Independent auditors' report on review of interim financial information

To
The Board of Directors
Gulf Finance House BSC
Manama
Kingdom of Bahrain

20 October 2011

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Gulf Finance House BSC (the "Bank") and its subsidiaries (together the "Group") as at 30 September 2011, and the related condensed consolidated statements of income, changes in owners' equity, cash flows, changes in restricted investment accounts and sources and uses of charity and zakah fund for the nine months period then ended (the "interim financial information"). The Board of Directors of the Bank is responsible for the preparation and presentation of this interim financial information in accordance with the Financial Accounting Standards issued by the Accounting and Auditing Organisation for Islamic Financial Institutions. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity"*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with the Financial Accounting Standards issued by the Accounting and Auditing Organisation for Islamic Financial Institutions.

Emphasis of matter

Without qualifying our conclusion, we draw attention to note 2 in the interim financial information which discusses material uncertainties relating to the Group's liquidity position and regulatory capital adequacy, which, may cast significant doubt about the appropriateness of the going concern assumption used in the preparation of the interim financial information.

NOTES TO THE INTERIM FINANCIAL INFORMATION
for the nine months ended 30 September 2011

1 Reporting entity

The interim financial information for the nine months ended 30 September 2011 comprise the financial information of Gulf Finance House BSC (the "Bank") and its subsidiaries (together referred to as the "Group").

2 Basis of preparation

The interim financial information has been prepared in accordance with Financial Accounting Standards ('FAS') issued by the Accounting and Auditing Organisation for Islamic Financial Institutions (AAOIFI). In line with the requirement of AAOIFI and the CBB Rule Book, for matters that are not covered by FAS standards, the Group uses guidance from the relevant International Financial Reporting Standard. Accordingly, the interim financial information has been presented in condensed form in accordance with the guidance provided by International Accounting Standard 34 – *'Interim Financial Reporting'*. The interim financial information does not include all of the information required for full annual financial statements and should be read in conjunction with the audited consolidated financial statements of the Bank for the year ended 31 December 2010.

Going concern

As at 30 September 2011, the Group had accumulated losses of US$ 297.93 million and, as of that date, its current contractual obligations exceeded its liquid assets. As a result, the ability of the Group to meet its obligations when due depends on its ability to achieve a timely disposal of assets. Further, the capital adequacy ratio of the Group stood at 12.36% as at 30 September 2011 which was below the minimum required regulatory ratio, which restricts the Group's ability to absorb further losses or undertake additional exposures. These factors indicates the existence of material uncertainties which may cast significant doubt about the Group's ability to continue as a going concern.

To address these issues, the Group has been able to refinance and extend the tenure of a substantial portion of its obligations. Further, to improve its equity and liquidity positions, the Group has issued additional ordinary share capital through the issue of a new series of convertible murabaha instruments of up to US$ 500 million. During the period, convertible murabaha note holders of US$ 173 million have exercised their option to convert the notes into ordinary shares of the Group (refer note 7). To further address the liquidity issues, the management has put in place an asset sale plan to generate liquidity to support repayment of the Group's obligations and its operations. The Group is also evaluating other options to arrange liquidity and strengthen its position over the next twelve months.

The Board of Directors' have reviewed the Group's future plans and are satisfied with the appropriateness of the going concern assumption used in the preparation of the interim financial information.

i) Accounting policies

Except for changes resulting from the adoption of FAS 25 *'Investment in sukuk, shares and similar instruments'* and Statement of Financial Accounting No.1 *'Conceptual framework for the financial reporting by Islamic financial institutions'* (SFA 1), the accounting policies and methods of computation applied by the Group in the preparation of the interim financial information are the same as those used in the preparation of the audited consolidated financial statements for the year ended 31 December 2010.

a) SFA 1: Conceptual framework for the financial reporting by Islamic financial institutions

The revised conceptual framework for Financial Reporting by Islamic Financial Institutions was issued on 22 July 2010 and is effective from 1 January 2011 on a prospective basis and supersedes the previous SFA 1 and SFA 2. The conceptual framework has been amended to primarily reflect the following:

- Widening the scope of the framework to a broader spectrum of entities rather than limiting it to only Islamic financial institutions;
- Clarify elements of financial statements and definitions of investment accounts;
- Provide overall criteria and framework for determination of on and off balance sheet accounts; and
- Changes in terminology and editorial amendments to provide more consistency in understanding of key concepts.

2 *Basis of preparation (continued)*

i) Accounting policies (continued)

The amended framework introduces and emphasises the generally accepted concept of substance and form compared to the concept of form over substance. The framework states that it is necessary that information, transaction and other events are accounted for and presented in accordance with its substance and economic reality as well as legal form.

The revised conceptual framework has a pervasive impact on financial reporting. However, this has not resulted in any material changes to the accounting policies and the interim financial information of the Group.

b) FAS 25 'Investment in sukuk, shares and similar instruments'

FAS 25 was issued in July 2010 and replaced FAS 17 'Investments'. FAS 25 retains and simplifies the mixed measurement model and establishes two measurement categories for investments: amortised cost and fair value. The standard requires each investment to be first segregated as either debt-type or equity type instruments, and the basis of classification depends on the entity's business model and the contractual cash flow characteristics of the investment. For equity-type investments, an irrevocable election can be made at initial recognition, to recognise unrealised fair value gains and losses (other than impairment) through equity rather than through the income statement. Equity investments at fair value through equity are assessed for impairment if any. Impairment losses are recognised in the income statement. For debt-type investments, based on the cash flow characteristics of the investments, an election can be made at initial recognition to measure the instruments at either amortised cost or fair value. Reclassification between categories is not permitted. The guidance in FAS 17 on 'investment in real estate' continues to apply. The new standard requires retroactive application.

The Group has adopted the revised FAS 25 on its required application date of 1 January 2011. The retroactive adoption of this standard did not result in any impact on the consolidated income statement and owners' equity of the previous period.

On the date of application, the classification and categorisation of investments has been reassessed based on the facts and circumstances on that date. The adoption of the standard resulted in the following re-categorisation of investment securities in the statement of financial position:

US$ 000's

1 January 2010	Revised categorisation		
Previous categorisation as per FAS 17	Fair value through income statement	Fair value through equity	Total
Fair value through income statement	33,976	-	33,976
Available-for-sale	-	315,423	315,423
	33,976	315,423	349,399

US$ 000's

31 December 2010	Revised categorisation		
Previous categorisation as per FAS 17	Fair value through income statement	Fair value through equity	Total
Fair value through income statement	25,860	-	25,860
Available-for-sale	-	222,934	222,934
	25,860	222,934	248,794

NOTES TO THE INTERIM FINANCIAL INFORMATION
for the nine months ended 30 September 2011

2 *Basis of preparation (continued)*

(ii) Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the audited consolidated financial statements for the year ended 31 December 2010.

(iii) Estimates

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these interim financial information the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the audited consolidated financial statements for the year ended 31 December 2010.

3 The interim financial information is not audited but has been reviewed by KPMG. The comparatives for the condensed consolidated statement of financial position have been extracted from the audited consolidated financial statements for the year ended 31 December 2010 and the reviewed interim financial information for the nine months ended 30 September 2010. The comparatives for the condensed consolidated statements of income, cash flows, changes in owners' equity, changes in restricted investment accounts and sources and uses of charity and zakah fund have been extracted from the reviewed interim financial information for the nine months ended 30 September 2010.

4 During the period, the paid up capital of the Bank was increased from US$ 145,780 thousand to US$ 319,097 thousand as a result of exercise of conversion option by the holders of the convertible murabaha (note 7). As per the terms of the convertible murabaha, 563,629 million shares of par value US$ 0.3075 thousand has been issued on conversion. The effective conversion price is below the par value per share and the resulting difference and the related share issue expenses has been adjusted against the share premium account.

5 **Investment securities**

Murabaha financing

Murabaha financing comprise a medium-term financing from a syndicate of banks of US$ 100 million (31 December 2010: US$ 100 million). The financing is repayable in July 2013 (extendable by 1 year provided 25% of the facility is repaid in 2012) and carries a profit rate of 2.50% over the benchmark rate (LIBOR) payable semi annually and an additional profit mark up of 1.25% payable at maturity. The Murabaha financing facilities are secured by a pledge over a portion of the Group's investment in an associate of carrying value of US$ 163 million.

Wakala financing

Wakala financing include facilities obtained from a syndicate of financial institutions. During the period, the Group renegotiated the facility and as per the revised terms the balance is repayable over a period of two years till April 2013 at an agreed profit rate of 8%. The Wakala financing facility is secured by a pledge over the Group's investment property of carrying value of US$ 203 million. The Group is currently negotiating with the lenders for rescheduling of the installments due in September 2011.

NOTES TO THE INTERIM FINANCIAL INFORMATION
for the nine months ended 30 September 2011

7 *Financing liabilities (continued)*

Sukuk

In 2007, the Group announced a US$ 1 billion medium term Shari'a compliant Sukuk issuance programme. The programme provides a facility for the issuance of Sukuk Certificates in series. The Sukuk Certificates are backed by certain of the Group's investment securities. The Sukuk carries a profit rate of LIBOR + 175 bps payable on a quarterly basis. The Bank is currently in the process of discussions with the sukuk holders to restructure the terms of the programme. During the period the Group resold Sukuk Certificates of face value US$ 12 million and incurred a charge on amortised cost on remeasurement loss of US$ 4.8 million which has been included under "Finance expense". During the period, the Group was in technical breach of certain financial covenants of the Sukuk programme and the Group is currently into discussion with the sukuk note holders for revising the covenant terms.

Convertible murabaha 2009

During 2009, the Group issued a compound financial instrument ("Notes") in the form of unsecured convertible murabaha facility. The Notes have a tenure of 3 years maturing in October 2012 unless converted into ordinary shares of the Bank at the option of the holder, at an exchange price of US$ 1.52 per share (adjusted for the 2010 share consolidation). The Notes provide for returns of 8% p.a. payable quarterly to the holder. During the period, Note holders amounting to US$ 10 million exchanged the 2009 Notes with the 2010 series of the convertible murabaha issued (see below).

Convertible Murabaha 2010

In 2010, the Group launched a new series of convertible murabaha to raise additional capital. The new series of convertible murabaha provide for returns of 12% p.a. payable quarterly to the holder and has a tenure of 3.5 years from the date of issue, unless converted into ordinary shares of the Bank at the option of the holder, at an exchange price of US$ 0.31 per share. The Bank has received subscription of US$ 174.50 million and during the period note holders amounting to US$ 173 million has exercised their option to convert resulting in the issue of 563,629 thousand equity shares as per the terms of the convertible murabaha.

8 Income from investment securities

Income from investment securities includes mainly dividend income of US$ 7.4 million and fair value gains of US$ 6.61 million. US$ 2.4 million of dividend relates to year 2010 declared in 2011 and US$ 5 million relates to prior periods.

9 Other income

Other income includes US$ 20.33 million of 2008 employee incentive scheme accruals written back on the directive of the regulator, and US$ 7 million of board fees and other accruals written back and also includes US$ 6.525 million being profit on sale of a land purchased and sold during the quarter (note 6).

10 Share-based employee compensation scheme

During the period, 340 thousand share awards were forfeited due to non-satisfaction of service conditions by outgoing employees of the Bank. A net reversal of vesting charge amounting to US$ 262 thousand (30 September 2010: reversal of US$ 1,814 thousand) was recognised as part of staff costs during the period. As at 30 September 2011, 3.49 million share awards were outstanding to be exercised in future periods.

NOTES TO THE INTERIM FINANCIAL INFORMATION
for the nine months ended 30 September 2011

11 Finance expense

Finance expense of US$ 24.83 million includes US$ 4.8 million of amortised cost adjustment on resale of certain Sukuk Certificates (refer note 7) and US$ 1.4 million representing additional charge on issue of equity instruments (in the form of convertible murabaha 2010) in settlement of certain liabilities.

13 Significant related party transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties include entities over which the Group exercises significant influence, major shareholders, directors and executive management of the Group and assets under management of the Group.

During the period, the Group recognised dividend income of US$ 7.4 million (30 September 2010: Nil) and fair value gains of US$ 6.61 million (30 September 2010: Nil) from investment in an associate carried at fair value through the income statement (refer note 8). As at 30 September 2011, the Group sold this investment to another associate company.

14 Commitments and contingencies

The commitments contracted in the normal course of business of the Group:

	30 September 2011 US$ 000's (reviewed)	31 December 2010 US$ 000's (audited)	30 September 2010 US$ 000's (reviewed)
Commitments to invest	6,613	6,613	6,613
Commitments to extend finance	16,500	16,500	16,500

NOTES TO THE INTERIM FINANCIAL INFORMATION
for the nine months ended 30 September 2011

14 *Commitments and contingencies (continued)*

During the period, one of the Group's project company had successfully renegotiated the terms of its facility with its lenders. As a result the Group has reversed the provision recognised earlier to the extent of US$ 92.14 million included in other liabilities and also an equivalent amount of "reimbursement right" included in 'other assets'. However, the Group is continuing to act as a guarantor for the lenders until the repayment of the facility by its project company and this has been included under commitments.

Further, based on the Group's assessment of the likelihood that another project will not be able to meet the financing obligation when they fall due, the Group has estimated that its financial guarantee of US$ 35 million may be enforced. In accordance with the requirements of IAS 37, Provisions, Contingent Liabilities and Contingent Assets, the Group has recognised a provision of US$ 35 million (31 December 2010: US$ 121.11 million) towards this liability until revised / renegotiated terms are agreed with the lenders of the project company and recognised an equivalent amount of 'reimbursement right' receivable included in 'other assets'.

In the opinion of the management, all facilities that are due are being renegotiated and based on the current status of discussions, it is not expected that the Group will have to make payments against any of these guarantees. In the event any payment is required to be made, the Group will repay the existing lenders and the amounts will be recovered from the future cash flows generated from the operation of the relevant project.

The Group potentially has a commitment under a constructive obligation to extend finance to one of its projects of upto US$ 23 million (31 December 2010: US$ 150 million).

Performance obligations
During the ordinary course of business, the Group may enter into performance obligations in respect of its infrastructure development projects. It is the usual practice of the Group to pass these performance obligations, wherever possible, on to the companies that own the projects. In the opinion of the management, no liabilities are expected to materialise on the Group at 30 September 2011 due to the performance of any of its projects.

Contingencies
The Group has contingent claims arising from the decision to not proceed with a project development agreement during 2009. The Group is currently negotiating with the counter party for an amicable settlement. While liability is not admitted, if defence against the action is unsuccessful, the claim and associated costs could amount to approximately US$ 36 million. The management do not expect any significant liability to arise on final closure.

15 Due to the inherent nature of the Group's business, the nine month results reported in this interim financial information may not represent a proportionate share of the overall annual results.

16 Appropriations, if any, are made only at the year end.

17 Certain prior period amounts have been regrouped to conform to the current period's presentation. Such regrouping did not affect previously reported loss or equity (also refer note 2).
