REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF ARAB ORIENT INSURANCE COMPANY (PSC)

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Arab Orient Insurance Company (PSC) as at 30 June 2010, comprising of the interim consolidated statement of financial position as at 30 June 2010, the related interim consolidated statements of income and comprehensive income for the three-month and six-month periods then ended, and the statement of changes in equity and cash flow for the six month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standard IAS 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

2 ACCOUNTING POLICIES

Basis of preparation
The interim condensed consolidated financial information of the Group is prepared in accordance with International Financial Reporting Standard IAS 34, Interim Financial Reporting ("IAS 34"). The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the annual financial statements for the year ended 31 December 2009, except as noted below.

During the period, the Group has adopted the following standards effective for the annual periods beginning on or after 1 January 2010.

IFRS 1 and IAS 27, Cost of an investment in a subsidiary, jointly-controlled entity or associate
The amended standard allows first-time adopters to use a deemed cost of either fair value or the carrying amount under previous accounting practice to measure the initial cost of investments in subsidiaries, jointly controlled entities and associates in the separate financial statements. The amendment also removes the definition of the cost method from IAS 27 and requires an entity to present dividends from investments in subsidiaries, jointly controlled entities and associates as income in the separate financial statements of the investor.

IFRS 3, 'Business combinations'
The revised standard continues to apply the acquisition method to business combinations, with some significant changes. For example, all payments to purchase a business are to be recorded at fair value at the acquisition date, with contingent payments classified as debt subsequently re-measured through the statement of income. There is a choice, on an acquisition-by-acquisition basis, to measure the non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. All acquisition-related costs should be expensed. The Group will apply IFRS 3 (revised) prospectively to all business combinations from 1 January 2010.

IAS 27, 'Consolidated and separate financial statements'
The revised standard requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost; any remaining interest in the entity is re-measured to fair value, and a gain or loss is recognised in profit or loss. The Group will apply IAS 27 (revised) prospectively to transactions with non-controlling interests from 1 January 2010. In the future, this guidance will also tend to produce higher volatility in equity and/or earnings in connection with the acquisition of interests by the Group.

2 ACCOUNTING POLICIES (continued)

Basis of preparation (continued)

IAS 39, 'Financial instruments: Recognition and measurement – Eligible hedged items'
The amendment 'Eligible hedged items' was issued in July 2008. It provides guidance for two situations. On the designation of a one-sided risk in a hedged item, IAS 39 concludes that a purchased option designated in its entirety as the hedging instrument of a one-sided risk will not be perfectly effective. The designation of inflation as a hedged risk or portion is not permitted unless in particular situations.

The adoption of these standards did not have any impact on the interim condensed consolidated financial statements of the Group or its financial performance for the current period.

Improvements to IFRS
'Improvements to IFRS' comprise amendments that result in accounting changes for presentation, recognition or measurement purposes, as well as terminology or editorial amendments related to a variety of individual IFRS standards. Most of the amendments are effective for annual periods beginning on or after 1 January 2009 and 1 January 2010 respectively, with earlier application permitted. No material changes to accounting policies are expected as a result of these amendments.

Interim reporting
The interim condensed consolidated financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards, and should be read in conjunction with the Group's annual financial statements as at 31 December 2009. In addition, results for the six months ended 30 June 2010 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2010.

3 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share is computed by dividing the profit attributable to the shareholders by the weighted average number of shares outstanding during the period of 3,000,000 shares.

No figure for diluted earnings has been presented because the Group has not issued any instrument which would have an impact on earnings per share when exercised.

4 INVESTMENT PROPERTY

At cost (within UAE)	**127,802**	127,802	127,802

Investment properties are initially measured at cost, including transaction costs. Subsequent expenditure is added to the carrying value of investment property when it is probable that future economic benefits in excess of the originally assessed standard of performance will flow to the Group. Any expenditure that results in the maintenance of property to an acceptable standard or specification is treated as repairs and maintenance expenses and is charged to the statement of comprehensive income in the period in which it is incurred.

No depreciation is charged on freehold land.

The Group's investments in associates are accounted for under the equity method of accounting. These are entities over which the Group exercises significant influence and which are neither subsidiaries nor joint ventures. Investments in associates are carried in the statement of financial position at cost, plus post-acquisition changes in the Group's share of net assets of the associate, less any impairment in value. The consolidated statement of income reflects the Group's share of the results of its associates.

Unrealised profits and losses resulting from transactions between the company and its associate are eliminated to the extent of the Company's interest in the associate.

After initial recognition, all investments carried at fair value through profit or loss are remeasured at fair value. All related realised and unrealised gains or losses are recognised in the consolidated statement of income.

Available for sale investments
After initial recognition, securities which are classified as "available-for-sale" are remeasured at fair value. Unrealised gains or losses are reported as a separate component of equity until the security is derecognised or until the security is determined to be impaired. On derecognition or impairment the cumulative gain or loss previously reported in equity is included in the statement of comprehensive income for the period.

In the case of unquoted investments in shares where fair value cannot reliably be measured, such investments are carried at cost less provision for impairment.
