Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of any significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

21 COMPARATIVES

Reclassifications

Certain comparative figures have been reclassified or regrouped, wherever necessary, to conform to the presentation adopted in these interim condensed consolidated financial information.

Such reclassifications do not affect the previously reported profit, net assets, or equity of the Group.

22 SIGNIFICANT EVENTS DURING THE PERIOD

During the period ended September 30, 2026, ongoing geopolitical tensions in parts of the Middle East have created uncertainty in the regional economic environment, including the UAE. These developments have had indirect impacts on business sentiment, project execution timelines, and market liquidity.

The Group continues to monitor the situation closely and has activated its existing risk management and business continuity frameworks to address any potential operational or financial disruptions.

Management has performed an assessment of the potential impact on key business segments, particularly the real estate sector, including customer collections, project progress, and contractor performance. This also included consideration of macroeconomic factors such as market demand, cost fluctuations, and liquidity conditions.

However, a significant portion of the Group's revenue is derived from service-oriented business units, including facilities management, maid services, and fit-out operations, which have not experienced any material adverse impact. In fact, the fit-out segment has seen increased activity during the period, driven by renovation works across the hospitality sector.

Based on this overall assessment, management has applied a prudent overlay in its Expected Credit Loss (ECL) assessment to reflect emerging risks that may not yet be fully captured in the underlying models.

The Group will continue to evaluate the situation and take appropriate measures to safeguard its operations and financial position.

23 SUBSEQUENT EVENTS
