat 13115, Kuwait. The Group operates under the brand name of “Makhazen”.

The main objectives of the Parent Company are as follows:

- ▶ Construction, management and renting of all types of warehouses.
- ▶ Warehousing goods under customs' supervision inside and outside customs areas.
- ▶ Investing the surplus funds in investment portfolios.
- ▶ Participating in, acquiring or taking over companies of similar activities or those that would facilitate in achieving the Parent Company's objectives inside or outside Kuwait.
- ▶ All types of transportation, distribution, handling and customs clearance for goods.
- ▶ Customs consulting, customs automation, modernisation and decision support.

The principal subsidiaries and their activities are explained in Note 3.

The consolidated financial statements of the Parent Company and its subsidiaries (collectively the “Group”) for the year ended 31 December 2025 were authorised for issue in accordance with a resolution of the Board of Directors on 18 March 2026 and are issued subject to the approval of the Annual General Assembly of the shareholders of the Parent Company. The Annual General Assembly of the shareholders has the power to amend these consolidated financial statements after issuance.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (“IASB”).

The consolidated financial statements are prepared on a historical cost basis, except for investment properties, financial assets carried at fair value through profit or loss, financial assets at fair value through other comprehensive income, loan to a related party, loan to an associate and derivative financial instrument that are measured at fair value.

The consolidated financial statements are presented in Kuwaiti Dinars which is the Parent Company’s functional currency, and all values are rounded to the nearest thousand (KD ‘000) except when otherwise indicated.

Certain prior year amounts have been reclassified to conform to the current year presentation. There is no effect of these reclassifications on the previously reported equity attributable to the shareholders of the Parent Company and profit for the year then ended.

2.2 BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries (investees which are controlled by the Group) including special purpose entities as at 31 December 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- ▶ Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- ▶ Exposure, or rights, to variable returns from its involvement with the investee, and
- ▶ The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- ▶ The contractual arrangement with the other vote holders of the investee,
- ▶ Rights arising from other contractual arrangements, and
- ▶ The Group’s voting rights and potential voting rights.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.2 BASIS OF CONSOLIDATION (continued)

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the Parent Company of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises, the related assets (including goodwill), liabilities, non-controlling interest and other component of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

The results of the subsidiaries acquired or disposed during the year are included in the consolidated statement of income from the date of acquisition or up to the date of disposal, as appropriate.

2.3 CHANGE IN ACCOUNTING POLICIES AND DISCLOSURES

New and amended standards and interpretations

The Group applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2025 (unless otherwise stated). The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective. The significant amendments are as follows:

Lack of exchangeability – Amendments to IAS 21

For annual reporting periods beginning on or after 1 January 2025, *Lack of Exchangeability – Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates* specifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments did not have a material impact on the Group's consolidated financial statements.

2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

IFRS 18 Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued IFRS 18, which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the consolidated statement of income, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the consolidated statement of income into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new.

The standard requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and it also includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements (PFS) and the notes.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

IFRS 18 Presentation and Disclosure in Financial Statements (continued)

In addition, narrow-scope amendments have been made to *IAS 7 Statement of Cash Flows*, which include changing the starting point for determining cash flows from operations under the indirect method, from ‘profit or loss’ to ‘operating profit or loss’ and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

IFRS 18, and the amendments to the other standards, are effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. IFRS 18 will apply retrospectively.

The Group is currently working to identify all impacts the amendments will have on the primary consolidated financial statements and notes to the consolidated financial statements. The initial expected material impacts on Group’s consolidated financial statements are, as follows:

- ▶ Unrealized gain on financial assets at fair value through profit or loss, dividend income, and share of profit or an associate and a joint venture will be classified in the investing category within the consolidated statement of income.
- ▶ Foreign exchange difference will be classified in the category where the related income and expense form the item giving rise to the foreign exchange difference.
- ▶ New disclosure will be added: (a) management-defined performance measures; (b) a reconciliation between management defined performance measures and appropriate sub-total in the consolidated statement of income.

IFRS 19 Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued IFRS 19, which allows eligible entities to elect to apply its reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS accounting standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in IFRS 10, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements, available for public use, which comply with IFRS accounting standards.

IFRS 19 will become effective for reporting periods beginning on or after 1 January 2027, with early application permitted.

As the Group’s equity instruments are publicly traded, it is not eligible to elect to apply IFRS 19.

Amendments to the Classification and Measurement of Financial Instruments—Amendments to IFRS 9 and IFRS 7

In May 2024, the IASB issued *Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments* (the Amendments). The Amendments include:

- ▶ A clarification that a financial liability is derecognised on the ‘settlement date’ and the introduction of an accounting policy choice (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date
- ▶ Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed
- ▶ Clarifications on what constitute ‘non-recourse features’ and what are the characteristics of contractually linked instruments
- ▶ The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI)

The Amendments are effective for annual periods starting on or after 1 January 2026 with early adoption permitted for classification of financial assets and related disclosures only. The Group does not anticipate that the amendments will have a material effect on the Group’s consolidated financial statements.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

Annual Improvements to IFRS Accounting Standards - Volume 11

In July 2024, the IASB issued nine narrow scope amendments as part of its periodic maintenance of IFRS accounting standards. The amendments include clarifications, simplifications, corrections or changes to improve consistency in *IFRS 1 First-time Adoption of International Financial Reporting Standards*, *IFRS 7 Financial Instruments: Disclosure and its accompanying Guidance on implementing IFRS 7*, *IFRS 9 Financial Instruments*, *IFRS 10 Consolidated Financial Statements* and *IAS 7 Statements of Cash Flows*.

The amendments will be effective for reporting periods beginning on or after 1 January 2026. Earlier application is permitted and must be disclosed.

The amendments are not expected to have a material impact on the Group's consolidated financial statements.

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value, and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in general and administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9: Financial Instruments ("IFRS 9"), is measured at fair value with the changes in fair value recognised in the consolidated statement of income in accordance with IFRS 9. Other contingent consideration that is not within the scope of IFRS 9 is measured at fair value at each reporting date with changes in fair value recognised in consolidated statement of income.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in consolidated statement of income.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed in this circumstance is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Current versus non-current classification

The Group presents assets and liabilities in consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

- ▶ Expected to be realised or intended to sold or consumed in normal operating cycle; or
- ▶ Held primarily for the purpose of trading; or
- ▶ Expected to be realised within twelve months after the reporting period, or
- ▶ Bank balances, cash and deposits unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- ▶ It is expected to be settled in normal operating cycle; or
- ▶ It is held primarily for the purpose of trading; or
- ▶ It is due to be settled within twelve months after the reporting period, or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. The initial cost of property, plant and equipment comprises their cost and any directly attributable costs of bringing an item of property, plant and equipment to its working condition and location. Expenditure incurred after the property, plant and equipment has been put into operation, such as repairs and maintenance and overhaul costs, is normally charged to the consolidated statement of income in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment beyond its originally assessed standard of performance, the expenditure is capitalised as an additional cost of property, plant and equipment. Land is not depreciated.

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives as follows:

Buildings and improvements	5 to 30 years
Tools, machinery and equipment	2 to 10 years
Vehicles and ships	2 to 25 years
Furniture and office equipment	2 to 8 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair values less costs to sell and their value in use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of income in the period the asset is derecognised. The assets residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively if appropriate.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Leases (continued)

Group as a lessee (continued)

i. Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and the lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Land, buildings and improvements	2 to 44 years
Tools, machinery and equipment	2 to 8 years
Vehicles and ships	2 to 25 years
Furniture and office equipment	2 to 7 years

If the ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment in accordance with the Group's impairment of non-financial assets policy.

ii. Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentive receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental interest rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

iii. Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

A property interest that is held by the Group under an operating lease may be classified and accounted for as an investment property when the property otherwise meets the definition of an investment property, evaluated property by property, and based on management's intention. The initial cost of a property interest held under a lease and classified as an investment property is determined at the lower of the fair value of the property and the present value of the minimum lease payments. An equivalent amount is recognised as a liability.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Leases (continued)

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental revenues arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the consolidated statement of income due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental revenues. Contingent rents are recognised as revenue in the period in which they are earned.

Projects in progress

Projects in progress are carried at cost less impairment, if any. Costs are those expenses incurred by the Group that are directly attributable to the construction of assets. Once completed, the assets are transferred to either investment properties or to property, plant and equipment, depending on the management's intended use of the asset.

Investment properties

Investment properties comprise completed properties held to earn rentals or for capital appreciation or both. Property held under a lease is classified as investment property when the definition of an investment property is met. Investment properties are initially recorded at cost being the fair value of the consideration given and including acquisition charges associated with the investment property.

After initial recognition, the properties are re-measured to fair value annually on an individual basis with any gain or loss arising from a change in fair value being included in the consolidated statement of income in the period in which it arises.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the consolidated statement of income in the period of retirement or disposal. The amount of consideration to be included in the gain or loss arising from the derecognition of the investment property is determined in accordance with the requirements for the determining the transaction price in IFRS 15.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

The Group has classified certain assets held under long term operating leases as investment properties.

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets, excluding capitalised software development costs, are not capitalised and expenditure is reflected in the consolidated statement of income in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the consolidated statement of income.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Intangible assets (continued)

Intangible assets with indefinite useful lives are not amortised but are tested for impairment annually or more frequently if events or change in circumstances indicate the carrying value may be impaired, either individually or at the cash generating unit level. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of income when the asset is derecognised.

Build-own-transfer (“BOT”) projects, licenses and concessions

BOT projects and concessions are amortised over the duration of the individual contracts in the range of 4 to 20 years.

Customer lists and contracts

Customer lists are amortised over a period of 10 to 15 years, which is determined to be the expected period of benefit from holding these lists.

Brand

The brand is amortised over a period of 10 to 15 years, which is determined to be the expected period of benefit from holding it.

Goodwill

Accounting policy relating to goodwill is documented in the accounting policy “Business combinations and goodwill”.

Investment in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries. The Group’s investments in its associate and joint venture are either accounted for using the equity method or is measured at fair value.

a. Equity method

Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group’s share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The consolidated statement of income reflects the Group’s share of the results of operations of the associate or joint venture. Any change in other comprehensive income of those investees is presented as part of the Group’s other comprehensive income. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

The aggregate of the Group’s share of profit or loss of an associate and a joint venture is shown on the face of the consolidated statement of income and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate or joint venture.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Investment in associates and joint ventures (continued)

a. Equity method (continued)

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group. After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, then recognises the loss in the consolidated statement of income.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in consolidated income statement.

b. Measured at fair value

The Group's investment in an associate held through a Venture Capital Organisation, is measured at fair value. This treatment is permitted by IAS 28 'Investment in Associates and Joint Ventures', which allows investments held by Venture Capital Organisations to be accounted for at fair value through profit or loss in accordance with IFRS 9 'Financial Instruments', with changes in fair value recognised in the consolidated statement of income in the period of the change.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Date of recognition

Financial assets and liabilities are initially recognised on the trade date, i.e., the date that the Group becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from, this amount. Trade receivables are measured at the transaction price.

Measurement categories of financial assets and liabilities

The Group classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- ▶ Amortised cost
- ▶ Fair value through other comprehensive income (FVOCI)
- ▶ Fair value through profit or loss (FVTPL)

Financial liabilities, other than commitments and guarantees, are measured at amortised cost or at FVTPL when they are held for trading and derivative instruments when the fair value designation is applied.

i) Financial assets

The Group determines the classification of financial assets based on the business model it uses to manage the financial assets and the contractual cash flow characteristics of the financial assets.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Financial instruments (continued)

i) Financial assets (continued)

Business model assessment

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'Sell' business model and measured at FVTPL. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- ▶ How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- ▶ The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed;
- ▶ How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- ▶ The expected frequency, value and timing of sales are also important aspects of the Group's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI test)

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' cash flows represent Solely Payments of Principal and Interest (the 'SPPI test').

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition that may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

The Group reclassifies when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the year.

The Group classifies its financial assets upon initial recognition into the following categories:

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Financial instruments (continued)

i) Financial assets (continued)

Debt instruments at amortised cost

A financial asset which is a debt instrument, is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- ▶ The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- ▶ The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Bank balances and short-term deposits and trade receivables, claims receivable, amount due from related parties and certain other assets are classified as debt instruments at amortised cost.

Debt instruments at amortised cost are subsequently measured at amortised cost using the effective interest method adjusted for impairment losses, if any. Interest income, foreign exchange gains and losses and impairment are recognised in the consolidated statement of income. Any gain or loss on derecognition is recognised in the consolidated statement of income.

Debt instruments at FVTPL

Debt instruments at FVTPL includes debt instruments whose cash flow characteristics fail the SPPI criterion or are not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell.

Loan to related parties and loan to an associate is classified as debt instrument at FVTPL.

FVTPL debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value along with interest income and foreign exchange gains and losses recognised in consolidated statement of income.

Equity instruments at FVOCI

Upon initial recognition, the Group may elect to classify irrevocably some of its equity investments as equity instruments at FVOCI when they meet the definition of Equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Equity investments at FVOCI are subsequently measured at fair value. Changes in fair values including foreign exchange component are recognised in other comprehensive income and presented in the cumulative changes in fair values as part of equity. Cumulative gains and losses previously recognised in other comprehensive income are transferred to retained earnings on derecognition and are not recognised in the consolidated statement of income. Dividends are recognised in statement of income when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity investments at FVOCI are not subject to impairment assessment.

Equity instruments at FVTPL

The Group classifies equity instruments at fair value through profit and loss when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets are recorded and measured in the statement of financial position at fair value. In addition, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Changes in fair values and dividends are recorded in consolidated statement of income when the right to payment has been established.

Included in this classification are certain equity securities and funds.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Financial instruments (continued)

i) Financial assets (continued)

The Group has determined the classification and measurement of its financial assets as follows:

a. Financial assets at fair value through profit or loss

The Group's financial assets at fair value through profit or loss consists of certain investment in funds, convertible loans, quoted and unquoted equity securities, investments in funds and investment in an associate held through venture capital organisation.

Investment in an associate held directly or indirectly through venture capital organisation are not accounted for using equity method, as the Group has elected to measure these investments at fair value through statement of income in accordance with IFRS 9, using the exemption of IAS 28: Investments in associates and joint ventures. This is carried in the consolidated statement of financial position at fair value with net changes in fair value recorded as unrealized gain (loss) in the consolidated statement of income.

b. Loan to an associate and related party

Loan to an associate and related party are non-derivative financial assets with fixed or determinable payments which is not quoted in an active market. After initial measurement, such financial assets are subsequently measured at FVTPL.

c. Trade receivables

Trade receivables are measured at transaction price, as disclosed in the Group's accounting policy regarding revenue from contracts with customers, less expected credit losses and are stated at amortised cost.

Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

d. Bank balances, cash and deposits

Bank balances, cash and deposits in the consolidated statement of financial position comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less. These are stated at amortised cost using effective interest rate.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above.

e. Other current assets

Other current assets are carried at their carrying value, less impairment, if any.

Reclassification of financial assets

The Group does not reclassify its financial assets subsequent to their initial recognition except under circumstances in which the Group changes the business model for managing financial assets.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Financial instruments (continued)

i) Financial assets (continued)

Derivative financial instruments and hedge accounting

The Group uses derivative financial instruments such as forward currency contracts, interest rate swaps, equity collars and forward rate agreements to hedge its foreign currency risks, equity price risk and interest rate risks respectively. Derivatives are recorded at fair value. Derivatives with positive fair values (unrealised gains) are included in other assets and derivatives with negative fair values (unrealised losses) are included in other liabilities in the consolidated statement of financial position. For hedges, which do not qualify for hedge accounting and for held for trading derivatives, any gains or losses arising from changes in the fair value of the derivative are taken directly to the consolidated statement of income.

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract. A derivative that is attached to a financial instrument, but is contractually transferable independently of that instrument, or has a different counterparty from that instrument, is not an embedded derivative, but a separate financial instrument. A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in consolidated statement of income. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

At inception of the hedge relationship, the Group formally documents the relationship between the hedged item and the hedging instrument, including the nature of the risk, the objective and strategy for undertaking the hedge and the method that will be used to assess the effectiveness of the hedging relationship. Also, at the inception of the hedge relationship, a formal assessment is undertaken to ensure the hedging instrument is expected to be highly effective in offsetting the designated risk in the hedged item. Hedges are formally assessed each quarter. A hedge is regarded as highly effective if the changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated are expected to be offset in a range of 80% to 125%. For situations where that hedged item is a forecast transaction, the Group assesses whether the transaction is highly probable and presents an exposure to variations in cash flows that could ultimately affect the consolidated statement of income.

For the purpose of hedge accounting, hedges are classified as:

- ▶ fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment (except for foreign currency risk); or
- ▶ cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment; or
- ▶ hedges of a net investment in a foreign operation.

Hedges that meet all the qualifying criteria for hedge accounting are accounted for, as described below:

a) Fair value hedges

The change in the fair value of a hedging derivative is recognised in the consolidated statement of income. The change in the fair value of the hedged item attributable to the risk hedged is recorded as a part of the carrying value of the hedged item and is also recognised in the consolidated statement of income.

For fair value hedges relating to items carried at amortised cost, the adjustment to carrying value is amortised through the consolidated statement of income over the remaining term to maturity. Amortisation may begin as soon as an adjustment exists and shall end no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Financial instruments (continued)

i) Financial assets (continued)

Derivative financial instruments and hedge accounting (continued)

a) Fair value hedges (continued)

For a hedging instrument that hedges an equity instrument for which the Group has elected to present changes in fair value in other comprehensive income, the change in fair value of the hedging instrument are recognized in other comprehensive income.

If the hedged item is derecognised, the unamortised fair value is recognised immediately in the consolidated statement of income.

When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in the consolidated statement of income.

b) Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income, while any ineffective portion is recognised immediately in the consolidated statement of income. Amounts taken to other comprehensive income are transferred to consolidated statement of income when the hedged transaction affects the consolidated statement of income, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs. Where the hedged item is the cost of a non-financial asset or non-financial liability, the amounts taken to other comprehensive income are transferred to the initial carrying amount of the non-financial asset or liability. If the forecast transaction or firm commitment is no longer expected to occur, amounts previously recognised in other comprehensive income are transferred to the consolidated statement of income. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, or if its designation as a hedge is revoked, amounts previously recognised in other comprehensive income remain in other comprehensive income until the forecast transaction or firm commitment occurs.

c) Hedges of a net investment

Hedges of a net investment in a foreign operation, including a hedge of a monetary item that is accounted for as part of the net investment, are accounted for in a way similar to cash flow hedges. Gains or losses on the hedging instrument relating to the effective portion of the hedge are recognised in other comprehensive income while any gains or losses relating to the ineffective portion are recognised in the consolidated statement of income. On disposal of the foreign operation, the cumulative value of any such gains or losses recognised in other comprehensive income is transferred to consolidated statement of income.

The Group uses interest bearing loans to hedge its exposure to foreign exchange risk on its investments in overseas subsidiaries.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- ▶ The rights to receive cash flows from the asset have expired; or
- ▶ The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Financial instruments (continued)

i) Financial assets (continued)

Derecognition of financial assets (continued)

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

ii) Financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, interest bearing loans, lease liabilities, derivative financial instruments and loan from related parties.

The Group has determined the classification and measurement of its financial liabilities as follows:

a. Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the consolidated statement of income.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied.

b. Interest bearing loans

After initial recognition, interest bearing loans are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the consolidated statement of income.

Installments due within one year are shown as current liabilities. Interest is charged as an expense as it accrues in the consolidated statement of income, with unpaid amounts included in accrued expenses under 'trade and other payables'.

c. Trade and other payables

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Financial instruments (continued)

ii) Financial liabilities (continued)

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of income

iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (ECL) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Debt instruments and financial assets at FVTPL are not subject to ECL.

The Group considers a financial asset in default when contractual payments are 180 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Fair values

The Group measures certain financial instruments (including derivatives) and non-financial assets such as investment properties, at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability; or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Fair values (continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management determines the policies and procedures for both recurring fair value measurement, such as investment properties and unquoted financial assets, and for non-recurring measurement, such as assets held for distribution in discontinued operation.

External valuers are involved for the valuation of Group's investment properties. Involvement of external valuers is decided upon annually by the management. Selection criteria include regulatory requirements, market knowledge, reputation, independence and whether professional standards are maintained. The management decides, after discussions with the Group's external valuers, which valuation techniques and inputs to use for each case.

For unquoted financial instruments fair value is determined by reference to the market value of a similar investment, discounted cash flows, other appropriate valuation models or brokers' quotes.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management, in conjunction with the Group's external valuers, also compares changes in the fair value of each asset and liability with relevant external sources where applicable, to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs are those expenses incurred in bringing each product to its present location and condition and are determined on the weighted average basis. Net realisable value is based on estimated selling price in the ordinary course of the business, less any further costs expected to be incurred on completion and disposal.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than, investment property and inventories are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Each unit or group of units to which the goodwill is so allocated:

- ▶ represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- ▶ is not larger than a segment based on the Group's segment information reporting format determined in accordance with *IFRS 8: Operating Segment*.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in the consolidated statement of income. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro-rata basis.

Treasury shares

Treasury shares consist of the Parent Company's own issued shares that have been, subsequently reacquired by the Group and not yet reissued or cancelled. The treasury shares are accounted for using the cost method. Under this method, the cost of the shares acquired is charged to treasury shares account in equity. When the treasury shares are reissued, gains are credited to a separate account in equity, the treasury shares reserve, which is not distributable. Any realised losses are charged to the same account to the extent of the credit balance on that account. Any excess losses are charged to retained earnings then to the statutory reserve. Gains realised subsequently on the sale of treasury shares are first used to offset any provisional recorded losses in order of reserves, retained earnings and treasury share reserve account. No cash dividends are paid on these shares. The issue of bonus shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

Foreign currency translation

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange prevailing at reporting date. All differences are taken to the consolidated statement of income with the exception of differences on foreign currency borrowings accounted for as a hedge of a net investment in foreign operations.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Foreign currency translation (continued)

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. In case of non-monetary assets whose change in fair values are recognized directly in other comprehensive income, foreign exchange differences are recognized directly in other comprehensive income and for non-monetary assets whose change in fair value are recognized directly in the consolidated income statement, foreign exchange differences are recognized in the consolidated statement of income.

Assets (including goodwill) and liabilities, both monetary and non-monetary, of foreign operations are translated at the Parent Company's presentation currency KD at the exchange rates prevailing at the reporting date. Operating results of such operations are translated at average rates of exchange for the foreign operation's period of operations. The resulting foreign currencies translation differences are accumulated in a separate section of equity (foreign currency translation reserve) until the disposal of the foreign operation. On disposal of a foreign operation, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in the consolidated statement of income.

Provisions

A provision is recognised when, and only when the Group has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of a provision is the present value of the expenditures expected to be incurred to settle the obligation.

Employees' end of service benefits

Local

Expatriate and Kuwaiti employees are entitled to an end of service indemnity payable under the Kuwait Labor Laws based on the employees' accumulated periods of service and latest entitlements of salaries and allowances. Provision for this unfunded commitment which represents a defined benefit plan under International Accounting Standard IAS 19 – Employee Benefits, is made by calculating the notional liability had all employees left at the reporting date.

In addition to above, pensions and other social benefits for Kuwaiti employees are covered by the Public Institution for Social Security Scheme, to which employees and employers contribute monthly on a fixed-percentage-of-salaries basis. The Group's share of contributions to this scheme, which is a defined contribution scheme under International Accounting Standard (IAS) 19 – Employee Benefits are charged to the consolidated statement of income in the year to which they relate.

International

The Group had a number of defined benefit pension plans that cover a substantial number of employees other than Kuwaiti and expatriates in Kuwait. Retirement benefits are provided based on compensation as defined by local labour laws or employee contracts. The Group's policy is to fund some of these plans in accordance with local practice and contributions are made in accordance with the terms of the plan.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling excluding net interest and the return on plan assets (excluding net interest), are recognised immediately in the consolidated statement of financial position with a corresponding debit or credit to 'other reserve' through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to consolidated statement of income in subsequent periods.

Past service costs are recognised in consolidated statement of income on the earlier of:

- ▶ The date of the plan amendment or curtailment, and
- ▶ The date that the Group recognises restructuring-related costs

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Employees' end of service benefits (continued)

International (continued)

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation under 'salaries and employee benefits' in consolidated statement of income:

- ▶ Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements
- ▶ Net interest expense or income

Revenue from contracts with customers

The Group is primarily engaged in providing the following services:

Logistics revenue

Logistics revenue primarily comprises inventory management, order fulfilment, transportation and warehousing services.

Logistics revenues are recognised at the point in time when the services are rendered to the customer except for warehousing services that are recognised over time, using an input method to measure progress towards complete satisfaction of the service.

Ground handling and airport services

Revenue from ground handling and airport services which includes revenue from ramp, passengers, into-plane fuelling, and other aviation related services is recognized at the point in time when the services are rendered to the customer as per the terms of the related contract.

Rental services

Rental income arising on investment properties is recognised over time, using an input method to measure progress towards complete satisfaction of the service.

Interest income

Interest income is recognised as interest accrues using the effective interest method ("EIR") that is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

Dividend income

Dividend income is recognised when the right to receive payment is established.

The significant accounting judgements related to the revenue from contracts with customers is detailed in Note 2.6.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Taxation

National Labour Support Tax (NLST)

The Parent Company calculates NLST in accordance with Law No. 19 of 2000 and the Minister of Finance Resolutions No. 24 of 2006 at the rate of 2.5% of taxable profit for the year. As per the law, income from associates, subsidiaries and cash dividends from companies listed in Boursa Kuwait which are subjected to NLST have been deducted from the profit for the year.

Contribution to Kuwait Foundation for the Advancement of Sciences (KFAS)

The Parent Company calculates the contribution to KFAS in accordance with the modified calculation based on the Foundation's Board of Directors resolution, which states that transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

Zakat

Contribution to Zakat is calculated at 1% of the taxable profit for the year in accordance with the Ministry of Finance resolution No. 58/2007. As per law, income from associates and subsidiaries, cash dividends received from companies listed in Boursa Kuwait which are subjected to Zakat have been deducted from the profit for the year.

Taxation on overseas subsidiaries

Certain of the Parent Company's subsidiaries are subject to taxes on income in various foreign jurisdictions. Taxes payable are provided on taxable profits at the current rate in accordance with the fiscal regulations in the country where the subsidiary is located.

2.6 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognised in the consolidated financial statements:

Revenue from contracts with customers

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

a. Identifying performance obligations in a bundled contract

The Group provides certain freight forwarding and project forwarding services to its customers as part of a single arrangement and these arrangements may include various performance obligations that represents performing a contractually agreed-upon task(s) for a customer. The Group determined that each of these performance obligations are capable of being distinct as these services are separately identifiable from other obligations in the contract and the customer can benefit from each service on its own.

Furthermore, the Group also determined that the promises of such services are distinct within the context of each contract, the transaction price is determined separately based on each obligation and these services are not highly interdependent or highly interrelated.

The transaction price is allocated to each performance obligation based on the stand-alone selling prices. Where these are not directly observable, the Group estimates separate transaction price for each performance obligation based on expected cost plus margin.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.6 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Judgements (continued)

Revenue from contracts with customers (continued)

b. Determine transaction price

The transaction price is the amount of consideration that is enforceable and to which the Group expects to be entitled in exchange for services promised to the customer. The Group determines the transaction price by considering the terms of the contract and business practices that are customary.

c. Determining the timing of satisfaction of services

i. Logistics revenue

The Group concluded that revenue from logistics services (excluding warehousing services) to its customers is to be recognised at the point in time when the services are rendered to the customer.

ii. Rental and warehousing services

The Group concluded that revenue from warehousing services and rental services to its customers is to be recognised over time because the customer simultaneously receives and consumes the benefits provided by the Group. The fact that another entity would not need to re-perform such services that the Group has provided to date demonstrates that the customer simultaneously receives and consumes the benefits of the Group's performance as it performs. The Group has a right to payment for the performance completed to date as, under each contractual agreement with a customer, the Group is entitled to an amount that at least compensates the Group for its performance completed to date in the event that the customer terminates the contract for reasons other than the Group's failure to perform as promised. Furthermore, the Group's performance does not create an asset with an alternative use to the entity.

The Group has determined to utilize the input method for measuring progress of such services because there is a direct relationship between the Group's effort and the transfer of service to the customer. In respect to warehousing services and rental services, the Group recognises revenue on a straight-line basis as the Group's efforts being evenly expended throughout the performance period.

iii. Ground handling and airport services

The Group concluded that revenue from Ground handling and airport services to its customers is to be recognised at the point in time when the services are rendered to the customer.

d. Principal versus agent considerations

During the performance of freight forwarding and project forwarding services to its customer, the Group involves certain third parties in providing certain services. The Group has concluded that it is a principal in such arrangements as the Group retains the right to a service to be performed by the other party, which gives the Group the ability to direct that party to provide the service to the customer on the Group's behalf and the Group is primarily held responsible for fulfilling each obligation to the customer.

e. Consideration of significant financing component in a contract

The Group does not expect to have any contracts where the period between the transfer of promised services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

Classification of financial assets

The Group determines the classification of financial assets based on the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.

Determining the lease term of contracts with renewal and termination options – Group as lessee

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.6 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Judgements (continued)

Determining the lease term of contracts with renewal and termination options – Group as lessee (continued)

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination option. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

Operating lease commitments – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all of the fair value of the commercial property, that it retains substantially all the risks and rewards incidental to ownership of these properties and accounts for the contracts as operating leases.

Fair values of assets and liabilities acquired

The determination of the fair value of the assets, liabilities and contingent liabilities as a result of business combination requires significant judgement.

Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, together with future tax planning strategies.

Contingencies

Contingent assets and liabilities are not recognised in the consolidated financial statements, but are disclosed unless the possibility of inflow or outflow respectively of resources embodying economic benefits is remote, which requires significant judgement.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Impairment of property, plant and equipment, right of use assets and intangible assets (including goodwill)

The Group determines whether property, plant and equipment, right of use assets and intangible assets are impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the respective asset is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

Valuation of investment properties

The Group carries its investment properties at fair value, with change in fair values being recognised in the consolidated statement of income. Fair value is determined based on comparative analysis based on the assessment made by an independent real estate appraiser using values of actual deals transacted recently by other parties for properties in a similar location and condition, discounted cash flow and based on the knowledge and experience of the real estate appraiser.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.6 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Estimates and assumptions (continued)

Fair value measurements of financial instruments

When the fair values of financial assets and financial liabilities recorded in the consolidated statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (“DCF”) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 30 for further disclosures.

Provision for expected credit losses of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group’s historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group’s historical credit loss experience and forecast of economic conditions may also not be representative of customer’s actual default in the future. The policy about the ECLs on the Group’s trade receivables is disclosed in Note 2.5.

Valuation of inventories

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision is applied according to the inventory type and the degree of ageing or obsolescence, based on anticipated selling prices.

Leases - Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (“IBR”) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group ‘would have to pay’, which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary’s stand-alone credit rating).

Pension and other post employment benefits

The cost of the defined benefit pension plan and other post-employment medical benefits and the present value of the pension obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.6 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Estimates and assumptions (continued)

Pension and other post-employment benefits (continued)

In determining the appropriate discount rate, management considers the interest rates of corporate bonds in currencies consistent with the currencies of the post-employment benefit obligation with at least an 'AA' rating or above, as set by an internationally acknowledged rating agency, and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are excluded from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality corporate bonds.

The mortality rate is based on publicly available mortality tables for the specific countries. Future salary increases and pension increases are based on expected future inflation rates for the respective countries.

Further details about defined benefit obligations are given in Note 18.

Impairment of inventories

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on anticipated selling prices.

Impairment of financial assets at amortised cost

The Group assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instruments carried at amortised cost. For trade receivables and contract assets, the Group applies a simplified approach in calculating ECL. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECL at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Actual results may differ from these estimates.

Impairment of claims receivable

These receivables are held at amortised cost and the Group determines whether it is necessary to recognise any impairment loss on these receivables, at each reporting date based on existence of any objective evidence that the receivables are impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the receivables and its carrying value and recognises the amount in the consolidated statement of comprehensive income.

7 INVESTMENT PROPERTIES (continued)

The Group classified certain properties amounting to KD 333,696 thousand (2024: KD 320,142 thousand) held under operating leases as investment properties. These investment properties are located in Kuwait.

The fair values of investment properties as at 31 December 2025 and 31 December 2024 were determined by independent valuers who have appropriate qualifications and recent experience in the valuation of properties in the relevant locations. The fair values were determined based on a combination of market and income approaches as appropriate. In estimating the fair values of the properties, the highest and the best use of the properties is their current use. There has been no change to the valuation techniques during the year. The fair value of investment properties is measured under the Level 3 fair value hierarchy.

The significant assumption used in the determination of fair value was the market price (per sqm), exit rate and the discount rate.

Under market approach, fair value is estimated based on comparable transactions. The market approach is based upon the principle of substitution under which a potential buyer will not pay more for the property than it will cost to buy a comparable substitute property. The unit of comparison applied by the Group is the price per square metre ('sqm').

Under the income approach, fair value is estimated by discounting the projected cash flows for the following five years and capitalizing the cash flow for the fifth year using an exit rate.

Significant increases (decreases) in estimated rental value and rent growth per annum in isolation would result in a significantly higher (lower) fair value of the properties. Significant increases (decreases) in the exit rate and discount rate in isolation would result in a significantly lower (higher) fair value.

Legal claims

Renewal of land leases with Public Authority for Industry, Kuwait (PAI)

Investment properties include certain properties with a carrying value of KD 192,637 thousand that are leased from PAI as described below:

1. 805,712 m2 of land in Sulaibiya area with a carrying value of KD 78,470 thousand leased based on Municipal Council No. (MC /61/6/80) -issued in 1980 – under contract No. 60.
2. 150,000 m2 of land in Sulaibiya area with a carrying value of KD 11,843 thousand leased based on Municipal Council No. (MC / F 21/287/10/99)-issued in 1999 – under contract No. 211.
3. 1,625,000 m2 of land in Mina Abdullah area (plots 3,4 and 5) with a carrying value of KD 66,688 thousand leased based on Municipal Council No. (MC/11/10/78) -issued in 1981 – under contract No. 208.
4. 200,000 m2 of land in Amghara Industrial area with a carrying value of KD 6,896 thousand leased based on Municipal Council No. (L.B./83/10/86) -issued in 1986 – under contract No. 19/2002.
5. 941,420 m2 of land in Doha with a carrying value of KD 28,740 thousand leased in accordance with letter issued by the Council of Ministers No. (11/930-1949) – Issued in 1978 – under contract No. 8/2003.

The above lands were leased for developing warehousing facilities (both dry and temperature controlled), craft areas, open yards for parking trucks etc.

Legal claims (continued)

Renewal of land leases with Public Authority for Industry, Kuwait (PAI) (continued)

On 21 November 2022, the Council of Ministers, Kuwait issued a resolution no (1259/12) during its meeting No. (48-3/2022) which decided the following:

- a. No automatic renewal or extension of leases for warehousing and related support services after the expiration of their term. The lands will be leased through public bidding process for qualified companies in conformity with the principles of justice, equality and improvement of governance.
- b. No leasing of any land for storage purposes except after referring and coordinating with the government performance follow-up agency.

Subsequently PAI made a public announcement through news media that was also published in the Official Gazette “Kuwait Al-Youm” under No. 1618 on 15 January 2023 on the termination of the contracts referred to above. The Parent Company issued a warning dated 15 January 2023 to the PAI’s Board of directors, members and to its Director General to respond and deny the content of these announcements. The Parent Company sent another warning to PAI on 25 January 2023 in response to the latter’s warning dated 18 January 2023. The Parent Company filed the following cases in the court of first instance against PAI asserting its position that the leases have been renewed and requested the court to prevent PAI and its affiliates from obstructing the Parent Company’s possession and use of the lands mentioned above.

The Parent Company filed the cases based on the terms of the aforementioned contracts, minutes of meetings, exchanged correspondences and provision of the law applied resolutions in this regard.

1. Case No. 14/2023 Commercial, Civil, Government / 27, regarding contract No. 60 of the Sulaibiya site, with an area of 805,712 m². The court of first instance dismissed the case on 16 February 2023 rejecting the case. The Parent Company filed the appeal under appeals No. 1480, 1482, 1449 Commercial Appeal, Civil, Government / 10 for the year 2023. A ruling was issued on 15 November 2023 rejecting the appeals and confirming the ruling of the first instance. Agility has challenged this appeal decision and filed Case No. 18/35/38 for the year 2024 cassation commercial /1.
2. Case No. 9/2023 Commercial, Civil Government / 28, regarding contract No. 211 of the Sulaibiya site, with an area of 150,000 m². The first instance court issued a judgment on 18 June 2023 on grounds of lack of jurisdiction and referred the case to the Administrative Department / 2 under no 4155/2023 administrative department /2. On 27 December 2023, the Parent Company appealed the above judgement under Appeal No. 3340/2023 Commercial, Civil, Government / 9. On 14 November 2023 the court of appeal rejected the appeal. The Parent Company filed a new case regarding contract No. 211 of the Sulaibiya site under case no. 622/2024 commercial, Civil Government /23. On 11 June 2024 a preliminary decision was issued by the Plenary Court to transfer the case to the expert department, which issued its report on October 30, 2024. A hearing date was set for rendering the judgment before the Court of First Instance. On 10 March 2026 the Court of First Instance issued a judgment rejecting the original case and confirming the termination of the lease contract in the secondary case.
3. Case No. 19/2023 Commercial, Civil, Government / 9, regarding contract No. 208 for Mina Abdullah’s site, with an area of 1,625,000 m². On 24 January 2024, the court of first instance delivered its judgement rejecting the original case and in the secondary case to vacate in favor of PAI. The Parent Company appealed the decision of the court of first instance in appeals no. 1119 and 1146 for the year 2024. PAI appealed the same decision in appeal no 1049 for the year 2024 Commercial Appeal, Civil, Government / 2, and on 16 February 2025 a ruling was issued rejecting the appeals and confirming the decision of first instance. The Parent Company has appealed this decision before the court of cassation in appeal no. 1604 for the year 2025/cassation/Commercial/4 and the PAI has also appealed it in appeal no 1487 for the year 2025 / cassation / commercial/4.

7 INVESTMENT PROPERTIES (continued)

Legal claims (continued)

Renewal of land leases with Public Authority for Industry, Kuwait (PAI) (continued)

4. Case No. 12/2023 Commercial, Civil, Government / 20, regarding Contract No. 19/2002 for the truck parking site in Amghara Industrial Area, with an area of 200,000 m². The court of first instance dismissed the case on 28 February 2023. The Parent Company appealed the judgment with appeals Nos. 1613, 1649, 1654, 1663, commercial, civil, government / 5 for the year 2023. On 14 June 2023, a stay order was issued pending a decision on the judges' recusal request No. 13 of 2023 and on 16 July 2023 a decision was issued to reject the recusal request. On 13 March 2024, the court of appeal issued its ruling rejecting the appeal and confirmed the court of first instance ruling. The Parent Company has appealed this decision before the Court of Cassation under appeals No. 2043, 2148, 2211, 2215 for the year 2024 commercial cassation / 7.
5. Case No. 29/2023 Commercial, Civil, Government / 7 regarding contract No. 8/2003, Doha site, with an area of 941,420 m². The court of first instance on 19 March 2023 ruled in favor of the Parent Company establishing the contractual relationship between Agility and PAI for a period twenty years starting from 1 January 2023 and ending on 31 December 2042 on an area of 941,420 m² in the Doha area, subject of contract No. 8/2003 dated 12 August 2003 under the same terms and conditions. PAI appealed the judgment in Appeal No. 1762/2023 Commercial, Civil, Government / 1. On 18 June 2023, the Court of Appeal ruled to annul the appealed ruling and dismiss the case. The Parent Company has appealed the ruling before the Court of Cassation under Case No. 3897,3949,4145/ 2023 Commercial Cassation /1.
6. Case No. 10300 for the year 2024 Commercial/Civil/ Government/ 27 filed by the Parent Company against the PAI and others to confirm the renewal of the lease contract dated 19 September 2004 related to Crafts extension in Sulaibiyah and to request an order for restraining interference. On 30 October 2025, the court of First Instance ruled to dismiss the claim and to terminate the contract in the counter claim. PAI filed an appeal against the first-instance judgment under Civil Commercial Appeal No. 7447 of 2025, Government/11. The appellate judgment was issued on 11 February 2026, rejecting the appeal and upholding the first instance ruling. On 23 September 2025, the Parent Company handed over the Sulaibiya craft expansion site to PAI under an official handover report.
7. Case No. 10301 of 2024 Commercial Civil Plenary Government/19, filed by the Parent Company against PAI and others to prove the renewal of the lease contract dated September 19, 2004 for the Crafts extension in Jahra. On March 23, the Court of First Instance dismissed the case/ in the counterclaim filed by PAI ordered the Parent Company to vacate the site. The Parent Company then appealed the first instance ruling in Appeal No. 2040/2025 Commercial Civil Government/2, while PAI appealed the first instance ruling in Appeal No. 1987/2025 Commercial Civil Government/2. On June 25, 2025, the Court of Appeal ruled to dismiss the appeal and uphold the ruling. The Parent Company challenged the appeal ruling by Cassation under No. 2604/2025 commercial cassation /4 while PAI also filed its own cassation No 2563/2025 Commercial Cassation/4. On 24 September 2025, the Parent Company handed over the Jahra craft expansion site to PAI under an official handover report.

The PAI also filed claims against the Parent Company in respect of contracts No. 208 for Mina Abdullah site, and Contract No. 211 for the Sulaibiya site, No. 8 for the Doha site and No. 60 for the Sulaibiya warehouses site. The Parent Company has also handed over the Mina Abdulla sites 20 and 21 to PAI under an official handover report.

Pursuant to hand over of the above properties the Parent Company recognized a total fair value loss of KD 65,775 thousand in the consolidated statement of income for the year ended 31 December 2025.

Pending final outcome of the above litigations, the Group's management was unable to obtain a reliable estimate of the fair value of the subject investment properties as at 31 December 2025.

Exchange differences	(2,979)	(1,085)
As at 31 December	<u>3,965</u>	<u>293,928</u>
<i>Impairment:</i>		
As at 1 January and 31 December	-	(27,218)
Net carrying value	<u><u>3,965</u></u>	<u><u>266,710</u></u>

Management has performed an impairment exercise for the goodwill that is allocated to the primary activity of the cash generating units. The recoverable amounts of the cash generating units have been determined based on a value in use calculation using cash flow projections based on financial budgets approved by the management for 2026 and forecast for the four year period thereafter, based on growth rates for the sectors in which the cash generating units operate. As a result of the exercise, the management has concluded that no impairment provision is considered necessary as at the reporting date.

Key assumptions used in value in use calculations

The calculation of value in use is sensitive to the following assumptions:

- ▶ Revenue;
- ▶ Earnings Before Interest, Tax, Depreciation and Amortisation (“EBITDA”);
- ▶ Discount rates; and
- ▶ Growth rate used to extrapolate cash flows beyond the 5 year period.

Revenue - Revenue is projected based on the budgets and internal forecasts prepared by the management based on business plans. Internal factors include things like sales history, product mix and marketing strategy. Management used exiting data and metrics to predict business’s future revenue. In the revenue estimation processes, management also uses historical performance data, predictive modeling, and qualitative insights. Customer behavior, seasonality, conversion rates, churn rates, and other factors may affect revenue projections.

Earnings Before Interest, Tax, Depreciation and Amortisation (“EBITDA”) – EBITDA is projected based on the budgets and internal forecasts prepared by the management based on business plans.

Discount rates— Discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its weighted average cost of capital (WACC). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the investors. The cost of debt is based on the interest-bearing borrowings Group is obliged to service. Segment-specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data. Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate of 8.5%.

Growth rate – Growth rates are estimated based on industry sectors in which the cash generating units operate, growth rates specific to the country and sales and marketing data available. Management recognizes that the speed of technological change and the possibility of new entrants can have a significant impact on growth rate assumptions. The effect of new entrants is not expected to have an adverse impact on the forecasts, but could yield a reasonably possible alternative to the estimated long-term growth rate of 11%.

Climate-related matters- The Group constantly monitors climate-related risks, including physical risks and transition risks, when measuring the recoverable amount. While the Group does not believe its operations are currently significantly exposed to physical risk, the value-in-use may be impacted in several different ways by transition risk, such as climate-related legislation, climate-related regulations and changes in demand for the Group’s products.

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

9 GOODWILL (continued)

Key assumptions used in value in use calculations (continued)

Sensitivity to changes in assumptions

With regard to the assessment of value in use of the cash generating units, the management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the CGUs to materially exceed its recoverable amount.

10 INVESTMENT IN ASSOCIATES AND JOINT VENTURES

The movement in carrying value of investment in associates and joint ventures during the year is as follows:

	<i>2025</i> <i>KD 000's</i>	<i>2024</i> <i>KD 000's</i>
As at 1 January	143,053	144,966

Share of results – continuing operations	6,946	(326)
Share of results – discontinuing operations (Note 24)	6,165	9,233
Share of other comprehensive income (loss)	13,242	(3,030)
Distribution of a subsidiary (Note 24)	(141,526)	-
Disposal	-	(36)
Dividend received	(9,577)	(9,722)
Foreign currency translation adjustments	3,430	68
As at 31 December	493,821	143,053

As further explained in Note 24, following the distribution of in-kind dividends, the Group's effective ownership in Agility Global PLC reduced from 51% to 26.58%, after considering the partial settlement of a loan owed by the Parent Company to Agility Global PLC through the transfer of the Parent Company's 5.9% equity ownership in Agility Global PLC. Since the Group exercises significant influence over Agility Global PLC, the investment in Agility Global PLC is classified as an investment in an associate.

The Group recognised the above investment based on the market value on the date of distribution of in-kind dividends amounting to KD 288,321 thousand. During the year, the Group has performed a purchase price allocation (PPA) and has made fair value adjustments amounting to KD 183,767 thousand which is recognised in the consolidated statement of income for the year ended 31 December 2025.

Exchange differences	(513)	367
As at 31 December	21	132,576

During the year ended 31 December 2011, the Group (through its wholly owned subsidiary, a Venture Capital Organisation) jointly with France Telecom acquired 44% equity interest in Korek Telecom L.L.C. (“Korek Telecom”), a limited liability company incorporated in Iraq, via a joint company owned 54% by the Group and 46% by France Telecom. As a result, the Group owned 23.7% indirect interest in Korek Telecom.

The investment in Korek Telecom was classified as an investment in an associate as the Group exercised significant influence over financial and operating policies of Korek Telecom. As this associate is held as part of Venture Capital Organization’s investment portfolio, it is carried in the consolidated statement of financial position at fair value. This treatment is permitted by IAS 28 “Investment in Associates and Joint Ventures” which allows investments held by Venture Capital Organisations to be accounted for at fair value through profit and loss in accordance with IFRS 9, with changes in fair value recognised in the consolidated statement of income in the period of change.

As a result of the ongoing litigation relating to Korek as detailed below, the Group’s management was unable to determine the fair value of this investment and the recoverability of interest-bearing loan as at 31 December 2025 and 31 December 2024.

During the year, management recognized full fair value loss on the investment and the interest bearing loan amounting to KD 147,616 thousand considering uncertainties associated with the quantum and timing of recovery in the enforcement in connection with the various legal and arbitration proceedings as detailed below.

11 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (continued)

Korek Litigation

ICSID Claim

In February 2017, the Group filed a request for arbitration against the Republic of Iraq pursuant to Article 36 of the Convention on the Settlement of Investment Disputes between States and Nationals of Other States (“ICSID”), and Article 10 of the Agreement between the Government of the State of Kuwait and the Government of the Republic of Iraq for Reciprocal Promotion and Protection of Investments (the “2015 BIT”). The arbitral claim arises from a series of actions and inactions of the Iraqi government, including its regulatory agency Communications & Media Commission (“CMC”) relating to an alleged decision by the CMC to annul the previous written consent granted in connection with the Group’s investment in Korek Telecom, as well as the CMC’s order to transfer the shares acquired by the Group back to the original Iraqi shareholders (which was implemented in March 2019). Without limitation, the Group’s claims relate to Iraq’s failure to treat the Group’s investment of over USD 380 million fairly and equitably, its failure to accord the Group with due process, as well as the indirect expropriation of that investment, each in breach of the 2015 BIT. On 24 February 2017, the Group’s request for arbitration was formally registered with ICSID.

On 22 February 2021, the tribunal issued its ruling, dismissing all of the Group’s claims and awarding costs of approximately USD 5 million in favor of the respondent. On 28 May 2021, the Group filed an application to annul the award with ICSID which was formally registered on 4 June 2021. On 8 February 2024, the committee issued its decision in which it partially annulled the original judgment on the basis that the tribunal failed to properly rule on Agility’s implementation claim, thereby committing an annulable error. Consequently, on July 8, 2024, the Group refiled its ICSID claim against the Republic of Iraq. The claim has been registered and a new ICSID tribunal has been constituted. A hearing before the new ICSID tribunal is scheduled for November 2026.

Kuwait Claim Against the KRG

Separately, on 31 May 2021, Alcazar Capital Limited (“Alcazar”), a subsidiary of the Group, filed a claim in Kuwait against the Kurdistan Regional Government (KRG), a political subdivision of the Government of Iraq, under the terms of a sovereign guarantee in respect of the Group’s investment. On 24 January 2022, the Court of First Instance dismissed Alcazar’s claims on the basis that, among other things, Alcazar had failed to prove that it had extended the USD 250 million loan to Korek over which it was seeking damages under the sovereign guarantee. On 16 February 2022, Alcazar appealed the judgment to the Kuwait Court of Appeal. On 19 April 2022 the Court of Appeal issued a judgment in favor of Alcazar awarding damages of USD 490 million (the “Kuwait Judgement”) against the Kurdistan Regional Government, together with interest of 7% p.a. up to the date of satisfaction of the amount. On 2 May 2023, the Kuwait Court of Cassation issued a stay of enforcement of the Kuwait Court of Appeal judgment, pending its adjudication of the matter. On 30 January 2024, the Kuwait Court of Cassation rejected the KRG’s appeal and upheld the Kuwait Judgment. Consequently, Alcazar commenced enforcement proceedings of the Kuwait Judgment.

Pending final outcome of the enforcement proceeding and the uncertainties on the timing and determination of recovery, the Group’s management has not considered any adjustment for the awarded amounts in the consolidated financial statements.

Associated KRG Claim Against Parent Company

In February 2025, the Kurdistan Regional Government filed a claim against the Parent Company and its former CEO, before the Erbil Court of First Instance in Kurdistan, Iraq. The claim seeks damages by alleging that the Parent Company and its former CEO were responsible for an alleged improper notification of the Kuwaiti claim filed by Alcazar which resulted in Alcazar obtaining the Kuwaiti judgment against the KRG and seeking to enforce the Kuwaiti judgment in foreign jurisdictions. The claim is currently pending before the Erbil Court of First Instance.

11 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (continued)

Korek Litigation (continued)

Deed of Release Arbitration

On 24 February 2023, Korek commenced an arbitration against Alcazar, seeking a permanent injunction preventing Alcazar from enforcing in Kuwait and internationally against the KRG, the Kuwait Judgment. Korek claims the obtaining and enforcement of the Kuwaiti Judgment is a breach of a Deed of Release that Alcazar signed in 2011, by which Alcazar is said to have released Korek's obligations under the Convertible Loan Agreement. Korek also seeks various declarations, including declarations that Alcazar is in breach of contract and Korek has no liability under a Convertible Loan Agreement. Korek has also indicated that it will apply to the tribunal (once constituted) for an interim injunction preventing Alcazar from enforcing the Kuwaiti Judgment, pending the issuance of a final award in the arbitration.

On 28 July 2025, the Tribunal issued a final partial award, declaring, among other things, that: (i) Alcazar breached the Deed of Release by obtaining the Kuwaiti judgment; (ii) Alcazar breached the Deed of Release by asserting in the enforcement proceedings in New York. Costs of USD 1.65 million were awarded to Korek. Alcazar is currently considering an application to annul the award before the courts of the DIFC.

In conjunction with the foregoing claims related to Korek Telecom, Iraq Telecom Limited ("IT Ltd.") (in which the Group holds an indirect 54% stake) commenced the following proceedings.

► *Shareholders Agreement Arbitration*

On 4 June 2018, IT Ltd. commenced ICC arbitration proceedings against Korek International (Management) Ltd ("CS Ltd") and Mr. Sirwan Saber Mustafa. The dispute is in relation to various contractual breaches by the respondents under a shareholders' agreement relating to the Parent Company's investment in Korek Telecom.

On March 20, 2023, the Tribunal issued its award. The Tribunal agreed with IT Ltd. and International Holdings Limited that all of the respondents had engaged in a deliberate and intentional scheme "to bribe and corrupt officials" of Iraq's telecommunications regulator in order to procure a wrongful decision to expropriate the shareholding of IT Ltd. and IH in Korek Telecom. The Tribunal also agreed with IT Ltd. and International Holdings Limited that Sirwan Saber Mustafa Barzani had breached his fiduciary obligations by engaging in multiple acts of self-dealing and misconduct, causing harm to the claimants. The Tribunal ordered that the respondents, jointly and severally, pay International Holdings Limited and IT Ltd. a combined amount of USD 1.65 billion in damages and legal costs, together with interest. Of this amount, an amount of USD 1.329 billion is due to International Holdings Limited, and an amount of USD 318.7 million is due to IT Ltd. IT Ltd. is now in the process of enforcing the award in various jurisdictions around the world.

Pending final outcome of the enforcement proceedings and the uncertainties on the timing and determination of the amount of recovery, the Group's management has not considered any adjustment for the awarded amounts in the consolidated financial statements.

► *IBL Subordination Agreement Arbitration: Arbitration proceedings against IBL Bank SAL, Korek Telecom and International Holdings Ltd.*

IT Ltd commenced the arbitration proceedings in relation to alleged fraud orchestrated by certain Korek Telecom stakeholders with the knowledge and cooperation of IBL Bank in connection with a subordination agreement relating to a USD 150 million loan extended by IBL Bank to Korek Telecom.

On 24 September 2021, the Tribunal issued its award granting in full IT Ltd.'s claim to render as null and void the subordination agreement relating to the USD 150 million loan extended by IBL Bank to Korek Telecom. The Tribunal agreed with IT Ltd. that all of the respondents, including IBL Bank, had engaged in a deliberate and intentional deception of IT Ltd. The counterclaims of the respondents were rejected in their entirety. In addition to the avoidance of the subordination agreement, IT Ltd. was awarded legal costs in the amount of USD 3 million, which was collected on 18 May 2023.

As a result of this award, on 12 November 2021, IT Ltd. filed a Request for Arbitration against Korek Telecom, in order to enforce its debt claim of more than USD 285 million (plus default interest) bringing the total claim to approximately USD 1 billion, against IH, as debtor, and Korek Telecom, as guarantor.

The Tribunal submitted its draft Final Award to the ICC Secretariat on 8 July 2024 for approval and declared the proceedings closed. The Final Award was issued on 9 September 2024 wherein Korek was ordered to pay IT Ltd. over USD 1.3 billion.

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

11 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (continued)

Korek Litigation (continued)

IBL Subordination Agreement Arbitration: Arbitration proceedings against IBL Bank SAL, Korek Telecom and International Holdings Ltd. (continued)

Pending final outcome of the enforcement proceedings and the uncertainties on the timing and determination of the amount of recovery, the Group's management has not considered any adjustment for the awarded amounts in the consolidated financial statements.

Separately as well, IT Ltd. filed a Request for Arbitration ("IBL II Arbitration") against IBL Bank on 13 December 2021, seeking damages for the fraud that was adjudicated in the previous arbitration.

On 1 June 2023, the Beirut Court of Appeal issued its decision on IBL's challenge to the award in the initial IBL Arbitration, ordering the set aside of that award (the "Annulment Decision"). IT Ltd. appealed the Annulment Decision before the Lebanese Court of Cassation. On 18 October 2023, the Lebanese Court of Cassation ordered a stay of the Annulment Decision. Accordingly, the Arbitral Tribunal issued a stay of the arbitration proceedings until the Lebanese Court of Cassation's decision on the challenge to the Beirut Court of Appeal's decision. On 4 February 2026, the Lebanese Court of Cassation quashed the findings of the Lebanese Court of Cassation, thereby voiding the Annulment Decision and upholding the award of the initial IBL Arbitration. The Arbitral Tribunal is now expected to lift its stay and continue the proceedings to assess damages.

► *DIFC Director Claims*

On 12 March 2018 IT Ltd. commenced proceedings in the courts of the Dubai International Financial Centre ("DIFC") against Raymond Zina Rahmeh. The claim alleges breach of the defendant's duties as directors of International Holdings and also alleges multiple instances of self-dealing.

On 16 December 2021, a judgment against Mr. Rahmeh was issued in the amount of USD 71.3 million plus costs and interest.

Separately, on 5 September 2017, Modern Global Company for General Trading of Equipment, Supplier for Construction and Real Estate WLL (a wholly owned subsidiary of the Parent Company) commenced arbitration proceedings against Korek Telecom in relation to Korek's alleged failure to pay servicing fees due to Modern Global under a services agreement. On 20 March 2019, Modern Global was awarded its full claim, interest and legal costs, amounting to approximately USD 4.5 million.

In April 2022, an amount of approximately USD 1.1 million was obtained from certain Korek assets in the United Arab Emirates. Enforcement efforts remain ongoing.

* A resolution was issued by the General Administration of Customs for Kuwait ("GAC") to cash a portion, amounting to KD 10,092 thousand of the bank guarantee submitted by Global Clearing House Systems K.S.C. (Closed) ("GCS"), a subsidiary of the Parent Company, in favour of GAC in relation to performance of a contract. Pursuant to this resolution, GAC called the above guarantee during the year ended 31 December 2007.

GCS appealed the above resolution at the Court of First Instance and the latter issued its judgment in favour of GCS and ordered GAC to pay an amount of KD 58,927 thousand as compensation against the non-performance of its obligations under the contract, and KD 9,138 thousand towards refunding of the guarantee encashed earlier, together with an interest of 7% per annum on these amounts to be calculated from the date the judgment becomes final.

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

15 OTHER CURRENT ASSETS (continued)

GCS appealed the judgment in Appeal number 1923 for the year 2014 administration /4, before the Court of Appeal requesting an increase in compensation. GAC also filed an appeal No. 1955 / 2014 Administrative 4 before the Court of Appeal. On 13 September 2015, the Court of Appeal pronounced its judgement affirming the decision of the Court of First Instance. Both GCS and GAC appealed against this ruling before the Kuwait Court of Cassation in appeals No. 1480, 1487 for the year 2015. On 25 September 2019, the Court of Cassation resolved to defer the appeal to the experts. On 24 May 2021, the experts committee issued a report affirming GCS's right for the claimed compensation.

On 11 May 2022, this matter was finally resolved with the issuance of this judgment in respect of Appeals by Cassation No. 1480 and 1487 for year 2015, Administrative/4 before the Court of Cassation, where the court ordered the GAC to refund an amount of KD 5,561 thousand to GCS out of the original principal of encashed guarantee. The said appeals by Cassation resolved, otherwise, to uphold the appealed judgment, which ordered the second defendant, "the Director General of the General Administration of Customs in his capacity," to pay to the plaintiff "GCS" an amount of KD 58,927 thousand, thus making the total receivable KD 64,488 thousand in addition to the legal interest of 7% annually on both amounts from the date this judgment becomes final.

Accordingly the Parent Company and GCS recognized an amount of KD 64,488 thousand in the prior year representing the receivable as per the above rulings in favor of GCS (KD 58,927 thousand and KD 5,561 thousand as mentioned above).

The amount of interest in respect of the aforementioned amounts is currently not quantifiable and hence not recorded in the consolidated financial statements.

16 BANK BALANCES, CASH AND DEPOSITS

Issued and fully paid up shares of 100 fils each	2,676,128,586	2,676,128,586	267,613	267,613

b) Share premium

The share premium is not available for distribution.

c) Statutory reserve

In accordance with the Companies' Law, as amended, and the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, a minimum of 10% of the profit for the year before tax and board of directors' remuneration shall be transferred to the statutory reserve. The annual general assembly of the Parent Company may resolve to discontinue such transfer when the reserve exceeds 50% of the issued share capital. The reserve may only be used to offset losses or enable the payment of a dividend up to 5% of paid-up share capital in years when profit is not sufficient for the payment of such dividend due to absence of distributable reserves. Any amounts deducted from the reserve shall be refunded when profits become available in the following years, unless such reserve exceeds 50% of the issued share capital.

The Board of Directors of the Parent Company, based on the powers conferred upon them by Article 52 of the Parent Company's by laws, approved to transfer the statutory reserve that exceeded 50% of the Parent Company's issued share capital to retained earnings, in their board meeting held on 17 June 2025.

Accordingly, an amount of KD 61,788 thousand representing the excess amount has been transferred to retained earnings.

d) Treasury Shares

	<i>2025</i>	<i>2024</i>
Number of treasury shares	123,786,106	123,786,106
Percentage of issued shares	4.63%	4.63%

e) Dividend

The Shareholders at the Annual General Meeting ("AGM") held on 22 May 2025 approved the consolidated financial statements for the year ended 31 December 2024 and the distribution of cash dividends of 10 fils (2023: 10 fils) for the year ended 31 December 2024.

On 17 June 2025, the Board of Directors of the Parent Company, based on the authorization given by the Parent Company's Ordinary general meeting held on 22 May 2025, approved the distribution of in-kind dividends representing 20.09% of the shares held by the Parent Company in Agility Global PLC. Every shareholder registered in the Parent Company's records at the end of the record date would receive 82 shares of Agility Global PLC for every 100 shares held in the Parent Company. The dividend distribution was completed on 14 July 2025 and measured based on the fair value of the shares of Agility Global PLC as on that date.

On 18 March 2026, the Board of Directors of the Parent Company recommended distribution of cash dividend of 2 fils (2024:10 fils) for the year ended 31 December 2025. This proposal is subject to the approval by the shareholders at the Annual General Assembly of the Parent Company.

18 PROVISION FOR EMPLOYEES' END OF SERVICE BENEFITS

The following table summarise the movement in the provision for employees' end of service benefits recognised in the consolidated statement of financial position:

	<i>2025</i> <i>KD 000's</i>	<i>2024</i> <i>KD 000's</i>
As at 1 January	39,695	27,275
Provided during the year	2,933	4,722
Paid during the year	(4,477)	(9,517)
Actuarial loss in respect of defined benefit plans	-	15,982
Distribution of a subsidiary (Note 24)	(25,032)	-
Others (including exchange differences)	221	1,233
As at 31 December	<u>13,340</u>	<u>39,695</u>

19 INTEREST BEARING LOANS

	<i>2025</i> <i>KD 000's</i>	<i>2024</i> <i>KD 000's</i>
Committed multicurrency revolving loan facilities obtained from a Group of banks - Maturing in 2027 and 2029	-	89,596
Multi year funded equity collars maturing in 2026 and 2027	-	704,286
Term Loans obtained from foreign banks repayable between 2025 and 2029	-	81,305
Murabaha facility from a foreign bank repayable in 2029	-	36,546
Committed Revolving loan facility from local banks repayable in 2030	135,591	73,500
Murabaha facility obtained from a local bank repayable in 2027 and 2028	-	81,261
Uncommitted facilities from local bank	-	-
Revolving credit facilities from a foreign bank repayable in 2025	-	45,424
Bank overdrafts	-	66,259
Other loans	1,315	30,972
	<u>136,906</u>	<u>1,209,149</u>

Floating effective interest rate loans amounting to KD 135,591 thousand (2024: KD 376,187 thousand) carry an agreed upon margin over the benchmark rates.

20 TRADE AND OTHER PAYABLES

	<i>2025</i> <i>KD 000's</i>	<i>2024</i> <i>KD 000's</i>
Trade payables	17,515	163,386
Accrued expenses	75,807	162,040
Accrued employee related expenses	17,643	74,102
NLST payable	17,615	19,523
Taxation on overseas subsidiaries	-	11,896
Zakat payable	1,154	1,765
KFAS payable	1,119	1,153
Amounts due to related parties (Note 27)	-	10,419
Directors' remuneration (Note 27)	350	350
Legal claims payable	-	9,138
Other liabilities	9,853	94,670
	<u>141,056</u>	<u>548,442</u>

The entire trade payables are of short-term nature, non-interest bearing and normally settled on 30 to 60 days terms. The carrying amount of the liabilities largely corresponds to their fair values.

24 DISCONTINUED OPERATIONS

Pursuant to the decision of the Board of Directors of the Parent Company, based on the authorization given by the Parent Company's Ordinary general meeting, to approve the distribution of in-kind dividends representing 20.09% of the shares held by the Parent Company in Agility Global PLC which was executed on 14th July 2025, the Group has classified Agility Global PLC as discontinued operations. The results of the Agility Global PLC for the period are presented below:

	<i>2025</i> <i>KD 000's</i>	<i>2024</i> <i>KD 000's</i>
Revenue from contract with customers	718,344	1,378,189
Cost of revenues	(275,116)	(529,927)
Net revenues	443,228	848,262
General and administrative expenses	(351,422)	(669,250)
Share of results of associates and joint ventures	6,165	9,233
Change in fair value of investment properties	-	9,180
Gain on disposal of a subsidiary	-	4,003
Unrealised (loss) gain on financial assets at fair value through profit or loss	(983)	7,809
Dividend income	4,052	3,182
Miscellaneous income	5,166	3,220
Profit before interest, taxation, depreciation, amortisation and remeasurement to fair value less cost to distribute	106,206	215,639
Depreciation	(46,315)	(84,590)
Amortisation	(4,333)	(8,071)
Profit before interest and taxation and remeasurement to fair value less cost to distribute	55,558	122,978
Interest income	5,873	5,154
Finance costs	(34,839)	(57,733)
Loss on distribution of discontinued operations	(680,820)	-
(Loss) profit before taxation	(654,228)	70,399
Taxation	(8,103)	(16,056)
(LOSS) PROFIT FOR THE PERIOD FROM DISCONTINUED OPERATIONS	(662,331)	54,343

The following table summarises the fair value and the carrying amounts of identified assets and liabilities disposed as well as the carrying value of the non- controlling interest at the date of distribution.

	<i>KD 000's</i>
Assets	
Property, plant and equipment	268,375
Projects in progress	29,907
Right-of-use assets	205,644
Investment properties	240,463
Intangible assets	82,782
Goodwill	259,766
Investment in associates and joint ventures	141,526
Financial assets at fair value through profit or loss	19,675
Financial assets at fair value through other comprehensive income	1,438,962
Loans to related parties	441,878
Other non current assets	48,966
Inventories	63,952
Trade receivables	206,957
Other current assets	119,247
Bank balances, cash and deposits	317,526
	3,885,626

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

24 DISCONTINUED OPERATIONS (continued)

Liabilities

Provision for employees' end of service benefits	25,032
Interest bearing loans	1,284,878
Lease liabilities	232,635
Trade and other payables	391,272
Other liabilities	42,421

1,976,238

Non-controlling interests held within the subsidiary	<u>131,623</u>
------------------------------------------------------	----------------

Net assets distributed	<u><u>1,777,765</u></u>
-------------------------------	--------------------------------

Loss on distribution of subsidiary included in the consolidated statement of income is as follows:

KD 000's

Fair value of the net assets distributed **	1,153,284
Less: Carrying amount of net assets distributed	(1,777,765)
Less: Recycling of reserves in the subsidiary upon distribution	(56,339)

Loss on distribution of subsidiary	<u><u>(680,820)</u></u>
-------------------------------------------	--------------------------------

** Represents the fair value of net assets distributed to shareholders based on the market value of the shares of Agility Global PLC as of the distribution date (i.e., 14 July 2025).

The net cashflows of the subsidiary for the year are as follows:

	<i>2025</i> <i>KD 000's</i>	<i>2024</i> <i>KD 000's</i>
Operating	68,234	193,105

Financing	27,516	75,046
Net cash inflow	<u><u>31,336</u></u>	<u><u>79,687</u></u>

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

25 BASIC AND DILUTED (LOSS) EARNINGS PER SHARE

Basic and diluted (loss) earnings per share amounts are calculated by dividing profit for the year attributable to equity holders of the Parent Company by the weighted average number of shares outstanding during the year as follows:

	<i>2025</i> <i>KD 000's</i>	<i>2024</i> <i>KD 000's</i>
(Loss) profit for the year attributable to equity holders of the Parent Company:		
Continuing operations	49,288	43,582
Discontinued operations	(343,488)	19,045
	<u>(294,200)</u>	<u>62,627</u>
	<i>Shares</i>	<i>Shares</i>
Number of paid up shares	2,676,128,586	2,676,128,586
Adjustment for reciprocal holding with an associate	-	(63,822,026)
Weighted average number of treasury shares	(123,786,106)	(123,786,106)
	<u>2,552,342,480</u>	<u>2,488,520,454</u>
Basic and diluted (loss) earnings per share attributable to equity holders of the Parent Company (fils):		
Continuing operations	19.31	17.51
Discontinued operations	(134.58)	7.65
	<u>(115.27)</u>	<u>25.16</u>
Basic and diluted (loss) earnings per share attributable to equity holders of the Parent Company (fils):	<u>(115.27)</u>	<u>25.16</u>

As there are no dilutive instruments outstanding, basic and diluted earnings per share are identical.

26 CONTINGENCIES AND CAPITAL COMMITMENTS

	<i>2025</i> <i>KD 000's</i>	<i>2024</i> <i>KD 000's</i>
Letters of guarantee*	71,628	235,425
Operating lease commitments	120	1,586
Capital commitments	23,013	61,696
Corporate guarantees	-	98,704
	<u>94,761</u>	<u>397,411</u>

*Included in letters of guarantee are bank guarantees of KD 30,651 thousand (31 December 2024: KD 30,651 thousand), provided by a bank on behalf of the subsidiary "Global Clearing House Systems K.S.C. (Closed)" to the General Administration of Customs in the State of Kuwait. These guarantees are issued by the bank on a non-recourse basis to the Group.

26 CONTINGENCIES AND CAPITAL COMMITMENTS (continued)

(a) Legal cases with GAC

In respect of an ongoing dispute between GCS and GAC relating to project management mechanisms in the ports, both the parties have filed various claims and counter-claims against each other.

GAC initiated several legal proceedings against GCS in respect of this matter and claimed financial compensation from GCS. On 25 September 2018, a judgment was issued dismissing all cases. The judgment was appealed by both GCS and GAC. On 26 September 2022 the court of appeals ruled to set up the project development fund and required GCS to pay an amount of KD 12,443 thousand to GAC.

Both GCS and GAC appealed this judgment before the court of cassation. The GCS appeal also included a request for a stay of execution until the appeal is resolved. On 12 April 2023, the Court of Cassation ordered a stay on the enforcement until the case is determined on its merits. The case remains pending before the Court of Cassation. The Parent Company and GCS (after consulting the external counsel) have resolved not to record any provision pending final ruling by the court of cassation.

In addition to the above, there are other legal disputes between GCS and GAC. Both the parties have filed various claims and counter claims that are currently pending in the courts. The legal counsel of the Group believes that these matters will not have a material adverse effect on the Group's consolidated financial statements.

(b) Contract with the Public Authority of Industry ("PAI") for stage 5 land located in South Amghara area

The contract pertains to a lease agreement between the Parent Company and the Public Authority for Industry (PAI) for stage 5 land in the South Amghara area, covering a land area of 427,164 m². The lease expired on 7 April 2020, following which PAI initiated legal proceedings to reclaim the land. The Court of First Instance ruled in favor of PAI on April 20, 2021, confirming the requirement for the Parent Company to vacate the premises.

Both PAI and the Parent Company appealed the decision before the Court of Appeals. In its rulings the Court of Appeals upheld the order for the Parent Company to vacate the site and mandated the payment of KD 11,793 thousand as compensation for the land's use from 8 April 2020 to 3 November 2024. The Parent Company paid KD 2,654 thousand during the prior year and KD 9,139 thousand during March 2025 based on the above judgement.

The Parent Company has filed an appeal with the Court of Cassation, contesting the method used by the Court of Appeals to calculate the compensation. On November 3, 2024, the Parent Company implemented the evacuation phase of the fifth phase site at Amghara Scrap and handed it over to PAI pursuant to an execution report issued by the Ministry of Justice - Execution Department.

(c) Contract with the Public Authority of Industry ("PAI") for stage 4 land located in South Amghara area

The contract pertains to a lease agreement between the Parent Company and the Public Authority for Industry (PAI) for stage 4 land in the South Amghara area, covering a land area of 939,323 m². The lease expired on 31 October 2018. PAI initiated a legal case against the Parent Company claiming a compensation of KD 13,694 thousand representing rent for the period commencing November 2023. The Parent Company handed over the land to PAI on 13 March 2025 and the carrying value of the land in the books of the Parent Company is Nil.

The court of first instance ruled in favour of the Parent Company dismissing the case. PAI filed an appeal and the court of appeal, on 24 December 2025 pronounced its judgement in favour of PAI and ordered the Parent Company to pay the above amount.

On 10 March 2026, the court of cassation ordered a stay of enforcement of the court of appeal judgement pending its final determination of the case on the merits.

In addition to the above, the Group is involved in various incidental claims and legal proceedings. The legal counsel of the Group believes that these matters will not have a material adverse effect on the consolidated financial statements.

Other non-current liabilities	-	7,678	7,678
Trade and other payables (Note 20)	61	10,708	10,769

* Loan from related parties includes loan from an associate (also a former subsidiary), Agility Global PLC amounting to KD 100,903 thousand representing an interest-bearing term loan. During the year, an additional amount of KD 33,617 thousand was provided by the former subsidiary under this facility agreement. Further the parent company made a partial settlement of the loan amounting to KD 62,530 thousand through transfer of shares held by the Parent Company in the former subsidiary. This loan was taken when the former subsidiary was fully consolidated in the financial statements of the Group. Since this loan was an intra group balance, it was fully eliminated and hence no comparatives are reported.

Capital expenditure consists of additions to property, plant and equipment, projects in progress and investment properties.

Other geographic information

The following presents information regarding the Group's non-current assets based on its geographical segments determined based on the geographic locations of the legal entities forming part of the Group:

	<i>2025 KD 000's</i>	<i>2024 KD 000's</i>
Non-current assets		
Middle east and Africa	396,687	1,501,553
Asia	-	68,426
Europe	-	144,364
America	-	119,858
	396,687	1,834,201

Non-current assets for this purpose consists of property, plant and equipment, projects in progress, right-of-use assets, investment properties, intangible assets, goodwill, other non-current assets, loans to related parties and loan to associate.

29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has exposure to risks from its use of financial instruments and these risks are managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing profitability. The Group's principal financial liabilities, other than derivatives, comprise interest bearing loans, trade and other payables. The main purpose of these financial liabilities is to raise finance for the Group's operations. The Group also has dividend payables. The Group's financial assets comprise trade and other receivables, and cash and short-term deposits.

The Group also holds financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, loan to an associate and related parties and enters into derivative transactions.

The Group's senior management reviews and agrees policies for managing risks and provides assurance to the Board of Directors of the Parent Company that the Group's financial risk-taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with Group policies and Group risk appetite. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivatives for speculative purposes shall be undertaken.

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The major risks to which the Group is exposed in conducting its business and operations, and the means and organisational structure it employs in seeking to manage them strategically in building shareholder value are outlined below.

Risk mitigation

As part of its overall risk management, the Group uses as considered appropriate, derivatives and other instruments to manage exposures resulting from changes in interest rates, foreign currencies, equity risks, credit risks, and exposures arising from forecast transactions.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations and the risk arising there from, the Group monitors them on an ongoing basis. Identified concentrations of credit risks are controlled and managed accordingly. There are no significant concentrations of credit risk identified.

The main risks arising from the Group's financial instruments are credit risk, liquidity risk and market risk with the latter subdivided into interest rate risk, foreign currency risk and equity price risk.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily for trade receivables and other receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group is also exposed to credit risk on its loan to an associate and loans to related parties.

Gross maximum exposure to credit risk

The table below shows the gross maximum exposure to credit risk across financial assets before credit risk mitigation:

	2025 KD 000's	2024 KD 000's
Bank balances	50,599	314,706
Trade receivables	49,312	230,743
Loan to an associate	301	35,811
Loans to related parties	-	252,154
Other assets (excluding advances to suppliers and prepaid expenses)	72,032	102,107
	<u>172,244</u>	<u>935,521</u>

Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Group's customer base, including the default risk of the industry and country, in which customers operate, has less of an influence on credit risk.

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored and any services/shipments to major customers are generally covered by security deposits, letters of credit or other forms of credit insurance obtained from reputable banks and other financial institutions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Credit risk (continued)

Trade receivables (continued)

The Group performs an impairment analysis at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on the days past due derived from the aging profile of customers for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 14.

The table below provides information about the credit risk exposure on the Group's trade receivables using a provision matrix.

31 December 2025	Trade receivables						Total KD 000's
	Days past due						
	Current KD 000's	1 to 30 days KD 000's	31 to 60 days KD 000's	61 to 90 days KD 000's	91 to 120 days KD 000's	> 120 days KD 000's	
Estimated total gross carrying amount at default	2,341	8,988	1,996	2,964	11,303	57,152	84,744
Provision for estimated credit loss							35,432
Expected credit loss rate							41.81%

31 December 2024	Trade receivables						Total KD 000's
	Days past due						
	Current KD 000's	1 to 30 days KD 000's	31 to 60 days KD 000's	61 to 90 days KD 000's	91 to 120 days KD 000's	> 120 days KD 000's	
Estimated total gross carrying amount at default	52,430	83,182	31,063	17,558	28,815	77,669	290,717
Provision for estimated credit loss							59,974
Expected credit loss rate							20.63%

Cash and cash equivalents

Credit risk from balances with banks and financial institutions is managed by Group's treasury in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties to minimise the concentration of risks and therefore mitigate financial loss through potential counterparty failure. The Group's maximum exposure to credit risk for the components of the consolidated statement of financial position at 31 December 2025 and 31 December 2024 is the carrying amounts at the reporting date.

The Group limits its exposure to credit risk by only placing funds with counterparties with appropriate credit ratings. Given these credit ratings, management does not expect any counterparty to fail to meet its obligations.

Liquidity risk

Liquidity risk is the risk that the Group will be unable to meet its liabilities when they fall due. To limit this risk, management has arranged diversified funding sources, manages assets with liquidity in mind, and monitors liquidity on a periodic basis.

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Liquidity risk (continued)

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted repayment obligations:

	<i>Less than 1 month KD 000's</i>	<i>1 to 3 months KD 000's</i>	<i>3 to 12 months KD 000's</i>	<i>More than 1 year KD 000's</i>	<i>Total KD 000's</i>
Financial liabilities 2025					
Interest bearing loans	1,457	3,243	14,099	314,023	332,822
Lease liabilities	531	1,062	4,780	43,981	50,354
Trade and other payables	10,403	34,859	95,794	-	141,056
Dividends payable	-	-	8,632	-	8,632
Other non-current liabilities	-	-	-	38,057	38,057
Total financial liabilities	12,391	39,164	123,305	396,061	570,921

	<i>Less than 1 month KD 000's</i>	<i>1 to 3 months KD 000's</i>	<i>3 to 12 months KD 000's</i>	<i>More than 1 year KD 000's</i>	<i>Total KD 000's</i>
Financial liabilities 2024					
Interest bearing loans	2,836	39,701	127,617	1,200,662	1,370,816
Lease liabilities	6,513	13,027	58,621	305,367	383,528
Trade and other payables	47,901	145,473	355,068	-	548,442
Dividends payable	-	-	8,613	-	8,613
Other non-current liabilities	-	-	-	76,901	76,901
Total financial liabilities	57,250	198,201	549,919	1,582,930	2,388,300

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise three types of risk: interest rate risk, currency risk, and other price risks, such as equity price risk. Financial instruments affected by market risk include bank balances and trade receivables in foreign currencies, deposits, financial assets at fair value, loan to an associate and related party, interest bearing loans, trade payables in foreign currencies and derivative financial instruments. The sensitivity analyses in the following sections relate to the position as at 31 December 2025 and 31 December 2024.

The Group manages market risk on the basis of pre-determined asset allocations across various asset categories, diversification of assets in terms of geographical distribution and industry concentration, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings. The Group also manages its interest rate risk by entering into interest rate swaps, in which the Group agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount.

Agility Public Warehousing Company K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2025

29 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Market risk (continued)

Interest rate risk (continued)

Interest rate sensitivity

Based on the Group's financial assets and liabilities held at the year end, an assumed 50 basis points movement in interest rate, with all other variables held constant, would equally impact the Group's profit before taxation and Directors' remuneration as follows.

<i>50 basis points movement</i>	
<i>Effect on consolidated statement of income</i>	
<i>2025</i>	<i>2024</i>
<i>KD 000's</i>	<i>KD 000's</i>
±1,249	±2,155

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating and financing activities (when revenues, expenses and borrowings are denominated in a currency other than Kuwaiti Dinar), financial assets at fair value denominated in foreign currency and the Group's net investments in foreign subsidiaries.

The Group manages its foreign currency risk by use of derivative financial instruments where appropriate and ensures that the net exposure is kept to an acceptable level. The Group has also designated certain interest bearing loans as hedging instruments against its net investment in foreign operations.

Foreign currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in the US Dollars / Kuwaiti Dinar exchange rates, with all other variables held constant, of the Group's profit before taxation and Directors' remuneration (due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives) and the Group's equity (due to changes in the fair value of interest bearing loans designated as hedging instruments for net investments in foreign operations and financial assets at fair value through other comprehensive income). The Group's exposure to foreign currency for all other currencies is not material.

	<i>Change in currency rate by 1 %</i>			
	<i>Effect on other comprehensive income</i>		<i>Effect on consolidated statement of income</i>	
	<i>2025</i>	<i>2024</i>	<i>2025</i>	<i>2024</i>
	<i>KD 000's</i>	<i>KD 000's</i>	<i>KD 000's</i>	<i>KD 000's</i>
US Dollars	±5,034	±7,824	±734	±20
EURO	-	±5,144	-	-

30 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in orderly transactions between market participants at the measurement date.

Determination of fair value and fair value hierarchy:

The Group uses the following hierarchy for determining and disclosing the fair values of financial instruments:

- Level 1: quoted (unadjusted) prices in an active market for identical assets and liabilities.
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and
- Level 3: other techniques which use inputs which have a significant effect on the recorded fair value are not based on observable market data.

Others including net purchases (sales), transfer and exchange difference	(146)	45,523
As at 31 December	35	432,731

31 CAPITAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 December 2025 and 31 December 2024.

The Group includes within net debt, interest bearing loans less bank balances, cash and deposits. Capital includes equity attributable to the equity holders of the Parent Company and non- controlling interests.

	2025 KD 000's	2024 KD 000's
Interest bearing loans	136,906	1,209,149
Loans from related parties	112,867	-
Bank balances, cash and deposits	(50,599)	(314,706)
Net debt	199,174	894,443
Equity attributable to the equity holders of the Parent Company	569,859	1,016,943
Non-controlling interests	22,384	1,024,820
Capital	592,243	2,041,763
Capital and debt	791,417	2,936,206
Gearing	25.17%	30.46%

32 EVENTS AFTER THE REPORTING DATE

Subsequent to the reporting date, significant geopolitical tension escalated in Middle east, impacting GCC countries, including the State of Kuwait. In late February 2026, the conflict has caused regional disruption including airspace closure, supply-chain disturbances, and heightened geopolitical uncertainty due to which business and economic uncertainties have arisen. The existing and anticipated effects of the geopolitical conflict is expected to continue to evolve.

32 EVENTS AFTER THE REPORTING DATE (continued)

These developments arose after the Group's reporting date of 31 December 2025. In accordance with IAS 10 – *Events after the Reporting period*, these events are considered non-adjusting subsequent events, as they relate to conditions that did not exist as at the reporting date. Although the Group's 31 December 2025 consolidated financial position is not impacted, it has created significant uncertainty regarding the Group's future operations, supply chain, customer demand, and overall economic conditions in the region.

The Group has assessed the potential implications of these events on its operations, financial position and performance, including potential impact on logistics, customer activity and regional demand patterns. However, based on information currently available, including the continuation of core business activities, it is not practicable to reliably estimate the full financial effect of these events, as the situation is still evolving. The Group will continue to monitor the situation and related developments closely in 2026. Management has also considered the impact of these events on the Group's ability to continue as a going concern and has concluded that the going concern basis of preparation remains appropriate.
