Independent auditors' report on review of condensed consolidated interim financial statements

The Board of Directors
Arab Insurance Group BSC
Manama
Kingdom of Bahrain

4 August 2009

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Arab Insurance Group (B.S.C.) (the "Company") and its subsidiaries (together the "Group") as at 30 June 2009, and the related condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the six-month period then ended (condensed consolidated interim financial statements). The Board of Directors of the Company is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Financial Reporting Standard IAS 34 - *Interim Financial Reporting*. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

KPMG Fakhro, a registered partnership under Bahrain law,
is a member of KPMG International, a Swiss cooperative.

ARAB INSURANCE GROUP (B.S.C.)

NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS FOR THE SIX MONTH PERIOD ENDED 30 JUNE 2009

1. INCORPORATION AND PRINCIPAL ACTIVITY

Arab Insurance Group (B.S.C.) (the "Company", "parent company") is an international insurance company registered as a Bahraini Shareholding Company having its registered office at Arig House, Manama, Kingdom of Bahrain. The parent company and its subsidiaries (the "Group") are involved in provision of general (non-life) and life reinsurance and related service activities.

2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated interim condensed financial statements have been prepared in compliance with International Accounting Standard IAS 34, Interim Financial Reporting. The accounting policies and methods of computation are consistent with the most recent consolidated financial statements of the Group at 31 December 2008 that were prepared in accordance with International Financial Reporting Standards (IFRS). Comparative figures have been regrouped, where necessary, to conform to the current period's presentation.

The Group's financial statements are presented in U.S. Dollars, which is its functional currency as its share capital and a significant proportion of its business, assets and liabilities are denominated in that currency.

The Group has adopted all new and revised IFRS and interpretations applicable for accounting periods beginning on or after 1 January 2009, including Revised IAS 1, Presentation of Financial Statements and IFRS 8 Operating Segments.

IAS 1 requires total comprehensive income, which represents changes in equity during a period other than those changes resulting from transactions with owners in their capacity as owners, be presented in either a single statement of comprehensive income or in an income statement and a separate statement of comprehensive income. The Group has opted to present the total comprehensive income in two separate statements – an income statement and a separate statement of comprehensive income. The adoption of revised IAS 1 had no impact on the reported profits or the financial position of the Group.

IFRS 8 introduces the "management approach" to segment reporting which requires a change in the presentation and disclosure of segment information based on the internal reports that are regularly reviewed by the Company's "chief operating decision maker" in order to assess each segment's performance and to allocate resources to them. The Group's current basis of segmentation is substantially in line with the requirements of the revised standard.

There were no other changes to the accounting policies and risk management framework as set out in the consolidated financial statements for the year ended 31 December 2008. The Group's financial risk management objectives and policies are consistent with those disclosed in the audited consolidated financial statements for the year ended 31 December 2008.

The consolidated interim condensed financial statements include the accounts of the parent company and all of its subsidiaries.

2. SIGNIFICANT ACCOUNTING POLICIES (*CONTD.*)

The Company's subsidiary, Takaful Re Limited, is an Operator of Islamic Reinsurance (Takaful) business. In accordance with applicable Shari'a principles, Participants' (policyholders') funds are maintained distinct from the Operator's (shareholders') funds. Accordingly, the participants' assets and liabilities including the fund balance are shown separately as 'takaful participants' assets' and 'takaful fund and participants' liabilities' respectively in the consolidated balance sheet. Takaful Participants' Fund Accounts comprising of Balance Sheet and Statement of Participants' Revenue is set out in note 8.

3. SEASONALITY OF INTERIM OPERATIONS

As a result of the seasonality associated with the insurance business, the Group registers approximately 50% of its gross premiums during the first quarter of every year. Gross premiums written over the remainder of the financial year are almost evenly spread out. This seasonality does not however, have any material impact on the Group's underwriting result as the premiums are taken to income over the terms of the related contracts or policies.

4. INVESTMENTS

20. COMMITMENTS OUTSTANDING

The Group has commitments for uncalled capital in investee companies held as part of its investment portfolios amounting to US$ 6.2 million (31 December 2008: US$ 8.7 million; 30 June 2008: US$ 9.6 million). The Group also has commitments of US$ 15.8 million (31 December 2008: US$ 15.8 million; 30 June 2008: US$ 22.2 million) towards purchase of property.

ARAB INSURANCE GROUP (B.S.C.)

APPENDIX I

A. SIGNIFICANT ACCOUNTING POLICIES ON INVESTMENTS AS PER CONSOLIDATED FINANCIAL STATEMENTS AS AT 31 DECEMBER 2008

INVESTMENTS

Investment securities are classified as 'at fair value through profit or loss' which includes financial assets held for trading and those designated at fair value on initial recognition, 'available for sale', 'held to maturity' or 'loans and receivables'. Management determines the appropriate classification of investments at the time of purchase.

Securities are classified as at fair value through profit or loss if they are acquired for the purpose of generating a profit from short-term fluctuations in price or if so designated by management. Investments with fixed or determinable payments and fixed maturity that the management has the intent and ability to hold to maturity are classified as held to maturity. Non-derivative financial instruments with fixed or determinable payments and that are not quoted in an active market are categorised as loans and receivables. Securities intended to be held for an indefinite period of time and those that are not classified as at fair value through profit or loss, held to maturity or loans and receivables, which may be sold in response to needs for liquidity or changes in interest rates, are classified as available for sale.

All purchases and sales of investments are recognised at the settlement date. All investment assets are recognised initially at cost. After initial recognition, investments are valued using principles described below.

Investments at fair value through profit or loss and investments available for sale are carried at fair value. Held to maturity investments and loans and receivables are carried at amortised cost, less any adjustment necessary for impairment.

The fair value of publicly traded investments is based on quoted market values at the balance sheet date. Fair values of other investments are estimated at realisable values. Where it is not possible to estimate the fair value, the asset is carried at cost. Property values are based on recent valuations carried out by qualified professional valuers in accordance with recognised valuation principles.

PROVISION FOR IMPAIRMENT OF FINANCIAL ASSETS

A provision is made in respect of a financial asset that is impaired if its carrying amount is greater than its estimated recoverable amount.

Provisions for assets carried at amortised cost are calculated as the difference between the carrying amount of the assets and the present value of expected future cash flows discounted at their original effective interest rate. By comparison, the recoverable amount of an instrument carried at cost is the present value of expected future cash flows discounted at the current market rate of interest for a similar financial asset.

In the case of available for sale financial assets, the Group assesses at each balance sheet date whether there is an objective evidence of impairment of such assets. If any such evidence exists, the impairment is recognised in income. Impairment recognised is not reversed subsequently except in case of debt instruments.

INVESTMENT INCOME

Investment income comprises interest and dividend receivable for the financial year. Gains and losses arising from changes in the fair value of investments at fair value through profit or loss are included in the income statement in the period in which they arise. Gains and losses arising from changes in the fair value of available for sale investments are recognised in equity. When available for sale investments are disposed of or are impaired, the related fair value adjustments are included in the income statement. Gains and losses arising from changes in the fair value of investment properties are included in the income statement for the period in which they arise.

Investment income arising from insurance business investment assets are allocated to the underwriting results of insurance businesses based on the proportion of their respective insurance funds to shareholders' funds during the financial year.

FOREIGN CURRENCY TRANSLATION

Transactions denominated in currencies other than U.S. Dollars are recorded at the rates ruling at the date of the transaction. Assets and liabilities denominated in currencies other than U.S. Dollars are translated at year-end exchange rates.

Unrealised gains or losses on translation of investments denominated in foreign currencies are taken to income except in respect of non-monetary available for sale investments, which are taken to equity until they are disposed.

Unrealised gains and losses on translation of financial statements of subsidiaries, net of translation adjustments relating to hedging liabilities, if any, are included in the Shareholders' equity. Other foreign currency gains and losses are taken to income.

DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING

In the ordinary course of its business, the Group uses forward foreign exchange contracts as fair value hedges to protect its exposures in respect of foreign currency denominated investments and insurance liabilities and these contracts are carried at fair value.

Where a fair value hedge meets the conditions prescribed by International Financial Reporting Standards for qualifying as an effective hedge, gains or losses from remeasuring forward foreign exchange contracts and gains or losses on hedged assets attributable to the hedged risk are recognised in income.

Where the hedge is not effective, gains or losses from remeasuring forward foreign exchange contracts are recognised in income. Gains or losses on hedged assets are recognised in income except in respect of non-monetary available for sale investments, which are taken to equity until they are disposed.

The gain or losses from remeasuring insurance liabilities and related foreign exchange contracts are recognised in income.

Covered call and put options are written and bought by the Group as part of its investment portfolio. The premium received and paid is initially recorded as liability and asset respectively and the changes in fair value of these options are taken to the statement of income and the corresponding asset or liability adjusted.
