REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors of
Oman Insurance Company P.S.C.
Dubai
United Arab Emirates

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Oman Insurance Company P.S.C. (the "Company") and its Subsidiary (together referred to as the "Group") as at 30 June 2012 and the related condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six months period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Financial Reporting Standard IAS 34, "*Interim Financial Reporting*." Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects in accordance with International Accounting Standards 34, "*Interim Financial Reporting*".

1. General information

Oman Insurance Company P.S.C., (the “Company”) which was established by an Amiri Decree issued by His Highness, The Ruler of Dubai, is a public shareholding company and is registered under Federal Law No. 8 of 1984 (as amended) relating to commercial companies in U.A.E. The Company is subject to the regulations of U.A.E. Federal Law No. 6 of 2007, on Establishment of Insurance Authority and Organization of Its Operations and is registered in the Insurance Companies Register of Insurance Authority of U.A.E. under registration number 9. The Company is a subsidiary of Mashreq Bank (PSC) incorporated in the Emirate of Dubai. Its registered head office is at P.O. Box 5209, Dubai, United Arab Emirates.

The Company engages in the business of issuing short term and long term insurance contracts. These insurance contracts are issued in connection with property, motor, aviation and marine risks (collectively known as general insurance) and individual life (participating and non-participating), group life, personal accident, medical and investment linked funds.

The Group also operates in Oman and Qatar through branches.

2. Standards and Interpretations in issue but not yet effective and not early adopted

The Group has not early applied the following new standards, amendments and interpretations that have been issued but not yet effective:

New and revised IFRSs	Effective for annual periods beginning on or after
IFRS 10 <i>Consolidated Financial Statements</i>* uses control as the single basis for consolidation, irrespective of the nature of the investee. IFRS 10 requires retrospective application subject to certain transitional provisions providing an alternative treatment in certain circumstances. Accordingly, IAS 27 <i>Separate Financial Statements</i>* and IAS 28 <i>Investments in Associates and Joint Ventures</i>* have been amended for the issuance of IFRS 10.	1 January 2013
IFRS 11 <i>Joint Arrangements</i>* establishes two types of joint arrangements: Joint operations and joint ventures. The two types of joint arrangements are distinguished by the rights and obligations of those parties to the joint arrangement. Accordingly, IAS 28 <i>Investments in Associates and Joint Ventures</i> has been amended for the issuance of IFRS 11.	1 January 2013
IFRS 12 <i>Disclosure of Interests in Other Entities</i>* combines the disclosure requirements for an entity’s interests in subsidiaries, joint arrangements, associates and structured entities into one comprehensive disclosure Standard.	1 January 2013

**Notes to the condensed consolidated financial statements
for the six months period ended 30 June 2012 (continued)**

**2. Standards and Interpretations in issue but not yet effective and not early adopted
(continued)**

New and revised IFRSs	Effective for annual periods beginning on or after
IFRS 13 Fair Value Measurement issued in May 2011, establishes a single framework for measuring fair value and is applicable for both financial and non-financial items.	1 January 2013
Amendments to IAS 1 – Presentation of Other Comprehensive Income. The amendments retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate statements. However, items of other comprehensive income are required to be grouped into those that will and will not subsequently be reclassified to profit or loss with tax on items of other comprehensive income required to be allocated on the same basis.	1 July 2012
Amendments to IAS 19 <i>Employee Benefits</i> eliminate the “corridor approach” and therefore require an entity to recognize changes in defined benefit plan obligations and plan assets when they occur.	1 January 2013
IFRIC 20 <i>Stripping Costs in the Production Phase of a Surface Mine</i>.	1 January 2013
Amendments to IFRS 7 <i>Financial Instruments: Disclosures</i> enhancing disclosures about offsetting of financial assets and financial liabilities.	1 January 2013
Amendments to IAS 32 <i>Financial Instruments: Presentation</i> relating to application guidance on the offsetting of financial assets and financial liabilities.	1 January 2014

* In May 2011, a package of five Standards on consolidation, joint arrangements, associates and disclosures was issued, including IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011). These five standards are effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted provided that all of these five standards are applied early at the same time.

Management anticipates that these new standards, interpretations and amendments will be adopted in the Group’s consolidated financial statements for the period beginning 1 January 2013 or as and when they are applicable and adoption of these new standards, interpretations and amendments may have no material impact on the consolidated financial statements of the Group in the period of initial application.

3. Summary of significant accounting policies

3.1 Basis of preparation

These condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (IAS) No. 34, "Interim Financial Reporting" and also comply with the applicable requirements of the laws in the U.A.E.

The condensed consolidated financial statements are presented in U.A.E. Dirhams (AED) since that is the currency in which the majority of the Group's transactions are denominated and all values are rounded to the nearest thousand (AED '000) except when otherwise indicated.

These condensed consolidated financial statements have been prepared on the historical cost basis, except for the revaluation of certain financial instruments and investment properties.

The Group presents its condensed consolidated statement of financial position broadly in order of liquidity.

These condensed consolidated financial statements do not include all the information required for full annual consolidated financial statements and should be read in conjunction with the Group's audited annual consolidated financial statements as at and for the year ended 31 December 2011. In addition, results for the six months period ended 30 June 2012 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2012.

The accounting policies, presentation and methods in these condensed consolidated financial statements are consistent with those used in the annual audited consolidated financial statements for the year ended 31 December 2011.

As required by the Securities and Commodities Authority ("SCA") notification dated 12 October 2008, accounting policies relating to investment properties, property and equipment and financial assets have been disclosed in these condensed consolidated financial statements.

3.2 Basis of consolidation

The condensed consolidated financial statements of Oman Insurance P.S.C. and Subsidiary (the "Group") incorporate the condensed financial statements of the Company and the entity controlled by the Company (its Subsidiary). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. All intra-group transactions, balances, income and expenses and profits and losses resulting from the intra-company transactions that are recognised in assets, are eliminated in full on consolidation.

Income and expenses of subsidiaries acquired or disposed off during the period are included in the condensed consolidated income statement from the effective date of acquisition and up to the effective date of disposal, as appropriate. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the condensed financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

Details of the Company's subsidiary at 30 June 2012 are as follows:

Name of subsidiary	Ownership interest	Country of incorporation	Principal activity
Equator Trading Enterprises L.L.C.	99.97%	U.A.E.	Trading in quoted securities within U.A.E.

The Company beneficially through nominee arrangements holds the remaining equity in the above.

**Notes to the condensed consolidated financial statements
for the six months period ended 30 June 2012 (continued)**

3. Summary of significant accounting policies (continued)

3.3 Investment properties

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the cost of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair values of investment properties are included in the profit or loss in the period in which they arise.

Investment properties are derecognised when either they have been disposed off or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the profit or loss in the period of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use evidenced by the end of owner-occupation, commencement of an operating lease to another party. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of the change in use.

Fair value is determined by open market values based on valuations performed by independent surveyors and consultant or broker's quotes.

3.4 Property and equipment

Capital work in progress is stated at cost, less any recognised impairment loss. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Other property and equipment are stated at cost less accumulated depreciation and any identified impairment losses.

Depreciation is charged so as to write off the cost of assets, other than capital work in progress, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

**Notes to the condensed consolidated financial statements
for the six months period ended 30 June 2012 (continued)**

3. Summary of significant accounting policies (continued)

3.5 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

3.5.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost less impairment loss (except for debt investments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at fair value.

3.5.2 Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised by applying the effective interest rate, except for short-term debt instruments when the recognition of interest would be immaterial.

3.5.2.1 Cash and cash equivalents

Cash and cash equivalents, which include cash on hand and deposits held with banks with original maturities of three months or less, are classified as financial assets at amortised cost.

**Notes to the condensed consolidated financial statements
for the six months period ended 30 June 2012 (continued)**

3. Summary of significant accounting policies (continued)

3.5 Financial assets (continued)

3.5.2.2 Insurance receivables, other receivables and statutory deposits

Insurance receivables, other receivables and statutory deposits are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

3.5.3 Financial assets at fair value through other comprehensive income (FVTOCI)

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the cumulative changes in fair value of securities reserve. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the investments.

The Group has designated all investments in equity instruments that are not held for trading as at FVTOCI.

Dividends on these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established in accordance with IAS 18 Revenue, unless the dividends clearly represent a recovery of part of the cost of the investment.

3.5.4 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Group designates an investment that is not held for trading as at fair value through other comprehensive income (FVTOCI) on initial recognition (see above).

Debt instruments that do not meet the amortised cost criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria but are designated as at FVTPL are measured at FVTPL.

3. Summary of significant accounting policies (continued)

3.5 Financial assets (continued)

3.5.4 Financial assets at fair value through profit or loss (FVTPL) (continued)

A debt instrument may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Debt instruments are reclassified from amortised cost to FVTPL when the business model is changed such that the amortised cost criteria is no longer met. Reclassification of debt instruments that are designated as at FVTPL on initial recognition is not allowed.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

Dividend income on investments in equity instruments at FVTPL is recognised in profit or loss when the Group's right to receive the dividends is established in accordance with IAS 18 Revenue.

3.5.5 Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. The foreign exchange component forms part of its fair value gain or loss. Therefore,

- for financial assets that are classified as at FVTPL, the foreign exchange component is recognised in profit or loss; and
- for financial assets that designated as at FVTOCI, any foreign exchange component is recognised in other comprehensive income.

For foreign currency denominated debt instruments measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the financial assets and are recognised in profit or loss.

3.5.6 Impairment of financial assets

Financial assets that are measured at amortised cost are assessed for impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the asset have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

3. Summary of significant accounting policies (continued)

3.5 Financial assets (continued)

3.5.6 Impairment of financial assets (continued)

For certain categories of financial asset, such as insurance receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period as well as observable changes in national or local economic conditions that correlate with default on receivables.

The amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows reflecting the amount of collateral and guarantee, discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of insurance receivables, where the carrying amount is reduced through the use of an allowance account. When an insurance receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

3.5.7 Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of a financial asset that is classified as FVTOCI, the cumulative gain or loss previously accumulated in the cumulative changes in fair value of securities reserve is not reclassified to profit or loss, but is reclassified to retained earnings.

3.6 Judgements and estimates

The preparation of condensed consolidated financial statements requires management to make judgements, estimates and assumptions that effect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated financial statements, the significant judgements made by management in applying the accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the consolidated financial statements as at and for the year ended 31 December 2011.

3.7 Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2011.
