Independent auditors' report on review of interim financial information

The Board of Directors
Arab Insurance Group (B.S.C.)
Manama
Kingdom of Bahrain

Date: 11 August 2011

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Arab Insurance Group (B.S.C.) (the "Company") and its subsidiaries (together the "Group") as at 30 June 2011, and the related condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the six-month period then ended (the "interim financial information"). The Board of Directors of the Company is responsible for the preparation and presentation of this interim financial information in accordance with International Financial Reporting Standard IAS 34 - *Interim Financial Reporting*. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34 - *Interim Financial Reporting*.

ARAB INSURANCE GROUP (B.S.C.)

NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 JUNE 2011

1. INCORPORATION AND PRINCIPAL ACTIVITY

Arab Insurance Group (B.S.C.) (the "Company", "parent company") is an international insurance company registered as a Bahraini Shareholding Company having its registered office at Arig House, Manama, Kingdom of Bahrain. The parent company and its subsidiaries (the "Group") are involved in provision of general (non-life) and life reinsurance and related service activities.

2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated interim financial statements of the Group has been prepared in accordance with International Accounting Standard 34 (Interim Financial Reporting) which allows the interim financial information to be prepared in condensed form. The interim financial information does not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2010.

The accounting policies and methods of computation are consistent with the most recent consolidated financial statements of the Group at 31 December 2010 that were prepared in accordance with International Financial Reporting Standards (IFRS). Comparative figures have been reclassified, where necessary, to conform to the current period's presentation.

The Group's financial statements are presented in U.S. Dollars, which is its functional currency as its share capital and a significant proportion of its business, assets and liabilities are denominated in that currency.

The Company's subsidiary, Takaful Re Limited, is an Operator of Islamic Reinsurance (Takaful) business. In accordance with applicable Shari'a principles, Participants' (policyholders') funds are maintained distinct from the Operator's (shareholders') funds. Accordingly, the participants' assets and liabilities including the fund balance are shown separately as 'takaful participants' assets' and 'takaful fund and participants' liabilities' respectively in the Consolidated Statement of Financial Position. Takaful Participants' Fund Accounts comprising of Statement of Financial Position and Statement of Participants' Revenue is set out in note 8.

3. SEASONALITY OF INTERIM OPERATIONS

As a result of the seasonality associated with the insurance business, the Group registers approximately 55% of its gross premiums during the first quarter of every year. Gross premiums written over the remainder of the financial year are almost evenly spread out. This seasonality does not however, have any material impact on the Group's underwriting result as the premiums are taken to income over the terms of the related contracts or policies.

4. INVESTMENTS

11. SEGMENT INFORMATION - Analysis of revenue by primary business segment

The Group's non-life reinsurance business consists of two main business segments, treaty and facultative. Treaty business primarily consists of Property, Engineering, Medical, Marine & other classes. Life business mainly involves short term group life policies and long term life policies. Life portfolio does not contain investment linked policies.

APPENDIX I

ARAB INSURANCE GROUP (B.S.C.)

A. SIGNIFICANT ACCOUNTING POLICIES ON INVESTMENTS AS PER CONSOLIDATED FINANCIAL STATEMENTS AS AT 31 DECEMBER 2010

INVESTMENTS

Investment securities are classified as 'at fair value through profit or loss', which includes financial assets held for trading and those designated at fair value on initial recognition, 'available for sale', 'held to maturity' or 'loans and receivables'. Management determines the appropriate classification of investments at the time of purchase.

Securities are classified as at fair value through profit or loss if they are acquired for the purpose of generating a profit from short-term fluctuations in price or if so designated by management. Derivative financial instruments that are not designated as accounting hedge are classified as at fair value through profit or loss. Investments with fixed or determinable payments and fixed maturity that the management has the intent and ability to hold to maturity are classified as held to maturity. Financial instruments with fixed or determinable payments and that are not quoted in an active market are categorised as loans and receivables. Securities intended to be held for an indefinite period of time and those that are not classified as at fair value through profit or loss, held to maturity or loans and receivables, which may be sold in response to needs for liquidity or changes in interest rates, are classified as available for sale.

All purchases and sales of investments are recognised at the settlement date. All investment assets are recognised initially at cost. After initial recognition, investments are valued using principles described below.

Investments at fair value through profit or loss and investments available for sale are carried at fair value. Held to maturity investments and loans and receivables are carried at amortised cost, less any adjustment necessary for impairment.

The fair value of publicly traded investments is based on quoted market values at the statement of financial position date. Fair value of managed funds is based on net asset value quoted by the fund manager and fair values of other investments are estimated at realisable values. Where it is not possible to estimate the fair value, the asset is carried at cost less impairment, if any.

PROVISION FOR IMPAIRMENT OF FINANCIAL ASSETS

A provision is made in respect of a financial asset that is impaired if its carrying amount is greater than its estimated recoverable amount.

Provisions for assets carried at amortised cost are calculated as the difference between the carrying amount of the assets and the present value of expected future cash flows discounted at their original effective interest rate. By comparison, the recoverable amount of an instrument carried at cost is the present value of expected future cash flows discounted at the current market rate of interest for a similar financial asset.

In the case of available for sale financial assets, the Group assesses at each statement of financial position date whether there is an objective evidence of impairment of such assets. If any such evidence exists, the impairment is recognised in income. Evidence of impairment considers among other factors significant or prolonged decline in market values and financial difficulties of the issues. Impairment recognised is not reversed subsequently except in case of debt instruments.

INVESTMENT IN ASSOCIATED COMPANIES

Investments in associated companies are accounted for using the equity method. Associated companies are defined as those companies over which the Group is able to exercise significant influence, being the power to participate in the financial and operating policy decisions of the company, but not the power to control such policy decisions. Generally, these are companies in which the Group owns 20% to 50% of the voting shares.

INVESTMENT INCOME

Investment income comprises interest and dividend receivable for the financial year. Gains and losses arising from changes in the fair value of investments at fair value through profit or loss are included in the income statement in the period in which they arise. Gains and losses arising from changes in the fair value of available for sale investments are recognised in other comprehensive income and carried in investment revaluation income as part of equity. When available for sale investments are disposed or are impaired, the related fair value adjustments are included in the income statement.

Investment income arising from insurance business investment assets are allocated to the underwriting results of insurance businesses based on the proportion of their respective insurance funds to shareholders' funds during the financial year.

FOREIGN CURRENCY TRANSLATION

Transactions denominated in currencies other than U.S. Dollars are recorded at the rates ruling at the date of the transaction. All monetary and non-monetary assets carried at fair value denominated in currencies other than U.S. Dollars are translated at year-end exchange rates.

Unrealised gains or losses on translation are taken to income except in respect of non-monetary available for sale investments, which are taken to equity until they are disposed.

Unrealised gains and losses on translation of financial statements of subsidiaries are included in equity. Other foreign currency gains and losses are taken to income.

DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING

In the ordinary course of its business, the Group uses forward foreign exchange contracts as fair value hedges to protect its exposures in respect of foreign currency denominated investments and insurance liabilities and these contracts are carried at fair value.

Where a fair value hedge meets the conditions prescribed by International Financial Reporting Standards for qualifying as an effective hedge, gains or losses from remeasuring forward foreign exchange contracts and gains or losses on hedged assets attributable to the hedged risk are recognised in income.

Where the hedge is not effective, gains or losses from remeasuring forward foreign exchange contracts are recognised in income. Gains or losses on hedged assets are recognised in income except in respect of non-monetary available for sale investments, which are taken to equity until they are disposed.

The gain or losses from remeasuring insurance liabilities and related foreign exchange contracts are recognised in income.
