Independent auditors' report on review of condensed consolidated interim financial information

The Shareholders
Emirates Integrated Telecommunications Company PJSC

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Emirates Integrated Telecommunications Company PJSC and its Subsidiary ("the Group") as at 30 September 2011, and the related condensed consolidated statements of comprehensive income, changes in equity and the cash flows for the nine month period then ended ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard (IAS) 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information as at and for the nine month period ended 30 September 2011 is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

The Company has in place an Executive Share Option Plan ("ESOP") for selected senior managers to receive equity settled share options of the Company. The ESOP consists of a launch grant scheme and an annual grant scheme.

Options in the ESOP vest upon completion of a defined service period and expire on the earlier of their expiry date or termination of the executives' employment. There are no voting or dividend rights attached to the options. The exercise price is determined by taking the average of the daily closing share price of the 30 calendar days preceding the share scheme service period commencement date.

The fair value of services received in return for share options granted are measured by reference to the fair value of share options granted. The fair value of the options is calculated using the Black-Scholes option pricing model.
