INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS

EFG-Hermes Middle East and Developing Africa Fund Limited
Bermuda.

Report on the Financial Statements

We have audited the accompanying financial statements of EFG-Hermes Middle East and Developing Africa Fund Limited ("the Fund"), which comprise the statement of financial position as at June 30, 2011, the statement of comprehensive income, statement of changes in net assets and the statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

1. STATUS AND ACTIVITIES:

The EFG- Hermes Middle East and Developing Africa Fund Limited ("the Fund") was incorporated in Bermuda as an exempted mutual fund company on June 30, 1998 with registration number 25155.

The Fund's objective is to achieve long term capital appreciation through investment in Middle East and North Africa equity and equity related securities; the Fund's shares are listed in Dubai Financial Market for information purposes.

The financial statements represent the assets, liabilities and operations of the Fund only.

The Fund does not have any employees. However, it uses the services of an Investment Manager, an Administrator and a Custodian for the Fund management, administration and custody functions.

2. ADOPTION OF NEW AND REVISED STANDARDS:

2.1 Standards affecting the disclosures and presentation in the current year

None of the revised Standards that have been adopted in the current year, which were effective for annual periods beginning on or after July 1, 2010, have affected the disclosures and presentations in the financial statements. Details of those Standards adopted in these financial statements but that have had no effect on the amounts reported are set out in Note 2.2.

2.2 Standards and Interpretations adopted with no effect on the financial statements

The following new and revised Standards and Interpretations have also been adopted in these financial statements. Their adoption has not had any significant impact on the amounts reported in these financial statements but may affect the accounting for future transactions or arrangements.

		Effective for annual periods beginning on or after
New Interpretations:		
IFRIC 17	Distributions of Non-cash Assets to Owners	July 1, 2009
Amendments to Standards:		
IFRS 2	Share-based Payment – Amendments relating to Company cash-settled share-based payment transactions	January 1, 2010

Various Standards	Amendments resulting from May 2010 Annual Improvements to IFRS's	Various

The Directors anticipate that all of the above Standards and Interpretations as applicable, will be adopted in the Fund's financial statements in future periods and that the adoption of those Standards and Interpretations will have no material impact on the financial statements of the Fund in the period of initial application.

3. SIGNIFICANT ACCOUNTING POLICIES:

Statement of Compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS").

Basis of Preparation

The financial statements are prepared on historical cost convention, except for the measurement of certain financial instruments at fair value.

The financial statements are presented in United States Dollars ("USD") being the presentation and functional currency of the Fund.

The significant accounting policies are as follows:

(a) **Investments in securities**

The values of securities listed on a securities exchange are based on the last bid price on that exchange on the day of valuation. Transactions in marketable securities are accounted for on the trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investments within the time frame established by the market concerned.

Investments in securities which are classified as financial assets at fair value through profit or loss are initially recognised and subsequently measured at fair value. Any resultant change in the fair value is recognised in profit or loss as unrealised gains or losses. Realised gains and losses from disposal of securities are determined on an average cost basis.

3. SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

(b) **Receivables**

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Fund sells securities through a broker. Receivables are recognised at fair value net of transaction costs that are directly attributable to their disposal and are carried at amortised cost using the effective interest method, less any impairment.

(c) **Payables**

Payables are recognised for amounts to be paid in the future for services received, whether billed by the provider or not. These are recognised at fair value, net of transaction cost and subsequently measured at amortised cost using the effective interest method, with interest expense recognised on effective yield basis.

(d) **Revenue Recognition**

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Interest income on all interest bearing instruments is recognised on an accrual basis based on the principal outstanding and the effective interest rate applicable.

(e) **Foreign Currencies**

Foreign currency transactions are recognised in United States Dollars at the approximate rates of exchange prevailing at the time of the transactions. Monetary assets and liabilities denominated in foreign currency at the valuation date are retranslated at the rates of exchange at that date. Exchange differences are recognised in profit or loss in the period in which they arise.

Translation differences on monetary items held at fair value through profit or loss are reported as part of the fair value gain or loss in profit or loss.

(f) **Expenses**

All recurring expenses are accounted for on accrual basis.

Expenses which are incidental to the disposal of an investment are deducted from the disposal proceeds of the investment.

(g) **Taxation**

The Fund is subject to the fiscal laws and practices of Bermuda and any other jurisdiction in which the Fund invests.

(h) **Cash and Cash Equivalents**

Cash and cash equivalents are comprised of current account balances at banks.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY:

In the application of the Fund's accounting policies, which are described in Note 3, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Fund's accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that management has made in the process of applying the entity's accounting policies, which are described in Note 3 and that have the most significant effect on the amounts recognised in financial statements.

Classification of investments

Management has to decide upon acquisition of an investment whether it should be classified as held to maturity, available-for-sale or investments at fair value through profit or loss. For those deemed to be held to maturity, the Fund ensures that the requirements of IAS 39 are met and in particular the Fund has the positive intention and ability to hold these to maturity. The Fund classifies investments as carried at fair value through profit or loss if they are acquired primarily for the purpose to be held for trading or upon initial recognition it is designated by the Fund as at fair value through profit or loss. All other investments are classified as available-for-sale.

Key sources of estimation uncertainty

There are no significant key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

5. **FEES:**

(a) **Management Fee**

The Investment Manager is entitled to receive from the Fund a management fee accruing monthly at the annual rate of 1.4% of the Net Assets Value ("NAV") of the Fund on each valuation day and payable quarterly in arrears (calculated prior to deduction of management fees).

(b) **Performance Fee**

The Investment Manager is also entitled to receive from the Fund in respect of each share in issue a performance fee of 15% per annum of any out-performance of such share (in terms of movements in the NAV and dividend paid in respect of such share) relative to a fixed hurdle rate of 10%. Such fee is an annual fee, and is payable within 14 days following the Valuation Day in June of each year (save that, in respect of any share redeemed during the course of the year, such fee shall accrue on the Valuation Day on which such share is redeemed). Finally, the Investment Manager is also entitled to reimburse all reasonable out-of-pocket and third party expenses incurred in the performance of its duties. The manager is entitled to waive or rebate any part of its performance fee or annual management fee to any person who assists in the placing of shares in the Fund.

(c) **Administration Fee**

Under the Administration Agreement, the Fund pays the Administrator at a maximum of 0.12% of the NAV of the Fund (subject to a minimum fee of USD 20,000 per month).

(d) **Custody Fee**

Under the Custody Agreement, up to December 2010 the Fund paid the Custodian an agreed percentage of the NAV of the Fund. The Custody Fee is accrued and payable on a monthly basis. The applicable rate depends on agreed thresholds and varies from 0.20% to 0.225% subject to a minimum fee of USD 20,000 per month.

From January 2011, the Fund pays the Administrator an agreed percentage of the investments of the Fund. The Custody Fee is accrued and payable on a monthly basis. The applicable rate depends on agreed thresholds and vary from 0.035% to 0.48% (subject to a minimum fee of USD 20,000 per month).

(e) **Board of Directors' Fee and Expenses**

Each of the non-executive Directors are entitled to an annual fee of USD 25,000. The Chairman receives an annual fee of USD 10,000.

(a) Investments in securities are classified as financial assets at fair value through profit or loss. These securities provide the fund with the opportunity to enhance the return on the investments through trading gains. The fair value of these securities are based on quoted market prices of the relevant exchanges. Certain markets and securities may be illiquid and published market prices may not necessarily represent realisable value. The Investment Manager manages market illiquidity by making sure that all new purchases of the Fund have an average daily traded value exceeding US$ 500,000 for the preceding six month period.

10. CAPITAL:

The capital of the Fund consists of redeemable shares with a par value of USD 0.01 per share, which do not carry voting rights. They are entitled to dividends and to a proportionate share of the Fund's net assets attributable to holders of redeemable shares.

All issued redeemable shares are fully paid. The Fund's capital is represented by these redeemable shares. Quantitative information about the Fund's capital is provided in the statement of changes in net assets attributable to holders of redeemable shares.

Each shares issued confers upon the shareholder an equal interest in the Fund, and is of equal value. A share does not confer any interests in any particular asset or investment of the Fund.

A Class Ordinary Shares which may be issued by the Fund shall be subject, at the discretion of the Investment Manager, to a Front End Charge.

In relation to C Class Ordinary Shares which may be issued, the Investment Manager is also entitled to receive from the Fund a distribution fee accruing monthly at an annual rate of 1 percent of the Net Asset Value attributable to C Class Ordinary Shares on each Valuation Day and payable quarterly in arrears.

Change in the number of redeemable shares outstanding can be reconciled as follows:

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT:

Financial instruments consist of financial assets and financial liabilities.

Financial assets of the Fund consist of financial assets at fair value through profit or loss, other assets and cash at banks.

Financial liabilities of the Fund consist of due to related parties and accrued fees and other payables.

Significant accounting policies

Significant accounting policies and methods adopted, including the criteria for recognition, basis of measurement, and the basis on which income and expenses are recognised in respect of each class of financial assets and liabilities are set out in Note 3.

Financial risk management objectives

The Investment Manager provides services to the Fund, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Fund through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include credit risk, liquidity risk and market risk comprising interest rate risk, foreign currency risk and equity price risk.

13.1 CREDIT RISK AND CONCENTRATION OF CREDIT RISK

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Fund's performance to developments affecting a particular industry or geographical location.

To mitigate this risk, the Fund spreads its investments, to the extent possible, over various types of counterparties and products. However, where concentration is inevitable, the Fund takes adequate precautions to reduce this additional risk to acceptable levels.

The credit risk on liquid funds is limited because the counterparty is a bank with high credit – ratings assigned by international rating agencies.

Exposure to credit risk

The management of the Fund believes that the carrying amount of financial assets recorded in the financial statements represents the Fund's maximum exposure to credit risk. Recorded financial assets have not been provided as collateral for any facilities.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT: (CONTINUED)

13.2 LIQUIDITY RISK

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities, it arises because of the possibility (which may often be remote) that the entity could be required to pay its liabilities earlier than expected or reimburse the shareholders as a result of market illiquidity.

The Fund manages liquidity risk by maintaining sufficient cash at banks, or by obtaining credit facilities from the banks.

The liquidity profile of financial liabilities reflects the projected cash flows over the life of these financial liabilities. All financial liabilities at June 30, 2011 and 2010 have a contractual maturity of three months or less and there is more cash at banks as of the reporting dates to cover them.

13.3 MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices.

The Fund's market risk is managed through diversification of the investments portfolio exposure. The Fund's overall market positions are monitored on a daily basis by the Investment Manager.

The Fund's activities expose it primarily to the financial risks of changes in interest rates, foreign currency exchange rates and equity prices.

13.3.1 Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates.

The Fund is not exposed to interest rate risk as no investments are held with financial instrument carrying floating interest rates.

13.3.2 Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign currency exchange rates.

The Fund's financial assets and liabilities are denominated primarily in Qatari Riyals, United Arab Emirates Dirhams, Egyptian Pounds, Omani Riyals, Jordanian Dinars, Kuwaiti Dinars and Morocco Dirhams rather than United States Dollars, the functional and presentation currency. The Fund is not exposed to significant currency risk on the Qatari Riyal, United Arab Emirates Dirham and Omani Riyal since these currencies are effectively pegged to the US Dollar. However, USD 90,624,451 (2010: USD 89,680,321) of the net financial assets are denominated in Egyptian Pounds, Jordanian Dinars, Kuwaiti Dinars and Morrocan Dirhams for which the Fund is exposed to currency risk.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT: (CONTINUED)

13.3 MARKET RISK (CONTINUED)

13.3.2 Currency Risk (Continued)

The carrying amounts of the Fund's foreign currency denominated financial assets and financial liabilities at the reporting date are as follows:

	Assets		Liabilities	
	2011 USD	2010 USD	2011 USD	2010 USD
QAR	12,711,184	30,210,269	-	-

Total foreign currencies	140,084,646	160,333,442	6,200,104	2,075,330

Foreign currency sensitivity analysis

The sensitivity analysis includes only outstanding foreign currency denominated monetary items other than the items in GCC currencies (except the Kuwaiti Dinar) and adjusts their translation at the period end for a 5% change in foreign currency rates with all other variables held constant. 5% represents management's assessment of the reasonably possible change in foreign currency rates. A negative number below indicates a decrease in the income and a positive number indicates an increase in income, where USD strengthens 5% against the relevant currency. For a 5% weakening of USD against the relevant currency, there would be an equal and opposite impact on the results for the year.

Currency	2011 Effect on profit or loss USD	2010
KWD	(824,659)	(1,046,827)
EGP	(3,319,327)	(2,463,968)

MAD	-	(212,832)

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT: (CONTINUED)

13.3 MARKET RISK (CONTINUED)

13.3.3 Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as the result of changes in the levels of equity indices and the value of individual share prices. Equity price risk arises from the change in fair values of equity investments. The Fund manages the risk through diversification of investments in terms of geographical distribution and industry concentration, to the extent permissible in the Prospectus. As at the year ends, most of the Fund's equity investments were in equities listed on the securities markets of Egypt, Jordan, Morroco, United Arab Emirates, Qatar, Oman and Kuwait.

Equity Price Sensitivity Analysis

The effect on results for the year (as a result of a change in the fair value of financial assets at fair value through profit or loss at the year ends) presented due to a reasonably possible change in market indices by 10% due to the volatility of the equity markets, with all other variables held constant, is as follows:

	2011		2010	
Market indices	Change in equity price %	Effect on profit or loss USD	Change in equity price %	Effect on profit or loss USD
Egypt	+10	6,298,785	+10	5,404,792
Jordan	+10	706,077	+10	1,069,315
Kuwait	+10	1,577,066	+10	1,379,255
Oman	+10	1,286,326	+10	1,328,326
Qatar	+10	1,268,483	+10	2,412,066
United Arab Emirates	+10	2,050,363	+10	2,391,197
United Kingdom	+10	1,069,775	+10	856,753
Morocco	-	-	+10	425,664
Luxemburg	+10	264,549	-	-
United States of America	+10	3,525,228	+10	8,428,085

There would be an equal and opposite impact on the results for the year, had there been a decrease in equity prices by 10%.

14. FAIR VALUE OF FINANCIAL INSTRUMENTS:

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable, willing parties in an arm's length transaction. Consequently, differences may arise between the carrying values and the fair value estimates.

The Directors believe that the fair values of financial instruments carried at amortised cost are not significantly different from the carrying values included in the financial statements.

14. FAIR VALUE OF FINANCIAL INSTRUMENTS: (CONTINUED)

14.1 Fair value measurements recognised in the statement of financial position

Financial instruments are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

All financial assets at FVTPL are grouped within Level 1. There are no financial assets catergorised as "available-for-sale" as at the reporting date.

There are no financial liabilities at FVTPL at the reporting date. Further, there were no transfers between Level 1, Level 2 and Level 3 during the year.

15. NET ASSET VALUE PER SHARE:

	Net Asset Value USD	Number of Shares in Issue	Net Asset Value Per Share USD
As at June 30, 2011	204,672,315	9,194,308	22.26
As at June 30, 2010	267,563,976	11,935,768	22.42

The net asset value per share is based on net assets and shares outstanding at the year end.
